

“Measuring What Matters”

Kent County Correctional Facility 2014 Annual Statistical Report

<http://www.accesskent.com/Sheriff/reports.htm>

**Published on
April 20, 2015**

KENT COUNTY SHERIFF DEPARTMENT
Lawrence A. Stelma – Sheriff

701 Ball Avenue, N.E. • Grand Rapids • Michigan • 49503

April 2015

Our facility continues to improve on its performance and become an even safer place for not only our staff and the inmates but also for the community. The majority of our facility is direct supervision and this continues to progress and provide better communication and observation of our inmate population. Some statistics that have contributed or shown that the facility is a safer place than it was one year ago:

- For the second straight year the number of fights are down. There were only 90 fights this past year. This is down considerably from 2012 when there were 211 fights.
- There was only one inmate written up for having a weapon in their possession. This is a good indicator if the inmates feel unsafe. If they feel unsafe they will arm themselves. Back in 2003 when we had 185 fights and another 62 assaults on others, we had 13 weapon violations.
- Staff assaults are also down. We had only two assaults on staff this past year. Last year and the year before we had 7 each year.
- Our average daily population has been down considerably this past year. Our average daily population was only 922 which is down from 992 the previous year. This also has a huge impact on inmate behavior. These lower numbers create less stress for the inmates and staff.

It is a pleasure to present this Annual Statistical Report for the year 2014. The goal is to provide accurate, interesting and representative information to Sheriff's Department staff, criminal justice planners, and community members who are interested in the operation of the county jail. I trust you will find this report to be a helpful source of data in the months ahead.

The report is organized to make the information accessible to the readers. You will notice that it has three general types of statistics. Inmate profile statistics depict an overall profile of the inmate population and correctional facility staff. Inmate population statistics address the topics of how many inmates are coming in, where are they coming from, why they are here, how long are they staying, and some of the programs and services provided to them. Incident statistics allow us to evaluate the behavior of the inmate population while they are in jail.

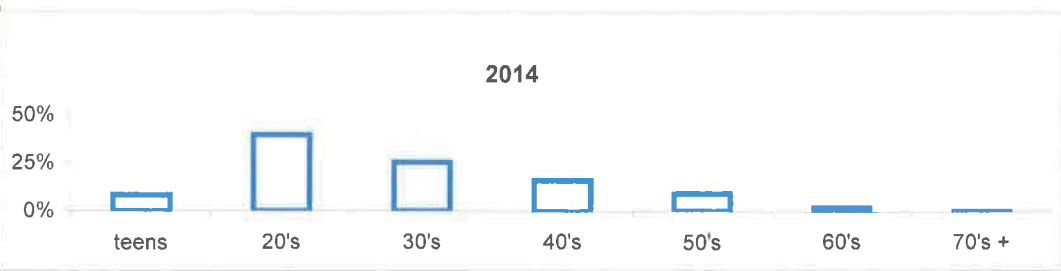

The aim is to make these reports as functional as possible by including only the information that seems to be of general interest. I realize that this document will not answer every question. If you have further questions, please contact me and I will try to provide any additional information you need about the inmate population or facility operation. I value your **comments** and suggestions for future reports.

Sincerely,

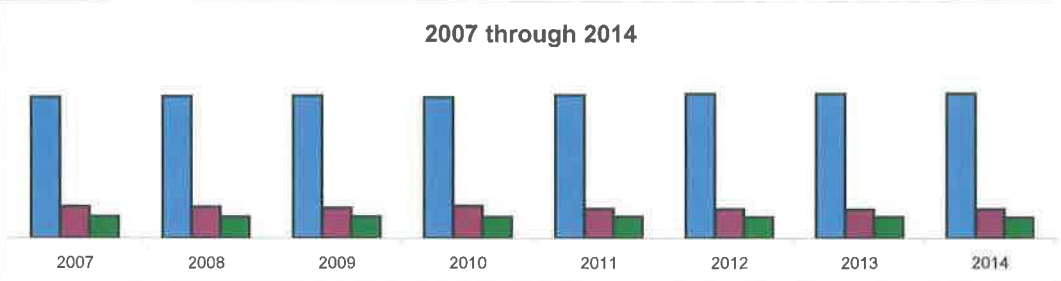

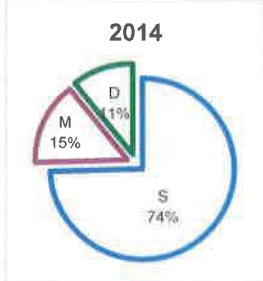

CAPT. Mark Neumen
Captain Mark Neumen

Interesting Random Facts About KCCF Inmates

| Offender characteristics | male | female | together |
|---|---------------------------|----------------------------|---|
| ? Average age | 33 | 32 | 33 |
| ? Average number of kids | 1.74 | 2.07 | 1.82 |
| ? Average grade completed | 12.28 | 11.93 | 12.02 |
| ? Admit to belonging to a gang | 7.2% | 0.8% | 5.6% |
| ? Percentage who are born in the USA | 96.4% | 99.3% | 97.1% |
| ? Besides USA, 2nd most common country of birth | | Mexico (261) | |
| ? Besides USA, 3rd next most common country of birth | | Guatamala (67) | |
| ? Most frequently claimed occupation | | unemployed (8,075) | |
| ? 2nd most frequently claimed occupation | | general (3,955) | |
| ? 3rd most frequently claimed occupation | | none (3,411) | |
| ? 4th most frequently claimed occupation | | factory (1,499) | |
| ? 5th most frequently claimed occupation | | other (2,235) | |
| ? 6th most frequently claimed occupation | | food service (1,235) | |
| ? 7th most frequently claimed occupation | | construction (861) | |
| ? Least claimed occupation | | Legal (4) | |
| ? Most frequently claimed religion | | none (12,250) | |
| ? 2nd most frequently claimed religion | | protestant (8,386) | |
| ? 3rd most frequently claimed religion | | catholic (2,415) | |
| ? 4th most frequently claimed religion | | muslim (290) | |
| ? Most frequently claimed military service | | none (18,222) | |
| ? 2nd most frequently claimed service | | Army (526) | |
| ? 3rd most frequently claimed service | | Navy (205) | |
| ? 4th most frequently claimed service | | Marines (204) | |
| ? Besides MI, 2nd most common state of birth | | Illinois (837) | |
| ? Besides MI, 3rd most common state of birth | | Mississippi (365) | |
| ? Besides MI, 4th most common state of birth | | California (325) | |
| Number of repeat offenders each year | 1 or more times this year | 10 or more times this year | Most times in jail this year for 1 person |
| ? Number of individual offenders who were admitted to jail in 2007 (out of 29,034 total admissions) | 21,536 | 21 | 17 |
| ? Number of individual offenders who were admitted to jail in 2008 (out of 29,844 total admissions) | 18,922 | 27 | 15 |
| ? Number of individual offenders who were admitted to jail in 2009 (out of 29,303 total admissions) | 19,248 | 12 | 19 |
| ? Number of individual offenders who were admitted to jail in 2010 (out of 26,180 total admissions) | 17,511 | 12 | 19 |
| ? Number of individual offenders who were admitted to jail in 2011 (out of 25,013 total admissions) | 17,435 | 18 | 22 |
| ? Number of individual offenders who were admitted to jail in 2012 (out of 24,804 total admissions) | 17,324 | 12 | 28 |
| ? Number of individual offenders who were admitted to jail in 2013 (out of 23,525 total admissions) | 16,741 | 8 | 14 |
| ? Number of individual offenders who were admitted to jail in 2014 (out of 23,432 total admissions) | 19,094 | 20 | 16 |

Correctional Facility Employee Profile

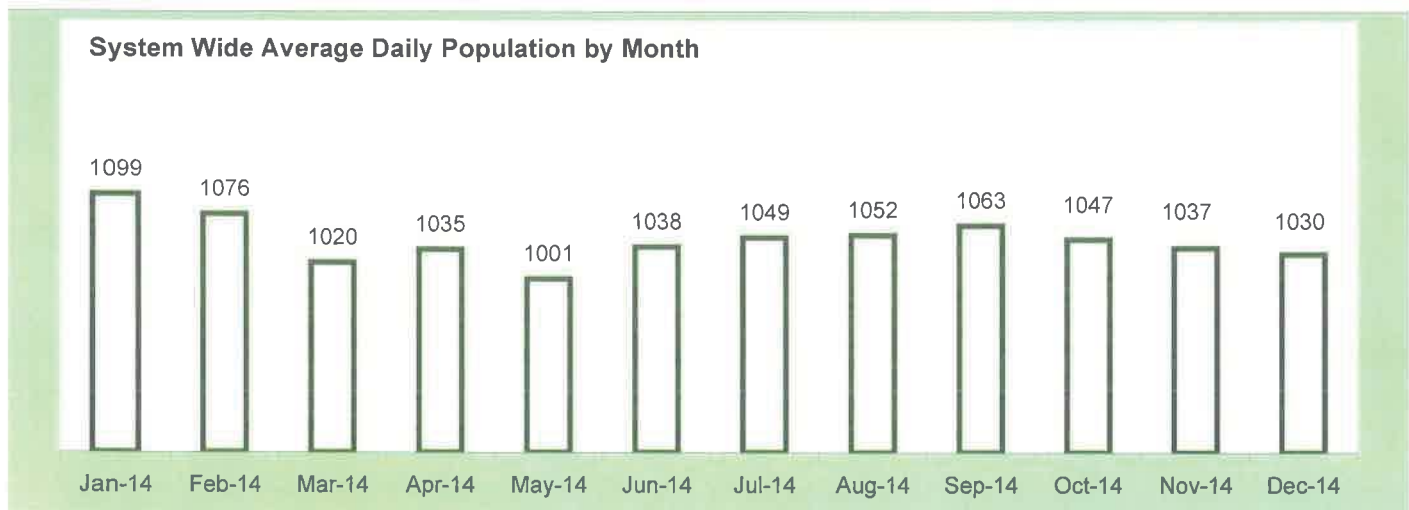

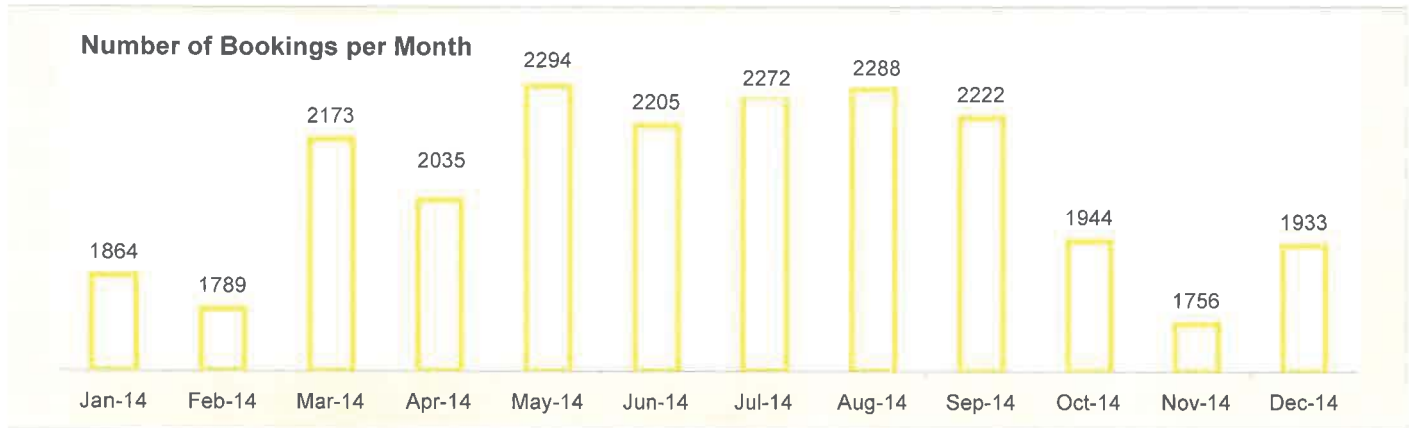

| Category | Total | % of total |
|--|-------|------------|
| Number of persons employed in the jail system as of January 1, 2015 | 262 | |
| Number of male employees | 187 | 71.37% |
| Number of female employees | 75 | 28.63% |
| Average age of employees | 42.12 | |
| Average age of male employees | 41.94 | |
| Average age of female employees | 42.58 | |
| Average years of seniority | 13.26 | |
| Average years of seniority of male employees | 13.29 | |
| Average years of seniority of female employees | 13.18 | |
| Racial breakdown - White | 206 | 78.63% |
| Racial breakdown - Black/African American | 28 | 10.69% |
| Racial breakdown - Asian | 3 | 1.15% |
| Racial breakdown - American Indian/Alaskan Native | 2 | 0.76% |
| Racial breakdown - Hispanic/Latino | 19 | 7.25% |
| Racial breakdown - 2 or more races | 4 | 1.53% |
| Type of Employee - Supervisory | 24 | 9.16% |
| Type of Employee - Deputies | 199 | 75.95% |
| Type of Employee - Administrative Support Personnel | 19 | 7.25% |
| Type of Employee - Other Personnel | 20 | 7.63% |
| Number of deputies who resigned in 2014 | 5 | |
| Number of deputies who retired in 2014 | 4 | |
| Number of deputies who were terminated in 2014 | 4 | |
| Turnover rate of deputies in 2014 | | 6.53% |
| Profile of Correctional Officers hired this year | | |
| Number of deputies hired in 2014 | 14 | |
| Number of deputies hired in 2014 with Military experience | 2 | |
| Number of deputies hired in 2014 with some college | 0 | |
| Number of deputies hired in 2014 with 2 year degree | 2 | |
| Number of deputies hired in 2014 with 4 year degree | 11 | |
| Gender of newly hired deputies - male | 11 | |
| Gender of newly hired deputies - female | 3 | |
| Race of newly hired deputies - White | 13 | |

| Race of newly hired deputies - Asian | 0 | |
| Race of newly hired deputies - American Indian/Alaskan Native | 0 | |
| Race of newly hired deputies - Hispanic/Latino | 0 | |
| Correctional Officers have been hired between July 1998 and this year | | |
| Number hired in this time period (last sixteen years) | 175 | |
| Number with a 4 year degree | 115 | |
| Number with a 2 year degree | 44 | |
| Number with Military experience | 10 | |
| Number with past Correctional experience | 10 | |
| Number who were employed in other KCCF positions when they applied | 7 | |
| Other | 1 | |

 **Talking Point!** The information contained in the table above was correct as of January 1, 2015. It should be noted that our deputy turnover rate is low when compared with other jails our size around the country. Turnover rates in jails of 10% to 15% are not uncommon, and rates of 25% and higher are sometimes reported.

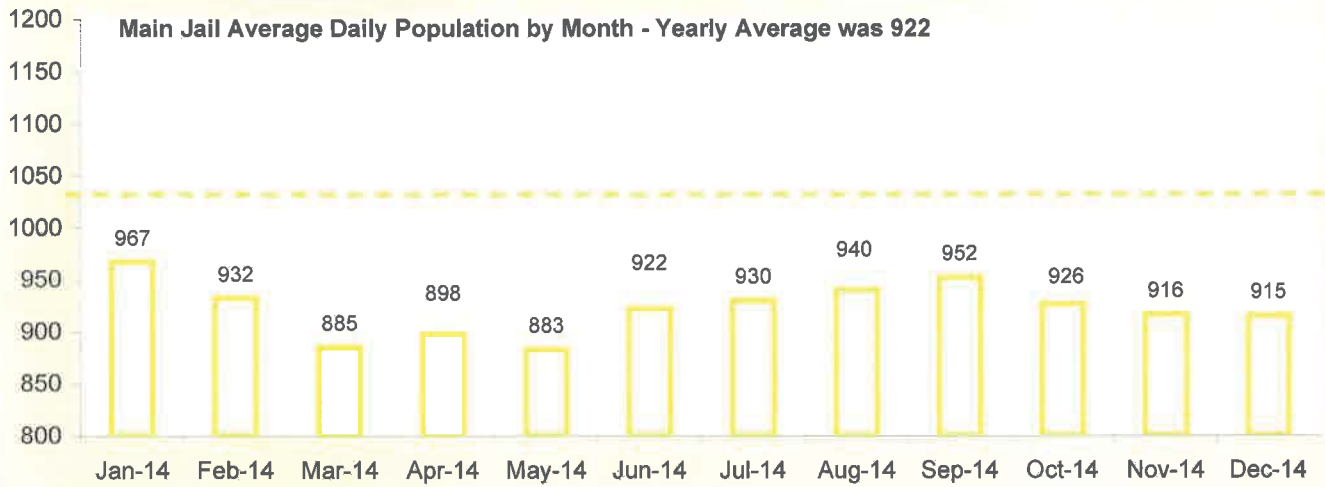

Booking and Population Statistics

Monthly Averages Vary Widely

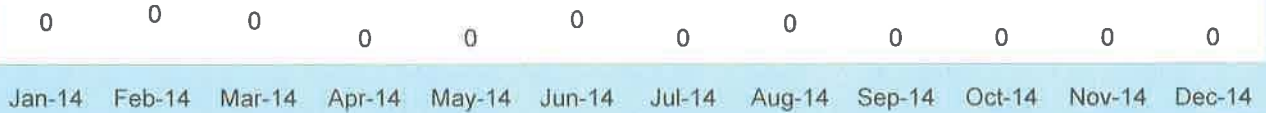

| | bookings per day | bookings per month | total bookings for 2014 | average daily population for the MJ, HC & CRC |
|---------|------------------|--------------------|-------------------------|---|
| Average | 67 | 2,047 | | 1,045 |
| Minimum | 56 | 1,682 | | 1,001 |
| Maximum | 74 | 2,288 | | 1,099 |
| Range | 18 | 606 | | 98 |
| | | | 24,775 | |

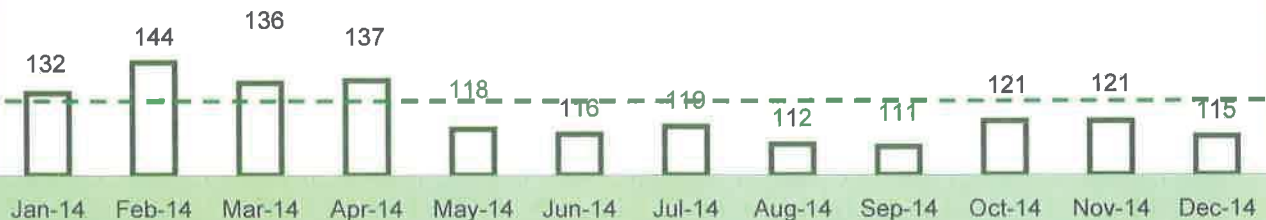

The Average Daily Population of the Main Jail, Honor Camp, and the Community Reentry Center

Honor Camp Average Daily Population by Month - Honor Camp still empty this year

Community Reentry Center Average Daily Population by Month - Yearly Average was 123

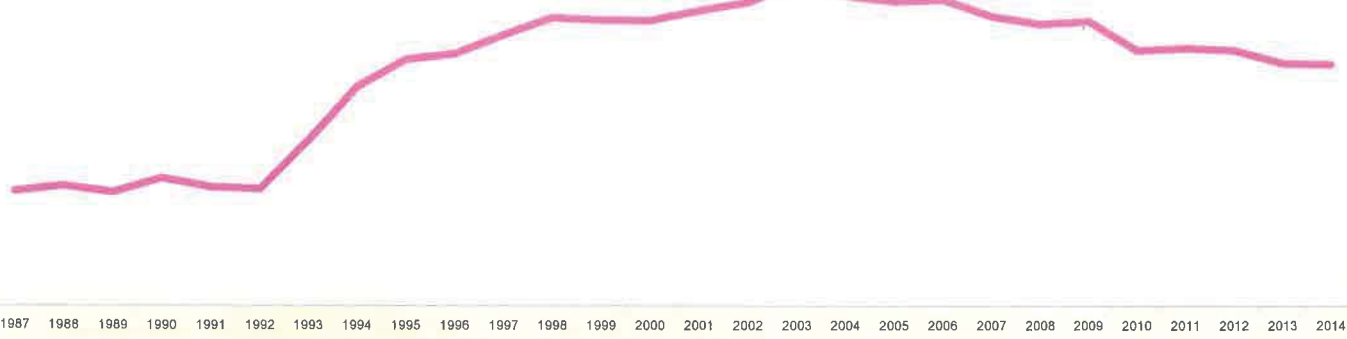

TrendSpotter!

The average population for the Main Jail in the year before (2013) was 992. The average population for the Camp was 0 and the average population for the Community Reentry Center was 127 in 2013. There was a significant drop in ADP in the Main Jail in 2014.

The Number of Inmates Brought to Jail per Year

Continued decline in Admissions (1,351 fewer)

Annual Bookings from 1987 through 2014

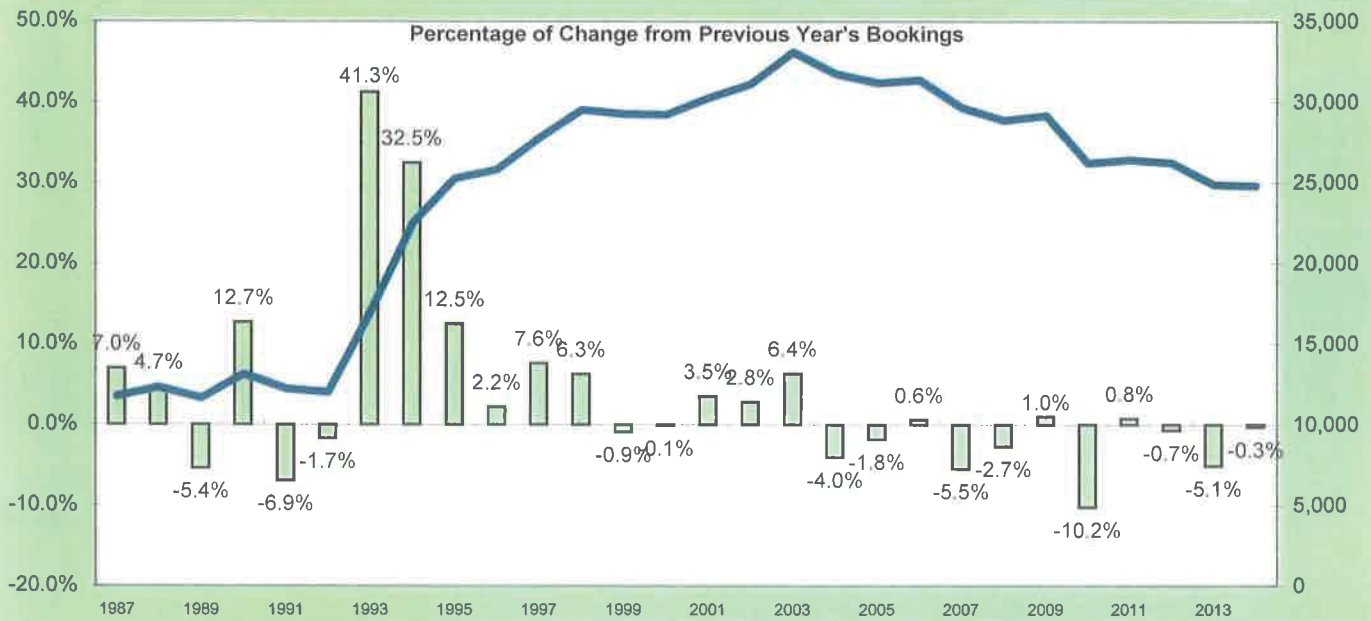

Annual Bookings from 1996 through 2014 (with trend line)

TrendSpotter! 2014 was the lowest amount of bookings in over 20 years.

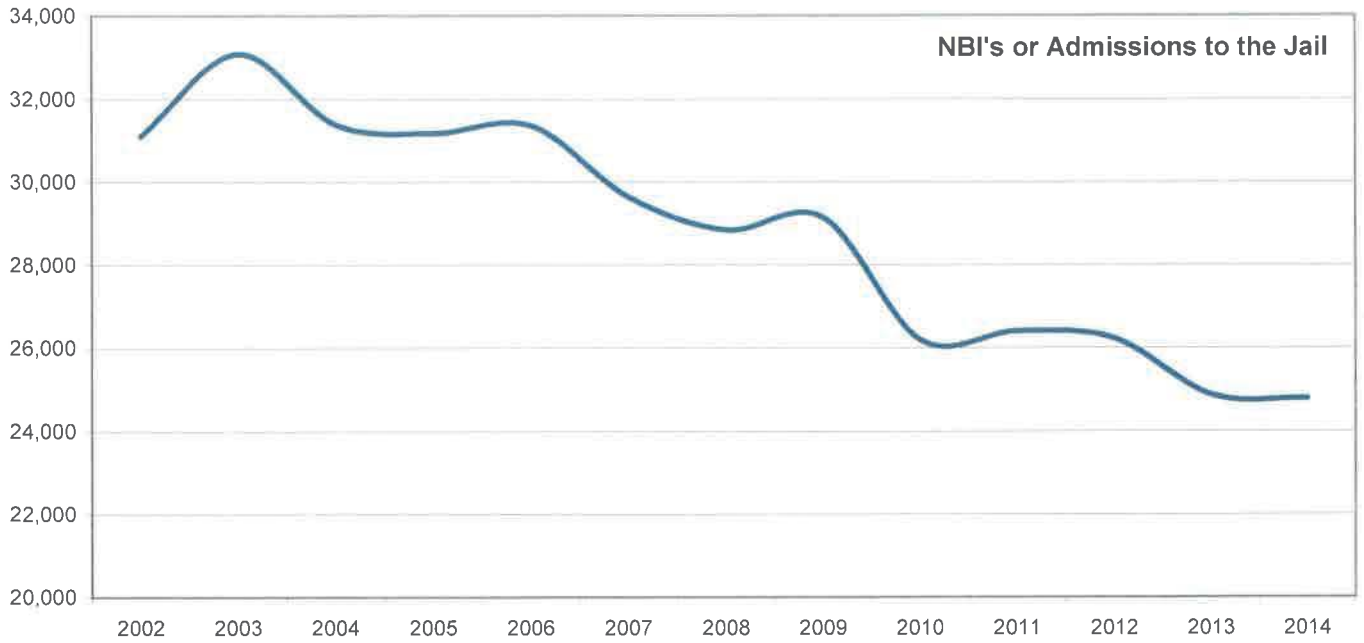

Percentage of Change from Previous Year's Bookings

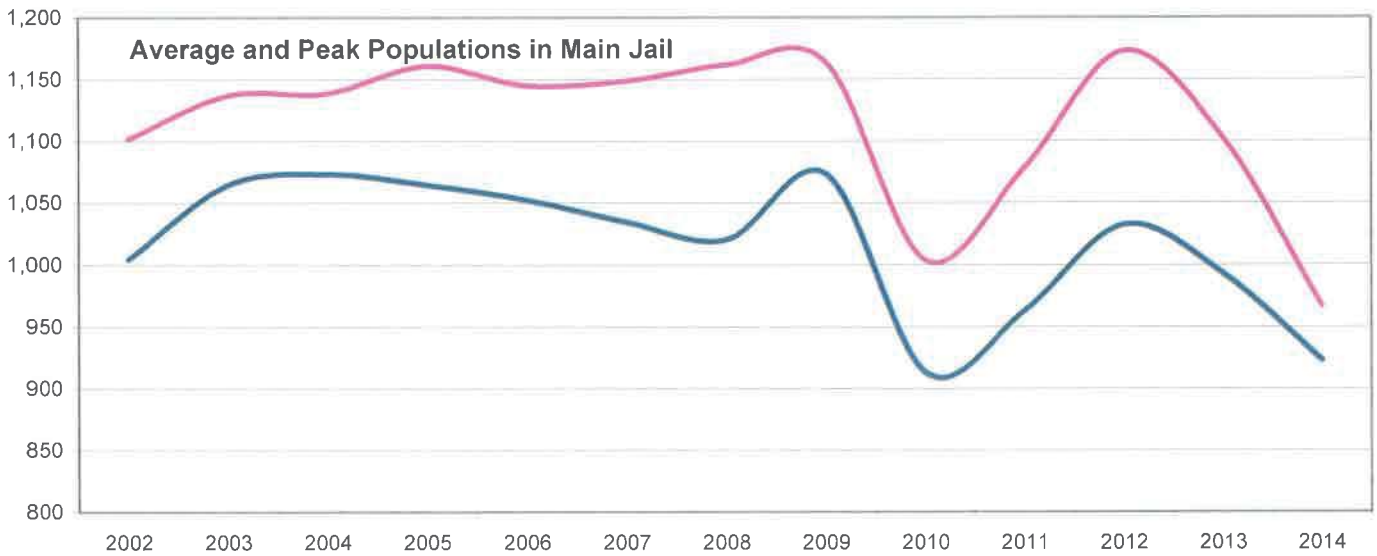

TrendSpotter! This chart shows the number of bookings each year (blue line) with the % of increase or decrease from the previous year (green bar). We experienced a 0.3% decrease in 2014.

Number of Bookings and MJ Average / Peak Populations

| year | 2002 | 2003 | 2004 | 2005 | 2006 | 2007 | 2008 | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 |
|------------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| NBI | 31,088 | 33,072 | 31,373 | 31,164 | 31,354 | 29,635 | 28,844 | 29,135 | 26,180 | 26,400 | 26,211 | 24,860 | 24,775 |

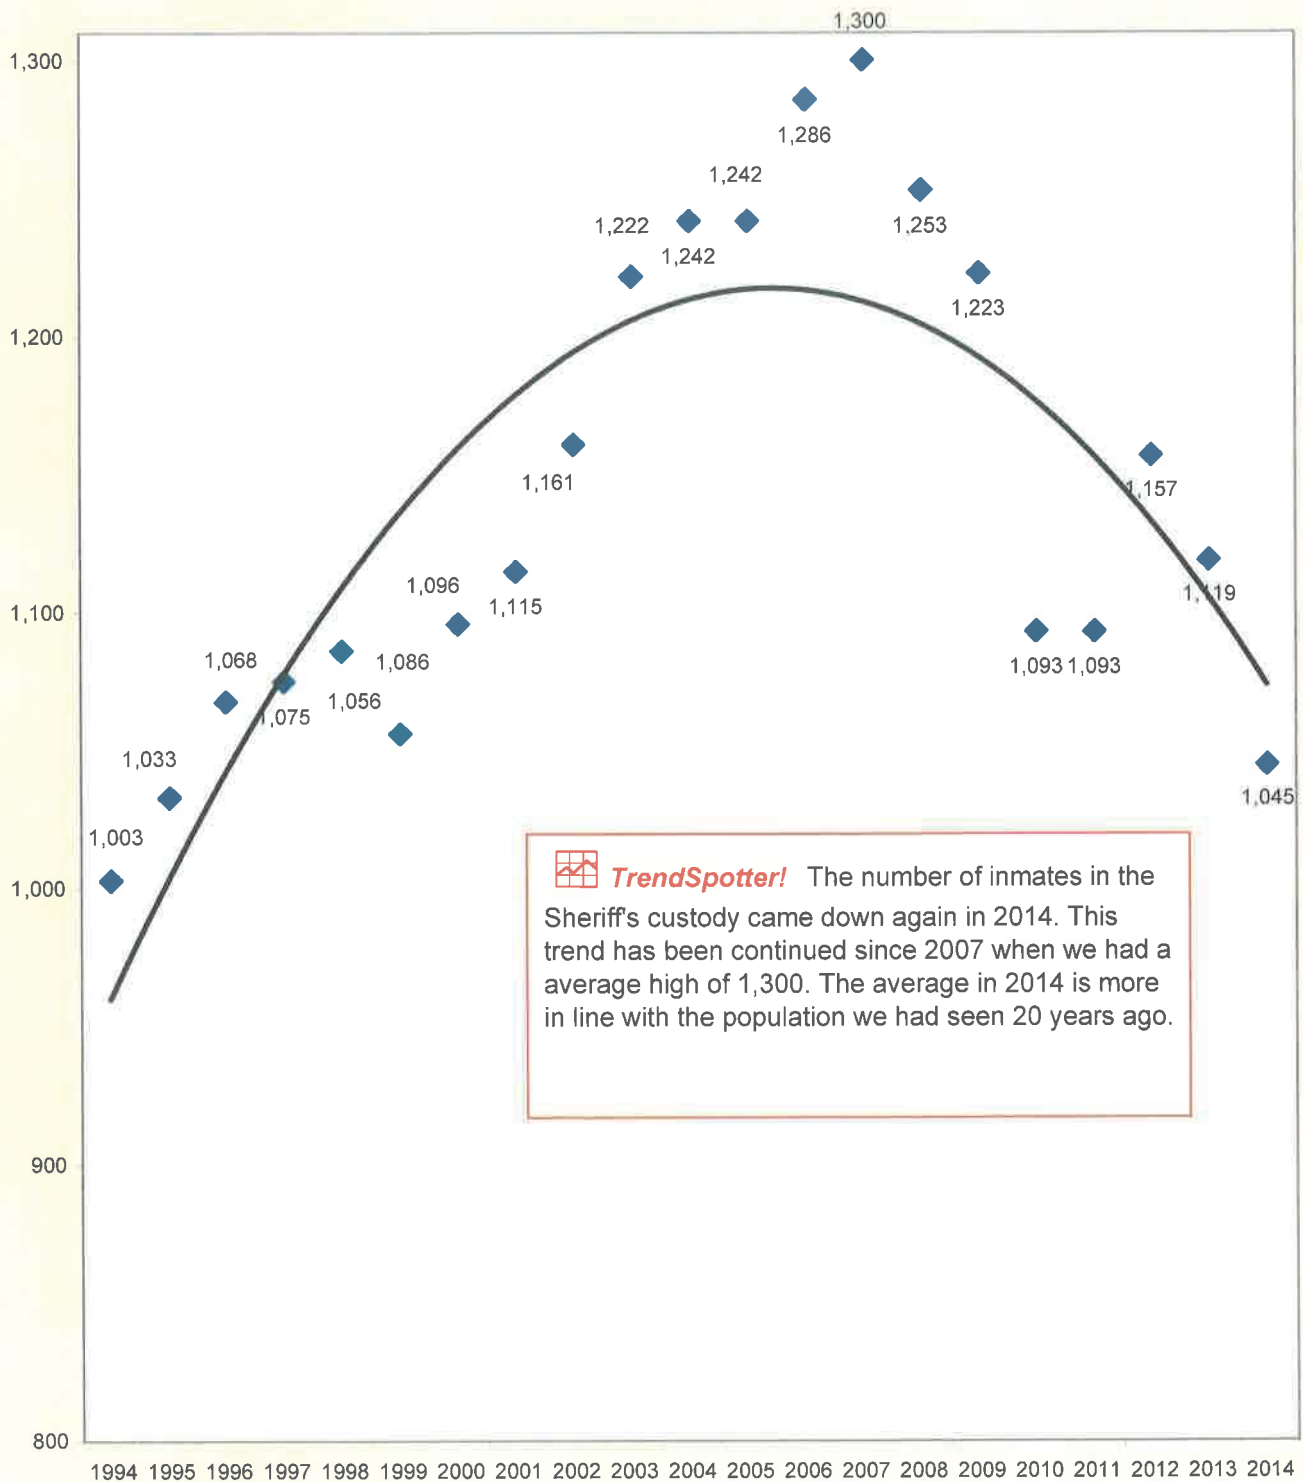

| year | 2002 | 2003 | 2004 | 2005 | 2006 | 2007 | 2008 | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 |
|---------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|------|
| ADP | 1,004 | 1,064 | 1,073 | 1,064 | 1,052 | 1,034 | 1,020 | 1,073 | 912 | 963 | 1,032 | 992 | 922 |
| Peak | 1,102 | 1,137 | 1,139 | 1,161 | 1,145 | 1,149 | 1,162 | 1,164 | 1,004 | 1,079 | 1,173 | 1,103 | 967 |
| + or - | 9.8% | 6.9% | 6.2% | 9.1% | 8.8% | 11.1% | 13.9% | 8.5% | 10.1% | 12.0% | 13.7% | 11.2% | 4.9% |

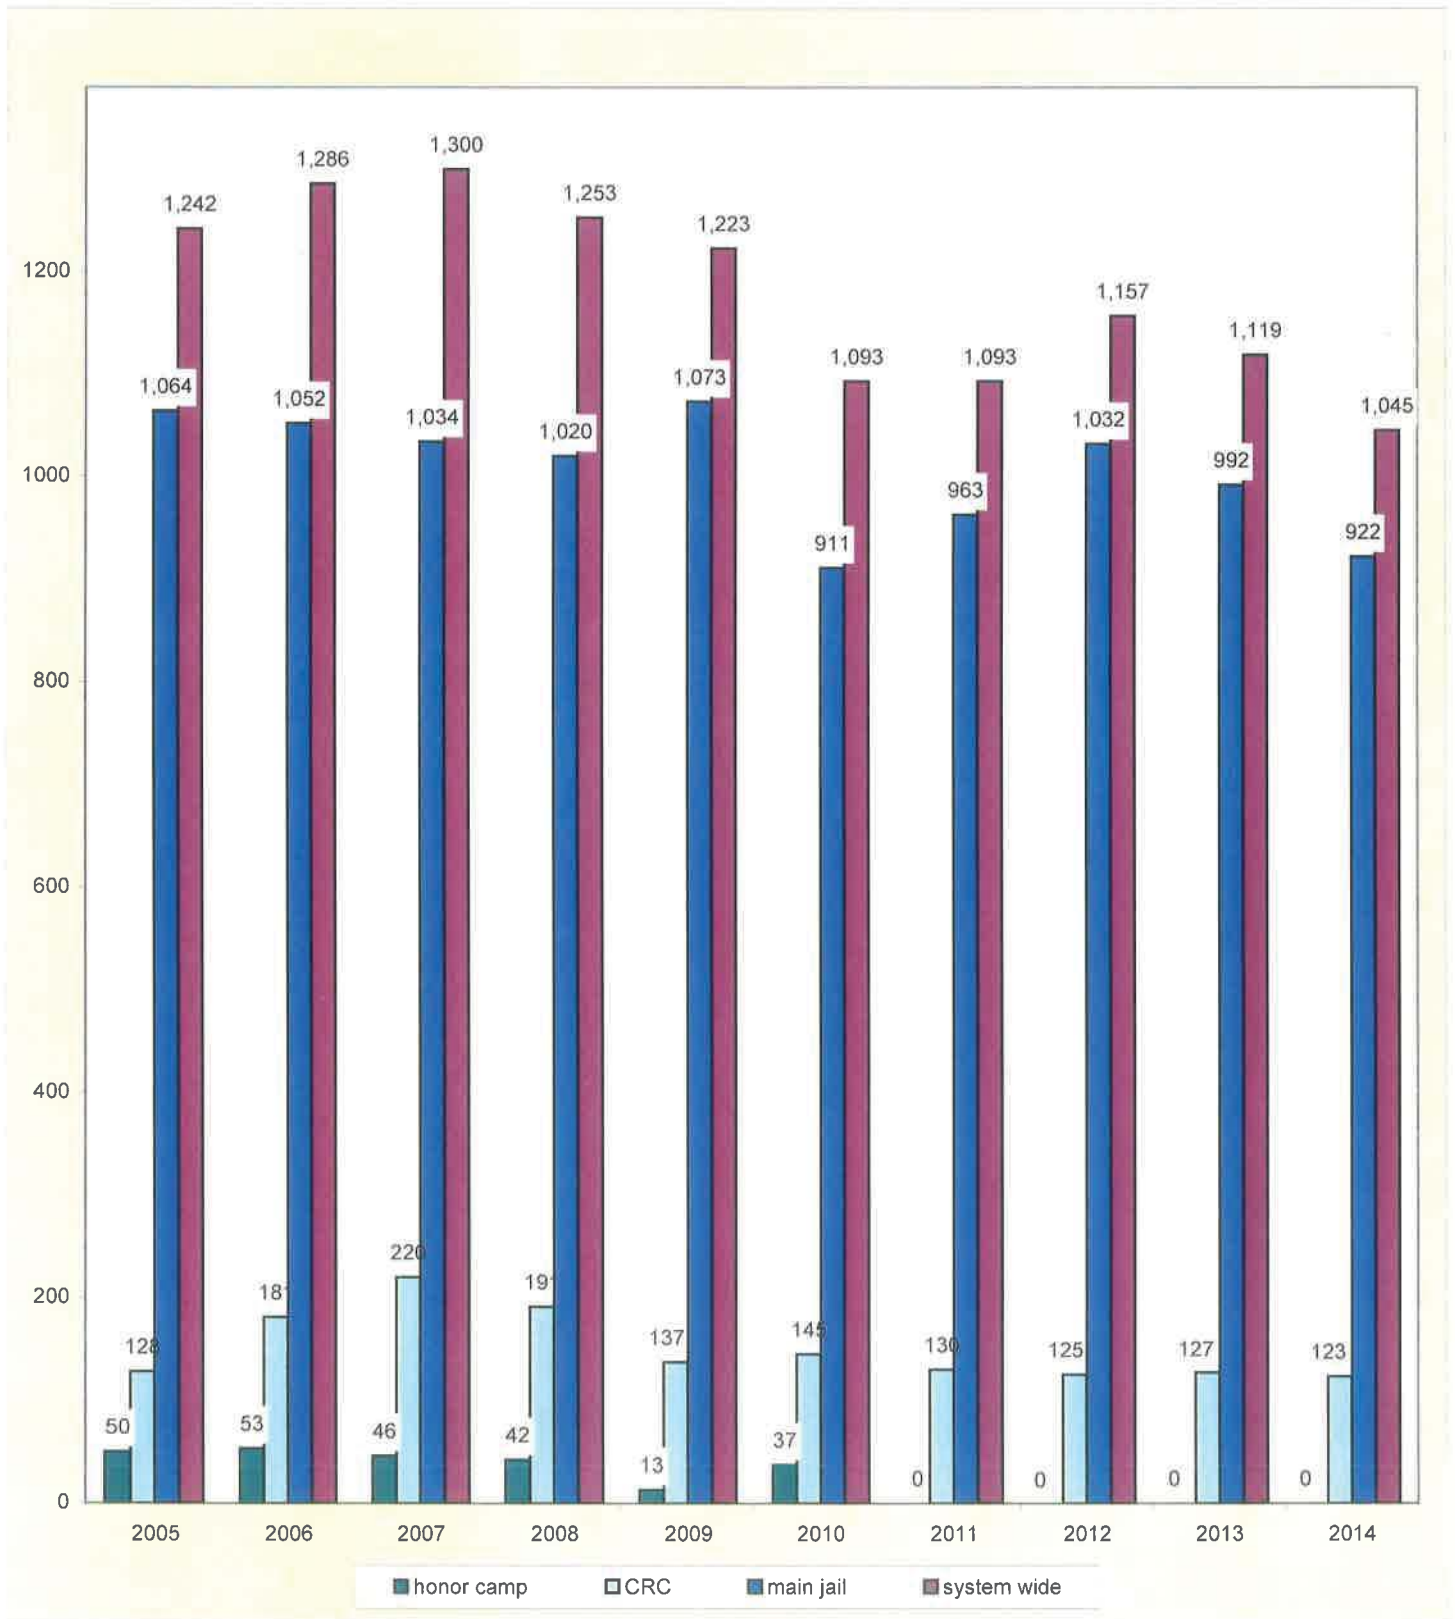

TalkingPoint! The bottom chart shows the difference in the Main Jail between the **AVERAGE** population and the **PEAK** population. In 2014 we had more inmates than average **42%** of the time, and we have to be able to house them as well. The difference between the normal or "average" population and the peaking population is called the "peaking factor." The peaking factor for 2014 was 4.9%, which went down significantly this past year.

Annual Average Daily Population for all Inmates in KCCF Custody

The figures on this graph represent the daily average of the total number of inmates in our custody, including the Main Jail, Community Reentry Center, and Honor Camp. It DOES NOT INCLUDE inmates lodged in other agencies. The figures prior to 1994 do not include the inmates boarded out in other counties prior to the new jail opening up. The 1997 figure is an estimate because some of the data is missing. Trend line added. One can observe a leveling off of the past growth rate.

Average Daily Population of the Honor Camp, Community Reentry Center, Main Jail and the Total for all Inmates in KCCF Custody for the Last 10 Years

History of Jail Capacity in Kent County (1835 to 1984)

| Year | Description of the Event or Solution | Capacity Levels | | | |
|------|---|-----------------|----|----|--------|
| | | MJ | HC | WR | System |
| 1835 | First Kent County Jail consisted of two cells in the corner of the Courthouse | | | | |
| 1845 | First jail burns and for the next 10 years inmates are housed in rented quarters, primarily in a cellar of a building on Canal Street, with more important inmates being sent to jails in adjoining counties. | | | | |
| 1855 | A new Sheriff's residence was built with a wooden structure called "Kent County Jail House" in the rear. It consisted of heavy planking with sheet iron sheathing on the inside. | | | | |
| 1872 | Rising crime and frequency of escapes from the current jail cause the county to construct a new jail in the "Bastille" style. When it opened in March, it was called the "Prisoner's Paradise." | 114 | | | |
| 1913 | Chairman of the Finance Committee of the Board of Commissioners called the jail a "cheese box" that had "first prize for being the most hazardous building in Michigan today." | | | | |
| 1950 | Peak Average Daily Population reaches 162 inmates. | | | | |
| 1954 | After several failed attempts over 4 decades, voters finally approve a ballot measure for a new jail. | | | | |
| 1958 | Original Ball Avenue Jail constructed with a capacity of 240 beds. | 240 | | | 240 |
| 1968 | Honor Camp opens with a capacity of 48, bringing us to a total capacity of 288. | 240 | 48 | | 288 |
| 1974 | Jail expansion by 116 beds, bringing us to a capacity in the Main Jail of 356. Total capacity for all jail facilities was 404. | 356 | 48 | | 404 |
| 1977 | Jail expansion by 95 beds, bringing us to a capacity in the Main Jail of 451. Total capacity for all jail facilities was 499. | 451 | 48 | | 499 |
| 1977 | 61st District Court creates Community Service Program for sentenced misdemeanor cases. | | | | |
| 1979 | Lawsuit filed by six inmates in U.S. District Court. | | | | |
| 1980 | Formation of "Alternatives to Incarceration" task force. | | | | |
| 1980 | We begin the practice of boarding out inmates to other counties due to overcrowding. This continued for 15 years. | | | | |
| 1981 | Creation of Court Services Department to administer Pre-trial Release and Community Service programs. Post arraignment Pre-trial Screening begins at the jail. | | | | |
| 1982 | Work Release facility created at the Salvation Army building with a capacity of 48 beds. | 451 | 48 | 48 | 547 |
| 1982 | Court Services Community Service program begins placing felony and misdemeanor cases to work in the community from all district courts and Circuit Court. | | | | |
| 1982 | Federal Court order by Judge Enslin in the matter of Johnson v. Heffron limiting occupancy at the Main Jail to 95 percent of capacity. | | | | |
| 1983 | Jail expansion by 122 beds, bringing the Main Jail to 573. Total capacity for all jail facilities was 669. | 573 | 48 | 48 | 669 |
| 1984 | Expansion of Pre-trial Release and Community Service programs. Pre-trial program now includes full-time supervision services. | | | | |
| 1984 | Expansion of Work Release facility by 24 beds for a capacity of 72. Total capacity for all jail facilities is 693. | 573 | 48 | 72 | 693 |
| 1984 | Jail Management System approved for automating records at the Kent County Jail. | | | | |

History of Jail Capacity in Kent County (1985 to 1998)

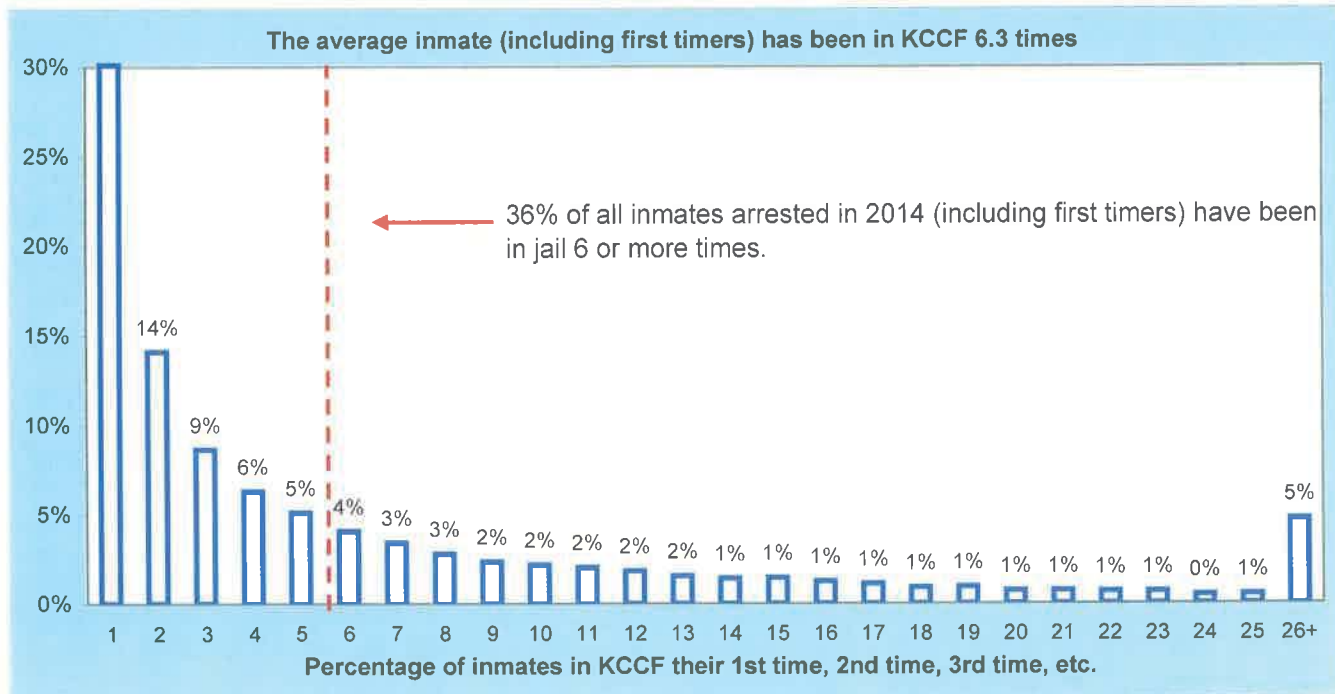

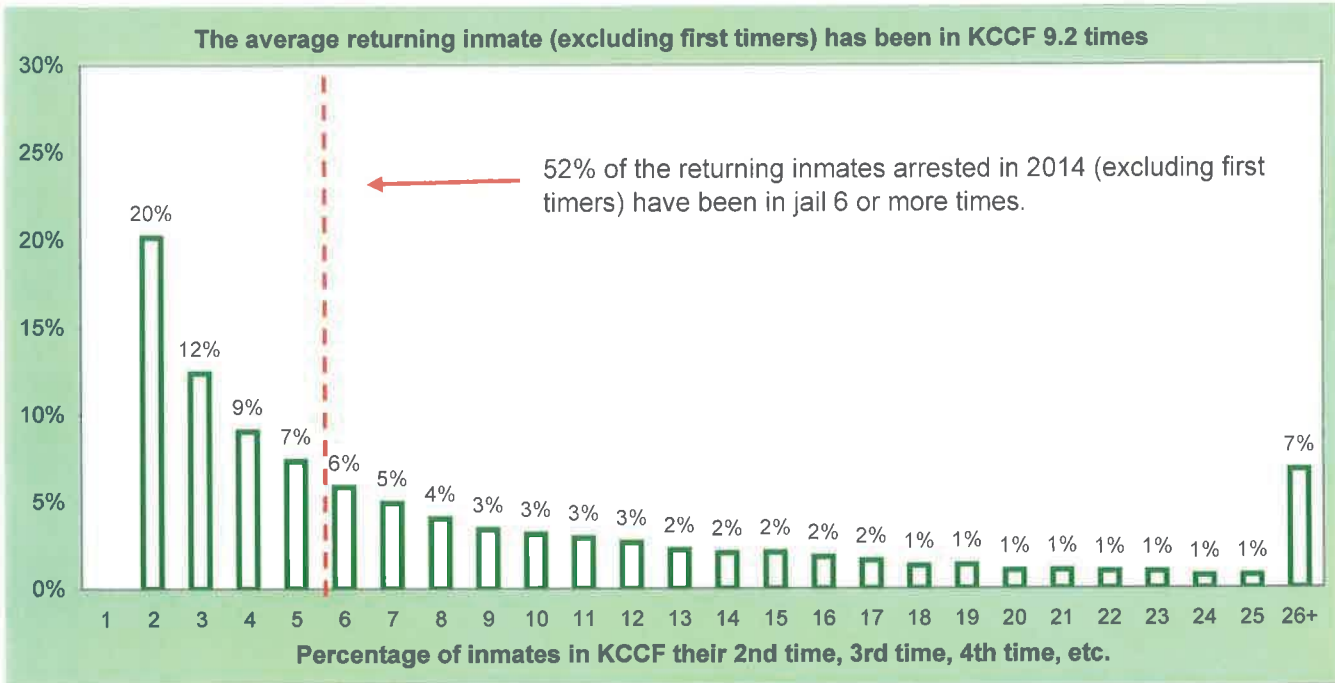

| Year | Description of the Event or Solution | Capacity Levels | | | |
|------|--|-----------------|----|-----|--------|
| | | MJ | HC | WR | System |
| 1985 | Agreement to house up to 25 females at Project Rehab Community Treatment Center. | | | | |
| 1985 | Expansion of Work Release facility by 18 beds to a total capacity of 90. Total capacity for all jail facilities is 711. | 573 | 48 | 90 | 711 |
| 1987 | Jail Population Management Board formed to study causes of jail crowding. | | | | |
| 1987 | Electronic Monitoring and Work Crew programs started with Federal Grant | | | | |
| 1988 | Additional judge added for 17th Circuit Court | | | | |
| 1989 | Formation of the Community Corrections Advisory Board pursuant to P.A. 511 of 1988. | | | | |
| 1989 | Approval of Comprehensive Criminal Justice System Study by David M. Bennett. | | | | |
| 1989 | Temporary minimum security jail building adding 64 beds to the Main Jail, bringing its capacity to 637. Total capacity for all jail facilities is 775. | 637 | 48 | 90 | 775 |
| 1989 | Expansion at the Work Release adds 14 beds for a total of 104 beds. Total capacity for all jail facilities is 789. | 637 | 48 | 104 | 789 |
| 1990 | This was the high year for the practice of boarding inmates in other counties. Daily average this year was 146. | | | | |
| 1990 | Tax increase of 0.84 mills approved by voters on August 7th to construct a new jail addition. | | | | |
| 1990 | Contract approved for jail architectural services. | | | | |
| 1990 | Creation of Criminal Justice Coordinator position. | | | | |
| 1991 | Pre-trial and Community Service program expanded to provide staff for additional numbers of supervised release cases and community service placements. | | | | |
| 1992 | New jail addition opened in December but parts of the old jail are closed for renovation. We become the central intake facility for the Grand Rapids Police Department. | | | | |
| 1992 | Pre-trial services expanded to include pre-arraignment screening and investigation and Fast Track processing 24 hours a day, 7 days a week coverage at the jail. | | | | |
| 1993 | New jail addition and renovation of the old jail completed, adding 363 additional beds (after closing the temporary facility), bringing us to a capacity in the Main Jail of 1,000, and a total capacity of 1,152. | 1,000 | 48 | 104 | 1,152 |
| 1993 | Jail Bed Allocation Agreement begun, committee implemented, and weekly jail bed reports sent to all criminal court judges. | | | | |
| 1993 | Temporary minimum security building relocated to Honor Camp. Capacity at Honor Camp remains at 48. | | | | |
| 1994 | The practice of boarding inmates in other counties because of overcrowding finally ends this year after 15 years. | | | | |
| 1996 | Order from the Federal Sixth Circuit Court granting relief from Judge Enslin's count reduction measures. | | | | |
| 1997 | Pre-trial Electronic Monitoring program re-started after being discontinued in 1989. | | | | |
| 1997 | Federal grant program enables Kent County communities to add large numbers of new police. | | | | |
| 1998 | Research conducted into the issues surrounding adding double bunks to the Main Jail. 24 bunks added this year, beginning the capacity of the Main Jail to 1,024. | 1,024 | 48 | 104 | 1,176 |

History of Jail Capacity in Kent County (1998 to present)

| Year | Description of the Event or Solution | Capacity Levels | | | |
|------|--|-----------------|----|-----|--------|
| | | MJ | HC | WR | System |
| 1998 | Jail Population Monitoring Clerk begins monitoring split-sentence cases to facilitate early release into community facilities. | | | | |
| 1999 | 29 additional double bunks added for a total of 53, with a capacity of 1,053 in the Main Jail, and a total capacity of 1,205. | 1,053 | 48 | 104 | 1,205 |
| 1999 | Relocation of the Work Release facility from the Salvation Army to the old Kent Oaks facility, increasing the capacity to 136. Total system capacity is now 1,237. | 1,053 | 48 | 136 | 1,237 |
| 2000 | 9 additional double bunks added for a total of 62, bringing us to a capacity of 1,062 in the Main Jail, and a total capacity of 1,246. | 1,062 | 48 | 136 | 1,246 |
| 2002 | 32 additional double bunks added for a total of 94, with a capacity of 1,094 in the Main Jail, and a total capacity of 1,278. | 1,094 | 48 | 136 | 1,278 |
| 2003 | Two additional judges added for 17th Circuit Court. | | | | |
| 2003 | Six additional bunks added to the Honor Camp, increasing its capacity to 54. | 1,094 | 54 | 136 | 1,284 |
| 2004 | Ten additional bunks added to Work Release, increasing its capacity to 146. | 1,094 | 54 | 146 | 1,294 |
| 2004 | Corrections and Detention Millage Committee formed | | | | |
| 2005 | Two more bunks to the Honor Camp, capacity up to 56 | 1,094 | 56 | 146 | 1,296 |
| 2005 | Corrections and Detention Millage Committee submits final report to County Administration in December. | | | | |
| 2005 | Expansion project begins at Work Release and extra programs added. Building renamed the Community Reentry Center. | | | | |
| 2006 | Expansion at the Community Reentry Center completed. | 1,094 | 56 | 248 | 1,398 |
| 2006 | Four more bunks added to Honor Camp, capacity up to 60 | 1,094 | 60 | 248 | 1,402 |
| 2006 | 90 additional double bunks added bringing us to a capacity of 1,184 in the Main Jail, and a total capacity of 1,492. | 1,184 | 60 | 248 | 1,492 |
| 2006 | Renovation started on the new Mental Health Unit. 53 bunks taken out of service. | 1,131 | 60 | 248 | 1,439 |
| 2007 | Criminal Justice Planners Harrison / Landmark present a report to County Administration in December that evaluates the jail's facilities and recommends demolition and expansion. | | | | |
| 2007 | Mental Health Unit opened with 39 additional bunks, leaving us with a Main Jail capacity of 1,170 and a total capacity of 1,478. | 1,170 | 60 | 248 | 1,478 |
| 2007 | Kent, Kalamazoo and Allegan Counties hire a consulting firm to determine the feasibility of creating a regional jail. | | | | |
| 2008 | Voters approve an extension of Jail Millage. | | | | |
| 2009 | County selects Tower Pinkster as the design firm for the expansion and demolition project, and Owens, Ames and Kimble were selected as the construction firm. A jail transition team is formed and design work begins in mid-summer. | | | | |
| 2010 | Renovation started on Upper Rear and D1B. Additional double bunks are added to B2 and B3. The Main Jail has a new temporary capacity. | 1,101 | 48 | 248 | 1,397 |
| 2010 | Using Honor Camp for inmate housing suspended in November. | 1,101 | 0 | 248 | 1,349 |
| 2010 | One wing of the CRC was closed the last week of December, leaving two wings in operation. | 1,101 | 0 | 186 | 1,287 |
| 2011 | The newly renovated Upper Rear reopens in January as H2 with a new capacity of 192. | 1,293 | 0 | 186 | 1,479 |
| 2011 | The newly renovated D1B reopens in February with a new capacity of 46 | 1,331 | 0 | 186 | 1,517 |
| 2011 | Lower One Man, Middle One Man, and Upper Annex are demolished in March. | 1,221 | 0 | 186 | 1,407 |
| 2012 | The new jail housing units open in December (L1, L2, L3, M1, M2, and M3). The old side (Lower, Middle and Upper) is closed. | 1,285 | 0 | 186 | 1,471 |

Total Number of Times an Inmate has been in KCCF

Core Group of 2,128 Offenders Return to Jail 15 Times or More

These graphs were produced by looking at the 15,122 offenders arrested in 2014 and counting how many times they had been in the Kent County Correctional Facility since 1985. The point of producing these graphs side-by-side is to show the difference in the number of times in jail between the repeat offenders (the recidivists are in the top chart) and the whole population that includes the lightweights (bottom chart).

TalkingPoint! Of all the people brought to jail, 53% are there for their first, second or third visit. Among the offenders who came to jail in 2014, there was one inmate who had been in KCCF 90 times. Remember, these numbers are just counting the times these offenders were in the Kent County Jail and doesn't include visits to jails in other counties.

Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking at the people in jail or being admitted to jail and looking backwards to see how many of them have been in jail before. Another approach to looking at recidivism is examined on this page. This forward looking approach surveys a group of admissions at a point in the past and follows them in subsequent years to see how many individuals were rebooked at a future point in time. The information on this page looks at inmates booked into the Kent County Correctional Facility during calendar year 2007 and then watched to see what proportion of them were rebooked into the Kent County Correctional Facility through the remainder of 2007 until the end of 2012. We provided the jail data from those years to Andy Verheek at the Kent County Office of Community Corrections and he analyzed it for recidivism rates. The results of the analysis are reported on this page.

TalkingPoint! There were a total of 68,272 unique individuals booked into KCCF at least one time over the six year period from 2007 through 2012. Out of these 68,272 individuals, 31,152 were rebooked (for any reason) into KCCF at least once from January 1, 2007 through December 31, 2012. This represents an overall recidivism rate of 45.6%, meaning that 45.6% of the individuals in this sample were booked into KCCF two or more times. Of the 31,152 offenders booked two or more times into KCCF, females were admitted an average of 3.7 times and males an average of 4.2 times.

"Class of 2007 to 2012" - 68,272 individuals booked & rearrested anytime in 2007 through 2012

| | Total Individuals booked at least once anytime in 2007 through 2012 | Number with at least one subsequent rebooking | Resulting Recidivism Rate |
|----------|---|---|---------------------------|
| All | 68,272 | 31,152 | 45.6% |
| Male | 50,008 | 24,166 | 48.3% |
| Female | 18,264 | 6,986 | 38.3% |
| Black | 21,738 | 12,728 | 58.6% |
| Hispanic | 8,826 | 3,532 | 40.0% |
| White | 37,037 | 14,623 | 39.5% |

TalkingPoint! The table above includes people whose first arrest in the time period came in 2007 but also those whose first arrest was during the years 2008 through 2012, so some of them did not have much elapsed time to be re-arrested. In the table below we looked at the recidivism rate for ONLY those individuals that were booked into KCCF from January 1, 2007 through December 31, 2007. **All of these offenders had a minimum of 5 full years to get in trouble with the law again.** There were 20,194 individuals booked into KCCF during 2007. Out of these 20,194 offenders, 12,987 were rebooked into KCCF at least once from their initial booking in 2007 until December 31, 2012. This includes individuals first booked into KCCF in 2007 with their first subsequent booking occurring in the same year (2007). This equates to a recidivism rate of 64.3%.

"Class of 2007" - 20,194 individuals booked in 2007 and their rearrests later in 2007 through 2012

| | Total Individuals booked at least once in 2007 | Number with at least one subsequent rebooking | Resulting Recidivism Rate |
|---------------------------------|--|---|---------------------------|
| All | 20,194 | 12,987 | 64.3% |
| Male | 15,588 | 10,412 | 66.8% |
| Female | 4,606 | 2,575 | 55.9% |
| Black | 7,734 | 5,924 | 76.6% |
| Hispanic | 2,419 | 1,372 | 56.7% |
| White | 9,860 | 5,583 | 56.6% |
| First Time Offenders in 2007 | 6,105 | 2,606 | 42.7% |
| Less than High School Education | 7,733 | 5,430 | 70.2% |
| High School Education or More | 12,461 | 7,557 | 60.6% |

Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking at individuals booked into KCCF from 2007 through 2012 to see how many may have been rebooked during that same time frame. This page looks at a group of admissions for a more recent time span of 2012 through 2014. We looked at the overall recidivism rate for this three-year time span as well as recidivism when selecting out offenders who received a proxy score in 2012. Jail data from these years were analyzed by Andy Verheek at the Kent County Office of Community Corrections.

TalkingPoint! There were a total of 39,897 unique individuals booked into KCCF at least one time over the three year period from 2012 through 2014. Using a broad definition of recidivism that looks at rebooking into KCCF for any reason, 15,771 out of the 39,897 individuals were rebooked (for any reason) into KCCF at least once during that three year period. This represents an overall recidivism rate of 39.5%. Of these 15,771 individuals booked two or more times into KCCF, females were admitted an average of 3.1 times and males an average of 3.3 times. It should be noted that the recidivism rate changes when recidivism is redefined. This means that the numbers presented on this page would change if a different recidivism definition had been chosen for the analysis.

"Class of 2012 to 2014" - 40,033 individuals booked & rearrested anytime in 2012 to 2014

| | Total Individuals booked at least once anytime in 2012 through 2014 | Number with at least one subsequent rebooking | Resulting Recidivism Rate |
|----------|---|---|---------------------------|
| All | 39,897 | 15,771 | 39.5% |
| Male | 29,005 | 12,188 | 42.0% |
| Female | 10,892 | 3,583 | 32.9% |
| Black | 14,349 | 7,218 | 50.3% |
| Hispanic | 4,582 | 1,495 | 32.6% |
| White | 20,577 | 6,940 | 33.7% |

TalkingPoint! The table above includes people whose first arrest in the time period came in 2012 through 2014 and includes a broad definition of recidivism.. Not all offenders booked into the Kent County Correctional Facility are predicted to recidivate at the same rate. Using a proxy risk assessment instrument that takes into consideration each individuals age at first offense, prior bookings into jail, and current age, Kent County Correctional Facility personnel can provide a quick prediction of who is more likely to be rebooked into the facility in the future. This information is instrumental to providing programming in the Kent County Correctional Facility. The following table examines the recidivism rates for those individuals that were booked into KCCF from January 1, 2012 through December 31, 2014 and received a proxy score and were most likely to be released back into the community meaning that offenders released to prison or another facility were filtered out. There were 5,051 individuals booked into KCCF in 2012 that had received a proxy score during their stays at Kent County Correctional Facility and had a release reason other than release to prison or release to another facility. Out of these 5,051 individuals, 3,185 were rebooked into KCCF at least once following their initial booking in 2012 until December 31, 2014 for an overall recidivism rate of 63.1%. The table below illustrates that the recidivism rates are indeed different for those offenders scored at a low, medium, or high risk of recidivism based on the proxy risk assessment instrument.

"Class of 2012" - 7,109 individuals booked in 2012 and their rearrests later in 2012 through 2014

| | Low Risk of Recidivism 643 total individuals | Medium Risk of Recidivism 2,490 total individuals | High Risk of Recidivism 1,918 total individuals |
|------------|---|--|--|
| Recidivism | 34.8% | 61.8% | 74.1% |
| Male | 465 total individuals | 1,946 total individuals | 1,665 total individuals |
| Rate | 34.2% | 61.9% | 75.4% |
| Female | 178 total individuals | 544 total individuals | 253 total individuals |
| Rate | 36.5% | 61.6% | 65.6% |
| Black | 125 total individuals | 1,050 total individuals | 1,062 total individuals |
| Rate | 38.4% | 69.3% | 80.5% |
| Hispanic | 125 total individuals | 245 total individuals | 193 total individuals |
| Rate | 27.2% | 50.2% | 60.6% |
| White | 384 total individuals | 1,173 total individuals | 654 total individuals |
| Rate | 35.9% | 57.6% | 68.0% |

Recidivism Info - Including Likelihood of Recidivating

 **TalkingPoint!** Additional information regarding regarding the recidivism of individuals booked into KCCF between 2012 and 2014:

- ➔ An offender with an initial 2012 booking event experienced 31 separate bookings between 2012 and 2014.
- ➔ Overall, male offenders were booked an average of 2.0 times and female offenders were booked an average of 1.7 times.
- ➔ Black offenders were booked an average of 2.2 times, hispanic offenders were booked an average of 1.7 times, and white offenders were booked an average of 1.7 times.
- ➔ Average (median) length of time between an offender's first and second bookings was 145.9 days for male offenders and 153.7 days for female offenders.
- ➔ Average (median) length of time between an offender's first and second bookings was 150.7 days for black offenders, 156.9 days for Hispanic offenders, and 142.2 days for white offenders.

 **TalkingPoint!** Kent County has continued using an instrument to predict the likelihood that an inmate booked into KCCF will be rebooked into KCCF at some future date. This "Proxy" instrument divides the inmates into three levels, with R1's being the least likely to return to jail, R3's being the most likely to return to jail, and R2's being in the middle. The breakdown of Proxy scores for individuals booked between 2011 and 2013 include - R1: 13.9% // R2: 46.7% // R3: 39.3%

- ➔ Looking at the 643 offenders that received a low category proxy score (R1) from the Recidivism Since 2012 page, male offenders averaged 1.6 bookings while female offenders averaged of 1.8 bookings. Looking at the 1,918 offenders that received a high category proxy score (R3) from the same page, the average number of bookings for male offenders averaged 3.3 bookings while female offenders averaged 3.0 bookings.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the Recidivism Since 2012 page, black offenders averaged 1.8 bookings, whites averaged of 1.7 bookings, and Hispanics averaged of 1.5 bookings.
- ➔ Switching to the offenders that received a high category proxy score (R3) from the same page, the average for black offenders increases to 3.6 bookings, the average for white offenders increases to 2.9 bookings, and the average for Hispanic offenders increases to 2.7 bookings.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the Recidivism Since 2012 page, the average (median) length of time between an offender's first and second bookings was 169.5 days for male offenders and 278.5 days for female offenders. Switching to those offenders receiving a high category proxy score (R3), the average (median) length of time between an offender's first and second bookings decreases to 147.9 days for male offenders and 156.1 days for female offenders.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the Recidivism Since 2012 page, the average (median) length of time between an offender's first and second bookings was 168.2 days for black offenders, 227.7 days for Hispanic offenders, and 195.0 days for white offenders. Switching to those offenders receiving a high category proxy score (R3), the average (median) length of time between an offender's first and second bookings decreases to 149.8 days for black offenders and 145.1 days for white offenders while it increases to 149.6 days for Hispanic offenders.

Number of Inmates Brought to Jail by Arresting Agency

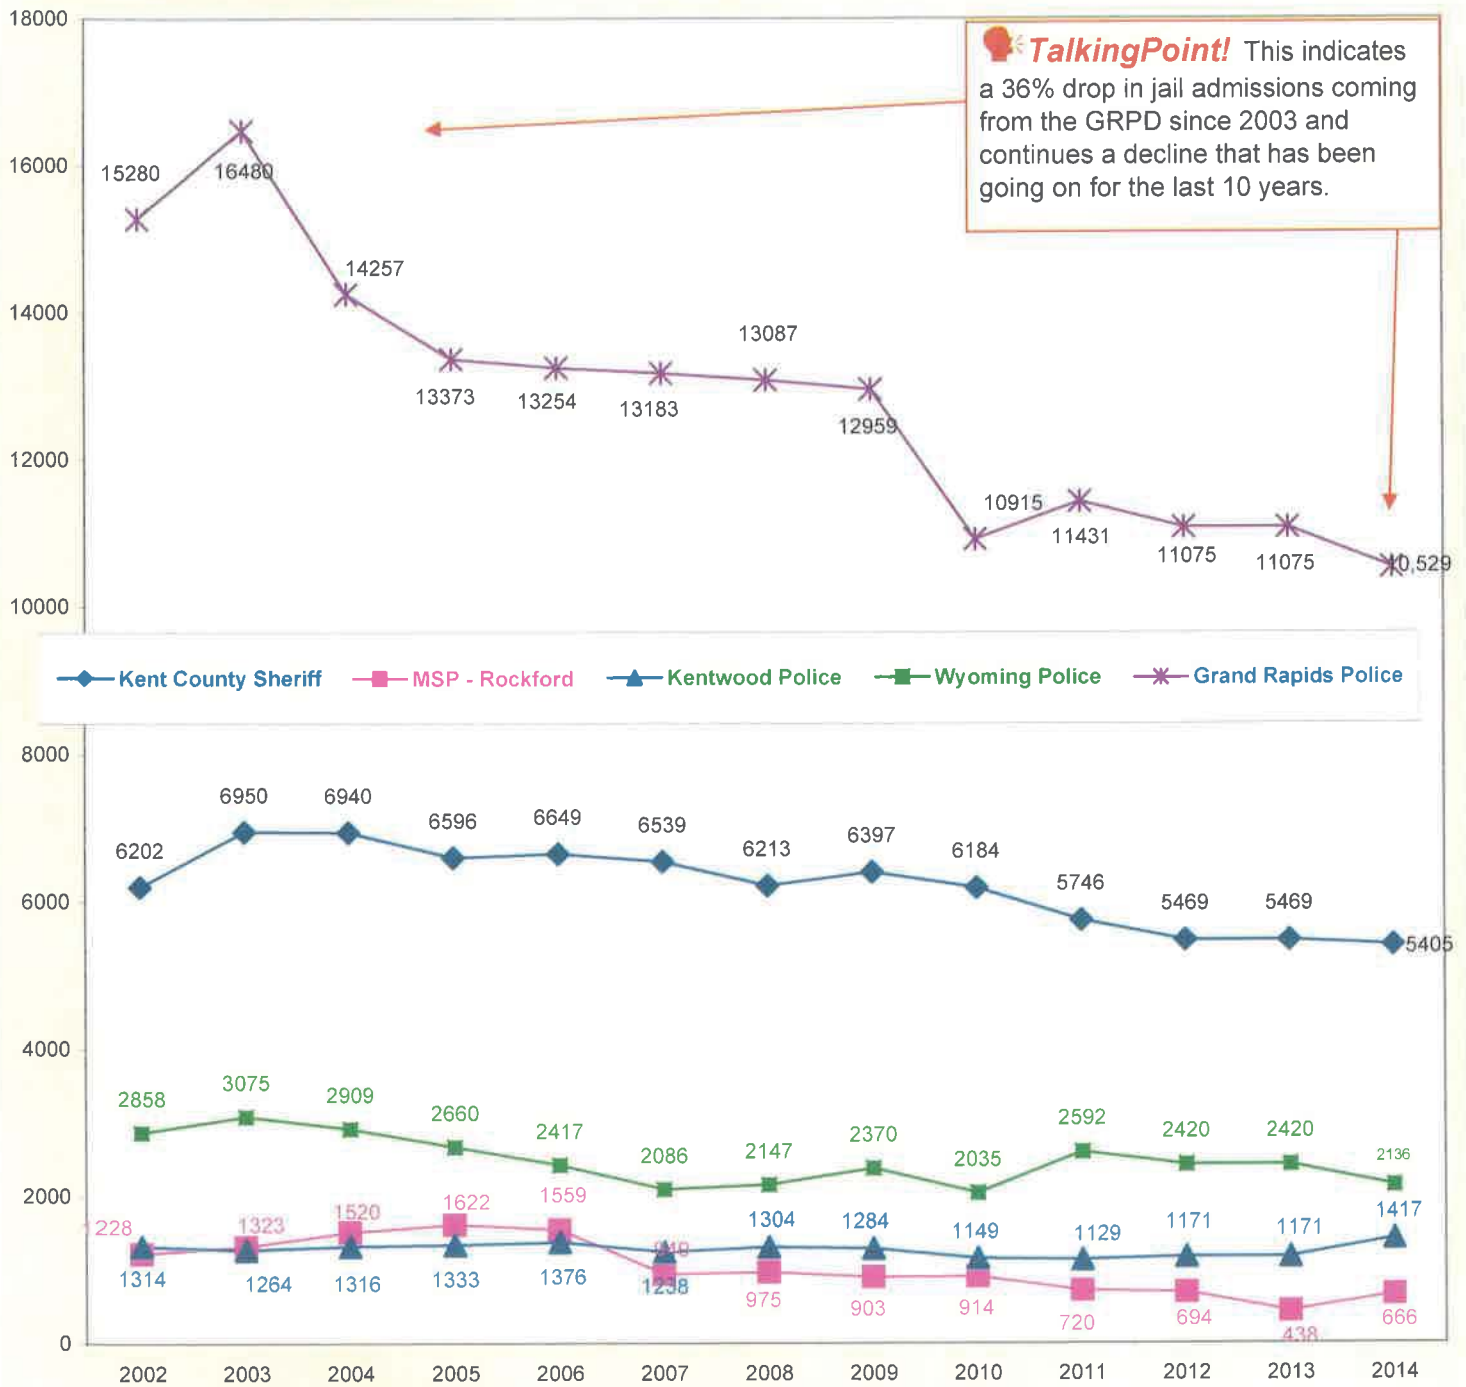

Top 5 Agencies Account for 82% of Incoming Inmates

| Code | Arresting Agency | # of Arrests | Percent of Total |
|--------------------|--|---------------|------------------|

Number of Inmates Brought to Jail in the Last 13 Years by the Top Five Arresting Agencies

Most Agencies Reduce Arrests

TrendSpotter! The peak for the top five agencies was between 2003 and 2006. Most of these agencies continue to see a steady decline in the number of arrests except for the City of Kentwood which had a slight increase this past year.

Classified by: 9D2273 Classification Date: 10/27/2004 15:10

Midway through 2004 the jail began using a new Jail Management System called JailView. JailView uses the Northpointe® decision tree classification instrument which breaks inmates down into the traditional three categories of Maximum, Medium and Minimum, but it also provides nine levels of sub-categories that are useful for making program and placement decisions. Below is a brief definition of each of the custody levels and the average number and proportion of inmates within each classification.

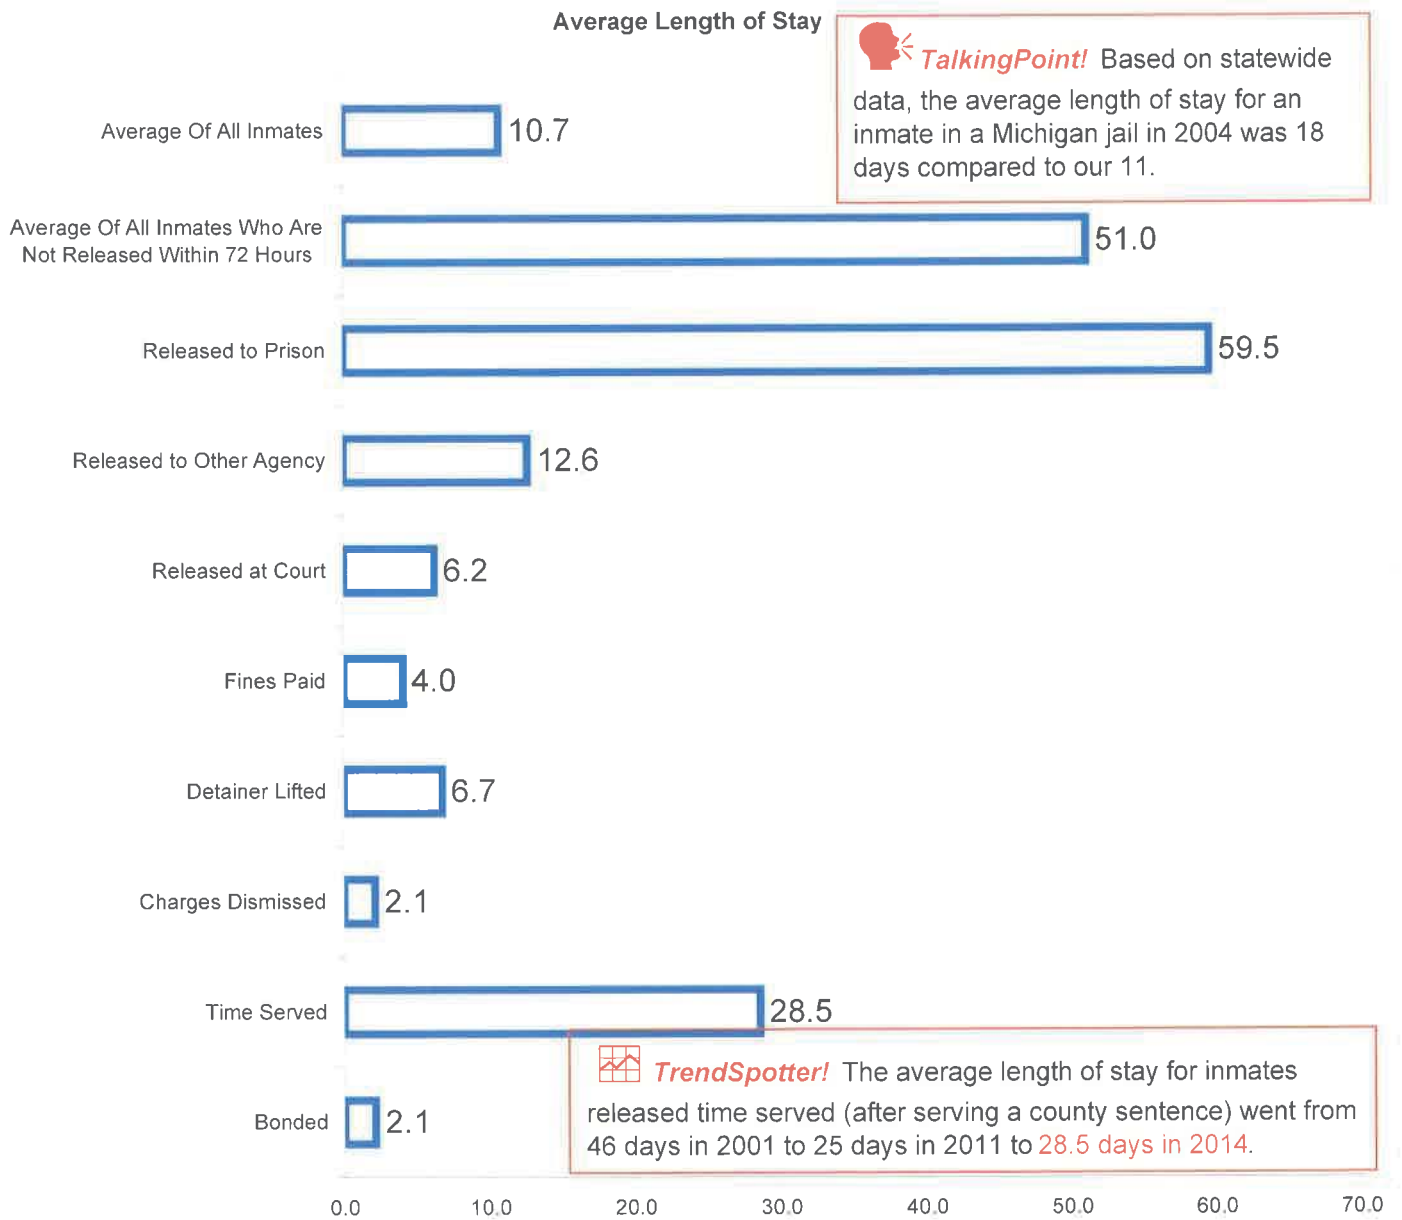

| Custody Level | Definition | Main Jail Males | Main Jail Females | Jail System (M & F) |
|---------------------------|---|-----------------|-------------------|---------------------|
| High (1) | These inmates are in jail on a violent charge, with a prior conviction on a violent charge, and with a record of violent institutional behavior. | 0 (0%) | 0 (0%) | 0 (0%) |
| Close (2) | These inmates have a combination of two incidents of violence found in either their current charge, past charges or institutional behavior record. | 34 (5%) | 3 (3%) | 37 (4%) |
| Medium Assaultive (3) | These inmates have one incident of violence in either their current charge, past charge or institutional behavior. | 130 (18%) | 12 (11%) | 142 (17%) |
| Medium (4) | These inmates are in jail for a serious non-violent felony and/or have institutional behavior problems. | 245 (34%) | 40 (37%) | 284 (35%) |
| Medium Pre-Sentenced (5) | These inmates are likely prison bound, but they are well behaved and have no record of violence or rule violations. | 62 (9%) | 15 (14%) | 77 (9%) |
| Minimum Pre-Sentenced (6) | These inmates will likely not go to prison and are well behaved with no record of violence or rule violations. | 100 (14%) | 15 (14%) | 115 (14%) |
| Minimum (7) | These inmates are fully sentenced to county jail time on a felony charge, have no recent history of violence and are well behaved, but they lack employment or ties to the community. | 68 (10%) | 14 (13%) | 82 (10%) |
| Low (8) | These inmates are sentenced to the county jail on a felony charge, have no recent record of violence, are well behaved and have employment or local ties to the community. | 75 (10%) | 8 (7%) | 83 (10%) |
| Very Low (9) | These inmates are sentenced to the county jail on misdemeanor charges, have no recent record of violence, are well behaved and have ties to the community. | 2 (0%) | 2 (1%) | 4 (1%) |

Average Length of Stay Depicted as Jail Bed Days

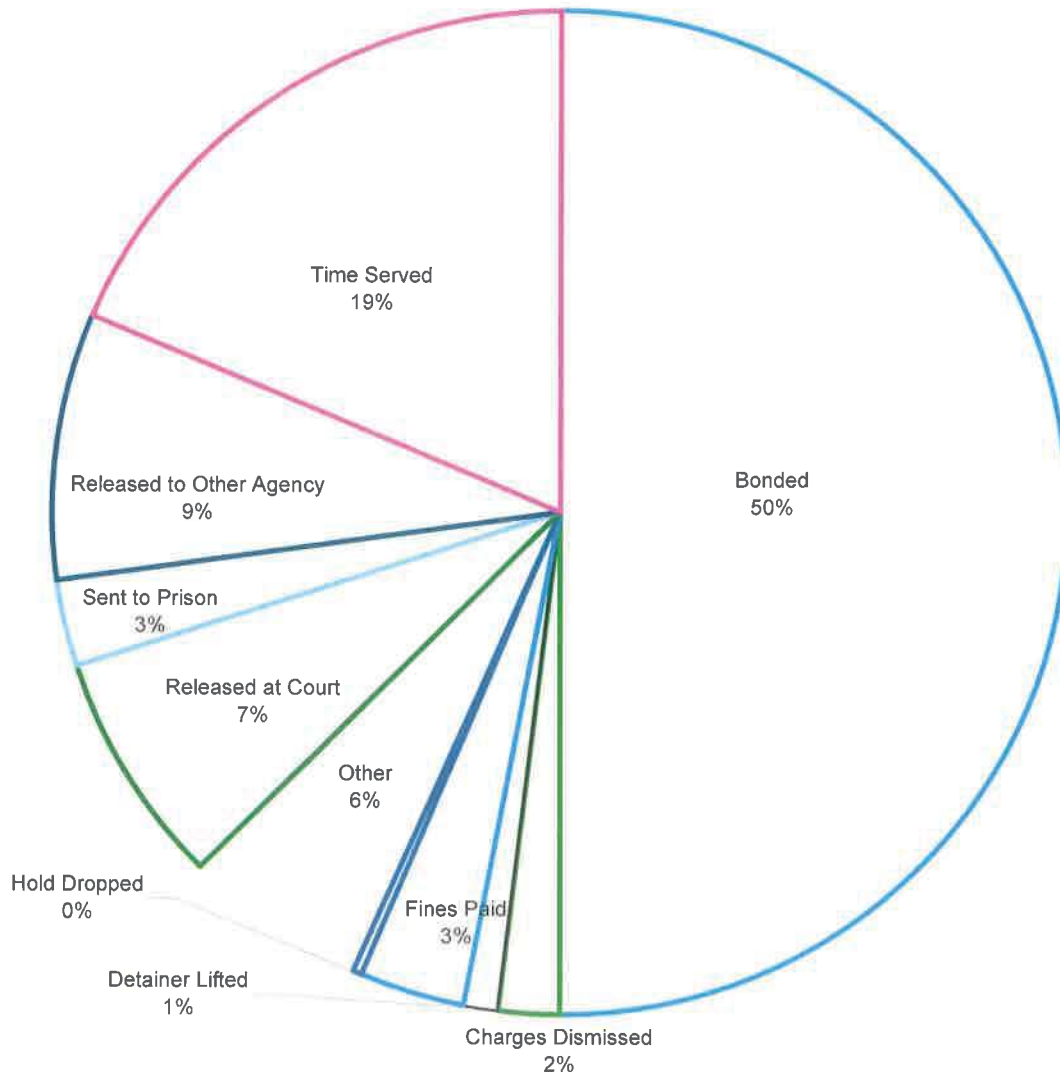

TalkingPoint! This chart shows the concept of average length of stay depicted as Jail Bed Days. Jail Bed Days are an accurate way of displaying the actual impact on jail beds, because it is counting the days that a jail bed is occupied. The chart about shows that although we had 11,933 people who stayed less than one day in jail, they used far fewer jail beds than the 2,884 inmates who stayed 5 to 15 days in jail. In fact, the 473 inmates who stayed 61 to 90 days used the most jail beds. The main interpretation of this data is that the greatest impact on jail capacity would be achieved by concentrating our efforts on reducing the stay of the inmates who are in jail from one to five months. It is that group of inmates who are using most of the jail's beds.

| # of Days in Jail | # of Inmates |
|-------------------|--------------|
| < 1 | 11933 |
| 1 | 3125 |
| 2 to 4 | 2126 |

Reasons Why Inmates are Released and the Percentage of Inmates Released in the Most Common Types of Releases

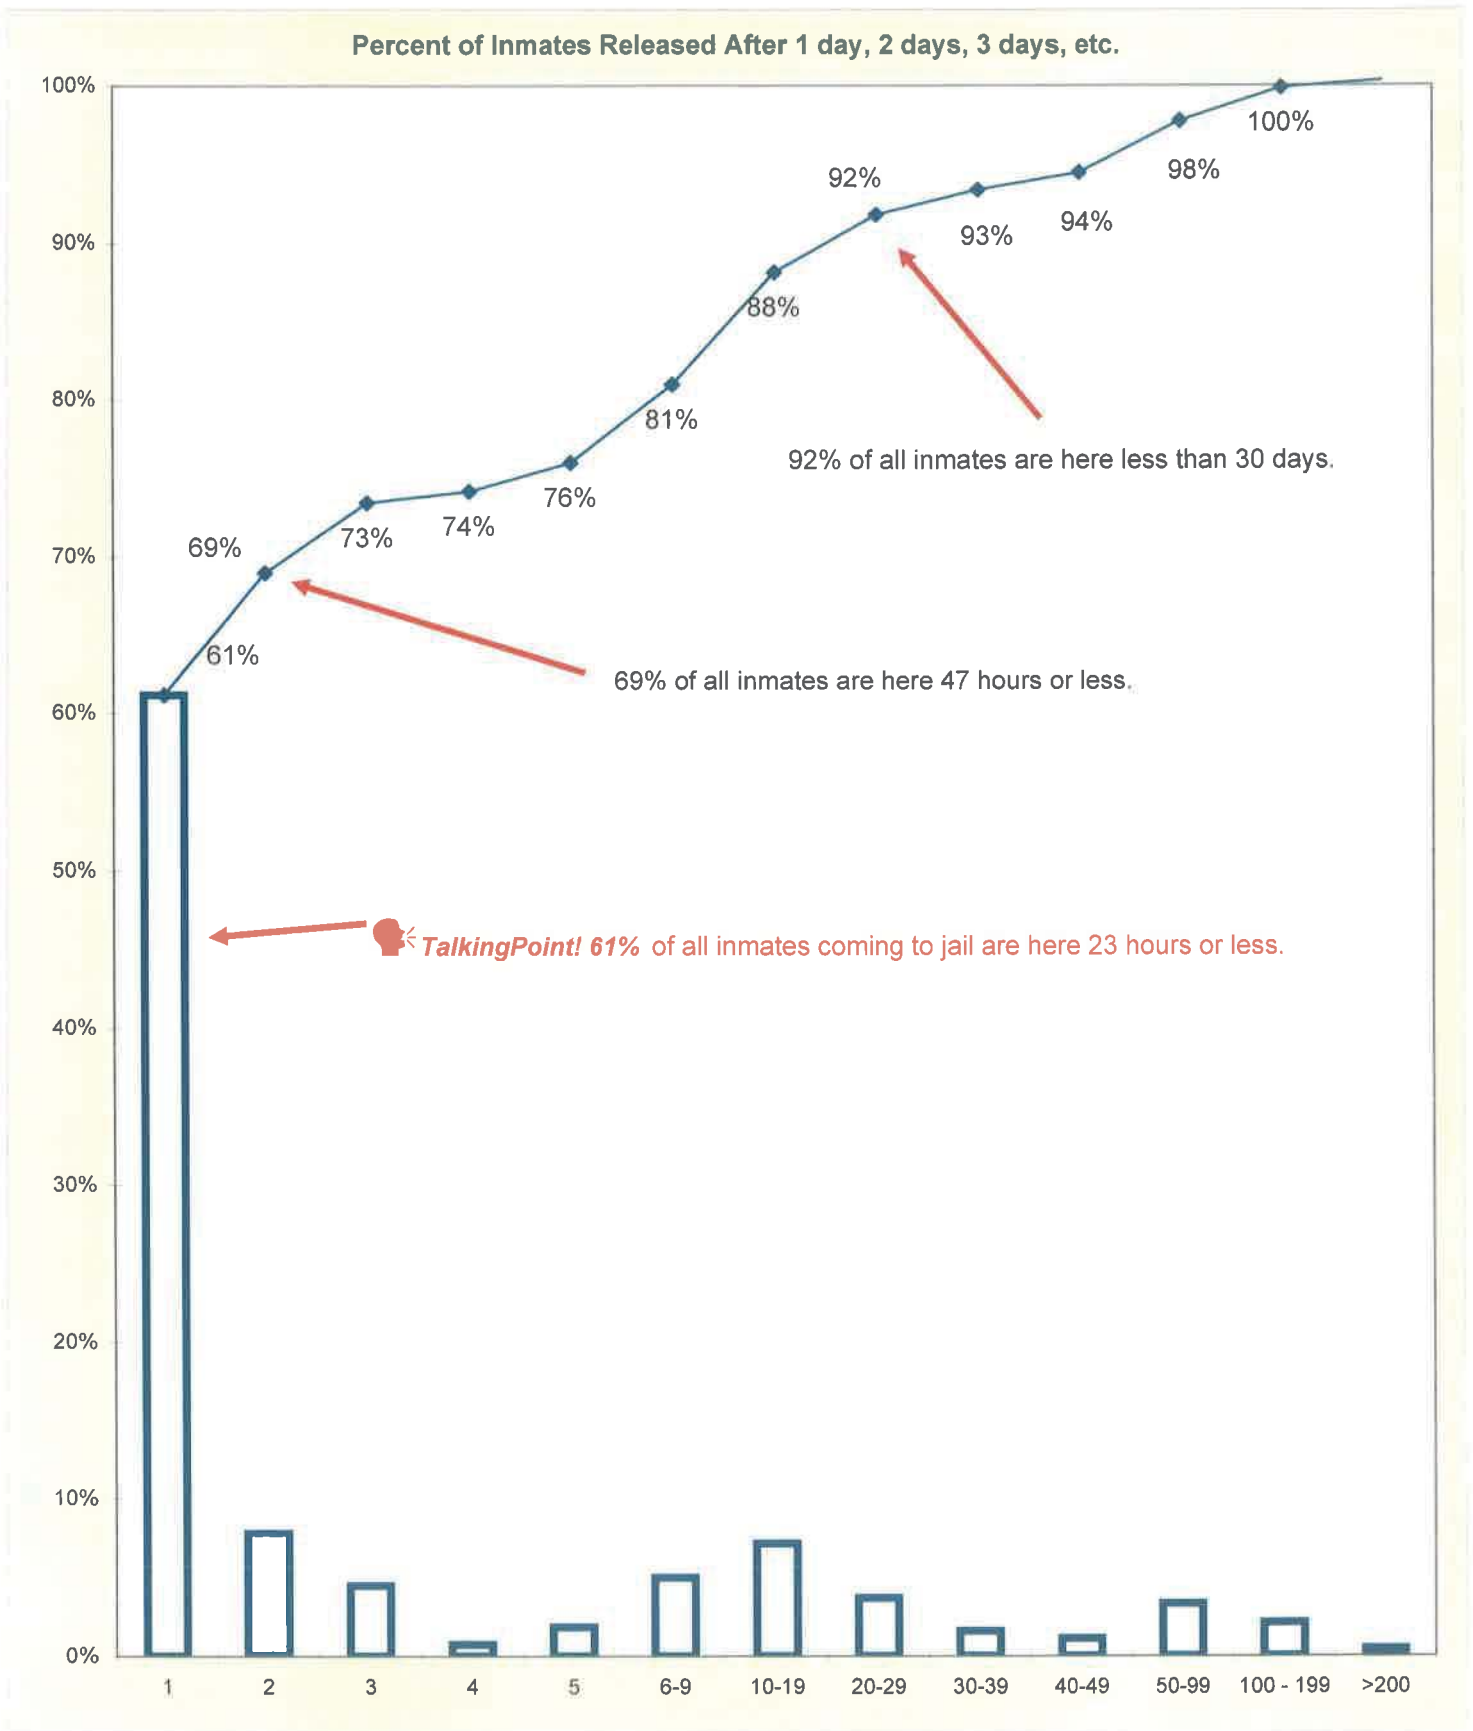

The Majority of Incoming Inmates Released Back to the Community

TalkingPoint! Over **85%** of the inmates who come into our jail are released directly back into the community. (This chart is based on the 23,433 records in 2014.) Only about **12%** get sent to prison or to another agency. Hard data is not available on that 6%, but probably most of those inmates return to our community at some point. It is important to remember that resources devoted to local jail inmates benefit our local communities.

Number of Days Inmates Spend in Jail Before Release

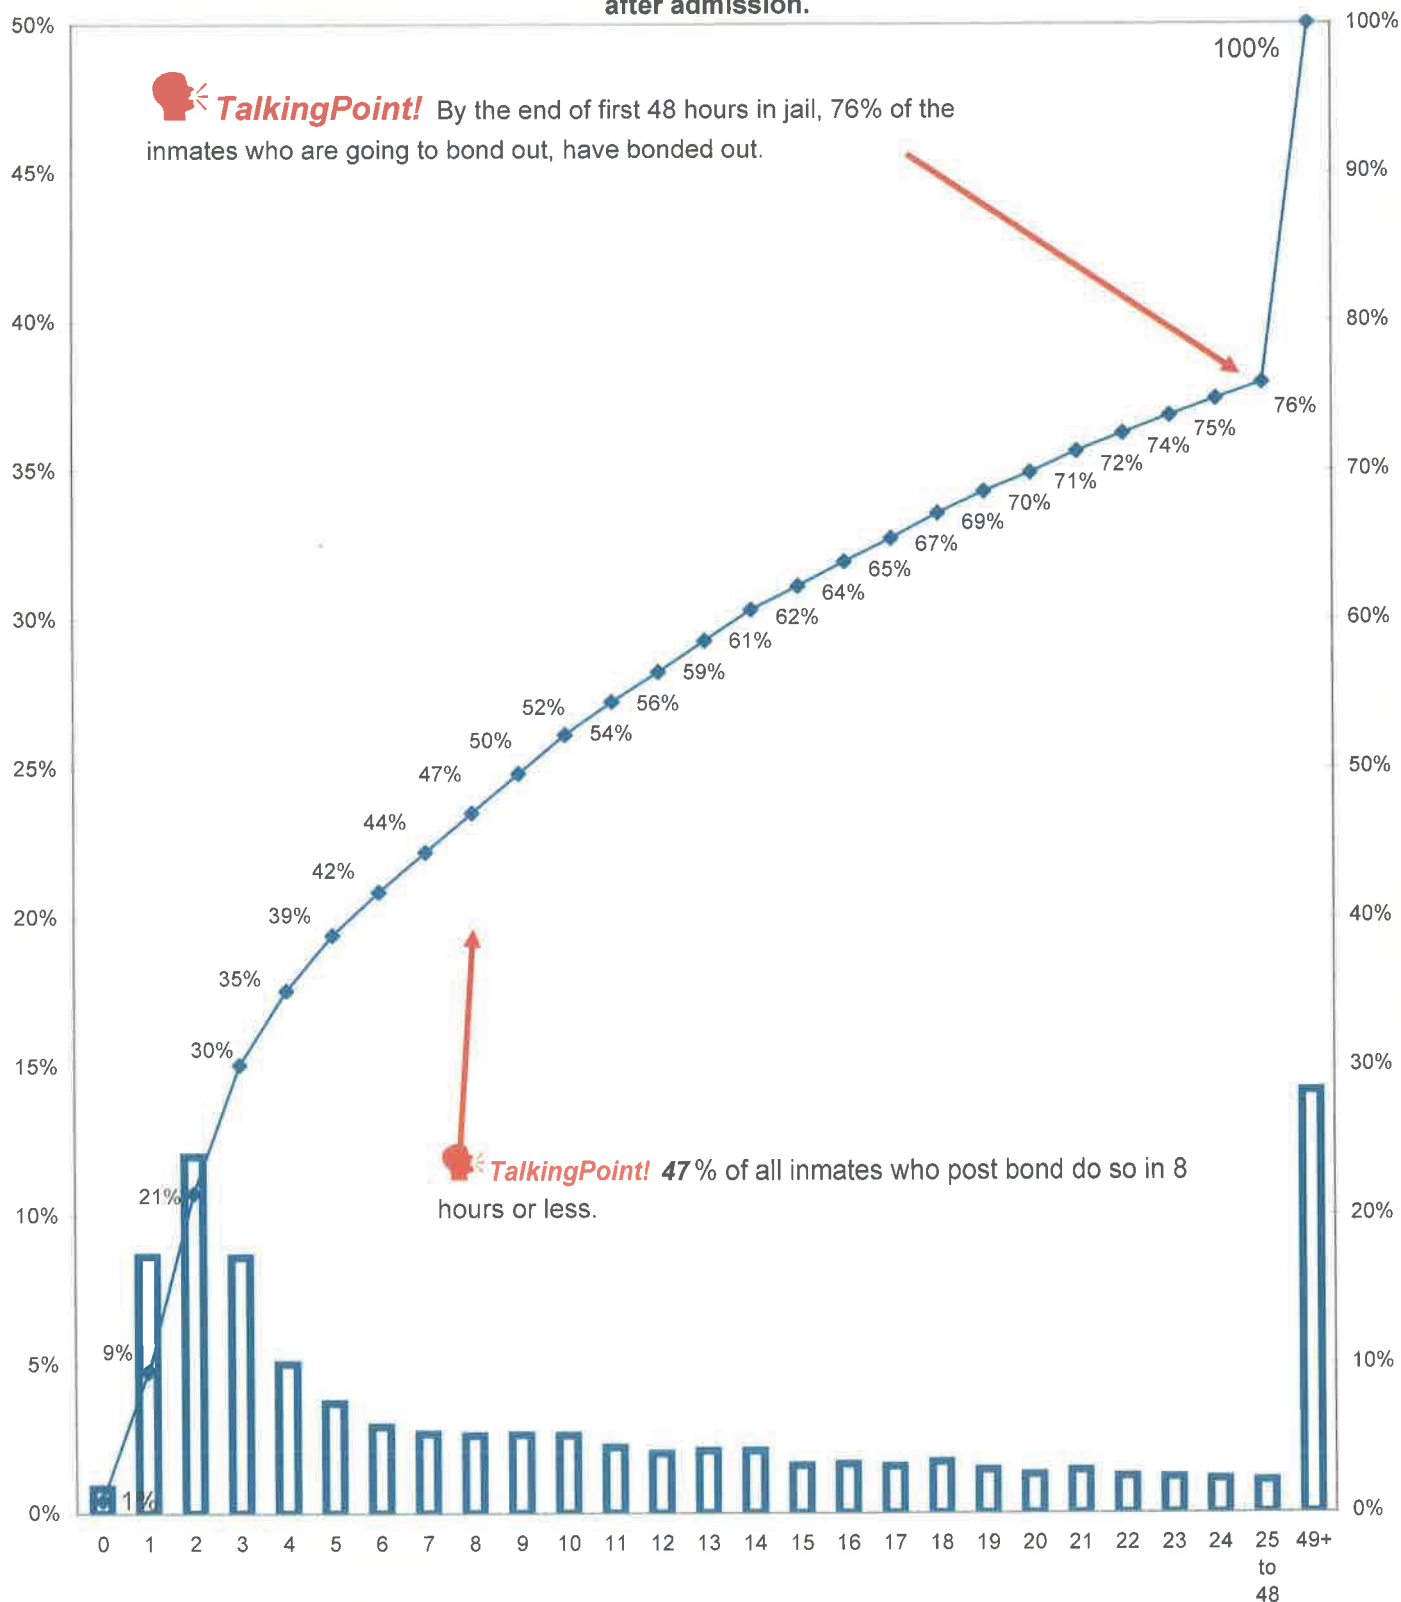

92% of All Inmates Are in Jail Less than 30 Days

Number of Hours Inmates Spend in Jail Before Being Released on Bond

76% of All Inmates Who Post Bond, do so Within the First 48 hours

Of the inmates who post bond, the percentage who bond in 1 hour, 2 hours, 3 hours, etc., after admission.

Percentage of Collections - 2014

County Jail Reimbursement Program Fiscal Year 2014 Update by Andy VerHeek

CJRP reimbursement and eligibility criteria continued in the same manner during FY 2014 that was implemented during previous fiscal years. The table below shows that Kent County experienced an increase in the amount of funds received through CJRP from \$833,855 in FY 2013 to \$963,095 during FY 2014.

Reimbursement and eligibility criteria for CJRP continue to include:

1. All counties in Michigan are required to follow the same eligibility and reimbursement criteria.
2. Three different reimbursement amounts are provided and depend upon each offender's sentencing guideline score and type of offense.
4. Save for a few select offenses, a majority of Crime Class F offenses that were ineligible for reimbursement during FY 2013 continue to be ineligible during FY 2014.

In addition to these changes, CJRP monies received by Kent County are impacted by the length of stay in the Kent County Correctional Facility for each offender as well as the jail disposition rate for CJRP-eligible offenders sentenced in Kent County.

| FISCAL YEAR | CJRP PAYMENT | TOTAL RECEIVED |
|-------------|----------------|-----------------|
| 1995 | \$863,265.00 | \$1,376,785.00 |
| 1996 | \$764,628.00 | \$2,141,413.00 |
| 1997 | \$731,460.00 | \$2,872,873.00 |
| 1998 | \$695,225.00 | \$3,568,098.00 |
| 1999 | \$699,353.00 | \$4,267,451.00 |
| 2000 | \$1,244,996.00 | \$5,512,447.00 |
| 2001 | \$1,120,632.00 | \$6,633,079.00 |
| 2002 | \$1,212,242.00 | \$7,845,321.00 |
| 2003 | \$1,063,183.50 | \$8,908,504.50 |
| 2004 | \$1,069,839.00 | \$9,978,343.50 |
| 2005 | \$968,571.00 | \$10,946,914.50 |
| 2006 | \$791,613.00 | \$11,738,527.50 |
| 2007 | \$837,505.50 | \$12,576,033.00 |
| 2008 | \$1,084,846.50 | \$13,660,879.50 |
| 2009 | \$734,584.50 | \$14,395,464.00 |
| 2010 | \$607,234.50 | \$15,002,698.50 |
| 2011 | \$835,895.50 | \$15,838,594.00 |
| 2012 | \$928,264.50 | \$16,766,858.50 |
| 2013 | \$833,855.00 | \$17,600,713.50 |
| 2014 | \$963,095.00 | \$18,563,808.50 |

Thanks! A big thank you to Andy Verheek for providing the information for this page, and also the three pages earlier in this book called "Recidivism Since 2007", "Recidivism Since 2012", and "Likelihood to Recidivate."

Number of Serious Rule Violations Indexed to Population Most Accurate Way to Depict Change with Changing Inmate Population

| | 1999 | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 | 2006 | 2007 | 2008 | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 |
|-------------------------------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|---------|
| Jail Bed Days | 338,720 | 346,750 | 352,955 | 366,460 | 388,360 | 391,645 | 387,337 | 384,134 | 381,633 | 372,591 | 391,755 | 332,631 | 352,368 | 377,752 | 362,216 | 330,956 |
| total rule violations | 692 | 614 | 636 | 612 | 469 | 789 | 827 | 831 | 832 | 788 | 819 | 747 | 819 | 795 | 749 | 722 |
| per 1000 Jail Bed Days | 2.04 | 1.77 | 1.80 | 1.67 | 1.67 | 2.01 | 2.14 | 2.16 | 2.18 | 2.11 | 2.09 | 2.25 | 2.32 | 2.10 | 2.07 | 2.18 |

With fluctuations in the jail population, converting Incident Based data to the number of rule violations committed per 1000 Jail Bed Days gives a more accurate picture of inmate behavior.

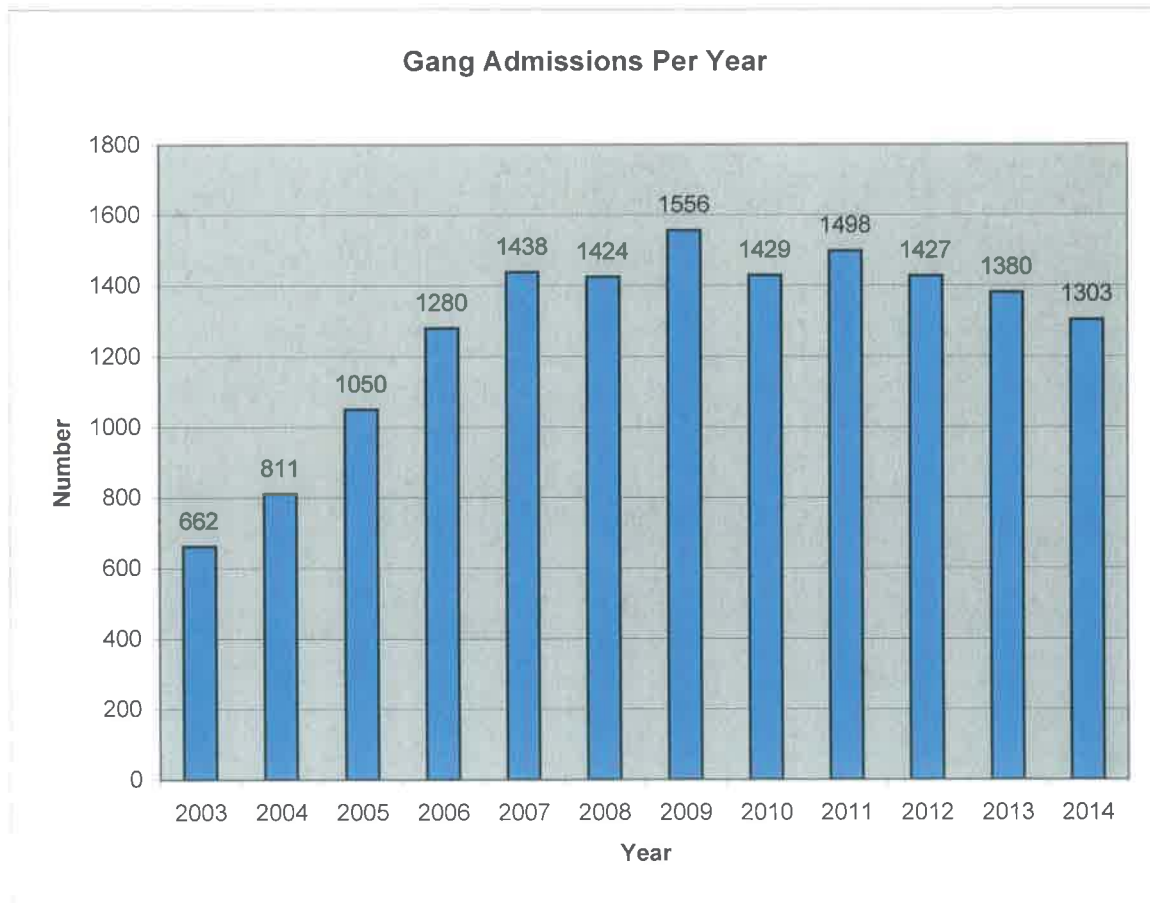

Total Number of Category 1, 2 and 3 Rule Violations in the Last Eleven Years

These graphs show the number of Category 1, 2, and 3 reports per year for the last few years. We have three levels of disciplinary rule violations in the jail. The most minor rule violations are Category 1 violations. Category 2 violations are more serious and Category 3 violations are the most serious. Our disciplinary philosophy is that we would rather deal with an inmate's misbehavior while it is still minor, which is why there are more Category 1 violations than 2's, and more 2's than 3's. Inmates committing Category 2 and 3 violations go to the jail's Disciplinary Segregation Unit to complete their disciplinary sanctions. This chart includes only those rule violations that occurred in the Main Jail.

Gang Admissions Past Twelve Years

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **violent behavior**.

2014 was the lowest level of violent behavior in over 15 years

Comparison - Index of Inmate Behavior

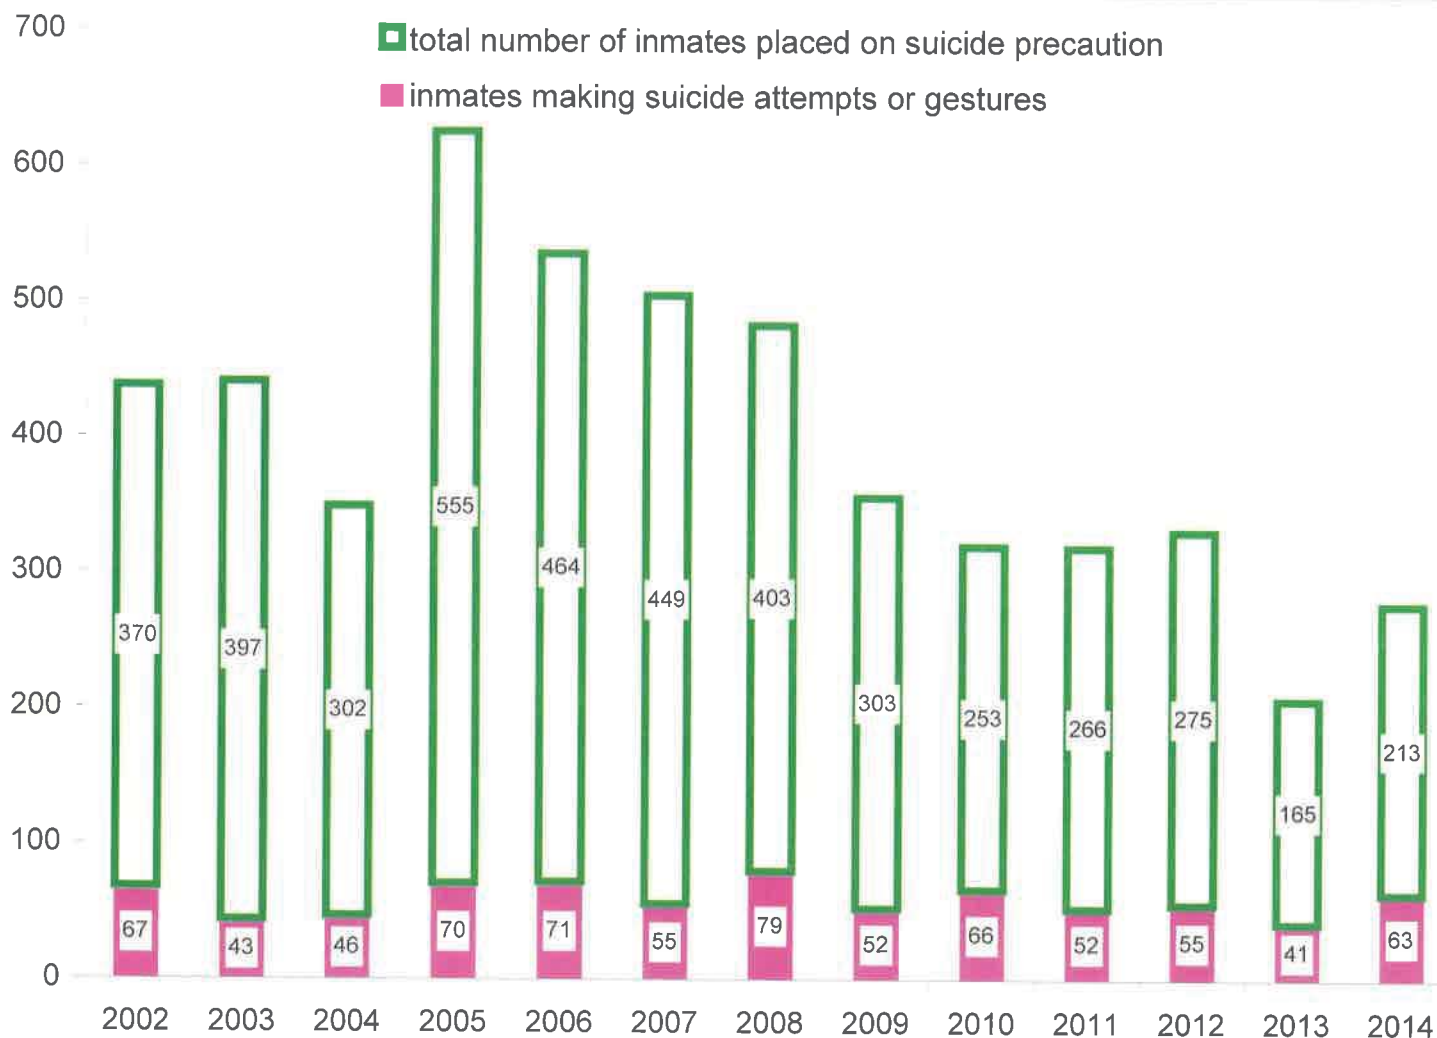

Compilation of the Previous Five Charts

This chart shows all five of the inmate behavior index's and how they performed over the last 15 years. This is a compilation of the data used in the previous five charts. Each category showed significant variation over this period. Keep in mind that the overall number of inmates in the Sheriff's custody decreased during the last few years.

Suicide Attempts or Gestures Compared with the Total Number of Suicide Precautions

KCCF 2002 through 2014

There were 7 successful suicides during this 13 year time period

| | 2002 | 2003 | 2004 | 2005 | 2006 | 2007 | 2008 | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 |
|--|------|------|------|------|------|------|------|------|------|------|------|------|------|
| inmates making suicide attempts or gestures | 67 | 43 | 46 | 70 | 71 | 55 | 79 | 52 | 66 | 52 | 55 | 41 | 63 |
| total number of inmates placed on suicide precaution | 370 | 397 | 302 | 555 | 464 | 449 | 403 | 303 | 253 | 266 | 275 | 165 | 213 |

Our highest level of suicide precaution places inmates in a cell under constant video surveillance. We track how inmates get placed on that level of observation. Either they have made a suicide attempt or gesture, or they have made a suicidal threat to a staff person, or they have been judged to be suicidal following an interview by one of our mental health professionals. The chart above depicts the total number of "S-3's" (the highest level of precaution) and of that number, the number that were declared S-3's because of an actual in-progress attempt to harm themselves, either by hanging, an overdose, cutting themselves, jumping from a height, drowning in a toilet, banging their head, or some other means. These data shows that the jail deputies intervene slightly more than one suicide attempt each week.

Inmate Behavior per Pod or Housing Unit

Minimum Program Inmates Continue to be Best Behaved

| Housing Unit | Number of Cat 2/3's | Index of Population |
|-------------------------------------|---------------------|---------------------|
| D1C Med-Asslt/Close Male | 12 | 1.500 |
| D1F Med-Asslt/Close Male | 16 | 1.000 |
| H2C Med/Min Male Trustees | 62 | 0.969 |
| D1B Med-Asslt / Close Male | 11 | 0.786 |

| B2F BLP Program Pod - Med/Min Males | 10 | 0.313 |
| H2B Minimum Males | 18 | 0.281 |
| L1 Male Classification Pod | 15 | 0.234 |
| B3G Female Classification Pod | 5 | 0.156 |
| H2A Minimum Males | 9 | 0.141 |
| D1A Male Disciplinary Segregation | 4 | 0.133 |
| B2B Med Asslt BLP Program Males | 4 | 0.125 |
| B2D Reentry Pod | 1 | 0.031 |

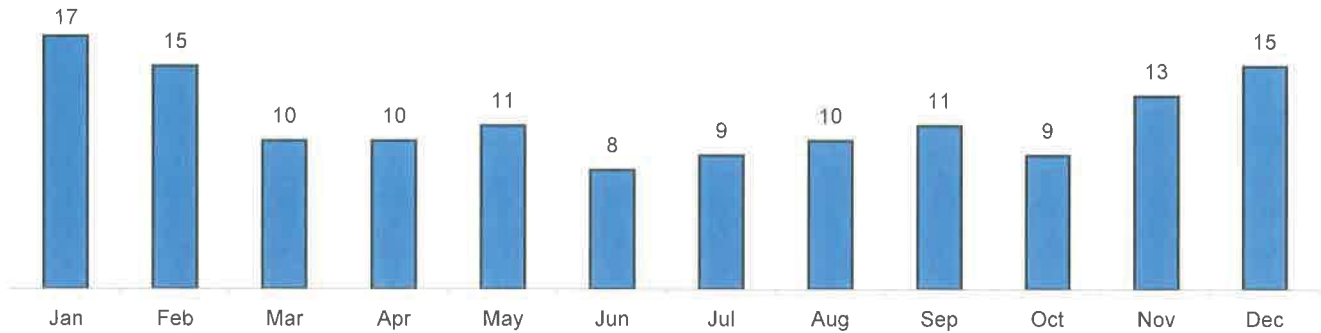

We have a number of separate housing units in the mail jail (their designations appear in the first column). We keep track of the number of inmates who must be moved out of each housing unit and placed in Disciplinary Segregation for a category 2 or 3 violation. We divide the number of rule violations by the number of inmates living in the housing unit to get an index for comparison purposes (this is the number in the third column). The lower the index, the better behaved the housing unit is. As you can tell from this table, the minimum (MINM) custody housing units are generally better behaved than the medium (MEDM) custody units, which are better behaved than the maximum (MAXM) custody units. The classification pods hold inmates who have not yet been assigned a custody level. The "Male Mental Health Unit" houses inmates with serious mental illness.

Number of Fights by Housing Unit

Many fights occur in higher custody levels

TalkingPoint! We no longer have the old linear jail which was removed in December 2012. The entire facility, with the exception of D1, B2 and B3, are now direct supervision. 59% of our fights occur in Medium and Maximum custody areas.

| Have you ever experienced auditory, visual, olfactory, or tactical hallucinations? | 2.6% | 2.5% | 2.4% | 2.4% | 3.0% | 0.7% | 0.4% | 0.4% |
| Has inmate ever had or experienced delusional | 0.3% | 0.3% | 0.2% | 0.2% | 0.4% | 0.1% | 0.0% | 0.0% |

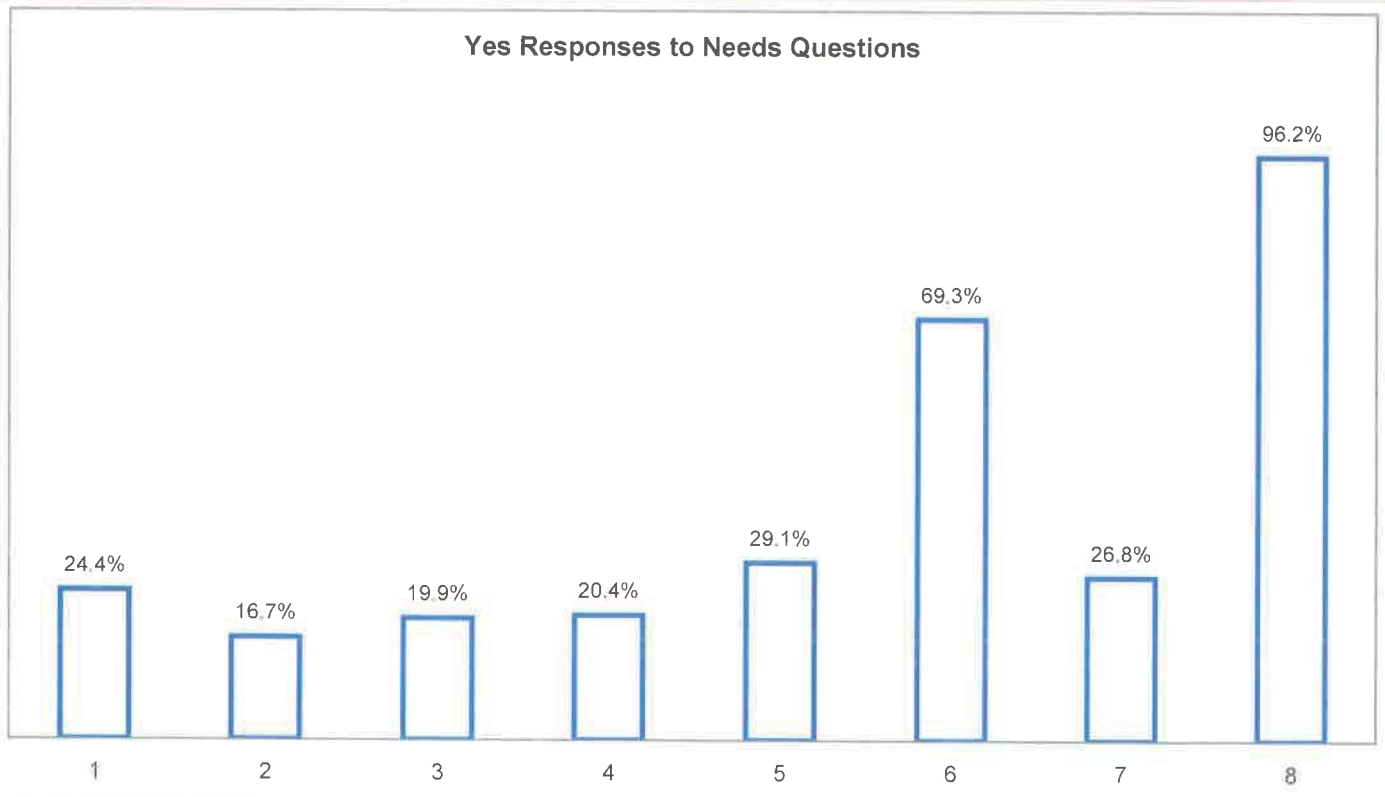

TalkingPoint! Every offender brought to jail is evaluated by a medical professional while still in Intake. The percentage of the mental health survey questions that were answered YES appear on this table. The data in this table is based on the approximately 24,000 offenders each year who came to jail during these years. The form has changed from year to year which is why there are now some blanks.

Inmate Needs Reported in Classification Interview

Offenders Come to Jail with a Number of Needs

| Question: | % Yes | % No |
|---|-------|-------|
| 1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing? | 24.4% | 75.6% |
| 2. MENTAL STABILITY: Does this inmate have mental health problems, including suicidal ideation, that would affect their housing? | 16.7% | 83.3% |
| 3. ALCOHOL ABUSE: Does the inmate admit to having an alcohol problem, or does the inmate appear to have an alcohol problem in your judgement? | 19.9% | 80.1% |
| 4. DRUG ABUSE: Does the inmate admit to a drug problem, or does the inmate appear to have a problem with drugs in your judgement? | 20.4% | 79.6% |
| 5. PAST TREATMENT: Does the inmate indicate past treatment for their drug or alcohol problem? If so, record where, when, and if they are interested in continuing treatment. | 29.1% | 70.9% |
| 6. EDUCATIONAL HISTORY: Does the inmate have a GED or a high school diploma? If not, is the inmate interested in continuing their education in the main jail or honor camp? | 69.3% | 30.7% |
| 7. VOCATIONAL SKILLS: Does the inmate have a marketable skill or trade that is used to support himself and his family? (Answer "Yes" if this is true, and "No" if is the inmate has no skills, limited training, or little or no employment history.) | 26.8% | 73.2% |
| 8. LITERACY: Can this inmate read and write the English language? | 96.2% | 3.8% |

TalkingPoint! These numbers represent the percentage of inmates in population who admit these needs to a classification officer. This information is based on the self report of the inmates during their classification interviews this year. It is not based on a clinical assessment and the report is not verified independently. This reflects an inmate's "admission" only. Not all inmates honestly report their needs at the classification interview. All inmates who stay in jail longer than 3 days are given a classification interview.

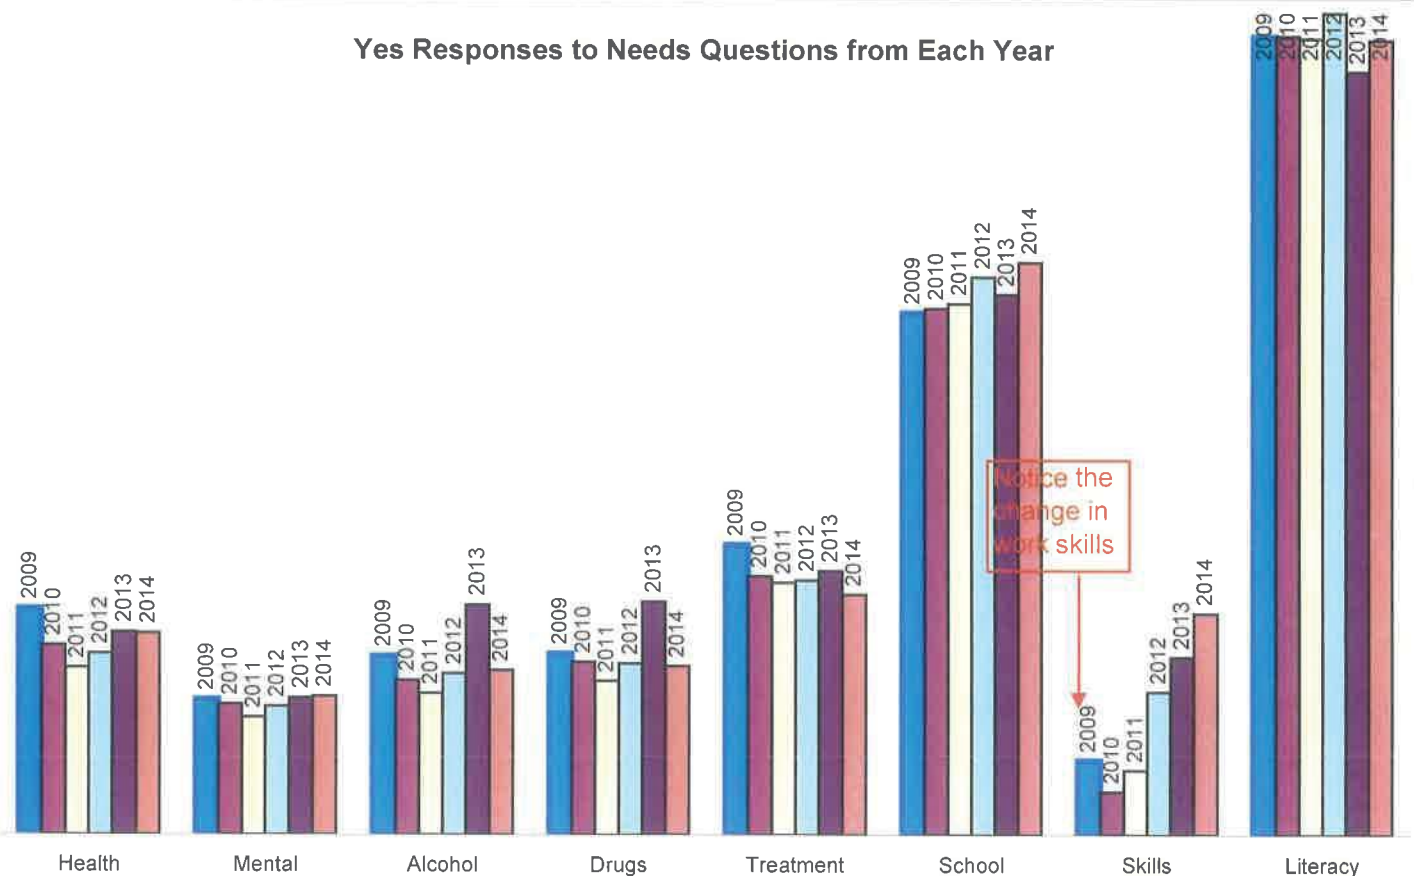

Inmate Needs Reported in Prior Years

Offenders' Needs Remain Steady

| Question: | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 |
|---|-------|-------|-------|-------|-------|-------|
| 1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing? | 27.3% | 22.9% | 20.2% | 21.9% | 24.5% | 24.4% |
| 2. MENTAL STABILITY: Does this inmate have mental health problems, including suicidal ideation, that would affect their housing? | 16.3% | 15.8% | 14.2% | 15.5% | 16.5% | 16.7% |
| 3. ALCOHOL ABUSE: Does the inmate admit to having an alcohol problem, or does the inmate appear to have an alcohol problem in your judgement? | 21.6% | 18.7% | 17.1% | 19.5% | 27.8% | 19.9% |
| 4. DRUG ABUSE: Does the inmate admit to a drug problem, or does the inmate appear to have a problem with drugs in your judgement? | 21.9% | 20.9% | 18.6% | 20.7% | 28.2% | 20.4% |
| 5. PAST TREATMENT: Does the inmate indicate past treatment for their drug or alcohol problem? If so, record where, when, and if they are interested in continuing treatment. | 35.1% | 31.3% | 30.5% | 30.8% | 31.9% | 29.1% |
| 6. EDUCATIONAL HISTORY: Does the inmate have a GED or a high school diploma? If not, is the inmate interested in continuing their education in the main jail or honor camp? | 63.2% | 63.7% | 64.3% | 67.5% | 65.4% | 69.3% |
| 7. VOCATIONAL SKILLS: Does the inmate have a marketable skill or trade that is used to support himself and his family? (Answer "Yes" if this is true, and "No" if is the inmate has no skills, limited training, or little or no employment history.) | 9.0% | 5.2% | 7.8% | 17.3% | 21.5% | 26.8% |
| 8. LITERACY: Can this inmate read and write the English language? | 96.7% | 96.7% | 96.4% | 99.5% | 92.4% | 96.2% |
