

“Measuring What Matters”

Kent County Correctional Facility 2013 Annual Statistical Report

<http://www.accesskent.com/Sheriff/reports.htm>

**Published on
April 22, 2014**

KENT COUNTY SHERIFF DEPARTMENT
Lawrence A. Stelma – Sheriff

701 Ball Avenue, N.E. • Grand Rapids • Michigan • 49503

April 2014

This past year brought many changes to our operations and the landscape of our facility. The majority of our facility became a direct supervision jail with the demolition of the “old jail”. The new addition has provided a safer environment for the staff and the inmates. Advanced technology, better observation, cleaner environment and the direct supervision philosophy have created a safer, better controlled and more secure facility.

- The amount of new admissions has gone down considerably over the past ten years. In 2003 we had 33,072 admissions compared to just 26,211 this past year. In 2013 nearly 6,900 less people came to jail than in 2003.
- Demonstrating the reduction in violence within the facility, there were only 92 inmate fights in the jail in 2013 compared to 211 last year. The 92 fights are the lowest we have had in over 15 years.
- The increased challenges associated with housing the mentally ill in our nation’s jails continues to increase. In 2013, 39% of the inmate population was on some type of psychotropic medication compared to just 17% back in 2005.

It is a pleasure to present this Annual Statistical Report for the year 2013. The goal is to provide accurate, interesting and representative information to Sheriff’s Department staff, criminal justice planners, and community members who are interested in the operation of the county jail. I trust you will find this report to be a helpful source of data in the months ahead.

The report is organized to make the information accessible to the readers. You will notice that it has three general types of statistics. Inmate profile statistics depict an overall profile of the inmate population and correctional facility staff. Inmate population statistics address the topics of how many inmates are coming in, where are they coming from, why they are here, how long are they staying, and some of the programs and services provided to them. Incident statistics allow us to evaluate the behavior of the inmate population while they are in jail.

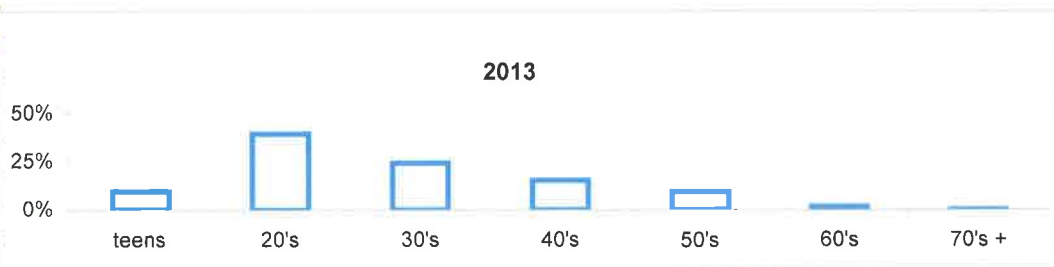

The aim is to make these reports as functional as possible by including only the information that seems to be of general interest. I realize that this document will not answer every question. If you have further questions, please contact me and I will try to provide any additional information you need about the inmate population or facility operation. I value your comments and suggestions for future reports.

Sincerely,

Captain Mark Neumen

Number of persons employed in the jail system as of January 1, 2014	278	
Number of male employees	198	71.22%
Number of female employees	80	28.78%
Average age of employees	43	
Average age of male employees	42	
Average age of female employees	43	
Average years of seniority	13	
Average years of seniority of male employees	13	
Average years of seniority of female employees	13	
Racial breakdown - White	220	79.14%
Racial breakdown - Black/African American	29	10.43%
Racial breakdown - Asian	3	1.08%
Racial breakdown - American Indian/Alaskan Native	2	0.72%
Racial breakdown - Hispanic/Latino	20	7.19%
Racial breakdown - 2 or more races	4	1.44%
Type of Employee - Supervisory	33	11.87%
Type of Employee - Deputies	194	69.78%
Type of Employee - Administrative Support Personnel	21	7.55%
Type of Employee - Other Personnel	30	10.79%
Number of deputies who resigned in 2013	1	
Number of deputies who retired in 2013	7	
Number of deputies who were terminated in 2013	1	
Turnover rate of deputies in 2013		4.64%
Profile of Correctional Officers hired this year		
Number of deputies hired in 2013	13	
Number of deputies hired in 2013 with Military experience	0	
Number of deputies hired in 2013 with some college	1	
Number of deputies hired in 2013 with 2 year degree	1	
Number of deputies hired in 2013 with 4 year degree	11	
Gender of newly hired deputies - male	11	
Gender of newly hired deputies - female	2	
Race of newly hired deputies - White	13	
Race of newly hired deputies - Black/African American	0	
Race of newly hired deputies - Asian	0	
Race of newly hired deputies - American Indian/Alaskan Native	0	
Race of newly hired deputies - Hispanic/Latino	0	
Correctional Officers have been hired between July 1998 and this year		
Number hired in this time period (last fourteen years)	161	
Number with a 4 year degree	104	
Number with a 2 year degree	42	
Number with Military experience	8	
Number with past Correctional experience	7	
Number who were employed in other KCCF positions when they applied	5	
Other	1	

 **Talking Point!** The information contained in the table above was correct as of January 1, 2014. It should be noted that our deputy turnover rate is low when compared with other jails our size around the country. Turnover rates in jails of 10% to 15% are not uncommon, and rates of 25% and higher are sometimes reported.

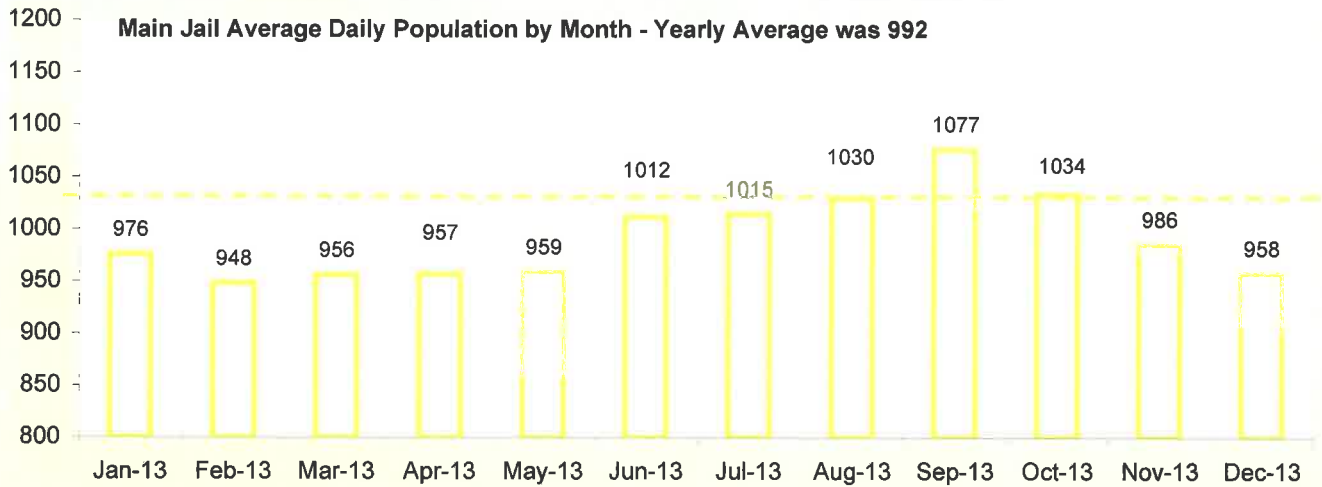

Booking and Population Statistics

Monthly Averages Vary Widely

	bookings per day	bookings per month	total bookings for 2013	average daily population for the MJ, HC & CRC
Average	68	2,072		1,119
Minimum	28	1,834		1,020
Maximum	112	2,271		1,261
Range	84	437		241
			24,860	

The Average Daily Population of the Main Jail, Honor Camp, and the Community Reentry Center

Honor Camp Average Daily Population by Month - Honor Camp still empty this year

Community Reentry Center Average Daily Population by Month - Yearly Average was 127

TrendSpotter! The average population for the Main Jail in the year before (2012) was 1,032. The average population for the Camp was 0 and the average population for the Community Reentry Center was 125 in 2012.

The Number of Inmates Brought to Jail per Year

Continued decline in Admissions (1,351 fewer)

Annual Bookings from 1986 through 2013

Annual Bookings from 1995 through 2013 (with trend line)

TrendSpotter! 2013 was the lowest amount of bookings in over 20 years.

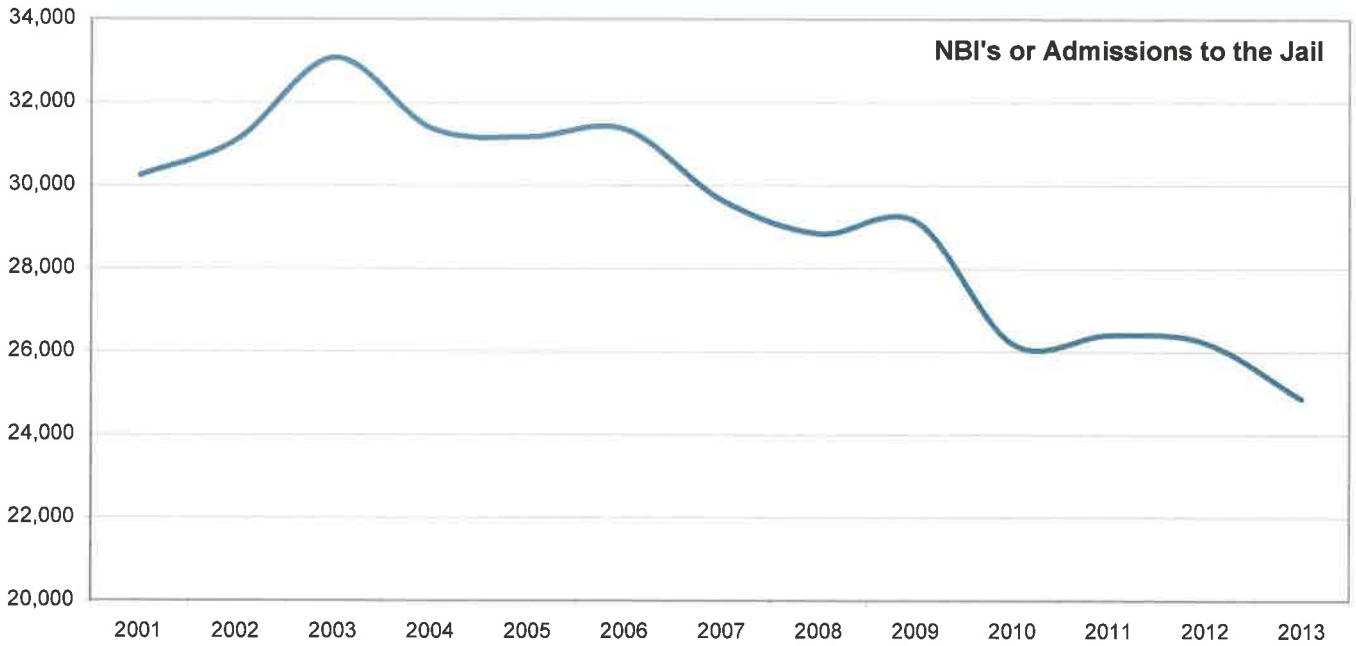

Percentage of Change from Previous Year's Bookings

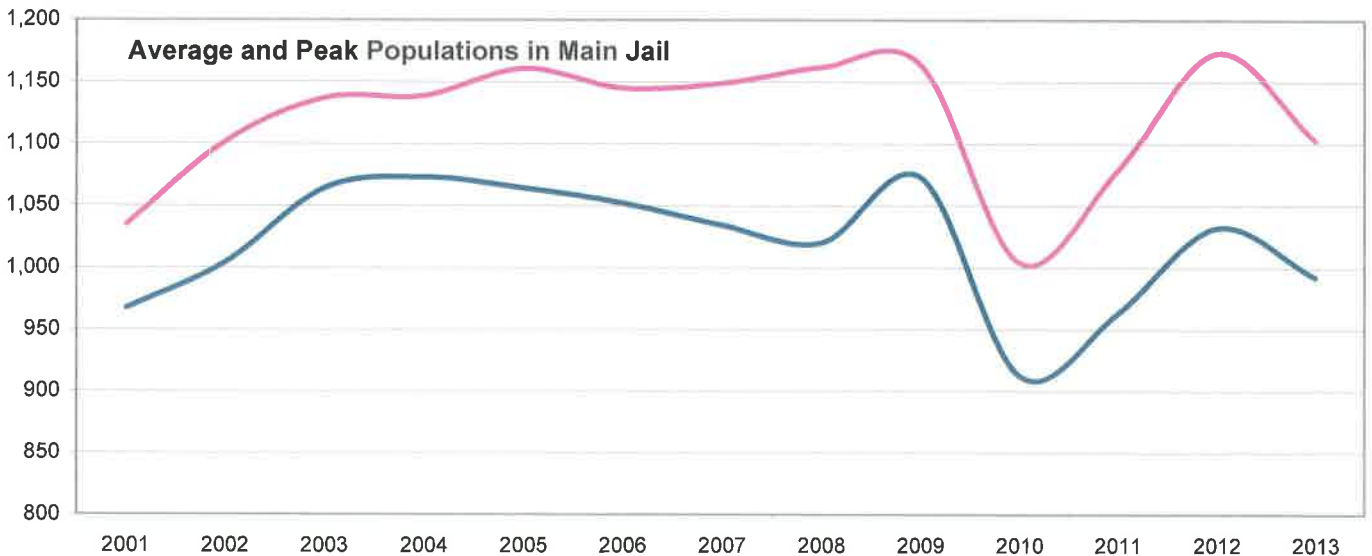

TrendSpotter! This chart shows the number of bookings each year (blue line) with the % of increase or decrease from the previous year (green bar). We experienced a 5.1% decrease in 2013.

Number of Bookings and MJ Average / Peak Populations

year	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013
NBI	30,238	31,088	33,072	31,373	31,164	31,354	29,635	28,844	29,135	26,180	26,400	26,211	24,860

year	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013
ADP	967	1,004	1,064	1,073	1,064	1,052	1,034	1,020	1,073	912	963	1,032	992
Peak	1,035	1,102	1,137	1,139	1,161	1,145	1,149	1,162	1,164	1,004	1,079	1,173	1,103
+ or -	7.0%	9.8%	6.9%	6.2%	9.1%	8.8%	11.1%	13.9%	8.5%	10.1%	12.0%	13.7%	11.2%

TalkingPoint! The bottom chart shows the difference in the Main Jail between the **AVERAGE** population and the **PEAK** population. In 2012 we had more inmates than average **51.2%** of the time, and we have to be able to house them as well. The difference between the normal or "average" population and the peaking population is called the "peaking factor." The peaking factor for 2013 was 11.2%, which went down for the first time in 3 years.

Annual Average Daily Population for all Inmates in KCCF Custody

TrendSpotter! The number of inmates in the Sheriff's custody came up slightly in 2012 after remaining the same the previous two years. 2010 and 2011 were **10.6%** less than 2009. 2012 saw a **5.8%** increase. In 2013, the number of inmates leveled off, closer to our average 10 years ago.

The figures on this graph represent the daily average of the total number of inmates in our custody, including the Main Jail, Community Reentry Center, and Honor Camp. It DOES NOT INCLUDE inmates lodged in other agencies. The figures prior to 1994 do not include the inmates boarded out in other counties prior to the new jail opening up. The 1997 figure is an estimate because some of the data is missing. Trend line added. One can observe a leveling off of the past growth rate.

Average Daily Population of the Honor Camp, Community Reentry Center, Main Jail and the Total for all Inmates in KCCF Custody for the Last 10 Years

History of Jail Capacity in Kent County (1835 to 1984)

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1835	First Kent County Jail consisted of two cells in the corner of the Courthouse				
1845	First jail burns and for the next 10 years inmates are housed in rented quarters, primarily in a cellar of a building on Canal Street, with more important inmates being sent to jails in adjoining counties.				
1855	A new Sheriff's residence was built with a wooden structure called "Kent County Jail House" in the rear. It consisted of heavy planking with sheet iron sheathing on the inside.				
1872	Rising crime and frequency of escapes from the current jail cause the county to construct a new jail in the "Bastille" style. When it opened in March, it was called the "Prisoner's Paradise."	114			
1913	Chairman of the Finance Committee of the Board of Commissioners called the jail a "cheese box" that had "first prize for being the most hazardous building in Michigan today."				
1950	Peak Average Daily Population reaches 162 inmates.				
1954	After several failed attempts over 4 decades, voters finally approve a ballot measure for a new jail.				
1958	Original Ball Avenue Jail constructed with a capacity of 240 beds.	240			240
1968	Honor Camp opens with a capacity of 48, bringing us to a total capacity of 288.	240	48		288
1974	Jail expansion by 116 beds, bringing us to a capacity in the Main Jail of 356. Total capacity for all jail facilities was 404.	356	48		404
1977	Jail expansion by 95 beds, bringing us to a capacity in the Main Jail of 451. Total capacity for all jail facilities was 499.	451	48		499
1977	61st District Court creates Community Service Program for sentenced misdemeanor cases.				
1979	Lawsuit filed by six inmates in U.S. District Court.				
1980	Formation of "Alternatives to Incarceration" task force.				
1980	We begin the practice of boarding out inmates to other counties due to overcrowding. This continued for 15 years.				
1981	Creation of Court Services Department to administer Pre-trial Release and Community Service programs. Post arraignment Pre-trial Screening begins at the jail.				
1982	Work Release facility created at the Salvation Army building with a capacity of 48 beds.	451	48	48	547
1982	Court Services Community Service program begins placing felony and misdemeanor cases to work in the community from all district courts and Circuit Court.				
1982	Federal Court order by Judge Enslin in the matter of Johnson v. Heffron limiting occupancy at the Main Jail to 95 percent of capacity.				
1983	Jail expansion by 122 beds, bringing the Main Jail to 573. Total capacity for all jail facilities was 669.	573	48	48	669
1984	Expansion of Pre-trial Release and Community Service programs. Pre-trial program now includes full-time supervision services.				
1984	Expansion of Work Release facility by 24 beds for a capacity of 72. Total capacity for all jail facilities is 693.	573	48	72	693
1984	Jail Management System approved for automating records at the Kent County Jail.				

History of Jail Capacity in Kent County (1985 to 1998)

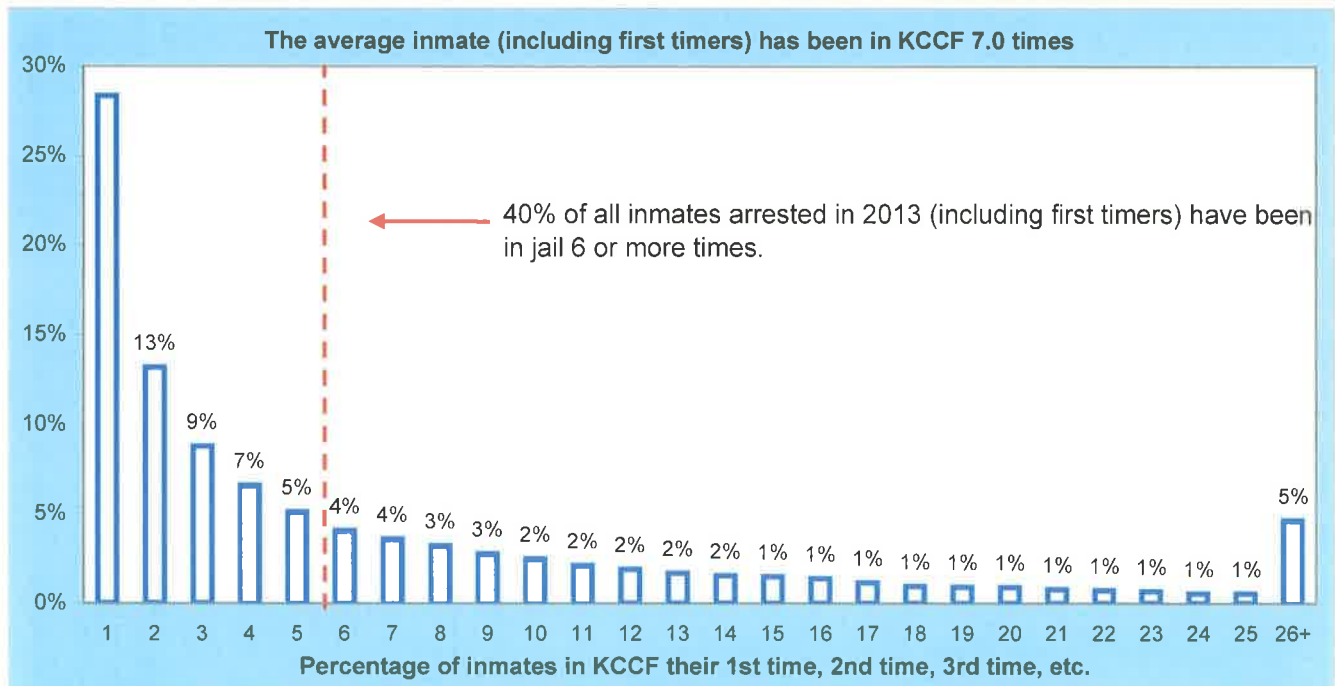

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1985	Agreement to house up to 25 females at Project Rehab Community Treatment Center.				
1985	Expansion of Work Release facility by 18 beds to a total capacity of 90. Total capacity for all jail facilities is 711.	573	48	90	711
1987	Jail Population Management Board formed to study causes of jail crowding.				
1987	Electronic Monitoring and Work Crew programs started with Federal Grant				
1988	Additional judge added for 17th Circuit Court				
1989	Formation of the Community Corrections Advisory Board pursuant to P.A. 511 of 1988.				
1989	Approval of Comprehensive Criminal Justice System Study by David M. Bennett.				
1989	Temporary minimum security jail building adding 64 beds to the Main Jail, bringing its capacity to 637. Total capacity for all jail facilities is 775.	637	48	90	775
1989	Expansion at the Work Release adds 14 beds for a total of 104 beds. Total capacity for all jail facilities is 789.	637	48	104	789
1990	This was the high year for the practice of boarding inmates in other counties. Daily average this year was 146.				
1990	Tax increase of 0.84 mills approved by voters on August 7th to construct a new jail addition.				
1990	Contract approved for jail architectural services.				
1990	Creation of Criminal Justice Coordinator position.				
1991	Pre-trial and Community Service program expanded to provide staff for additional numbers of supervised release cases and community service placements.				
1992	New jail addition opened in December but parts of the old jail are closed for renovation. We become the central intake facility for the Grand Rapids Police Department.				
1992	Pre-trial services expanded to include pre-arraignment screening and investigation and Fast Track processing 24 hours a day, 7 days a week coverage at the jail.				
1993	New jail addition and renovation of the old jail completed, adding 363 additional beds (after closing the temporary facility), bringing us to a capacity in the Main Jail of 1,000, and a total capacity of 1,152.	1,000	48	104	1,152
1993	Jail Bed Allocation Agreement begun, committee implemented, and weekly jail bed reports sent to all criminal court judges.				
1993	Temporary minimum security building relocated to Honor Camp. Capacity at Honor Camp remains at 48.				
1994	The practice of boarding inmates in other counties because of overcrowding finally ends this year after 15 years.				
1996	Order from the Federal Sixth Circuit Court granting relief from Judge Enslen's count reduction measures.				
1997	Pre-trial Electronic Monitoring program re-started after being discontinued in 1989.				
1997	Federal grant program enables Kent County communities to add large numbers of new police.				
1998	Research conducted into the issues surrounding adding double bunks to the Main Jail. 24 bunks added this year, beginning the capacity of the Main Jail to 1,024.	1,024	48	104	1,176

History of Jail Capacity in Kent County (1998 to present)

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1998	Jail Population Monitoring Clerk begins monitoring split-sentence cases to facilitate early release into community facilities.				
1999	29 additional double bunks added for a total of 53, with a capacity of 1,053 in the Main Jail, and a total capacity of 1,205.	1,053	48	104	1,205
1999	Relocation of the Work Release facility from the Salvation Army to the old Kent Oaks facility, increasing the capacity to 136. Total system capacity is now 1,237.	1,053	48	136	1,237
2000	9 additional double bunks added for a total of 62, bringing us to a capacity of 1,062 in the Main Jail, and a total capacity of 1,246.	1,062	48	136	1,246
2002	32 additional double bunks added for a total of 94, with a capacity of 1,094 in the Main Jail, and a total capacity of 1,278.	1,094	48	136	1,278
2003	Two additional judges added for 17th Circuit Court.				
2003	Six additional bunks added to the Honor Camp, increasing its capacity to 54.	1,094	54	136	1,284
2004	Ten additional bunks added to Work Release, increasing its capacity to 146.	1,094	54	146	1,294
2004	Corrections and Detention Millage Committee formed				
2005	Two more bunks to the Honor Camp, capacity up to 56	1,094	56	146	1,296
2005	Corrections and Detention Millage Committee submits final report to County Administration in December.				
2005	Expansion project begins at Work Release and extra programs added. Building renamed the Community Reentry Center.				
2006	Expansion at the Community Reentry Center completed.	1,094	56	248	1,398
2006	Four more bunks added to Honor Camp, capacity up to 60	1,094	60	248	1,402
2006	90 additional double bunks added bringing us to a capacity of 1,184 in the Main Jail, and a total capacity of 1,492.	1,184	60	248	1,492
2006	Renovation started on the new Mental Health Unit. 53 bunks taken out of service.	1,131	60	248	1,439
2007	Criminal Justice Planners Harrison / Landmark present a report to County Administration in December that evaluates the jail's facilities and recommends demolition and expansion.				
2007	Mental Health Unit opened with 39 additional bunks, leaving us with a Main Jail capacity of 1,170 and a total capacity of 1,478.	1,170	60	248	1,478
2007	Kent, Kalamazoo and Allegan Counties hire a consulting firm to determine the feasibility of creating a regional jail.				
2008	Voters approve an extension of Jail Millage.				
2009	County selects Tower Pinkster as the design firm for the expansion and demolition project, and Owens, Ames and Kimble were selected as the construction firm. A jail transition team is formed and design work begins in mid-summer.				
2010	Renovation started on Upper Rear and D1B. Additional double bunks are added to B2 and B3. The Main Jail has a new temporary capacity.	1,101	48	248	1,397
2010	Using Honor Camp for inmate housing suspended in November.	1,101	0	248	1,349
2010	One wing of the CRC was closed the last week of December, leaving two wings in operation.	1,101	0	186	1,287
2011	The newly renovated Upper Rear reopens in January as H2 with a new capacity of 192.	1,293	0	186	1,479
2011	The newly renovated D1B reopens in February with a new capacity of 46	1,331	0	186	1,517
2011	Lower One Man, Middle One Man, and Upper Annex are demolished in March.	1,221	0	186	1,407
2012	The new jail housing units open in December (L1, L2, L3, M1, M2, and M3). The old side (Lower, Middle and Upper) is closed.	1,285	0	186	1,471

Total Number of Times an Inmate has been in KCCF

Core Group of 2,700 Offenders Return to Jail 15 Times or More

These graphs were produced by looking at the 18,696 offenders arrested in 2013 and counting how many times they had been in the Kent County Correctional Facility since 1985. The point of producing these graphs side-by-side is to show the difference in the number of times in jail between the repeat offenders (the recidivists are in the top chart) and the whole population that includes the lightweights (bottom chart).

TalkingPoint! Of all the people brought to jail, 51% are there for their first, second or third visit. Among the offenders who came to jail in 2013, there was one inmate who had been in KCCF 79 times. Remember, these numbers are just counting the times these offenders were in the Kent County Jail and doesn't include visits to jails in other counties.

Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking at the people in jail or being admitted to jail and looking backwards to see how many of them have been in jail before. Another approach to looking at recidivism is examined on this page. This is a forward looking approach that looks at a group of admissions at a point in the past and then follows them in subsequent years to see how many of them come back a second time, third time, etc. For the information here, we looked at the inmates who came to jail during the calendar year 2006, and then watched them to see what proportion of them were rebooked into KCCF through the remainder of 2006 until the end of 2011. We provided the jail data from those years to Andy Verheek at the Kent County Office of Community Corrections and he analyzed it for recidivism rates. The results of the study are depicted on this page.

 **TalkingPoint!** There were a total of 69,779 unique individuals booked into KCCF at least one time over the six year period from 2006 through 2011. Out of these 69,779 individuals, 32,193 were rebooked (for any reason) into KCCF at least once from January 1, 2006 through December 31, 2011. This represents an overall recidivism rate of 46.1%, meaning that 46.1% of them were in our jail 2 times or more. Of the 32,193 offenders booked two or more times into KCCF, females were admitted an average of 3.8 times and males an average of 4.2 times.

"Class of 2006 to 2011" - 69,779 individuals booked & rearrested anytime in 2006 through 2011

	Total Individuals booked at least once anytime in 2006 through 2011	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	69,779	32,193	46.1%
Male	51,558	25,154	48.8%
Female	18,221	7,039	38.6%
Black	21,996	13,022	59.2%
Hispanic	9,056	3,704	40.9%
White	38,092	15,246	40.0%

 **TalkingPoint!** The table above includes people whose first arrest in the time period came in 2006 but also those whose first arrest was in 2007, 2008, 2009, 2010, or 2011, so some of them did not have very much elapsed time to be re-arrested. In the table below we looked at the recidivism rate for ONLY those individuals that were booked into KCCF from January 1, 2006 through December 31, 2006. **All of these offenders had a minimum of 5 full years to get in trouble with the law again.** There were 21,277 individuals booked into KCCF during 2006. Out of these 21,277 offenders, 13,547 were rebooked into KCCF at least once from their initial booking in 2006 until December 31, 2011. This includes individuals first booked into KCCF in 2006 with their first subsequent booking occurring in the same year (2006). This would equal out to a recidivism rate of 63.7%.

"Class of 2006" - 21,277 individuals booked in 2006 and their rearrests later in 2006 through 2011

	Total Individuals booked at least once in 2006	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	21,277	13,547	63.7%
Male	16,558	10,880	65.7%
Female	4,719	2,667	56.5%
Black	7,959	6,027	75.7%
Hispanic	2,475	1,441	58.2%
White	10,686	6,006	56.2%
First Time Offenders in 2006	6,623	2,723	41.1%
Less than High School Education	7,171	4,893	68.2%
High School Education or More	13,706	8,474	61.8%

Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking backwards to see how many inmates have been in jail before. Another approach to looking at recidivism is examined on this page. This is a forward looking approach that looks at a group of admissions from a given year and follows them in subsequent years to see how many of them recidivate via being rebooked into KCCF. We looked at an overall recidivism rate from 2011 through 2013 as well as recidivism when selecting out offenders who received a proxy score in 2012. Jail data from those years were analyzed for recidivism by Andy Verheek at the Office of Community Corrections.

TalkingPoint! There were a total of 40,033 unique individuals booked into KCCF at least one time over the three year period from 2011 through 2013. Using a broad definition of recidivism that looks at rebooking into KCCF for any reason, 16,008 out of the 40,033 individuals were rebooked (for any reason) into KCCF at least once from January 1, 2011 through December 31, 2013. This represents an overall recidivism rate of 40.0%. Of these 16,008 individuals booked two or more times into KCCF, females were admitted an average of 3.1 times and males an average of 3.3 times. It should be noted that the recidivism rate changes when recidivism is redefined. This means that the numbers presented on this page would change if a different recidivism definition had been chosen for the analysis.

"Class of 2011 to 2013" - 40,033 individuals booked & rearrested anytime in 2011 to 2013

	Total Individuals booked at least once anytime in 2010 through 2012	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	40,033	16,008	40.0%
Male	29,353	12,465	42.5%
Female	10,680	3,543	33.2%
Black	14,279	7,281	51.0%
Hispanic	4,749	1,583	33.3%
White	20,633	7,025	34.0%

TalkingPoint! The table above includes people whose first arrest in the time period came in 2011 but also those whose first arrest was in 2012 and 2013 and includes a broad definition of recidivism. Not all offenders booked into the Kent County Correctional Facility are not predicted to recidivate at the same rate. Using a proxy risk assessment instrument that takes into consideration each individual's age at first offense, prior bookings into jail, and current age, Kent County Correctional Facility personnel can provide a basic level prediction of who is more likely to be rebooked into the facility in the future. This information is instrumental to providing programming in the Kent County Correctional Facility. In the table below we looked at the recidivism rates for those individuals that were booked into KCCF from January 1, 2011 through December 31, 2011 that received a proxy score and were most likely to be released back into the community meaning that offenders released to prison or another facility were filtered out. There were 7,109 individuals booked into KCCF in 2011 that had received a proxy score during their stays at Kent County Correctional Facility and had a release reason other than release to prison or release to another facility. Out of these 7,109 individuals, 5,240 were rebooked into KCCF at least once following their initial booking in 2011 until December 31, 2013 for an overall recidivism rate of 73.7%. The table below illustrates that the recidivism rates are indeed different for those offenders scored at a low, medium, or high risk of recidivism based on the proxy risk assessment instrument.

"Class of 2011" - 7,109 individuals booked in 2011 and their rearrests later in 2011 through 2013

	Low Risk of Recidivism 975 total individuals	Medium Risk of Recidivism 3,159 total individuals	High Risk of Recidivism 2,975 total individuals
Recidivism	55.0%	70.2%	83.5%
Male	687 total individuals	2,503 total individuals	2,577 total individuals
Rate	53.6%	70.0%	83.9%
Female	288 total individuals	656 total individuals	398 total individuals
Rate	58.3%	71.2%	81.4%
Black	226 total individuals	1,379 total individuals	1,689 total individuals
Rate	61.9%	75.0%	88.5%
Hispanic	164 total individuals	317 total individuals	263 total individuals
Rate	42.1%	60.6%	75.3%
White	569 total individuals	1,435 total individuals	1,006 total individuals
Rate	56.6%	67.8%	77.3%

Recidivism Info - Including Likelihood of Recidivating

 **TalkingPoint!** Additional information regarding regarding the recidivism of individuals booked into KCCF between 2011 and 2013:

- ➔ An offender with an initial 2011 booking event experienced 38 separate bookings between 2011 and 2013.
- ➔ Overall, male offenders were booked an average of 2.0 times and female offenders were booked an average of 1.7 times.
- ➔ Black offenders were booked an average of 2.3 times, hispanic offenders were booked an average of 1.7 times, and white offenders were booked an average of 1.7 times.
- ➔ Average (median) length of time between an offender's first and second bookings was 145.8 days for male offenders and 152.2 days for female offenders.
- ➔ Average (median) length of time between an offender's first and second bookings was 147.0 days for black offenders, 165.7 days for hispanic offenders, and 143.6 days for white offenders.

 **TalkingPoint!** Kent County has continued using an instrument to predict the likelihood that an inmate booked into KCCF will be rebooked into KCCF at some future date. This "Proxy" instrument divides the inmates into three levels, with R1's being the least likely to return to jail, R3's being the most likely to return to jail, and R2's being in the middle. The breakdown of Proxy scores for individuals booked between 2011 and 2013 include - R1: 13.9% // R2: 46.7% // R3: 39.3%

- ➔ Looking at the 975 offenders that received a low category proxy score (R1) from the Recidivism Since 2011 page, male offenders averaged 2.1 bookings while female offenders averaged of 2.2 bookings. Looking at the 2,975 offenders that received a high category proxy score (R3) from the same page, the average number of bookings for both male and female offenders increased to an average of 3.9 bookings.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the Recidivism Since 2011 page, black offenders averaged 2.4 bookings, whites averaged of 2.1 bookings, and hispanics averaged of 1.8 bookings. Switching to the offenders that received a high category proxy score (R3) from the same page, the average for black offenders increases to 4.4 bookings, the average for white offenders increases to 3.5 bookings, and the average for hispanic offenders increases to 3.2 bookings.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the Recidivism Since 2011 page, the average (median) length of time between an offender's first and second bookings was 119.8 days for male offenders and 129.0 days for female offenders. Switching to those offenders receiving a high category proxy score (R3), the average (median) length of time between an offender's first and second bookings decreases to 114.8 days for male offenders and 100.9 days for female offenders.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the Recidivism Since 2011 page, the average (median) length of time between an offender's first and second bookings was 124.3 days for black offenders, 105.6 days for hispanic offenders, and 124.7 days for white offenders. Switching to those offenders receiving a high category proxy score (R3), the average (median) length of time between an offender's first and second bookings decreases to 108.1 days for black offenders and 119.0 days for white offenders while it increases to 122.4 days for hispanic offenders.

 **TrendSpotter!** The numbers below show a very interesting decline in the number of offenders coming to jail for the first time.

2006	13,635 offenders were booked into jail for the first time during 2006
2007	12,920 offenders were booked into jail for the first time during 2007 (5.5% decline from 2006)
2008	10,702 offenders were booked into jail for the first time during 2008 (17.2% decline from 2007)
2009	9,541 offenders were booked into jail for the first time during 2009 (10.8% decline from 2008)
2010	7,894 offenders were booked into jail for the first time during 2010 (17.3% decline from 2009)
2011	7,445 offenders were booked into jail for the first time during 2011 (5.7% decline from 2010)
2012	5,416 offenders were booked into jail for the first time during 2012 (27.2% decline from 2011)
2013	5,070 offenders were booked into jail for the first time during 2013 (6.4% decline from 2012)

Number of Inmates Brought to Jail in the Last 13 Years by the Top Five Arresting Agencies

Most Agencies Reduce Arrests

TrendSpotter! Most of these arresting agencies continued a trend of reduced numbers of offenders they arrested and brought to jail during the year. The peak for Grand Rapids, Kent County and Wyoming was in 2003. Walker and Kentwood peaked in 2006. Kent County and Wyoming were the only ones to see increases this year.

Very Low (9)	U

Midway through 2004 the jail began using a new Jail Management System called JailView. JailView uses the Northpointe® decision tree classification instrument which breaks inmates down into the traditional three categories of Maximum, Medium and Minimum, but it also provides nine levels of sub-categories that are useful for making program and placement decisions. Below is a brief definition of each of the custody levels and the average number and proportion of inmates within each classification.

Custody Level	Definition	Main Jail Males	Main Jail Females	Jail System (M & F)
High (1)	These inmates are in jail on a violent charge, with a prior conviction on a violent charge, and with a record of violent institutional behavior.	1 (0%)	1 (1%)	2 (0%)
Close (2)	These inmates have a combination of two incidents of violence found in either their current charge, past charges or institutional behavior record.	27 (4%)	1 (1%)	28 (3%)
Medium Assaultive (3)	These inmates have one incident of violence in either their current charge, past charge or institutional behavior.	137 (19%)	7 (8%)	144 (18%)
Medium (4)	These inmates are in jail for a serious non-violent felony and/or have institutional behavior problems.	251 (35%)	35 (38%)	286 (35%)
Medium Pre-Sentenced (5)	These inmates are likely prison bound, but they are well behaved and have no record of violence or rule violations.	66 (9%)	5 (5%)	71 (9%)
Minimum Pre-Sentenced (6)	These inmates will likely not go to prison and are well behaved with no record of violence or rule violations.	107 (15%)	19 (21%)	126 (16%)
Minimum (7)	These inmates are fully sentenced to county jail time on a felony charge, have no recent history of violence and are well behaved, but they lack employment or ties to the community.	69 (10%)	9 (10%)	78 (10%)
Low (8)	These inmates are sentenced to the county jail on a felony charge, have no recent record of violence, are well behaved and have employment or local ties to the community.	49 (7%)	13 (14%)	62 (8%)
Very Low (9)	These inmates are sentenced to the county jail on misdemeanor charges, have no recent record of violence, are well behaved and have ties to the community.	7 (1%)	2 (2%)	9 (1%)

Average Length of Stay Depicted as Jail Bed Days

TalkingPoint! This chart shows the concept of average length of stay depicted as Jail Bed Days. Jail Bed Days are an accurate way of displaying the actual impact on jail beds, because it is counting the days that a jail bed is occupied. The chart about shows that although we had 10,737 people who stayed less than one day in jail, they used far fewer jail beds than the 3,263 inmates who stayed 5 to 15 days in jail. In fact, the 959 inmates who stayed 31 to 60 days used the most jail beds. The main interpretation of these data is that the greatest impact on jail capacity would be achieved by concentrating our efforts on reducing the stay of the inmates who are in jail from one to five months. It is that group of inmates who are using most of the jail's beds.

# of Days in Jail	# of Inmates
< 1	10737
1	3144

Reasons Why Inmates are Released and the Percentage of Inmates Released in the Most Common Types of Releases

The Majority of Incoming Inmates Released Back to the Community

TalkingPoint! 85% of the inmates who come into our jail are released directly back into the community. (This chart is based on a sample of nearly 23,000 records in 2013.) Only about 15% get sent to prison or to another agency. Hard data is not available on that 17%, but probably most of those inmates return to our community at some point. It is important to remember that resources devoted to local jail inmates benefit our local communities.

Number of Days Inmates Spend in Jail Before Release

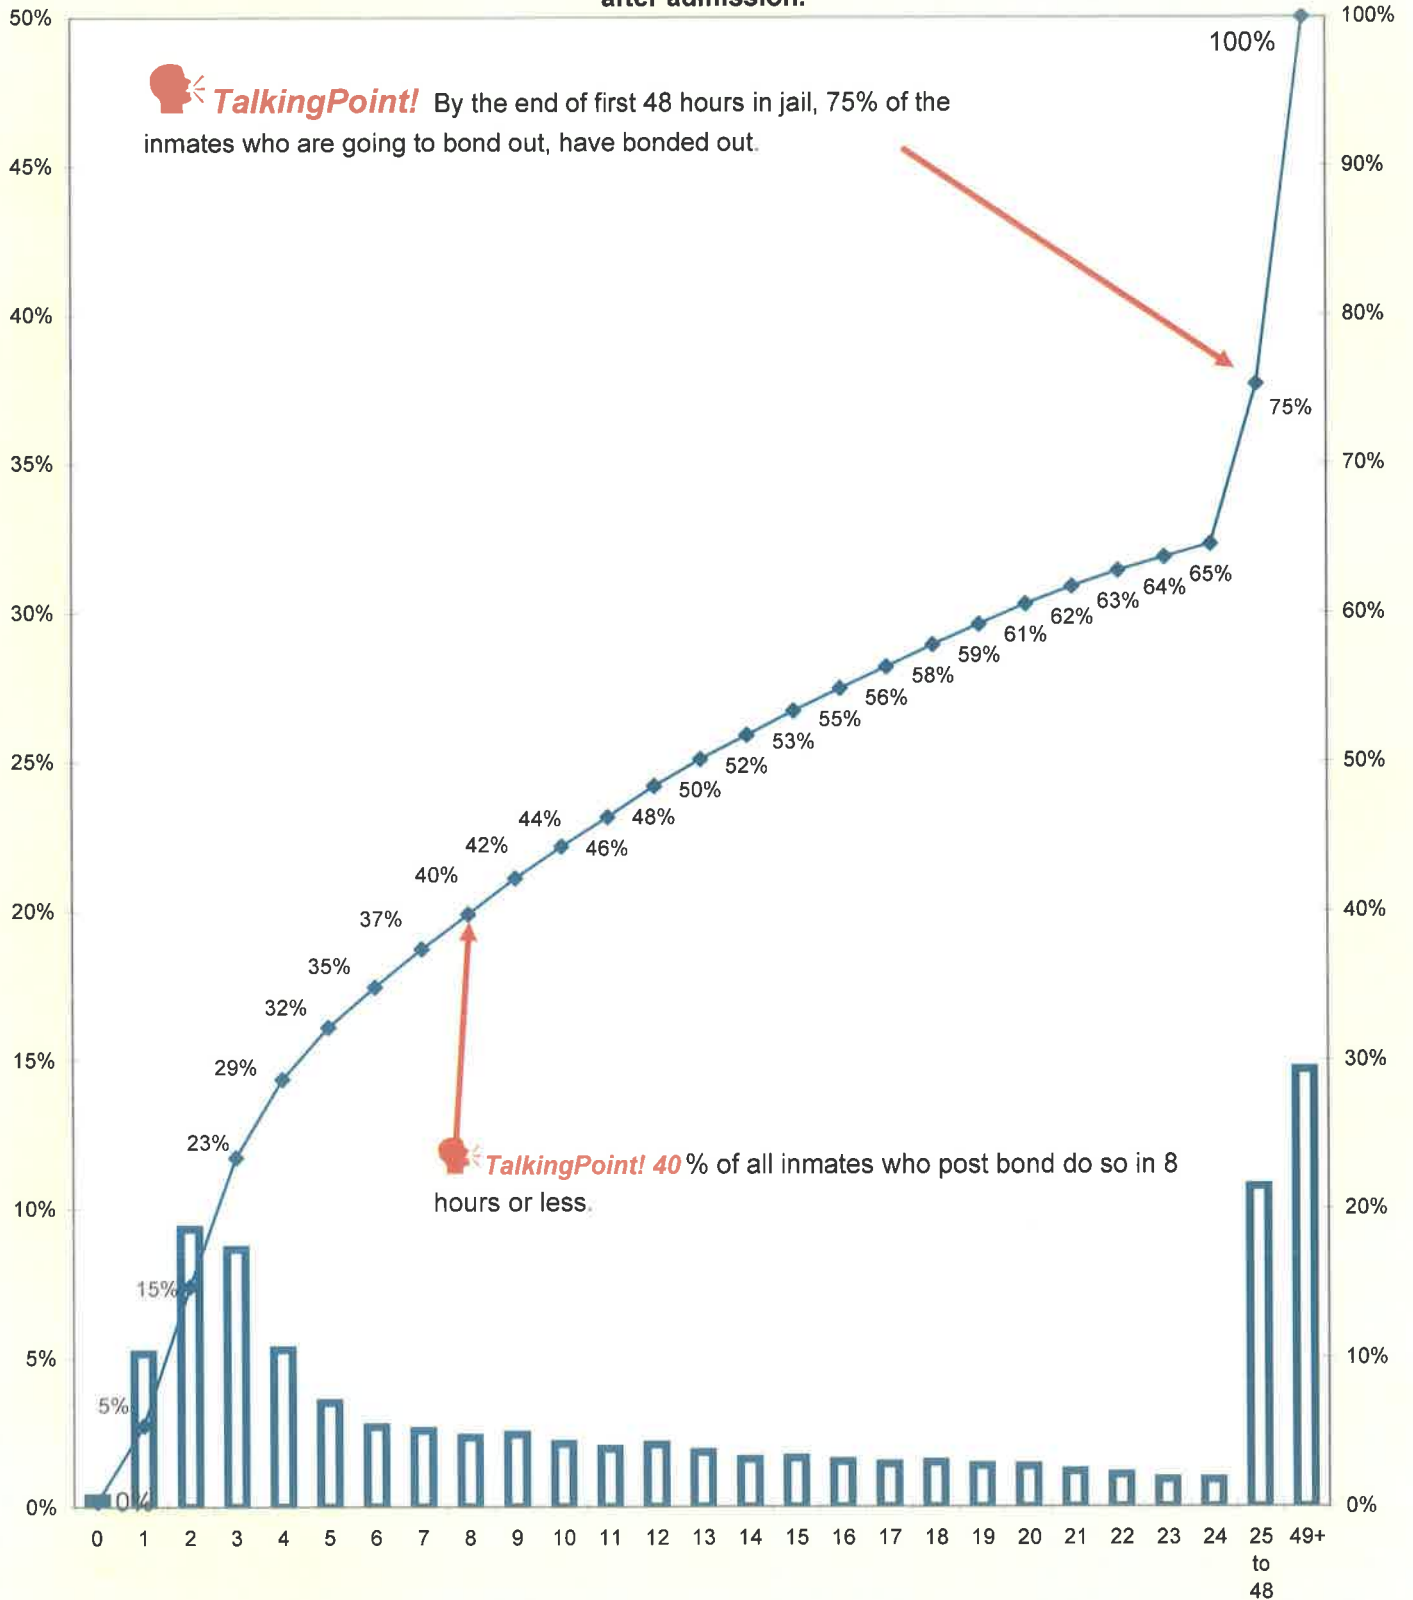

89% of All Inmates Are in Jail Less than 30 Days

Number of Hours Inmates Spend in Jail Before Being Released on Bond

75% of All Inmates Who Post Bond, do so Within the First 48 hours

Of the inmates who post bond, the percentage who bond in 1 hour, 2 hours, 3 hours, etc., after admission.

County Jail Reimbursement Program

Fiscal Year 2013 Update by Andy VerHeek

CJRP reimbursement and eligibility criteria continued in the same manner during FY 2013 that was implemented during FY 2012. The table below shows that Kent County experienced a decrease in the amount of funds received through CJRP from \$928,264.50 in FY 2012 to \$833,855.00.

Reimbursement and eligibility criteria for CJRP continue to include:

1. All counties in Michigan are required to follow the same eligibility and reimbursement criteria.
2. Three different reimbursement amounts are provided and depend upon each offender's sentencing guideline score and type of offense.
4. Save for a few select offenses, a majority of Crime Class F offenses that were ineligible for reimbursement during FY 2012 continue to be ineligible during FY 2013.

In addition to these changes, CJRP monies received by Kent County are impacted by the length of stay in the Kent County Correctional Facility for each offender as well as the jail disposition rate for CJRP-eligible offenders sentenced in Kent County.

FISCAL YEAR	CJRP PAYMENT	TOTAL RECEIVED
1994	\$513,520.00	\$513,520.00
1995	\$863,265.00	\$1,376,785.00
1996	\$764,628.00	\$2,141,413.00

Number of Serious Rule Violations Indexed to Population Most Accurate Way to Depict Change with Changing Inmate Population

	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013		
Jail Bed Days	350,035	338,720	346,750	352,955	366,460	388,360	391,645	387,337	384,134	381,633	372,591	391,755	332,631	352,368	377,752	362,216		
total rule violations	907	692	614	636	612	746	789	827	831	832	788	819	747	819	795	749		
per 1000 Jail Bed Days	2.59	2.04	1.77	1.80	1.67	1.92	2.01	1.92	2.14	2.16	2.18	2.11	2.16	2.09	2.25	2.32	2.10	2.07

With fluctuations in the jail population, converting Incident Based data to the number of rule violations committed per 1000 Jail Bed Days gives a more accurate picture of inmate behavior.

Total Number of Category 1, 2 and 3 Rule Violations in the Last Eleven Years

These graphs show the number of Category 1, 2, and 3 reports per year for the last few years. We have three levels of disciplinary rule violations in the jail. The most minor rule violations are Category 1 violations. Category 2 violations are more serious and Category 3 violations are the most serious. Our disciplinary philosophy is that we would rather deal with an inmate's misbehavior while it is still minor, which is why there are more Category 1 violations than 2's, and more 2's than 3's. Inmates committing Category 2 and 3 violations go to the jail's Disciplinary Segregation Unit to complete their disciplinary sanctions. This chart includes only those rule violations that occurred in the Main Jail.

Gang Admissions Past Twelve Years

total	174	155	151	115	120	108	194	200	164	176	151	128	135	125	118

Each of the inmate rule violations is identified as targeting one of five types of unwanted behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **antisocial behavior**.

Index of Destructive Inmate Behavior

Grouping of Rule Violations that Have to Do with Damaging Property

"Destructive" acts	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **noncompliant behavior**.

Index of Security Related Inmate Behavior

Grouping of Rule Violations Relating to Facility Security

total	230	203	229	244	304	243	232	235	293	332	269	282	253	319	199

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **violent behavior**.

2013 was the lowest level of violent behavior in over 15 years

Comparison - Index of Inmate Behavior

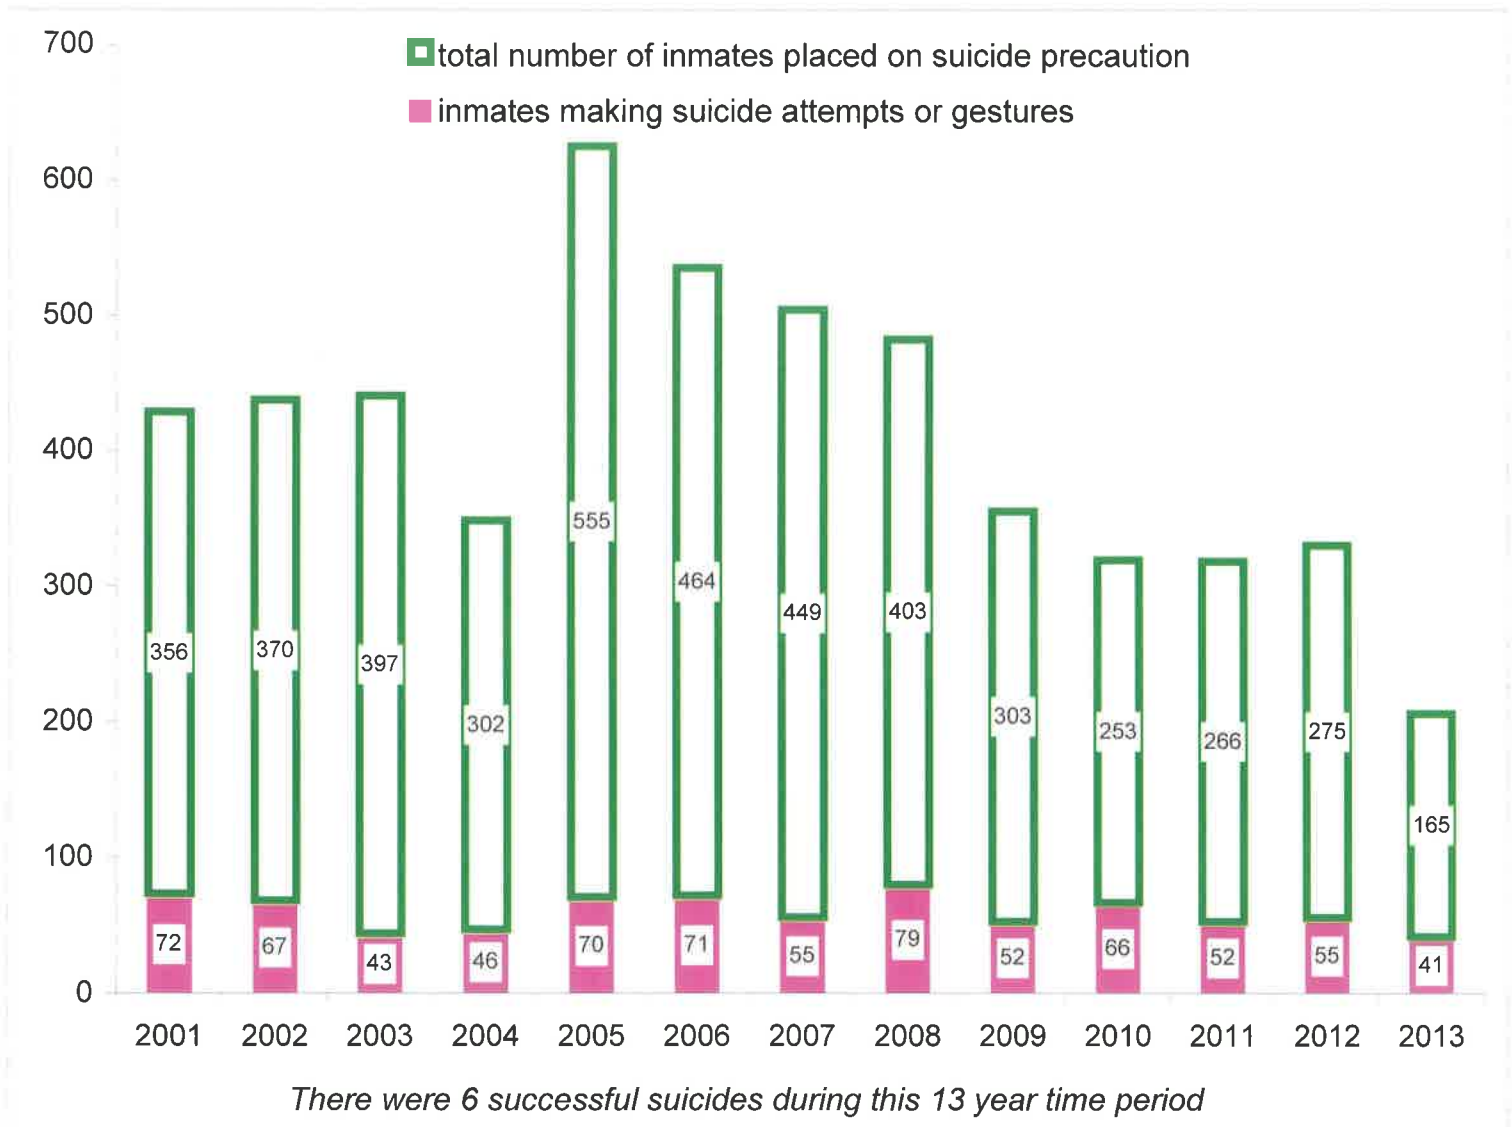

Compilation of the Previous Five Charts

This chart shows all five of the inmate behavior index's and how they performed over the last 15 years. This is a compilation of the data used in the previous five charts. Each category showed significant variation over this period. Keep in mind that the overall number of inmates in the Sheriff's custody decreased during the last few years.

Suicide Attempts or Gestures Compared with the Total Number of Suicide Precautions

KCCF 2001 through 2013

	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013
inmates making suicide attempts or gestures	72	67	43	46	70	71	55	79	52	66	52	55	41
total number of inmates placed on suicide precaution	356	370	397	302	555	464	449	403	303	253	266	275	165

Our highest level of suicide precaution places inmates in a cell under constant video surveillance. We track how inmates get placed on that level of observation. Either they have made a suicide attempt or gesture, or they have made a suicidal threat to a staff person, or they have been judged to be suicidal following an interview by one of our mental health professionals. The chart above depicts the total number of "S-3's" (the highest level of precaution) and of that number, the number that were declared S-3's because of an actual in-progress attempt to harm themselves, either by hanging, an overdose, cutting themselves, jumping from a height, drowning in a toilet, banging their head, or some other means. These data shows that the jail deputies intervene in a little less than one suicide attempt each week.

Inmate Behavior per Pod or Housing Unit

Minimum Custody Inmates Continue to be Best Behaved

Housing Unit	Number of Cat 2/3's	Index of Population
D1A Male Administrative Segregation	25	1.389
D1B Med-Asslt / Close Male	17	1.214
D3A - Medium Males	77	1.203
D1F Med-Asslt/Close Male	13	0.813
B2G Male Mental Health Unit	30	0.769
H2C Med/Min Male Trustees	48	0.750

B3B Medium/Minimum Female Pod	19	0.297
M1 Med Asslt Male	19	0.297
H2A Minimum Males	17	0.266
L1 Male Classification Pod	17	0.266
B2F BLP Program Pod - Med/Min Males	8	0.250
B3D Female Minimum & Program	7	0.219
H2B Medium Males	11	0.172
D1A Male Disciplinary Segregation	5	0.167
B3G Female Classification Pod	3	0.094

We have a number of separate housing units in the mail jail (their designations appear in the first column). We keep track of the number of inmates who must be moved out of each housing unit and placed in Disciplinary Segregation for a category 2 or 3 violation. We divide the number of rule violations by the number of inmates living in the housing unit to get an index for comparison purposes (this is the number in the third column). The lower the index, the better behaved the housing unit is. As you can tell from this table, the minimum (MINM) custody housing units are generally better behaved than the medium (MEDM) custody units, which are better behaved than the maximum (MAXM) custody units. The classification pods hold inmates who have not yet been assigned a custody level. The "Male Mental Health Unit" houses inmates with serious mental illness.

Number of Fights by Housing Unit

Many fights occur in higher custody levels

TalkingPoint! We no longer have the old linear jail which was removed in December 2012. The entire facility, with the exception of D1, B2 and B3, is now direct supervision. Just over 50 % of our fights occur in non-direct supervision areas in the 1992 Jail. 80% of our fights occur in Medium and Maximum custody areas.

Responses to Medical Survey Completed in Intake by Nurse

Question	% of Yes	% of No
1. Do you have any current or past medical illness or health condition?	26.65%	73.35%
2. Do you have seizures or epilepsy?	2.58%	97.42%
3. Do you have asthma?	7.93%	92.07%
4. Do you have diabetes?	3.45%	96.55%
5. Do you have hepatitis?	1.88%	98.12%
6. Do you have HTN?	7.61%	92.39%
7. Do you have a heart condition?	2.64%	97.36%
8. Do you have an abnormal skin condition?	2.88%	97.12%
9. Do you have allergies?	18.74%	81.26%
10. Are you currently pregnant?	1.05%	98.95%
11. Have you given birth within the last 6 weeks?	0.20%	99.80%
12. Do you suffer from gynecological problems?	0.41%	99.59%
13. Have you recently had a head injury?	1.35%	98.65%
14. Do you have any infected wounds?	0.83%	99.17%
15. Do you have any dental problems?	10.15%	89.85%
16. Are you vomiting?	0.29%	99.71%
17. Have you been hospitalized due to a medical condition within the past month?	4.18%	95.82%
18. Are you currently receiving treatment for a medical condition?	13.53%	86.47%
19. Are you taking any medications?	26.81%	73.19%
20. Are you under a physician's care?	21.93%	78.07%
21. Is there anything else we need to know about your medical health history?	3.67%	96.33%
22. Do you want a jail physical?	20.40%	79.60%
23. Do you have any current or past history of an infectious disease?	1.15%	98.85%
24. Do you have any current or past history of TB?	1.03%	98.97%
25. Current symptoms of TB?	0.04%	99.96%
26. Current symptoms of TB - Chronic cough w/ blood? Are you coughing up blood?	0.04%	99.96%
27. Current symptoms of TB - Have you had recent weight loss?	0.08%	99.92%
28. Current symptoms of TB - Have you had a recent appetite loss?	0.05%	99.95%
29. Current symptoms of TB - Do you have a fever?	0.02%	99.98%
30. Current symptoms of TB - Do you have night sweats?	0.13%	99.87%
31. Current symptoms of TB - Do you have fatigue?	0.05%	99.95%
32. Do you have any current sexually transmitted illnesses?	0.55%	99.45%
33. Do you currently have crabs?	0.01%	99.99%
34. Do you have currently have scabies?	0.02%	99.98%
35. Is there anything else we need to know about your infectious disease history?	0.19%	99.81%
36. Is the inmate oriented x 3	99.66%	0.34%
37. Normal gait?	98.61%	1.39%
38. Normal breathing?	99.63%	0.37%
39. Normal skin appearance?	96.61%	3.39%
40. Tremors?	0.55%	99.45%
41. Sweating?	0.09%	99.91%
42. Anxious?	0.69%	99.31%
43. Disheveled?	0.43%	99.57%
44. Lethargic?	0.38%	99.62%

Is the inmate orientated to person, place and time?	97.8%	94.7%	96.0%	97.9%	93.7%	98.1%		
Have you ever experienced auditory, visual, olfactory, or tactical hallucinations?	2.9%	2.6%	2.5%	2.4%	2.4%	3.0%	0.7%	0.4%
Has inmate ever had or experienced delusional	0.3%	0.3%	0.3%	0.2%	0.2%	0.4%	0.1%	0.0%

 **TalkingPoint!** Every offender brought to jail is evaluated by a medical professional while still in Intake. The percentage of the mental health survey questions that were answered YES appear on this table. The data in this table is based on the approximately 24,000 offenders each year who came to jail during these years. The form changed which is why there are now some blanks.

Inmate Needs Reported in Classification Interview

Offenders Come to Jail with a Number of Needs

Question:	% Yes	% No
1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing?	24.5%	75.5%
2. MENTAL STABILITY: Does this inmate have mental health problems, including suicidal ideation, that would affect their housing?	16.5%	83.5%
3. ALCOHOL ABUSE: Does the inmate admit to having an alcohol problem, or does the inmate appear to have an alcohol problem in your judgement?	27.8%	72.2%
4. DRUG ABUSE: Does the inmate admit to a drug problem, or does the inmate appear to have a problem with drugs in your judgement?	28.2%	71.8%
5. PAST TREATMENT: Does the inmate indicate past treatment for their drug or alcohol problem? If so, record where, when, and if they are interested in continuing treatment.	31.9%	68.1%
6. EDUCATIONAL HISTORY: Does the inmate have a GED or a high school diploma? If not, is the inmate interested in continuing their education in the main jail or honor camp?	65.4%	34.6%
7. VOCATIONAL SKILLS: Does the inmate have a marketable skill or trade that is used to support himself and his family? (Answer "Yes" if this is true, and "No" if the inmate has no skills, limited training, or little or no employment history.)	21.5%	78.5%
8. LITERACY: Can this inmate read and write the English language?	92.4%	7.6%

TalkingPoint! These numbers represent the percentage of inmates in population who admit these needs to a classification officer. This information is based on the self report of the inmates during their classification interviews this year. It is not based on a clinical assessment and the report is not verified independently. This reflects an inmate's "admission" only. Not all inmates honestly report their needs at the classification interview. All inmates who stay in jail longer than 3 days are given a classification interview.

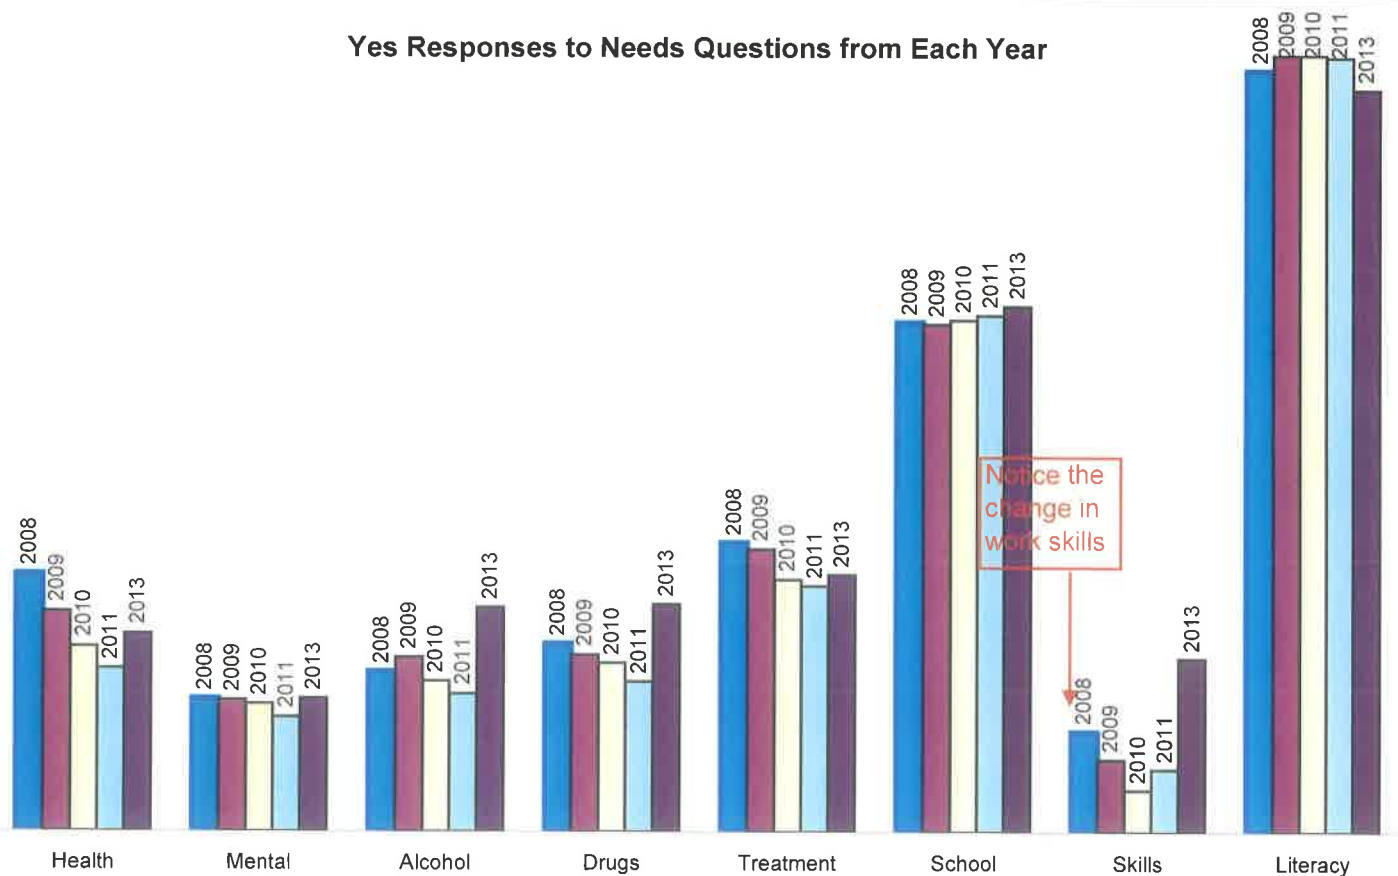

Inmate Needs Reported in Prior Years

Offenders' Needs Remain Steady

Question:	2008	2009	2010	2011	2012	2013
1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing?	31.9%	27.3%	22.9%	20.2%	21.9%	24.5%
2. MENTAL STABILITY: Does this inmate have mental health problems, including suicidal ideation, that would affect their housing?	16.4%	16.3%	15.8%	14.2%	15.5%	16.5%
