

“Measuring What Matters”

Kent County Correctional Facility 2010 Annual Statistical Report

**Published on
January 28, 2011**

KENT COUNTY SHERIFF DEPARTMENT
Lawrence A. Stelma – Sheriff

701 Ball Avenue, N.E. • Grand Rapids • Michigan • 49503

January 28, 2011

We began reporting jail data on a yearly basis in 1998, and each new report builds on the foundation of previous reports. The title of each of those reports has been, Measuring What Matters. I usually begin this traditional cover letter by quoting a few funny sayings about statistics that I have discovered over the years, but this year I ran across a more profound quote that touches exactly on the heart of measuring what truly matters. A few months before his death in 1968, Bobby Kennedy pointed out that we continue to gauge the progress of our lives and communities on what may be the wrong measures:

We seem to have surrendered community excellence and community values in the mere accumulation of material things. Our gross domestic product, if we should judge America by that – counts air pollution and cigarette advertising, and ambulances to clear our highways of carnage. It counts special locks for our doors and jails for the people who break them. It counts the destruction of our redwoods and the loss of our natural wonder in chaotic sprawl. It counts napalm and the cost of a nuclear warhead, and armored cars for police who fight riots in our streets. It counts Whitman's rifle and Speck's knife, and the television programs which glorify violence in order to sell toys to our children.

Yet the gross domestic product does not allow for the health of our children, the quality of their education, or the joy of their play. It does not include the beauty of our poetry or the strength of our marriages; the intelligence of our public debate or the integrity of our public officials. It measures neither wit nor courage; neither our wisdom nor our learning; neither our compassion nor our devotion to our country; it measures everything, in short, except that which makes life worthwhile.

On that note, it is a pleasure to present this Annual Statistical Report for the year 2010. While as Kennedy pointed out, our lives are much more than the things we can count, the goal of this report is to provide accurate, interesting and representative information to Sheriff's Department staff, criminal justice planners, and community members who are interested in the operation of the county jail. I trust you will find this report to be a helpful source of data in the months ahead.

The report is organized to make the information accessible to the readers. You will notice that it has three general types of statistics. Inmate profile statistics depict an overall profile of the inmate population and correctional facility staff. Inmate population statistics address the topics of how many inmates are coming in, where are they coming from, why they are here, how long are they staying, and some of the programs and services provided to them. Incident statistics allow us to evaluate the behavior of the inmate population while they are in jail.

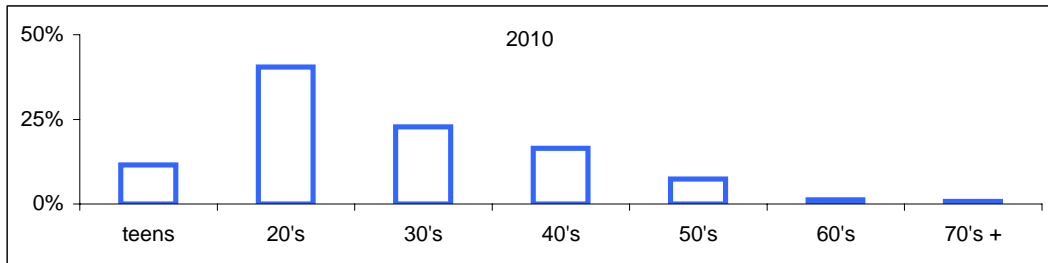

The aim is to make these reports as functional as possible by including only the information that seems to be of general interest. I realize that this document will not answer every question. If you have further questions, please contact me and I will try to provide any additional information you need about the inmate population or facility operation. I value your comments and suggestions for future reports.

Sincerely,

Captain Randy Demory

TalkingPoint!

For the purposes of analysis, there are actually two "populations" of people who come to the county jail. This page and the next two pages contain information about the "stock" population in jail, while the previous three pages contained information about the inmates being booked into jail. The stock population are the inmates who actually stay in jail after their arraignments and/or initial opportunity to post bail, so they tend to be the more serious criminals. There are many interesting comparisons between the stock population and the total group of offenders coming to jail, as you can see if you compare this page with page "Inmate Profile at Booking." For example, the stock population inmates are much more likely to be repeat offenders, with 88% of them having been in jail before compared with 78% of the other population. Not surprisingly, they have more charges against them than the other population. Interestingly enough, slightly more of them report being single rather than married or divorced, and more of them admit to having no occupation. More of these inmates are arrested on first or second shifts, and fewer on third shift. More of them are male. The racial profile of the stock population is also somewhat different than that of the other population.

TrendSpotter! This chart depicts the proportion of inmates in the stock population who are in jail for their first time, and the proportion who are repeat offenders. The trend seems to be that the proportion of first time offenders is increasing and the proportion of repeat offenders is decreasing. (trend lines added) This trend is not apparent among offenders at the time of booking.

Interesting Random Facts About KCCF Inmates

Offender characteristics	male	female	together
? Average age	32.00	30.94	31.75
? Average number of kids	2	2	2

Number with past Correctional experience	4	3.0%
Number who were employed in other KCCF positions when they applied	5	3.8%
Other	1	0.8%

 **Talking Point!** The information contained in the table above was correct as of January 1, 2011. It should be noted that our deputy turnover rate is low when compared with other jails our size around the country. Turnover rates in jails of 10% to 15% are not uncommon, and rates of 25% and higher are sometimes reported.

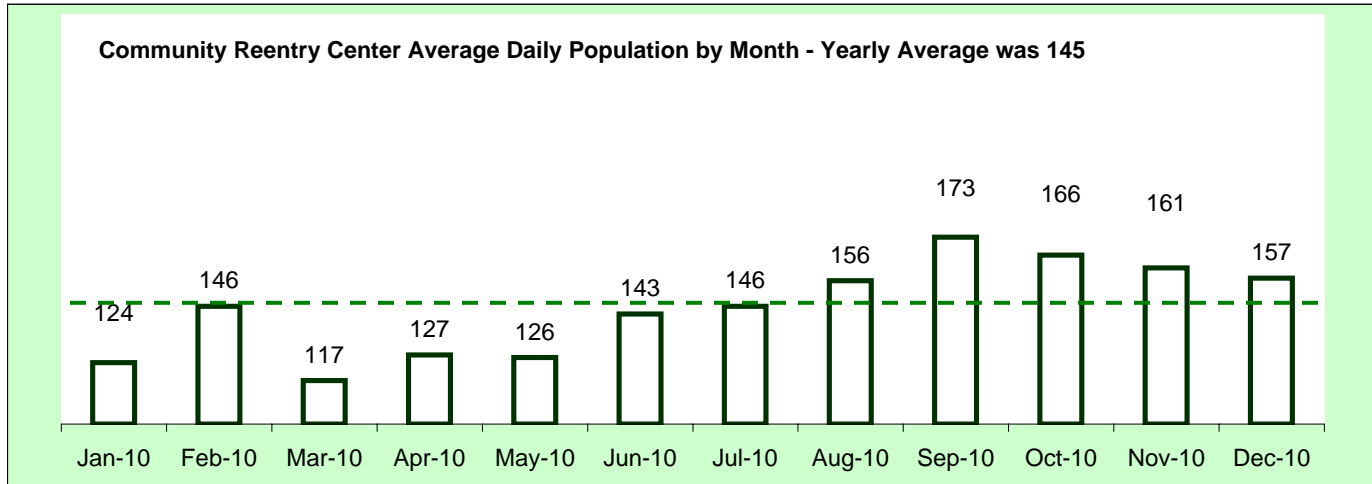

Booking and Population Statistics

Average Daily Population Total Bookings Decrease

	bookings per day	bookings per month	total bookings for 2010	average daily population for the MJ, HC & CRC

+ or -	10.8%	8.1%	7.0%	9.8%	6.9%	6.2%	9.1%	8.8%	11.1%	13.9%	8.5%	10.1%

TalkingPoint! The bottom chart shows the difference in the Main Jail between the **AVERAGE** population and the **PEAK** population. In 2010 we had more inmates than average **47%** of the time, and we have to be able to house them as well. The difference between the normal or "average" population and the peaking population is called the "peaking factor." The peaking factor for 2010 was 10.1%, which was up from last year.

Annual Average Daily Population for all Inmates in KCCF Custody

The figures on this graph represent the daily average of the total number of inmates in our custody, including the Main Jail, Community Reentry Center, and Honor Camp. It DOES NOT INCLUDE inmates lodged in other agencies. The figures prior to 1994 do not include the inmates boarded out in other counties prior to the new jail opening up. The 1997 figure is an estimate because some of the data is missing. Trend line added. One can observe a leveling off of the past growth rate.

Average Daily Population of the Honor Camp, Community Reentry Center, Main Jail and the Total for all Inmates in KCCF Custody for the Last 9 Years

Average Population vs. Peak Population at the Main Jail

TalkingPoint! There are two types of counts we need to be concerned about. We almost always think in terms of "average" and forget that at least 1/2 of the time the jail's count is more than average. The jail's capacity has to be able to handle the peak numbers of inmates. These two charts compare the average with the peak, and the bottom chart points out the wide swings in inmate counts in the last two years.

History of Jail Capacity in Kent County (1835 to 1984)

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1835	First Kent County Jail consisted of two cells in the corner of the Courthouse				
1845	First jail burns and for the next 10 years inmates are housed in rented quarters, primarily in a cellar of a building on Canal Street, with more important inmates being sent to jails in adjoining counties.				
1855	A new Sheriff's residence was built with a wooden structure called "Kent County Jail House" in the rear. It consisted of heavy planking with sheet iron sheathing on the inside.				
1872	Rising crime and frequency of escapes from the current jail cause the county to construct a new jail in the "Bastille" style. When it opened in March, it was called the "Prisoner's Paradise."	114			
1913	Chairman of the Finance Committee of the Board of Commissioners called the jail a "cheese box" that had "first prize for being the most hazardous building in Michigan today."				
1950	Peak Average Daily Population reaches 162 inmates.				
1954	After several failed attempts over 4 decades, voters finally approve a ballot measure for a new jail.				
1958	Original Ball Avenue Jail constructed with a capacity of 240 beds.	240			240
1968	Honor Camp opens with a capacity of 48, bringing us to a total capacity of 288.	240	48		288
1974	Jail expansion by 116 beds, bringing us to a capacity in the Main Jail of 356. Total capacity for all jail facilities was 404.	356	48		404
1977	Jail expansion by 95 beds, bringing us to a capacity in the Main Jail of 451. Total capacity for all jail facilities was 499.	451	48		499
1977	61st District Court creates Community Service Program for sentenced misdemeanor cases.				
1979	Lawsuit filed by six inmates in U.S. District Court.				
1980	Formation of "Alternatives to Incarceration" task force.				
1980	We begin the practice of boarding out inmates to other counties due to overcrowding. This continued for 15 years.				
1981	Creation of Court Services Department to administer Pre-trial Release and Community Service programs. Post arraignment Pre-trial Screening begins at the jail.				
1982	Work Release facility created at the Salvation Army building with a capacity of 48 beds.	451	48	48	547
1982	Court Services Community Service program begins placing felony and misdemeanor cases to work in the community from all district courts and Circuit Court.				
1982	Federal Court order by Judge Enslin in the matter of Johnson v. Heffron limiting occupancy at the Main Jail to 95 percent of capacity.				
1983	Jail expansion by 122 beds, bringing the Main Jail to 573. Total capacity for all jail facilities was 669.	573	48	48	669
1984	Expansion of Pre-trial Release and Community Service programs. Pre-trial program now includes full-time supervision services.				
1984	Expansion of Work Release facility by 24 beds for a capacity of 72. Total capacity for all jail facilities is 693.	573	48	72	693
1984	Jail Management System approved for automating records at the Kent County Jail.				

History of Jail Capacity in Kent County (1985 to 1998)

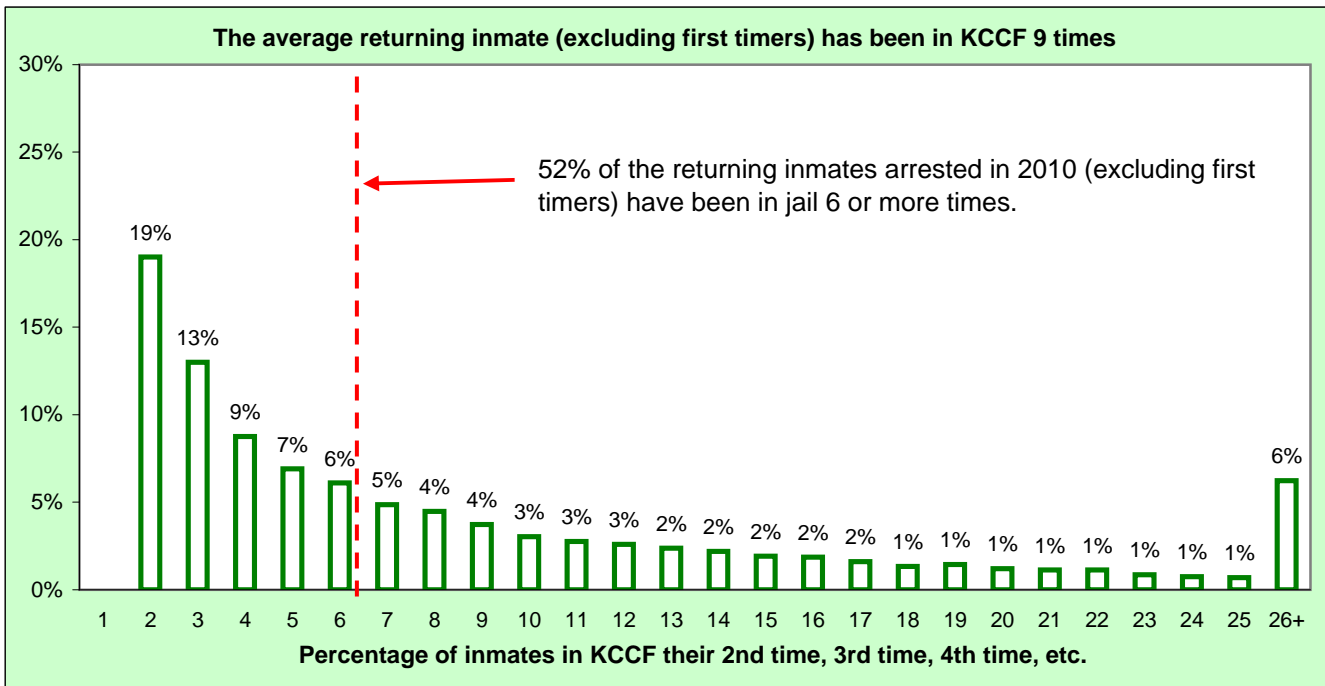

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1985	Agreement to house up to 25 females at Project Rehab Community Treatment Center.				
1985	Expansion of Work Release facility by 18 beds to a total capacity of 90. Total capacity for all jail facilities is 711.	573	48	90	711
1987	Jail Population Management Board formed to study causes of jail crowding.				
1987	Electronic Monitoring and Work Crew programs started with Federal Grant				
1988	Additional judge added for 17th Circuit Court				
1989	Formation of the Community Corrections Advisory Board pursuant to P.A. 511 of 1988.				
1989	Approval of Comprehensive Criminal Justice System Study by David M. Bennett.				
1989	Temporary minimum security jail building adding 64 beds to the Main Jail, bringing its capacity to 637. Total capacity for all jail facilities is 775.	637	48	90	775
1989	Expansion at the Work Release adds 14 beds for a total of 104 beds. Total capacity for all jail facilities is 789.	637	48	104	789
1990	This was the high year for the practice of boarding inmates in other counties. Daily average this year was 146.				
1990	Tax increase of 0.84 mills approved by voters on August 7th to construct a new jail addition.				
1990	Contract approved for jail architectural services.				
1990	Creation of Criminal Justice Coordinator position.				
1991	Pre-trial and Community Service program expanded to provide staff for additional numbers of supervised release cases and community service placements.				
1992	New jail addition opened in December but parts of the old jail are closed for renovation. We become the central intake facility for the Grand Rapids Police Department.				
1992	Pre-trial services expanded to include pre-arraignment screening and investigation and Fast Track processing 24 hours a day, 7 days a week coverage at the jail.				
1993	New jail addition and renovation of the old jail completed, adding 363 additional beds (after closing the temporary facility), bringing us to a capacity in the Main Jail of 1,000, and a total capacity of 1,152.	1,000	48	104	1,152
1993	Jail Bed Allocation Agreement begun, committee implemented, and weekly jail bed reports sent to all criminal court judges.				
1993	Temporary minimum security building relocated to Honor Camp. Capacity at Honor Camp remains at 48.				
1994	The practice of boarding inmates in other counties because of overcrowding finally ends this year after 15 years.				
1996	Order from the Federal Sixth Circuit Court granting relief from Judge Enslin's count reduction measures.				
1997	Pre-trial Electronic Monitoring program re-started after being discontinued in 1989.				
1997	Federal grant program enables Kent County communities to add large numbers of new police.				
1998	Research conducted into the issues surrounding adding double bunks to the Main Jail. 24 bunks added this year, beginning the capacity of the Main Jail to 1,024.	1,024	48	104	1,176

History of Jail Capacity in Kent County (1998 to present)

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1998	Jail Population Monitoring Clerk begins monitoring split-sentence cases to facilitate early release into community facilities.				
1999	29 additional double bunks added for a total of 53, with a capacity of 1,053 in the Main Jail, and a total capacity of 1,205.	1,053	48	104	1,205
1999	Relocation of the Work Release facility from the Salvation Army to the old Kent Oaks facility, increasing the capacity to 136. Total system capacity is now 1,237.	1,053	48	136	1,237
2000	9 additional double bunks added for a total of 62, bringing us to a capacity of 1,062 in the Main Jail, and a total capacity of 1,246.	1,062	48	136	1,246
2002	32 additional double bunks added for a total of 94, with a capacity of 1,094 in the Main Jail, and a total capacity of 1,278.	1,094	48	136	1,278
2003	Two additional judges added for 17th Circuit Court.				
2003	Six additional bunks added to the Honor Camp, increasing its capacity to 54.	1,094	54	136	1,284
2004	Ten additional bunks added to Work Release, increasing its capacity to 146.	1,094	54	146	1,294
2004	Corrections and Detention Millage Committee formed				
2005	Two more bunks to the Honor Camp, capacity up to 56	1,094	56	146	1,296
2005	Corrections and Detention Millage Committee submits final report to County Administration in December.				
2005	Expansion project begins at Work Release and extra programs added. Building renamed the Community Reentry Center.				
2006	Expansion at the Community Reentry Center completed.	1,094	56	248	1,398
2006	Four more bunks added to Honor Camp, capacity up to 60	1,094	60	248	1,402
2006	90 additional double bunks added bringing us to a capacity of 1,184 in the Main Jail, and a total capacity of 1,492.	1,184	60	248	1,492
2006	Renovation started on the new Mental Health Unit. 53 bunks taken out of service.	1,131	60	248	1,439
2007	Criminal Justice Planners Harrison / Landmark present a report to County Administration in December that evaluates the jail's facilities and recommends demolition and expansion.				
2007	Mental Health Unit opened with 39 additional bunks, leaving us with a Main Jail capacity of 1,170 and a total capacity of 1,478.	1,170	60	248	1,478
2007	Kent, Kalamazoo and Allegan Counties hire a consulting firm to determine the feasibility of creating a regional jail.				
2008	Voters approve an extension of Jail Millage.				
2009	County selects Tower Pinkster as the design firm for the expansion and demolition project, and Owens, Ames and Kimble were selected as the construction firm. A jail transition team is formed and design work begins in mid-summer.				
2010	Renovation started on Upper Rear and D1B. Additional double bunks are added to B2 and B3. The Main Jail has a new temporary capacity.	1,101	48	248	1,397
2010	Using Honor Camp for inmate housing suspended in November.	1,101	0	248	1,349
2010	One wing of the CRC was closed the last week of December, leaving two wings in operation.	1,101	0	186	1,287
2011	The newly renovated Upper Rear reopens in January as H2 with a new capacity of 192.	1,293	0	186	1,479
2011	The newly renovated D1B reopens in February with a new capacity of 46	1,331	0	186	1,517
2011	Lower One Man, Middle One Man, and Upper Annex are demolished in March.	1,221	0	186	1,407

Total Number of Times an Inmate has been in KCCF

Core Group of 3,000 Offenders Return to Jail 15 Times or More

These graphs were produced by looking at the **19,266 offenders arrested in 2010** and counting how many times they had been in the Kent County Correctional Facility since 1985. The point of producing these graphs side-by-side is to show the difference in the number of times in jail between the repeat offenders (the recidivists are in the top chart) and the whole population that includes the lightweights (bottom chart).

TalkingPoint! Of all the people brought to jail, 51% are there for their first, second or third visit. Among the offenders who came to jail in 2010, there was one inmate who had been in KCCF **112 times**. Remember, these numbers are just counting the times these offenders were in the Kent County Jail and doesn't include visits to jails in other counties.

Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking at the people in jail or being admitted to jail and looking backwards to see how many of them have been in jail before. Another approach to looking at recidivism is examined on this page. This is a forward looking approach that looks at a group of admissions at a point in the past and then follows them in subsequent years to see how many of them come back a second time, third time, etc. For the information here, we looked at the inmates who came to jail during the calendar year 2005, and then watched them to see what proportion of them came back later in the next 5 years. We provided the jail data from those years to Andy VerHeek at the Kent County Office of Community Corrections and he analyzed it for recidivism rates. The results of the study are depicted on this page.

 **TalkingPoint!** There were a total of 69,612 unique individuals booked into KCCF at least one time over the five year period from 2005 through 2010. Out of these 69,612 individuals, 32,020 were rebooked into KCCF at least once from January 1, 2005 through December 31, 2010. This represents an overall recidivism rate of 46.0%, meaning that 46% of them were in our jail 2 times or more. Of these groups, females were admitted an average of 2.1 times and males an average of 2.5 times.

The "Class of 2005 to 2010." (The 69,612 individuals booked & rearrested anytime in 2005 through 2010.)

	Total Individuals booked at least once anytime in 2005 through 2010	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	69,612	32,020	46.0%
Male	51,621	25,006	48.4%
Female	17,991	7,014	39.0%
Black	21,722	12,818	59.0%
Hispanic	8,920	3,656	41.0%
White	38,970	15,546	39.9%

 **TalkingPoint!** The table above includes people whose first arrest in the time period came in 2005 but also those whose first arrest was in 2006, 2007, 2008, 2009, or 2010, so some of them did not have very much elapsed time to be re-arrested. In the table below we looked at the recidivism rate for ONLY those individuals that were booked into KCCF from January 1, 2005 through December 31, 2005. **All of these offenders had at least 5 full years to get in trouble with the law again.** 20,522 individuals were booked into KCCF between January 1, 2005 and December 31, 2005. Out of these 20,522 offenders, 13,192 were rebooked into KCCF at least once during the entire 5 year time period between the dates of January 1, 2005 and December 31, 2010. This includes individuals first booked into KCCF in 2005 with their first subsequent booking occurring in the same year (2005). This would equal out to a recidivism rate of 64.2%.

The "Class of 2005." (The 20,522 individuals booked in 2005 and their rearrests later in 2005 through 2010.)

	Total Individuals booked at least once in 2006	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	20,522	13,192	64.2%
Male	15,960	10,560	66.2%
Female	4,592	2,632	57.3%
Black	7,452	5,776	77.5%
Hispanic	2,185	1,299	59.5%
White	10,915	6,117	56.0%
First Time Offenders in 2006	6,709	2,873	42.8%
Less than High School Education	7,188	5,011	69.7%
High School Education or More	12,723	7,764	61.0%

More Recidivism Information Including Likelihood of Recidivating

 **TalkingPoint!** Here is some additional information about the recidivism of the Kent County inmates.

- ➔ There was one person who was booked into KCCF a total of 55 separate times from 2005 through 2010.
- ➔ On average male offenders were booked 2.5 times and female offenders were booked 2.1 times.
- ➔ On average black offenders were booked 3.16 times, hispanic offenders were booked 2.03 times, and white offenders were booked 2.09 times.
- ➔ The average (median) length of time between an offender's first and second bookings was 199.3 days for male offenders and 215.7 days for female offenders
- ➔ The average (median) length of time between an offender's first and second bookings was 208.8 days for black offenders, 214.9 days for hispanic offenders, and 195.8 days for white offenders.
- ➔ On average male offenders were booked 3.8 times and female offenders were booked 3.1 times
- ➔ On average black offenders were booked 4.7 times, hispanic offenders were booked 3.0 times, and white offenders were booked 3.0 times.
- ➔ The average (median) length of time between an offender's first and second bookings was 225.5 days for male offenders and 205.7 days for female offenders.
- ➔ The average (median) length of time between an offender's first and second bookings was 197.4 days for black offenders, 235.2 days for hispanic offenders, and 216.5 days for white offenders.

 **TrendSpotter!** The numbers below show a very interesting decline in the number of offenders coming to jail for the first time.

- 2005** 20,522 offenders were booked into jail for the first time (some of these could have been earlier)
- 2006** 13,635 offenders were booked into jail for the first time (33.6% decline from 2005)
- 2007** 10,310 offenders were booked into jail for the first time (24.4% decline from 2006)
- 2008** 9,254 offenders were booked into jail for the first time (10.2% decline from 2007)
- 2009** 8,547 offenders were booked into jail for the first time (7.6% decline from 2008)
- 2010** 7,314 offenders were booked into jail for the first time (14.4% decline from 2009)

 **TalkingPoint!** In 2010 we began using an instrument to predict the likelihood of a Kent County inmate returning to jail. This "Proxy" instrument divides the inmates into three levels, with **R1's being the least likely to return to jail, R3's being the most likely to return to jail, and R2's being in the middle.** The breakdown of Proxy scores for the offenders measured in 2010:

R1: 25.9%
R2: 38.9%
R3: 35.3%

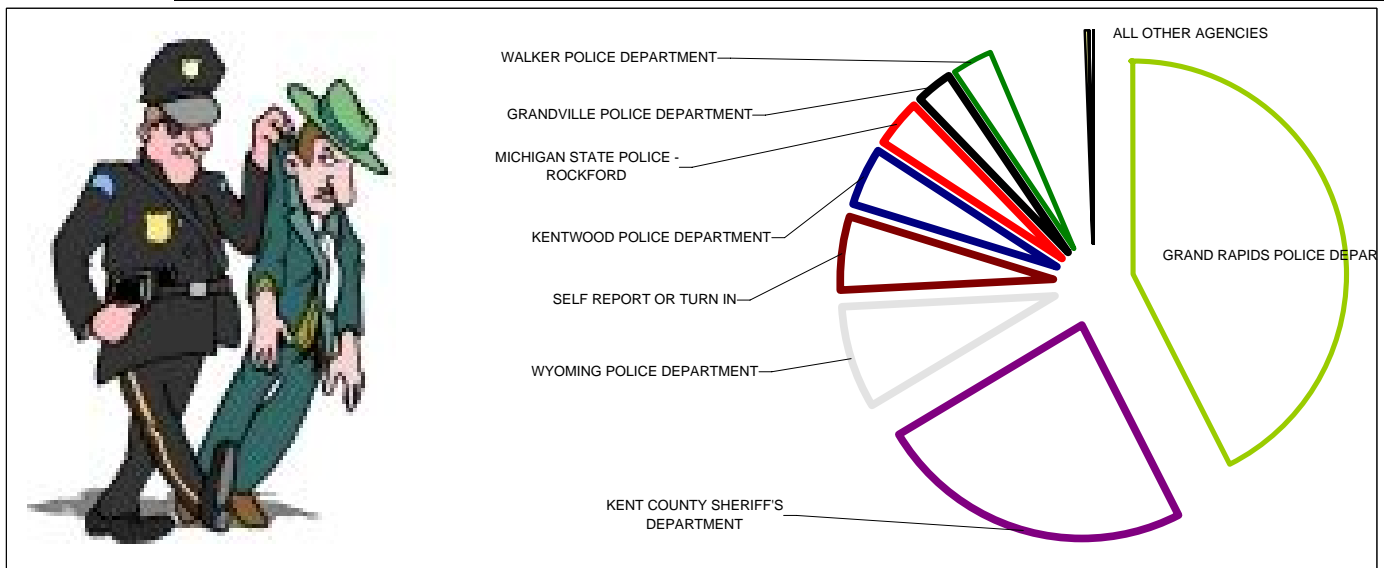

Number/Percentage of offenders within each Proxy score category based upon Gender:

Male: R1: 21.7%	Female: R1: 39.7%
R2: 38.7%	R2: 39.4%
R3: 39.6%	R3: 20.8%

Number of Inmates Brought to Jail in the Last 10 Years by the Top Five Arresting Agencies

Most Agencies Reduce Arrests

TrendSpotter! All five of these arresting agencies continued a trend of reduced numbers of offenders they arrested and brought to jail during the year. The peak for Grand Rapids, Kent County and Wyoming was in 2003. MSP peaked in 2005 and Kentwood in 2006.

Classified by: SD2273 Classification Date: 10/27/2004 16:10

Midway through 2004 the jail began using a new Jail Management System called JailView. JailView uses the Northpointe® decision tree classification instrument which breaks inmates down into the traditional three categories of Maximum, Medium and Minimum, but it also provides nine levels of sub-categories that are useful for making program and placement decisions. Below is a brief definition of each of the custody levels and the average number and proportion of inmates within each classification.

Custody Level	Definition	Main Jail Males	Main Jail Females	Jail System (M & F)
High (1)	These inmates are in jail on a violent charge, with a prior conviction on a violent charge, and with a record of violent institutional behavior.	3 (1%)	0 (0%)	7 (1%)
Close (2)	These inmates have a combination of two incidents of violence found in either their current charge, past charges or institutional behavior record.	56 (7%)	6 (6%)	75 (5%)
Medium Assaultive (3)	These inmates have one incident of violence in either their current charge, past charge or institutional behavior.	178 (24%)	11 (1%)	232 (17%)
Medium (4)	These inmates are in jail for a serious non-violent felony and/or have institutional behavior problems.	262 (35%)	45 (44%)	442 (32%)
Medium Pre-Sentenced (5)	These inmates are likely prison bound, but they are well behaved and have no record of violence or rule violations.	41 (5%)	4 (3%)	36 (3%)
Minimum Pre-Sentenced (6)	These inmates will likely not go to prison and are well behaved with no record of violence or rule violations.	113 (15%)	18 (18%)	154 (11%)
Minimum (7)	These inmates are fully sentenced to county jail time on a felony charge, have no recent history of violence and are well behaved, but they lack employment or ties to the community.	47 (6%)	7 (6%)	143 (8%)
Low (8)	These inmates are sentenced to the county jail on a felony charge, have no recent record of violence, are well behaved and have employment or local ties to the community.	41 (6%)	10 (10%)	262 (19%)
Very Low (9)	These inmates are sentenced to the county jail on misdemeanor charges, have no recent record of violence, are well behaved and have ties to the community.	8 (1%)	2 (2%)	45 (4%)

Average Amount of Time Inmates Stay in Jail, Shown with Inmates Grouped by Release Type

The graph above was based on a sample of 24,628 inmates released in 2010.

TalkingPoint! The pie charts below contain a comparison of the Average Length of Stay (ALOS) at the time of the Bennett jail expansion study and the ALOS in 2010, depicting the much shorter ALOS in 2010.

	1989	2010
< 1 day	28.17%	41.88%
1 day	13.55%	13.69%
2 to 4 days	12.90%	12.36%
5 to 15 days	14.84%	13.31%
16 to 30 days	6.24%	6.53%
> 30 days	24.30%	12.23%

Average Length of Stay Depicted as Jail Bed Days

TalkingPoint! This chart shows the concept of average length of stay depicted as Jail Bed Days. Jail Bed Days are an accurate way of displaying the actual impact on jail beds, because it is counting the days that a jail bed is occupied. The chart about shows that although we had 10,313 people who stayed less than one day in jail, they used fewer jail beds than the 3,277 inmates who stayed 5 to 15 days in jail. In fact, the 392 inmates who stayed 121 to 150 days used the most jail beds. The main interpretation of these data is that the greatest impact on jail capacity would be achieved by concentrating our efforts on reducing the stay of the inmates who are in jail from one to four months. It is that group of inmates who are using most of the jail's beds.

# of Days in Jail	# of Inmates
< 1	10313
1	3371
2 to 4	3045
5 to 15	3277

Reasons Why Inmates are Released and the Percentage of Inmates Released in the Most Common Types of Releases

The Majority of Incoming Inmates Released Back to the Community

TalkingPoint! 85% of the inmates who come into our jail are released directly back into the community. (This chart is based on a sample of 25,000 records in 2010.) Only about 15% get sent to prison or to another agency. Hard data is not available on that 15%, but probably most of those inmates return to our community at some point. It is important to remember that resources devoted to local jail inmates benefit our local communities.

Number of Days Inmates Spend in Jail Before Release

87% of All Inmates Are in Jail Less than 30 Days

Number of Hours Inmates Spend in Jail Before Being Released on Bond

75% of All Inmates Who Post Bond, do so Within the First 48 hours

County Jail Reimbursement Program

Fiscal Year 2010 Update by Andy VerHeek

CJRP continued to witness changes to the program in FY 2010 that impacted the funds received by Kent County. The table below shows that Kent County witnessed a reduction of funds from \$734,584.50 in FY 2009 to \$607,234.50 in FY 2010. During Fiscal Years 2008 and 2009 the State ran out of funds for this program which impacted the total funds received by Kent County for those fiscal years. In Fiscal Year 2010 Governor Granholm exercised a line item veto and deleted CJRP from the MDOC budget. Counties were only allowed to bill for allowable offenders from October 1 through October 15 of 2010. However, CJRP was resurrected in June 2010 with counties able to invoice for eligible offenders from January 1 through September 30. This reinstatement of the program came with new reimbursement rates based upon new eligibility criteria. Reasons for the reduced amount of funding for FY 2010 include:

- Counties were not allowed to invoice for October 15 through December 31st, 2009.
- Eligibility criteria changed which prohibited the invoicing of previously eligible offenses
- Reimbursement rates changed which increased and lowered the amounts paid based upon the seriousness of the offender's offense
- Kent County witnessed an increase in the prison commitment rate of CJRP-eligible offenders during FY 2010 which decreased the number of offenders Kent County could request reimbursement for through CJRP.

FISCAL YEAR	CJRP PAYMENT	TOTAL RECEIVED
1994	\$513,520.00	\$513,520.00
1995	\$863,265.00	\$1,376,785.00

TalkingPoint! The information on this page is based on KCCF inmates' top charge (the most serious charge) and it depicts the difference in the charge severity between the offenders who come into and out of jail (the "booking" population) and those who stay in custody (the "stock" population). The stock population generally is made up of inmates with more serious charges than the booking population.

TalkingPoint! The information on this page is based on the top charge of over 40,000 offenders who were released from jail (the "booking" population) in 2009 and 2010. The Jail Bed Days represents the total number of days these offenders stayed in jail. For example, 1 offender sitting in jail for 1 day is equal to 1 Jail Bed Days. 200 offenders in jail for 5 days each is each to 1,000 Jail Bed Days. The purpose of the table and chart on this page is to depict what type of offender uses the most Jail Bed Days, and to show that it is not just the crime category with the most number of inmates. The table at left is sorted by the "average" jail bed days per offender of each charge type. This year, as in prior years, the category of offender that uses the most total jail bed days are the 6,381 offenders charged with crimes that fall into the "disorderly" classification.

Number of Serious Rule Violations Indexed to Population Most Accurate Way to Depict Change with Growing Inmate Population

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010
Jail Bed Days	346,750	350,035	338,720	346,750	352,955	366,460	388,360	391,645	387,337	384,134	381,633	372,591	391,755	332,631
total rule violations	981	907	692	614	636	612	755	739	796	798	834	853	819	710
per 1000 Jail Bed Days	2.83	2.59	2.04	1.77	1.80	1.67	1.94	1.89	2.06	2.08	2.19	2.29	2.09	2.13

Because the jail population continues to increase, converting Incident Based data to the number of rule violations committed per 1000 Jail Bed Days gives a more accurate picture of inmate behavior.

Total Number of Category 1, 2 and 3 Rule Violations in the Last Nine Years

These graphs show the number of Category 1, 2, and 3 reports per year for the last few years. We have three levels of disciplinary rule violations in the jail. The most minor rule violations are Category 1 violations. Category 2 violations are more serious and Category 3 violations are the most serious. Our disciplinary philosophy is that we would rather deal with an inmate's misbehavior while it is still minor, which is why there are more Category 1 violations than 2's, and more 2's than 3's. Inmates committing Category 2 and 3 violations go to the jail's Disciplinary Segregation Unit to complete their disciplinary sanctions. This chart includes only those rule violations that occurred in the Main Jail.

Index of Antisocial Inmate Behavior

Grouping of Rule Violations that Have to Do with Impolite or Socially Unacceptable Behavior

"Antisocial" acts	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010

throw liquid on staff	8	6	6	6	8	4	1	6	4	6	6	6	2
total	191	174	155	151	115	120	108	194	204	164	176	151	128

Each of the inmate rule violations is identified as targeting one of five types of unwanted behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **antisocial behavior**.

Index of Destructive Inmate Behavior

Grouping of Rule Violations that Have to Do with Damaging Property

"Destructive" acts	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **destructive behavior**. This chart shows a reduction in this type of unwanted inmate behavior over this time period.

Index of Noncompliant Inmate Behavior

Grouping of Rule Violations Relating to Not Following Orders

"Noncompliant" acts	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010

total	273	230	203	229	244	304	243	232	235	293	332	269	282

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **violent behavior**.

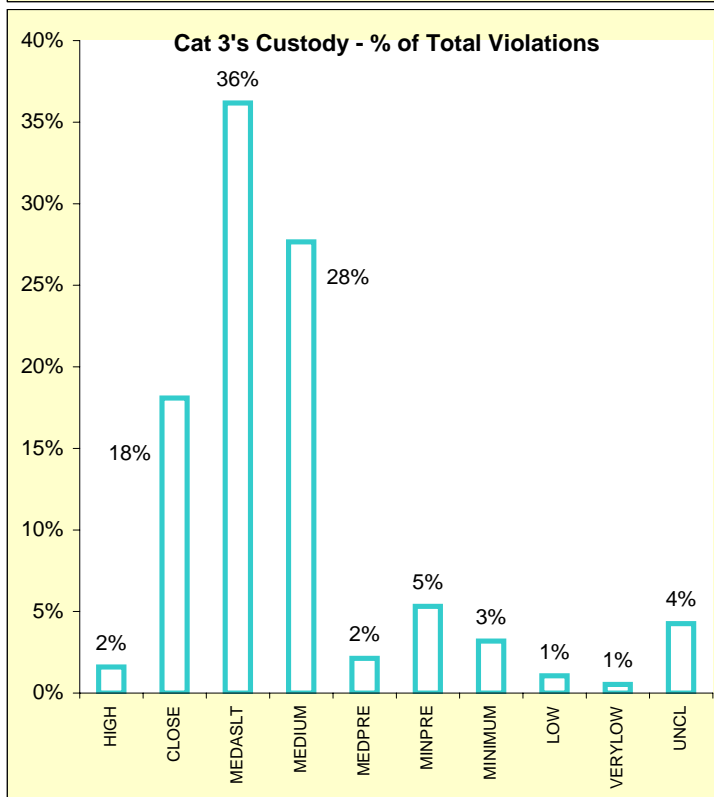

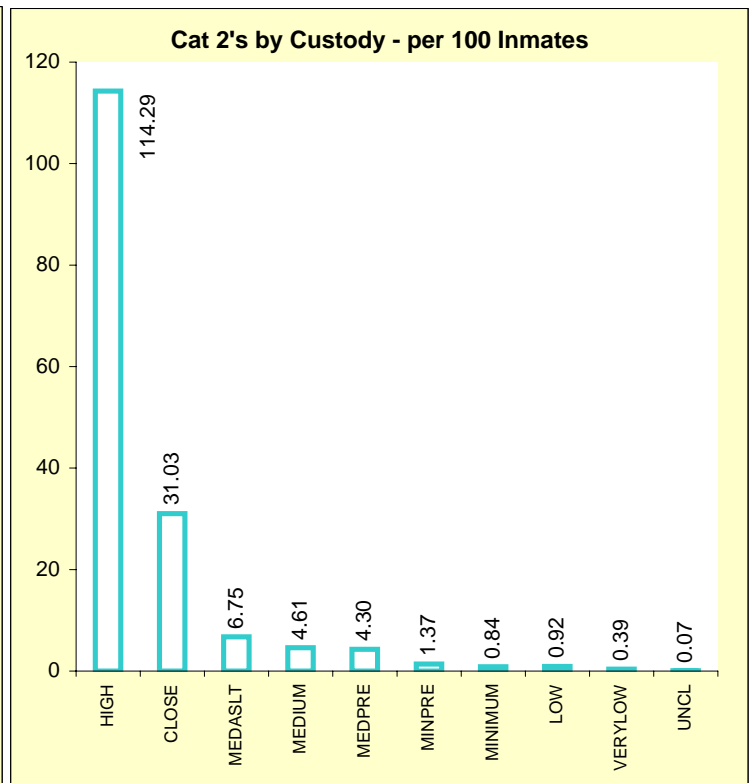

Comparison - Index of Inmate Behavior

Compilation of the Previous Five Charts

This chart shows all five of the inmate behavior index's and how they performed over the last nine years. This is a compilation of the data used in the previous five charts. Each category showed significant reduction over this period. Keep in mind that the overall number of inmates in the Sheriff's custody decreased during the last few years.

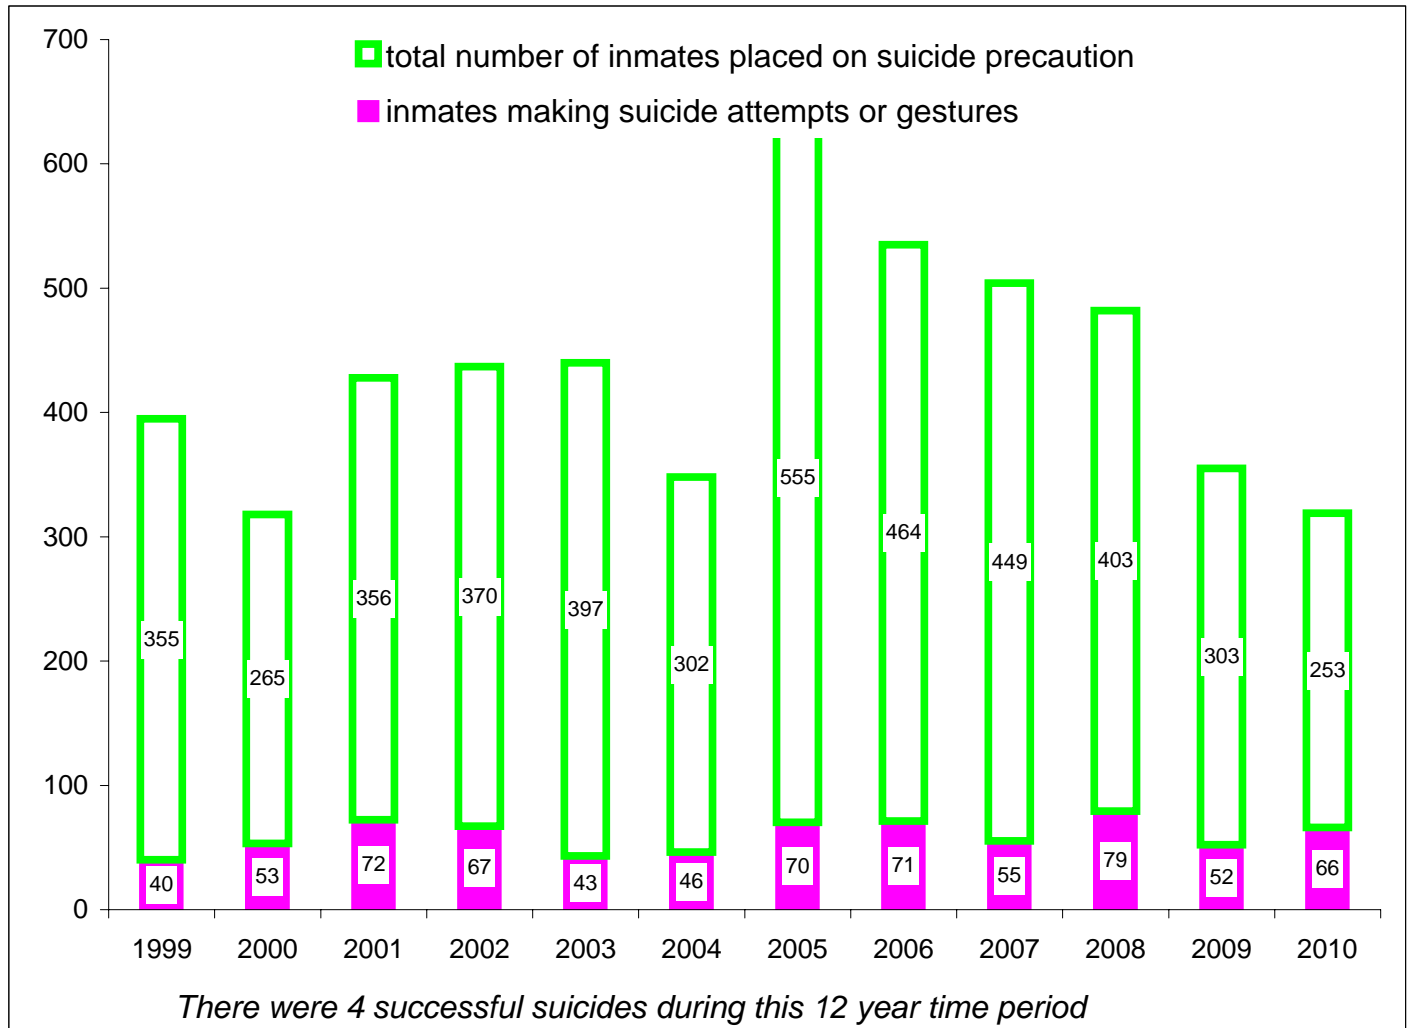

Category 2 and 3 Violations by Custody Level

TalkingPoint! Category 2 rule violations are less serious, while Category 3 are the most serious. The rate "per 100 inmates" is the best overall measure, since there are fewer higher custody inmates than lower custody. These figures were calculated using 2010 data. These stats are just from the Main Jail and include just the 10 most serious violations in each category. These charts demonstrate the validity of our classification system, as it shows the system is correctly identifying the inmates most likely to commit a rule violation.

Suicide Attempts or Gestures Compared with the Total Number of Suicide Precautions

KCCF 1999 through 2010

	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010
inmates making suicide attempts or gestures	40	53	72	67	43	46	70	71	55	79	52	66
total number of inmates placed on suicide precaution	355	265	356	370	397	302	555	464	449	403	303	253

Our highest level of suicide precaution places inmates in a cell under constant video surveillance. We track how inmates get placed on that level of observation. Either they have made a suicide attempt or gesture, or they have made a suicidal threat to a staff person, or they have been judged to be suicidal following an interview by one of our mental health professionals. The chart above depicts the total number of "S-3's" (the highest level of precaution) and of that number, the number that were declared S-3's because of an actual in-progress attempt to harm themselves, either by hanging, an overdose, cutting themselves, jumping from a height, drowning in a toilet, banging their head, or some other means. These data show that the jail deputies intervene in about one suicide attempt each week.

Inmate Behavior per Pod or Housing Unit

Minimum Custody Inmates Continue to be Best Behaved

Housing Unit	Number of Cat 2/3's	Index of Population
Middle 4 Man Medium Male Honor Pod	5	0.104
D3A Minimum Males	7	0.109
B2F BLP Program Pod - Med/Min Males	4	0.125
D3B Medium Males	8	0.125
B3G Female Classification Pod	5	0.156
D1B Male Classification Pod	17	0.266
Annex Minimum Male	21	0.328
Old Max Maximum Males	11	0.344
B2C and B2D Medium/Minimum Males	27	0.422
D2B Male Trusties	29	0.453
D2A Medium Males	32	0.500
B3D Female Minimum & Program	17	0.531
Lower 1 Man Med-Asslt/Close Males	16	0.593
B3B Medium Female Pod	38	0.594
D1A Male Disciplinary Segregation	21	0.700
U4S Male Sex Offenders	18	0.750
B2G Male Mental Health Unit	40	1.026
B3F Female Medium/Maximum Pod	17	1.063
Middle 6 Man Medium Males	92	1.095
Middle 1 Man Medium-Assaultive Males	34	1.259
Upper 6 Man Medium Males	115	1.369
Lower 4 Man Med-Asslt/Close Males	69	1.438
D1A Male Administrative Segregation	27	1.500
B3H Female Segregation	13	1.625
Upper 4 Man Medium Males	86	1.792
B2B Juvenile Pod	27	2.700

We have a number of separate housing units in the mail jail (their designations appear in the first column). We keep track of the number of inmates who must be moved out of each housing unit and placed in Disciplinary Segregation for a category 2 or 3 violation (the number for this year appears in the second column). We divide the number of rule violations by the number of inmates living in the housing unit to get an index for comparison purposes (this is the number in the third column). The lower the index, the better behaved the housing unit is. As you can tell from this table, the minimum (MINM) custody housing units are generally better behaved than the medium (MEDM) custody units, which are better behaved than the maximum (MAXM) custody units. The classification pods hold inmates who have not yet been assigned a custody level. The "Male Mental Health Unit" houses inmates with serious mental illness.

Number of Fights by Housing Unit

Most Fights Occur in Old Jail during Hot Summer Months

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	total

Is the inmate orientated to person, place and time?	98.1%	97.8%	94.7%	96.0%	97.9%	93.7%
Have you ever experienced auditory, visual, olfactory, or tactical hallucinations?	3.0%	2.9%	2.6%	2.5%	2.4%	2.4%
Has inmate ever had or experienced delusional thinking, examples?	0.4%	0.3%	0.3%	0.3%	0.2%	0.2%

TalkingPoint! Every offender brought to jail is evaluated by a mental health professional while still in Intake. The percentage of the mental health survey questions that were answered YES appear on this table. The data in this table is based on the approximately 28,000 offenders each year who came to jail during 2005, 2006, 2007, 2008, 2009 and 2010.

Inmate Needs Reported in Classification Interview

Offenders Come to Jail with a Number of Needs

Question:	% Yes	% No
1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing?	22.9%	77.1%
2. MENTAL STABILITY: Does this inmate have mental health problems, including suicidal ideation, that would affect their housing?	15.8%	84.2%
3. ALCOHOL ABUSE: Does the inmate admit to having an alcohol problem, or does the inmate appear to have an alcohol problem in your judgement?	18.7%	81.3%
4. DRUG ABUSE: Does the inmate admit to a drug problem, or does the inmate appear to have a problem with drugs in your judgement?	20.9%	79.1%
5. PAST TREATMENT: Does the inmate indicate past treatment for their drug or alcohol problem? If so, record where, when, and if they are interested in continuing treatment.	31.3%	68.7%
6. EDUCATIONAL HISTORY: Does the inmate have a GED or a high school diploma? If not, is the inmate interested in continuing their education in the main jail or honor camp?	63.7%	36.3%
7. VOCATIONAL SKILLS: Does the inmate have a marketable skill or trade that is used to support himself and his family? (Answer "Yes" if this is true, and "No" if is the inmate has no skills, limited training, or little or no employment history.)	5.2%	94.8%
8. LITERACY: Can this inmate read and write the English language?	96.7%	3.3%

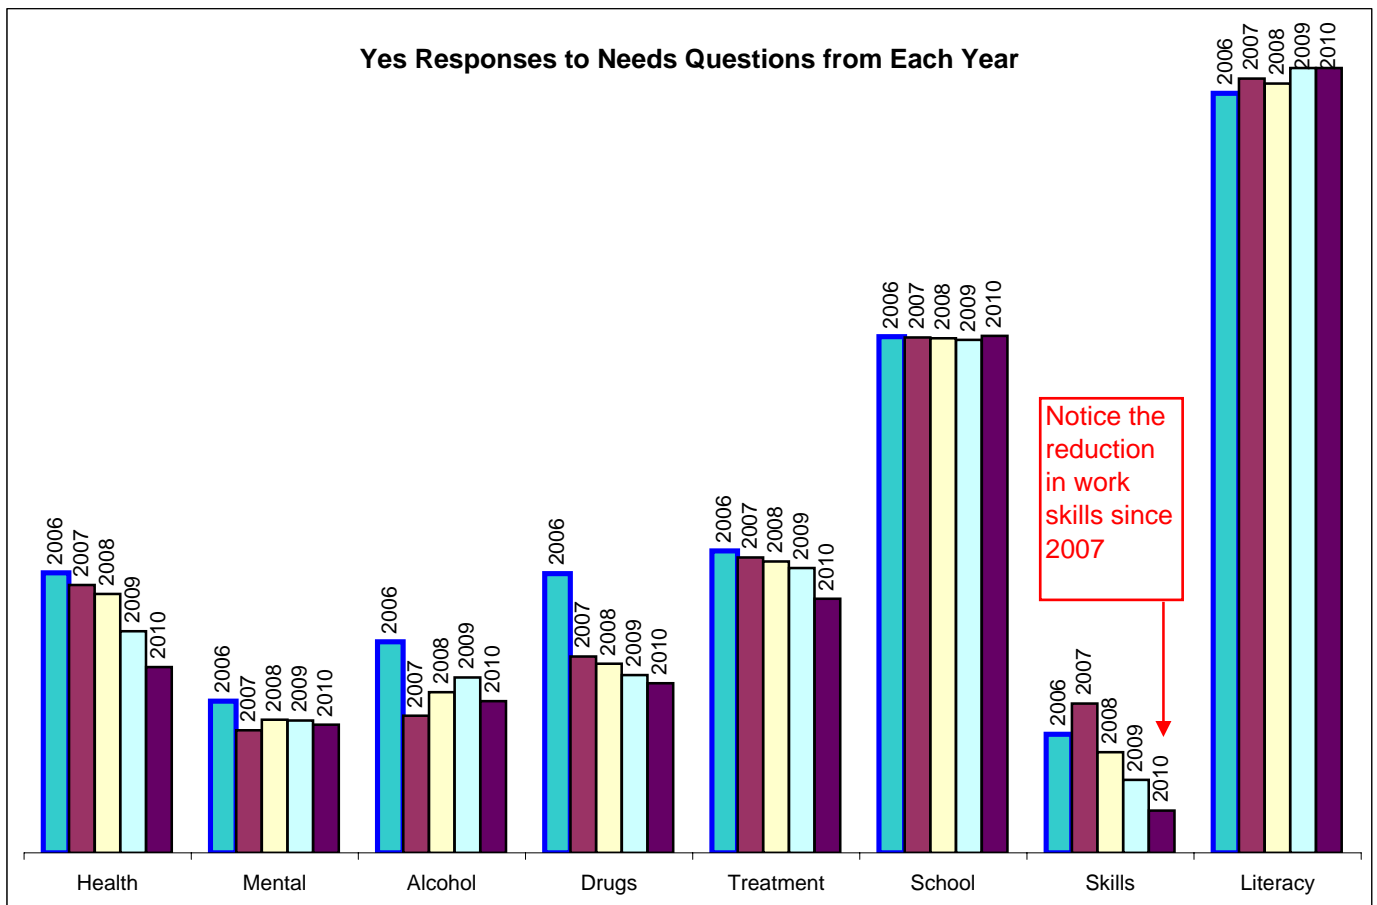

TalkingPoint! These numbers represent the percentage of inmates in population who admit these needs to a classification officer. This information is based on the self report of the inmates during their classification interviews this year. It is not based on a clinical assessment and the report is not verified independently. This reflects an inmate's "admission" only. Not all inmates honestly report their needs at the classification interview. All inmates who stay in jail longer than 3 days are given a classification interview.

Inmate Needs Reported in Prior Years

Offenders' Needs Remain Steady

Question:	2006	2007	2008	2009	2010
1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing?	34.5%	33.0%	31.9%	27.3%	22.9%
2. MENTAL STABILITY: Does this inmate have mental health problems, including suicidal ideation, that would affect their housing?	18.7%	15.1%	16.4%	16.3%	15.8%
