"Measuring What Matters"

Kent County Correctional Facility 2011 Annual Statistical Report

Published on January 26, 2012

KENT COUNTY SHERIFF DEPARTMENT Lawrence A. Stelma – Sheriff

701 Ball Avenue, N.E. • Grand Rapids • Michigan • 49503

January 26, 2011

We began reporting jail data on a yearly basis in 1998, and each new report builds on the foundation of previous reports. The title of each of those reports has been, Measuring What Matters. I usually begin this traditional cover letter by quoting a few funny sayings about statistics that I have discovered over the years. Last year I mixed it up a little bit with a Bobby Kennedy quote. This year I stumbled on some data from 1959, thanks to Lloyd Pitsch from the Sheriff's Office. I've placed those numbers in the table below side-by-side with the same information from 2011, and I think you will find it interesting

	1959	2011
Number of inmates processed and admitted to jail	4,358	26,400
Daily average number of inmates in jail	217	1,093
Largest number of inmates in the jail at one time	279	1,227
Least number of inmates in the jail at one time	191	1,003
Average number of female inmates	11	137
Number of meals served	249,830	1,215,823
Cost per meal	9.4¢	83.8¢
Value of food donated by farmers, stores, bakeries and others	\$8,000.00	\$0.00

With that historical perspective, it is a pleasure to present this Annual Statistical Report for the year 2011. While it is very interesting to compare the present state of affairs against the past, the goal of this report is to provide accurate, interesting and representative information to Sheriff's Office staff, criminal justice planners, and community members who are interested in the operation of the county jail. I trust you will find this report to be a helpful source of data in the months ahead.

The report is organized to make the information accessible to the readers. You will notice that it has three general types of statistics. Inmate profile statistics depict an overall profile of the inmate population and correctional facility staff. Inmate population statistics address the topics of how many inmates are coming in, where are they coming from, why they are here, how long are they staying, and some of the programs and services provided to them. Incident statistics allow us to evaluate the behavior of the inmate population while they are in jail.

The aim is to make these reports as functional as possible by including only the information that seems to be of general interest. I realize that this document will not answer every question. If you have further questions, please contact me and I will try to provide any additional information you need about the inmate population or facility operation. I value your comments and suggestions for future reports.

Sincerely,

Rang V

Captain Randy Demory

FalkingPoint! For the purposes of analysis, there are actually two "populations" of people who come to the county jail. This page and the next two pages contain information about the "stock" population in jail, while the previous three pages contained information about the inmates being booked into jail. The stock population are the inmates who actually stay in jail after their arraignments and/or initial opportunity to post bail, so they tend to be the more serious criminals. There are many interesting comparisons between the stock population and the total group of offenders coming to jail, as you can see if you compare this page with page "Inmate Profile at Booking." For example, the stock population inmates are much more likely to be repeat offenders, with 85% of them having been in jail before compared with 78% of the other population. Not surprisingly, they have more charges against them than the other population. Interestingly enough, slightly more of them report being single rather than married, and more of them admit to having no occupation. More of these inmates are arrested on first or second shifts, and fewer on third shift. More of them are male. The racial profile of the stock population is also somewhat different than that of the other population.

74%

Profile of the "Stock Population" Inmates (part 2)

Profile of the "Stock Population" Inmates (part 3)

TrendSpotter! This chart depicts the proportion of inmates in the stock population who are in jail for their first time, and the proportion who are repeat offenders. The trend seems to be that the proportion of first time offenders is increasing and the proportion of repeat offenders is decreasing. (trend lines added) This trend is not apparent among offenders at the time of booking.

Number with past Correctional experience	4	3.0%
Number who were employed in other KCCF positions when they applied	5	3.8%
Other	1	0.8%

F Talking Point! The information contained in the table above was correct as of January 1, 2012. It should be noted that our deputy turnover rate is low when compared with other jails our size around the country. Turnover rates in jails of 10% to 15% are not uncommon, and rates of 25% and higher are sometimes reported.

Booking and Population Statistics Average Daily Population and Total Bookings Increase Slightly

+ or -	8.1%	7.0%	9.8%	6.9%	6.2%	9.1%	8.8%	11.1%	13.9%	8.5%	10.1%	12.0%

FalkingPoint! The bottom chart shows the difference in the Main Jail between the **AVERAGE** population and the **PEAK** population. In 2011 we had more inmates than average 41% of the time, and we have to be able to house them as well. The difference between the normal or "average" population and the peaking population is called the "peaking factor." The peaking factor for 2011 was 12%, which was up from last year.

Annual Average Daily Population for all Inmates in KCCF Custody

The figures on this graph represent the daily average of the total number of inmates in our custody, including the Main Jail, Community Reentry Center, and Honor Camp. It DOES NOT INCLUDE inmates lodged in other agencies. The figures prior to 1994 do not include the inmates boarded out in other counties prior to the new jail opening up. The 1997 figure is an estimate because some of the data is missing. Trend line added. One can observe a leveling off of the past growth rate.

Average Daily Population of the Honor Camp, Community Reentry Center, Main Jail and the Total for all Inmates in KCCF Custody for the Last 9 Years

History of Jail Capacity in Kent County (1835 to 1984)

Year	Year Description of the Event or Solution		Capacit		
Tour		MJ	HC	WR	System
1835	First Kent County Jail consisted of two cells in the corner of the Courthouse				
1845	First jail burns and for the next 10 years inmates are housed in rented quarters, primarily in a cellar of a building on Canal Street, with more important inmates being sent to jails in adjourning counties.				
1855	A new Sheriff's residence was built with a wooden structure called "Kent County Jail House" in the rear. It consisted of heavy planking with sheet iron sheathing on the inside.				
1872	Rising crime and frequency of escapes from the current jail cause the county to construct a new jail in the "Bastille" style. When it opened in March, it was called the "Prisoner's Paradise."	114			
	Chairman of the Finance Committee of the Board of Commissioners called the jail a "cheese box" that had "first prize for being the most hazardous building in Michigan today."				
1950	Peak Average Daily Population reaches 162 inmates.				
1954	After several failed attempts over 4 decades, voters finally approve a ballot measure for a new jail.				
1958	Original Ball Avenue Jail constructed with a capacity of 240 beds.	240			240
1968	Honor Camp opens with a capacity of 48, bringing us to a total capacity of 288.	240	48		288
1974	Jail expansion by 116 beds, bringing us to a capacity in the Main Jail of 356. Total capacity for all jail facilities was 404.	356	48		404
1977	Jail expansion by 95 beds, bringing us to a capacity in the Main Jail of 451. Total capacity for all jail facilities was 499.	451	48		499
1977	61st District Court creates Community Service Program for sentenced misdemeanor cases.				
1979	Lawsuit filed by six inmates in U.S. District Court.				
1980	Formation of "Alternatives to Incarceration" task force.				
1980	We begin the practice of boarding out inmates to other counties due to overcrowding. This continued for 15 years.				
1981	Creation of Court Services Department to administer Pre-trial Release and Community Service programs. Post arraignment Pre- trial Screening begins at the jail.				
1982	Work Release facility created at the Salvation Army building with a capacity of 48 beds.	451	48	48	547
1982	Court Services Community Service program begins placing felony and misdemeanor cases to work in the community from all district courts and Circuit Court.				
1982	Federal Court order by Judge Enslen in the matter of Johnson v. Heffron limiting occupancy at the Main Jail to 95 percent of capacity.				
1983	Jail expansion by 122 beds, bringing the Main Jail to 573. Total capacity for all jail facilities was 669.	573	48	48	669
1984	Expansion of Pre-trial Release and Community Service programs. Pre-trial program now includes full-time supervision services.				
1984	Expansion of Work Release facility by 24 beds for a capacity of 72. Total capacity for all jail facilities is 693.	573	48	72	693
1984	Jail Management System approved for automating records at the Kent County Jail.				

History of Jail Capacity in Kent County (1985 to 1998)

Year	Description of the Event or Solution		Capacit	ty Levels	
real	Description of the Event of Solution	MJ	HC	WR	System
1985	Agreement to house up to 25 females at Project Rehab Community Treatment Center.				
1985	Expansion of Work Release facility by 18 beds to a total capacity of 90. Total capacity for all jail facilities is 711.	573	48	90	711
1987	Jail Population Management Board formed to study causes of jail crowding.				
1987	Electronic Monitoring and Work Crew programs started with Federal Grant				
1988	Additional judge added for 17th Circuit Court				
1989	Formation of the Community Corrections Advisory Board pursuant to P.A. 511 of 1988.				
1989	Approval of Comprehensive Criminal Justice System Study by David M. Bennett.				
1989	Temporary minimum security jail building adding 64 beds to the Main Jail, bringing its capacity to 637. Total capacity for all jail facilities is 775.	637	48	90	775
1989	Expansion at the Work Release adds 14 beds for a total of 104 beds. Total capacity for all jail facilities is 789.	637	48	104	789
1990	This was the high year for the practice of boarding inmates in other counties. Daily average this year was 146.				
1990	Tax increase of 0.84 mills approved by voters on August 7th to construct a new jail addition.				
	Contract approved for jail architectural services.				
1990	Creation of Criminal Justice Coordinator position.				
1991	Pre-trial and Community Service program expanded to provide staff for additional numbers of supervised release cases and community service placements.				
1992	New jail addition opened in December but parts of the old jail are closed for renovation. We become the central intake facility for the Grand Rapids Police Department.				
1992	Pre-trial services expanded to include pre-arraignment screening and investigation and Fast Track processing 24 hours a day, 7 days a week coverage at the jail.				
1993	New jail addition and renovation of the old jail completed, adding 363 additional beds (after closing the temporary facility), bringing us to a capacity in the Main Jail of 1,000, and a total capacity of 1,152.	1,000	48	104	1,152
1993	Jail Bed Allocation Agreement begun, committee implemented, and weekly jail bed reports sent to all criminal court judges.				
1993	Temporary minimum security building relocated to Honor Camp. Capacity at Honor Camp remains at 48.				
1994	The practice of boarding inmates in other counties because of overcrowding finally ends this year after 15 years.				
1996	Order from the Federal Sixth Circuit Court granting relief from Judge Enslen's count reduction measures.				
1997	Pre-trial Electronic Monitoring program re-started after being discontinued in 1989.				
1997	Federal grant program enables Kent County communities to add large numbers of new police.				
1998	Research conducted into the issues surrounding adding double bunks to the Main Jail. 24 bunks added this year, beginning the capacity of the Main Jail to 1,024.	1,024	48	104	1,176

History of Jail Capacity in Kent County (1998 to present)

Veen	Description of the Event on Oslution		Capacit		
Year	Description of the Event or Solution	MJ	НĊ	WR	System
1998	Jail Population Monitoring Clerk begins monitoring split-sentence cases to facilitate early release into community facilities.				
1999	29 additional double bunks added for a total of 53, with a capacity of 1,053 in the Main Jail, and a total capacity of 1,205.	1,053	48	104	1,205
1999	Relocation of the Work Release facility from the Salvation Army to the old Kent Oaks facility, increasing the capacity to 136. Total system capacity is now 1,237.	1,053	48	136	1,237
2000	9 additional double bunks added for a total of 62, bringing us to a capacity of 1,062 in the Main Jail, and a total capacity of 1,246.	1,062	48	136	1,246
2002	32 additional double bunks added for a total of 94, with a capacity of 1,094 in the Main Jail, and a total capacity of 1,278.	1,094	48	136	1,278
2003	Two additional judges added for 17th Circuit Court.				
2003	Six additional bunks added to the Honor Camp, increasing its capacity to 54.	1,094	54	136	1,284
2004	Ten additional bunks added to Work Release, increasing its capacity to 146.	1,094	54	146	1,294
2004	Corrections and Detention Millage Committee formed				
2005	Two more bunks to the Honor Camp, capacity up to 56	1,094	56	146	1,296
2005	Corrections and Detention Millage Committee submits final report to County Administration in December.				
2005	Expansion project begins at Work Release and extra programs added. Building renamed the Community Reentry Center.				
	Expansion at the Community Reentry Center completed.	1,094	56	248	1,398
2006	Four more bunks added to Honor Camp, capacity up to 60	1,094	60	248	1,402
2006	90 additional double bunks added bringing us to a capacity of 1,184 in the Main Jail, and a total capacity of 1,492.	1,184	60	248	1,492
2006	Renovation started on the new Mental Health Unit. 53 bunks taken out of service.	1,131	60	248	1,439
2007	Criminal Justice Planners Harrison / Landmark present a report to County Administration in December that evaluates the jail's facilities and recommends demolition and expansion.				
2007	Mental Health Unit opened with 39 additional bunks, leaving us with a Main Jail capacity of 1,170 and a total capacity of 1,478.	1,170	60	248	1,478
2007	Kent, Kalamazoo and Allegan Counties hire a consulting firm to determine the feasibility of creating a regional jail.				
2008	Voters approve an extension of Jail Millage.				
2009	County selects Tower Pinkster as the design firm for the expansion and demolition project, and Owens, Ames and Kimble were selected as the construction firm. A jail transition team is formed and design work begins in mid-summer.				
2010	Renovation started on Upper Rear and D1B. Additional double bunks are added to B2 and B3. The Main Jail has a new temporary capacity.	1,101	48	248	1,397
2010	Using Honor Camp for inmate housing suspended in November.	1,101	0	248	1,349
2010	One wing of the CRC was closed the last week of December, leaving two wings in operation.	1,101	0	186	1,287
2011	The newly renovated Upper Rear reopens in January as H2 with a new capacity of 192.	1,293	0	186	1,479
2011	The newly renovated D1B reopens in February with a new capacity of 46	1,331	0	186	1,517
2011	Lower One Man, Middle One Man, and Upper Annex are demolished in March.	1,221	0	186	1,407

Total Number of Times an Inmate has been in KCCF

Core Group of 2,800 Offenders Return to Jail 15 Times or More

These graphs were produced by looking at the 17,435 offenders arrested in 2011 and counting how many times they had been in the Kent County Correctional Facility since 1985. The point of producing these graphs side-by-side is to show the difference in the number of times in jail between the repeat offenders (the recidivists are in the top chart) and the whole population that includes the lightweights (bottom chart).

TalkingPoint! Of all the people brought to jail, 51% are there for their first, second or third visit. Among the offenders who came to jail in 2011, there was one inmate who had been in KCCF 79 times. Remember, these numbers are just counting the times these offenders were in the Kent County Jail and doesn't include visits to jails in other counties.

Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking at the people in jail or being admitted to jail and looking backwards to see how many of them have been in jail before. Another approach to looking at recidivism is examined on this page. This is a forward looking approach that looks at a group of admissions at a point in the past and then follows them in subsequent years to see how many of them come back a second time, third time, etc. For the information here, we looked at the inmates who came to jail during the calendar year 2006, and then watched them to see what proportion of them were rebooked into KCCF through the remainder of 2006 until the end of 2011. We provided the jail data from those years to Andy Verheek at the Kent County Office of Community Corrections and he analyzed it for recidivism rates. The results of the study are depicted on this page.

TalkingPoint! There were a total of 69,779 unique individuals booked into KCCF at least one time over the six year period from 2006 through 2011. Out of these 69,779 individuals, 32,193 were rebooked (for any reason) into KCCF at least once from January 1, 2006 through December 31, 2011. This represents an overall recidivism rate of 46.1%, meaning that 46.1% of them were in our jail 2 times or more. Of the 32,193 offenders booked two or more times into KCCF, females were admitted an average of 3.8 times and males an average of 4.2 times.

"Class of 2006 to 2011" - 69,779 individuals booked & rearrested anytime in 2006 through 2011						
	Total Individuals booked at least once anytime in 2006 through 2011	Number with at least one subsequent rebooking	Resulting Recidivism Rate			
All	69,779	32,193	46.1%			
Male	51,558	25,154	48.8%			
Female	18,221	7,039	38.6%			
Black	21,996	13,022	59.2%			
Hispanic	9,056	3,704	40.9%			
White	38,092	15,246	40.0%			

TalkingPoint! The table above includes people whose first arrest in the time period came in 2006 but also those whose first arrest was in 2007, 2008, 2009, 2010, or 2011, so some of them did not have very much elapsed time to be re-arrested. In the table below we looked at the recidivism rate for ONLY those individuals that were booked into KCCF from January 1, 2006 through December 31, 2006. All of these offenders had a minimum of 5 full years to get in trouble with the law again. There were 21,277 individuals booked into KCCF during 2006. Out of these 21,277 offenders, 13,547 were rebooked into KCCF at least once from their initial booking in 2006 until December 31, 2011. This includes individuals first booked into KCCF in 2006 with their first subsequent booking occurring in the same year (2006). This would equal out to a recidivism rate of 63.7%.

"Cla	"Class of 2006" - 21,277 individuals booked in 2006 and their rearrests later in 2006 through 2011						
	Total Individuals booked at least once in 2006	Number with at least one subsequent rebooking	Resulting Recidivism Rate				
All	21,277	13,547	63.7%				
Male	16,558	10,880	65.7%				
Female	4,719	2,667	56.5%				
Black	7,959	6,027	75.7%				
Hispanic	2,475	1,441	58.2%				
White	10,686	6,006	56.2%				
First Time Offenders in 2006	6,623	2,723	41.1%				
Less than High School Education	7,171	4,893	68.2%				
High School Education or More	13,706	8,474	61.8%

Number of Inmates Brought to Jail in the Last 10 Years by the Top Five Arresting Agencies

Most Agencies Reduce Arrests

TrendSpotter! All five of these arresting agencies continued a trend of reduced numbers of offenders they arrested and brought to jail during the year. The peak for Grand Rapids, Kent County and Wyoming was in 2003. MSP peaked in 2005 and Kentwood in 2006. Grand Rapids and Wyoming both increased this year.

Inmate Classification System Computerized Decision Tree Aids Placement Decisions

Midway through 2004 the jail began using a new Jail Management System called JailView. JailView uses the Northpointe® decision tree classification instrument which breaks inmates down into the traditional three categories of Maximum, Medium and Minimum, but it also provides nine levels of sub-categories that are useful for making program and placement decisions. Below is a brief definition of each of the custody levels and the average number and proportion of inmates within each classification.

Custody Level	Definition	Main Jail Males	Main Jail Females	Jail System (M & F)
High (1)	These inmates are in jail on a violent charge, with a prior conviction on a violent charge, and with a record of violent institutional behavior.	2 (0%)	0 (0%)	2 (0%)
Close (2)	These inmates have a combination of two incidents of violence found in either their current charge, past charges or institutional behavior record.	30 (3%)	3 (3%)	36 (3%)
Medium Assaultive (3)	These inmates have one incident of violence in either their current charge, past charge or institutional behavior.	152 (17%)	10 (8%)	162 (13%)
Medium (4)	These inmates are in jail for a serious non-violent felony and/or have institutional behavior problems.	300 (33%)	47 (38%)	347 (28%)
Medium Pre-Sentenced (5)	These inmates are likely prison bound, but they are well behaved and have no record of violence or rule violations.	61 (7%)	4 (3%)	65 (5%)
Minimum Pre-Sentenced (6)	These inmates will likely not go to prison and are well behaved with no record of violence or rule violations.	138 (15%)	21 (18%)	169 (14%)
Minimum (7)	These inmates are fully sentenced to county jail time on a felony charge, have no recent history of violence and are well behaved, but they lack employment or ties to the community.	87 (10%)	6 (5%)	167 (14%)
Low (8)	These inmates are sentenced to the county jail on a felony charge, have no recent record of violence, are well behaved and have employment or local ties to the community.	69 (8%)	16 (13%)	135 (11%)
Very Low (9)	These inmates are sentenced to the county jail on misdemeanor charges, have no recent record of violence, are well behaved and have ties to the community.	10 (1%)	2 (2%)	24 (2%)

Average Amount of Time Inmates Stay in Jail, Shown with Inmates Grouped by Release Type

The graph above was based on a sample of 23,925 inmates released in 2011.

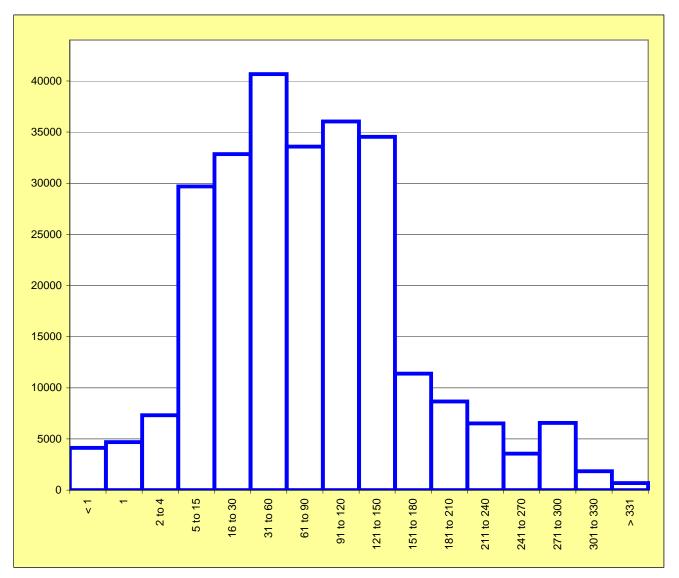

TalkingPoint! The pie charts below contain a comparison of the Average Length of Stay (ALOS) at the time of the Bennett jail expansion study and the ALOS in 2011, depicting the much shorter ALOS in 2011.

	1989	2011
< 1 day	28.17%	45.24%
1 day	13.55%	13.87%
2 to 4 days	12.90%	10.64%
5 to 15 days	14.84%	14.63%
16 to 30 days	6.24%	6.39%
> 30 days	24.30%	9.23%

Average Length of Stay Depicted as Jail Bed Days

TalkingPoint! This chart shows the concept of average length of stay depicted as Jail Bed Days. Jail Bed Days are an accurate way of displaying the actual impact on jail beds, because it is counting the days that a jail bed is occupied. The chart about shows that although we had 10,816 people who stayed less than one day in jail, they used far fewer jail beds than the 3,499 inmates who stayed 5 to 15 days in jail. In fact, the 454 inmates who stayed 61 to 90 days used the most jail beds. The main interpretation of these data is that the greatest impact on jail capacity would be achieved by concentrating our efforts on reducing the stay of the inmates who are in jail from one to five months. It is that group of inmates who are using most of the jail's beds.

# of Days in Jail	# of Inmates
< 1	10816

Reasons Why Inmates are Released and the Percentage of Inmates Released in the Most Common Types of Releases The Majority of Incoming Inmates Released Back to the Community

TalkingPoint! 87% of the inmates who come into our jail are released directly back into the community. (This chart is based on a sample of 24,000 records in 2011.) Only about 13% get sent to prison or to another agency. Hard data is not available on that 15%, but probably most of those inmates return to our community at some point. It is important to remember that resources devoted to local jail inmates benefit our local communities.

County Jail Reimbursement Program Fiscal Year 2011 Update by Andy VerHeek

CJRP witnessed another change within the program during FY 2011 that impacted the funds received by Kent County. The change experienced within the CJRP program affected the amount Kent County was able to invoice for eligible offenders.

The table below shows that Kent County witnessed an increase of funds received through CJRP from \$607,234.50 in FY 2010 to \$835,895.50 in FY 2011. During Fiscal Years 2008 and 2009 saw the State lapse funds for the CJRP program which impacted the total funds received by Kent County for those fiscal years. In Fiscal Year 2010 Governor Granholm exercised a line item veto and deleted CJRP from the MDOC budget. Counties were only allowed to bill for allowable offenders from October 1 through October 15 of 2010. However, CJRP was resurrected in June 2010 with counties able to invoice for eligible offenders from January 1 through September 30, 2010. This reinstatement of the program came with new reimbursement rates based upon new eligibility criteria.

In FY 2011 the reimbursement rates changed once again with each individual county in Michigan able to select between two different reimbursement rates for eligible offenders. The reimbursement amount selected by Kent County assisted in the collection of a greater amount of CJRP funds from October 1, 2010 through September 30, 2011.

Also assisting in the increased collection of CJRP funds was the increased number of CJRP-eligible offenders sentenced to jail within Kent County.

FISCAL YEAR	CJRP PAYMENT	TOTAL RECEIVED
1994	\$513,520.00	\$513,520.00

TalkingPoint! The information on this page is based on KCCF inmates' top charge (the most seriouse charge) and it depicts the difference in the charge severity between the offenders who come into and out of jail (the "booking" population) and those who stay in custody (the "stock" population). The stock population generally is made up of inmates with more serious charges than the booking population.

TalkingPoint! The

information on this page is based on the top charge of over 24,000 offenders who were released from jail in 2011, with some having multiple charges. The Jail Bed Days represents the total number of days these offenders stayed in jail. For example, 1 offender sitting in jail for 1 day is equal to 1 Jail Bed Days. 200 offenders in jail for 5 days each is each to 1,000 Jail Bed Days. The purpose of the table and chart on this page is to depict what type of offender uses the most Jail Bed Days, and to show that it is not just the crime category with the most number of inmates. The table at left is sorted by the "average" jail bed days per offender of each charge type. This year, as in prior years, the category of offender that uses the most total jail bed days are the 6,381 offenders charged with crimes that fall into the "disorderly" classification.

Days gives a more accurate picture of inmate behavior.

Total Number of Category 1, 2 and 3 Rule Violations in the Last Ten Years

These graphs show the number of Category 1, 2, and 3 reports per year for the last few years. We have three levels of disciplinary rule violations in the jail. The most minor rule violations are Category 1 violations. Category 2 violations are more serious and Category 3 violations are the most serious. Our disciplinary philosophy is that we would rather deal with an inmate's misbehavior while it is still minor, which is why there are more Category 1 violations than 2's, and more 2's than 3's. Inmates committing Category 2 and 3 violations go to the jail's Disciplinary Segregation Unit to complete their disciplinary sanctions. This chart includes only those rule violations that occurred in the Main Jail.

Index of Antisocial Inmate Behavior Grouping of Rule Violations that Have to Do with Impolite or Socially Unacceptable Behavior

"Antisocial" acts	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **violent behavior**.

Comparison - Index of Inmate Behavior

Compilation of the Previous Five Charts

This chart shows all five of the inmate behavior index's and how they performed over the last 14 years. This is a compilation of the data used in the previous five charts. Each category showed significant variation over this period. Keep in mind that the overall number of inmates in the Sheriff's custody decreased during the last few years.

Category 2 and 3 Violations by Custody Level

TalkingPoint! Category 2 rule violations are less serious, while Category 3 are the most serious. The rate "per 100 inmates" is the best overall measure, since there are fewer higher custody inmates than lower custody. These figures were calculated using 2011 data. These stats are just from the Main Jail and include just the 10 most serious violations in each category. These charts demonstrate the validity of our classification system, as it shows the system is correctly identifying the inmates most likely to commit a rule violation.

Suicide Attempts or Gestures Compared with the Total Number of Suicide Precautions KCCF 1999 through 2011

	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011
inmates making suicide attempts or gestures	40	53	72	67	43	46	70	71	55	79	52	66	52
total number of inmates placed on suicide precaution	355	265	356	370	397	302	555	464	449	403	303	253	266

Our highest level of suicide precaution places inmates in a cell under constant video surveillance. We track how inmates get placed on that level of observation. Either they have made a suicide attempt or gesture, or they have made a suicidal threat to a staff person, or they have been judged to be suicidal following an interview by one of our mental health professionals. The chart above depicts the total number of "S-3's" (the highest level of precaution) and of that number, the number that were declared S-3's because of an actual in-progress attempt to harm themselves, either by hanging, an overdose, cutting themselves, jumping from a height, drowning in a toilet, banging their head, or some other means. These data show that the jail deputies intervene in about one suicide attempt each week.

Housing Unit Number of Cat 2/3's **Index of Population B3G Female Classification Pod** 0.125 4 B2F BLP Program Pod - Med/Min Males 5 0.156 12 Middle 4 Man Medium Male Honor Pod 0.250 **B2B Minimum Males** 9 0.281 H2C Med/Min Male Trustees 19 0.297 H2A Minimum Males 21 0.328 D1B Med-Asslt/Close Male 5 0.357 D2B Minimum Male 23 0.359 D3A - Male Classification Pod 24 0.375 D1D Juvenile Male 3 0.375 H2B Medium Males 32 0.500 Intake 17 0.531 B2C Medium Males 18 0.563 B2D Reentry Pod 0.563 18 0.594 B3D Female Minimum & Program 19 D1C Med-Asslt/Close Male 5 0.625 D2A Medium Males 40 0.625 B3B Medium/Minimum Female Pod 43 0.672 B3F Female Medium/Maximum Pod 0.750 12 D1A Male Disciplinary Segregation 26 0.867 D3B Medium Males 59 0.922 B2G Male Mental Health Unit 38 0.974 Old Max Maximum Males 34 1.063 D1A Male Administrative Segregation 21 1.167 D1F Med-Asslt/Close Male 19 1.188 Middle 6 Man Medium Males 118 1.405 Lower 4 Man Med-Asslt/Close Males 75 1.563 **B3H Female Segregation** 14 1.750

Inmate Behavior per Pod or Housing Unit Minimum Custody Inmates Continue to be Best Behaved

We have a number of separate housing units in the mail jail (their designations appear in the first column). We keep track of the number of inmates who must be moved out of each housing unit and placed in Disciplinary Segregation for a category 2 or 3 violation. We divide the number of rule violations by the number of inmates living in the housing unit to get an index for comparison purposes (this is the number in the third column). The lower the index, the better behaved the housing unit is. As you can tell from this table, the minimum (MINM) custody housing units are generally better behaved than the medium (MEDM) custody units, which are better behaved than the maximum (MAXM) custody units. The classification pods hold inmates who have not yet been assigned a custody level. The "Male Mental Health Unit" houses inmates with serious mental illness. Upper floor was left off since it was closed for most of 2011.

Number of Fights by Housing Unit Most Fights Occur in Old Jail

TalkingPoint! Our Main Jail has an older linear style side and a newer direct supervision style side. Most of the fights occur in the old side, which is going to be replaced and demolished in 2012.

or tactical hallucinations?							
Has inmate ever had or experienced delusional	0.4%	0.3%	0.3%	0.3%	0.2%	0.2%	0.4%

TalkingPoint! Every offender brought to jail is evaluated by a medical professional while still in Intake. The percentage of the mental health survey questions that were answered YES appear on this table. The data in this table is based on the approximately 26,000 offenders each year who came to jail during these years.

Inmate Needs Reported in Classification Interview Offenders Come to Jail with a Number of Needs

Question:	% Yes	% No
1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing?	20.2%	79.8%
2. MENTAL STABILITY: Does this inmate have mental health problems, including suicidal ideation, that would affect their housing?	14.2%	85.8%
3. ALCOHOL ABUSE: Does the inmate admit to having an alcohol problem, or does the inmate appear to have an alcohol problem in your judgement?	17.1%	82.9%
4. DRUG ABUSE: Does the inmate admit to a drug problem, or does the inmate appear to have a problem with drugs in your judgement?	18.6%	81.4%
5. PAST TREATMENT: Does the inmate indicate past treatment for their drug or alcohol problem? If so, record where, when, and if they are interested in continuing treatment.	30.5%	69.5%
6. EDUCATIONAL HISTORY: Does the inmate have a GED or a high school diploma? If not, is the inmate interested in continuing their education in the main jail or honor camp?	64.3%	35.7%
7. VOCATIONAL SKILLS: Does the inmate have a marketable skill or trade that is used to support himself and his family? (Answer "Yes" if this is true, and "No" if is the inmate has no skills, limited training, or little or no employment history.)	7.8%	92.2%
8. LITERACY: Can this inmate read and write the English language?	96.4%	3.6%

TalkingPoint! These numbers represent the percentage of inmates in population who admit these needs to a classification officer. This information is based on the self report of the inmates during their classification interviews this year. It is not based on a clinical assessment and the report is not verified independently. This reflects an inmate's "admission" only. Not all inmates honestly report their needs at the classification interview. All inmates who stay in jail longer than 3 days are given a classification interview.

Inmate Needs Reported in Prior Years

Offenders' Needs Remain Steady

Question:	2006	2007	2008	2009	2010	2011
1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing?	34.5%	33.0%	31.9%	27.3%	22.9%	20.2%
