

MEASURING WHAT MATTERS

2021 KENT COUNTY CORRECTIONAL FACILITY ANNUAL STATISTICAL REPORT

MARCH 2022

March 2022

Michelle LaJoye-Young
SHERIFF

We are pleased to present the Kent County Correctional Facility's Annual Statistical Report for the year 2021. Assembling these yearly reports of jail data began in 1998, and each new report adds to the long-term analytical value of the information collected. Our goal is to provide accurate, useful, interesting, and representative information to the Sheriff's Department staff, criminal justice planners, academics and community members who are interested in the operation of the county jail.

Beginning in March of 2020, the Covid-19 pandemic brought significant changes to our operations, and this continued throughout 2021. The inmate population was again much lower than normal, but slowly began to rise as the year progressed. Our Community Re-entry Center remained closed for most of the year, and our population was again weighted toward more serious offenders. This was exacerbated by the necessity to hold sentenced State DOC offenders for much longer periods of time due to the prison system enacting moratoriums on accepting new admissions. The stresses of incarceration, aggravated by stringent Covid quarantine guidelines and safety practices (which were far more prolific in 2021 than in 2020), no doubt contributed to the spike in violent behavior by inmates this year, seen most clearly in the number of fights and assaults. This may also be reflective of the rising violent crime rates nationally.

This report is organized to make the information accessible to the readers. You will notice that it has three general types of statistics. Inmate profile statistics depict an overall profile of the inmate population and correctional facility staff. Inmate population and arrest statistics address the topics of how many inmates are coming in, where they are coming from, why they are here, how long are they staying, care that is provided, and some of the costs associated with them. Incident statistics allow us to evaluate the behavior of the inmate population while they are in jail.

For convenience, this report, along with previous years, may also be accessed at <https://www.accesskent.com/Sheriff/reports.htm>. Due to the never-ending task of error detection and correction, when comparing previous editions this update should be considered the most accurate. I realize that this document will not answer every question. If you have further questions, please contact us and we will try to provide any additional information you may need about the inmate population or facility operation. We value your comments and suggestions for future reports.

Finally, a both humorous and humbling reminder: *"Definition of Statistics: The science of producing unreliable facts from reliable figures."* – Evan Esar

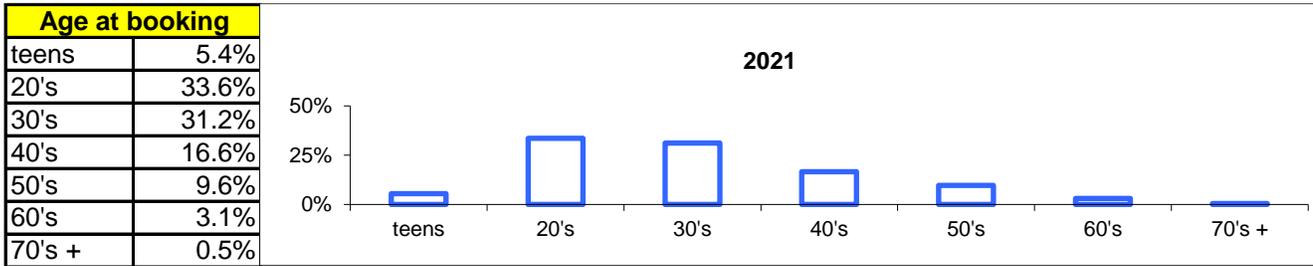

Sergeant Aaron Kleinheksel

INDEX

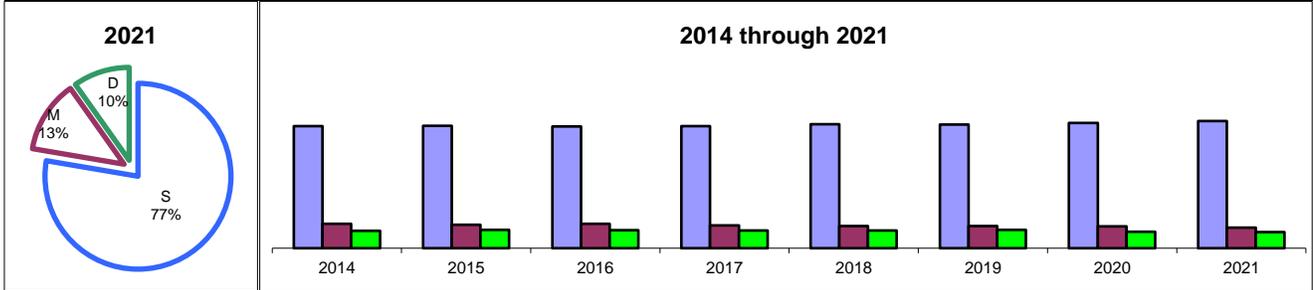

Average Daily Populations and Facility Totals	
Booking and Population Statistics	11
Average Daily Population of the Main Jail by Month	12
Monthly Bookings Averaged Over a Decade	13
Number of Inmates Brought to Jail per Year	14
Number of Bookings and MJ Average / Peak Population	15
Annual Average Daily Population for All Inmates in KCCF Custody Over the Years	16
History of Jail Capacity in Kent County (1835 to 1984)	17
History of Jail Capacity in Kent County (1985 to 1998)	18
History of Jail Capacity in Kent County (1999 to 2012)	19
History of Jail Capacity in Kent County (2013 to Present)	20
Average Length of Stay	
Inmate Profile at Time of Booking (part 3)	3
Average Amount of Time Inmates Stay in Jail, Shown with Inmates Grouped by Release Type	32
Average Length of Stay Depicted as Jail Bed Days	33
Arrest Information	
Number of Inmates Brought to Jail by Arresting Agency	25
Number of Inmates Brought to Jail in the Last 10 Years by the Top Five Arresting Agencies	26
Marijuana-related Arrests by Year	27
Types of Criminal Charges Over Time	28
Top Arrests by Inmate Home Zip Code	29
Kent County Arrest Map by Inmate Home Zip Code	30
Billing, Collections, Fees	
Agency Billing Information	37
Processing Fees for the Last Ten Years	38
Room and Board Collection Efforts	39
County Jail Reimbursement Program	40
Booking or Admissions – Yearly or Monthly Totals and Averages	
Booking and Population Statistics	11
Monthly Bookings Averaged Over a Decade	13
Number of Inmates Brought to Jail per Year	14
Number of Bookings by Year	14
Gang Admissions	45
Classification	
Annual Classification Numbers for 2021	31
Inmate Needs Reported in Classification Interview	64
Inmate Needs Reported in Prior Years	65
Employee Profiles	
Correctional Facility Employee Profile	10
Generational Distribution of Correctional Staff	20
Medical and Mental Health Related Information	
Health Services Report	57
Out of Facility Medical Statistics	58
Responses to Medical Survey Completed in Intake by Nurses	59
“Yes” Responses to Medical Survey Compared with Prior Years	60
Answers to Mental Health Screening Completed in Intake	61
“Yes” Answers to Mental Health Screening in Recent Years	62
Work Completed by Mental Health Staff	63
Inmate Needs Reported in Classification Interview	64
Inmate Needs Reported in Prior Years	65

History of Jail Capacity	
History of Jail Capacity in Kent County (1835 to 1984)	17
History of Jail Capacity in Kent County (1985 to 1998)	18
History of Jail Capacity in Kent County (1998 to 2012)	19
History of Jail Capacity in Kent County (2013 to Present)	20
Incidents and Rule Violations	
Total Counts of Incidents and Inmate Rule Violations	41-42
Number of Serious Rule Violations Indexed to Population	43
Total Number of Category 1, 2 and 3 Rule Violations in the Last Eleven Years	44
Index of Antisocial Inmate Behavior	46
Index of Destructive Inmate Behavior	47
Index of Noncompliant Inmate Behavior	48
Index of Security Related Inmate Behavior	49
Index of Violent Inmate Behavior	50
Comparison – Index of Inmate Behavior	51
Suicide Attempts or Gestures Compared with the Total Number of Suicide Precautions	52
Number of Fights by Housing Unit	53
Number of Fights by Year	53
Inmate Profiles and General Demographic Information	
Inmate Profile at Time of Booking	1-3
Profile of Male Inmates at Time of Booking	4-5
Profile of Female Inmates at Time of Booking	8-9
Interesting Facts about KCCF Inmates	9
Male Inmate Marriage Rate Longitudinal Survey	6

three +	26.8%	28.1%	27.4%	27.7%	29.2%	29.6%	27.6%	28.2%

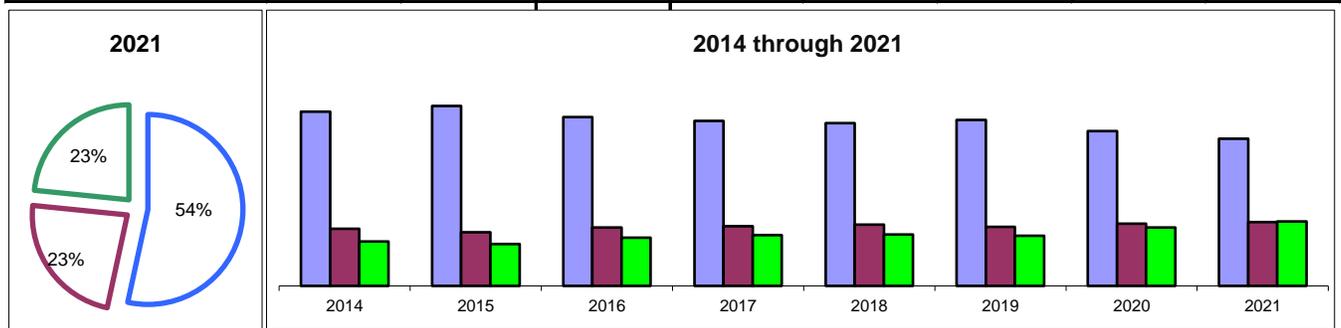

TrendSpotter! We have provided this kind of inmate profile information for many years and the tables point out some interesting differences and similarities. Those in their 20's and 30's account for 65% of all admissions. Once they reach their 40's there is a significant drop.

2021	78.3%	12.6%	9.1%

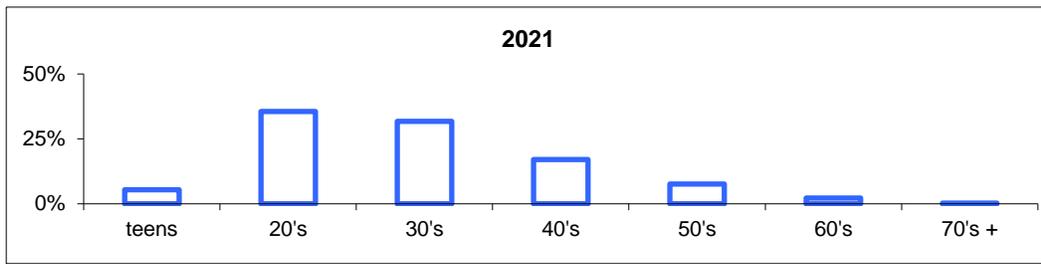

Male Inmate Marital Status 20 Year Trend

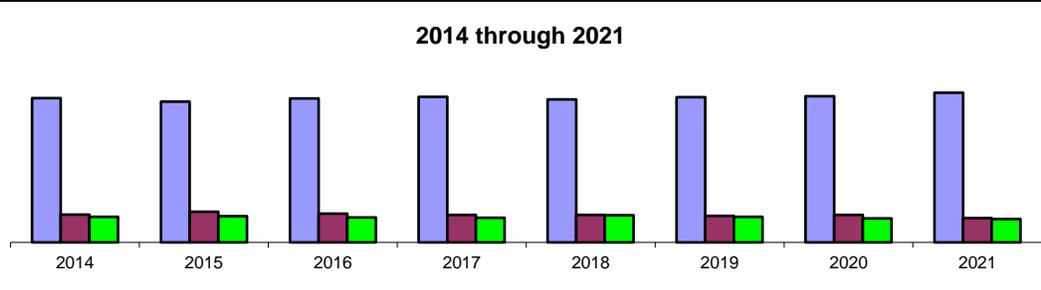

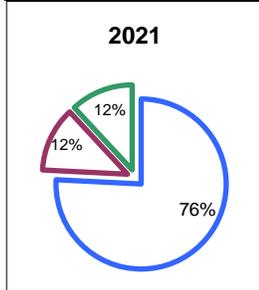

TrendSpotter! While collecting inmate profile data each year has its own utility, this chart demonstrates how some things can only be detected over much longer periods of time. As can be seen, the marriage rate of males coming into the jail was relatively stable until about 2005, and then began a steady overall decline over the next 15+ years. This mirrors societal trends (especially among those demographic groups most represented in jail) as well as informing us that unmarried males are much more likely to be arrested.

Profile of Female Inmates at Time of Booking (part 1)

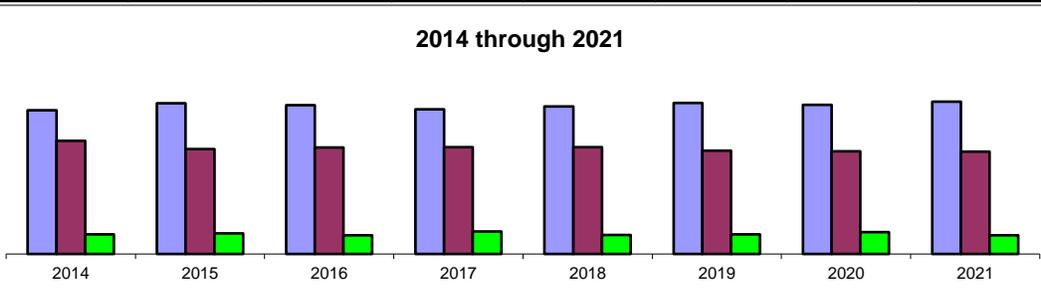

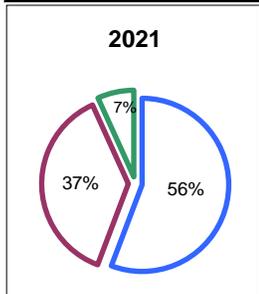

Age at booking	
teens	5.4%
20's	35.6%

Number with past Corrections/Law Enforcement experience	66	23.3%
Number who were employed in other KCCF positions when they applied	20	7%

 **Talking Point!** The information contained in the table above was correct as of January 1, 2021. It should be noted that our deputy turnover rate is low when compared with other jails our size around the country. Turnover rates in jails of 10% to 15% are not uncommon, and rates of 25% and higher are sometimes reported.

Booking and Population Statistics

The Average Daily Population of the Main Jail

MAIN JAIL AVERAGE DAILY POPULATION BY MONTH 2020 & 2021

TrendSpotter! The average monthly population of the jail was often over **1100** in 2018 and 2019, and this chart shows the drastic decrease from those numbers beginning in March of 2020 resulting from the Covid-19 pandemic. 2021 witnessed those numbers begin their slow climb back. Starting in November of 2021 however, this was arrested by a resurgence of Covid-19. We would expect these numbers to resume their return to pre-Covid levels in 2022.

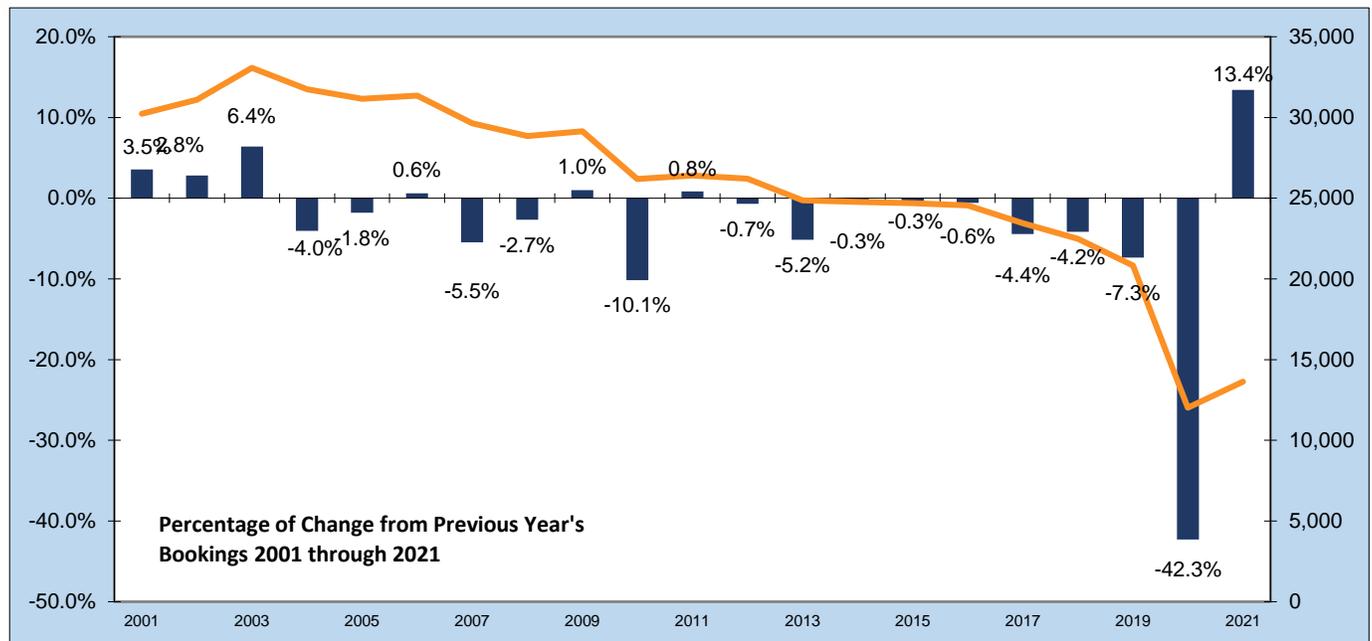

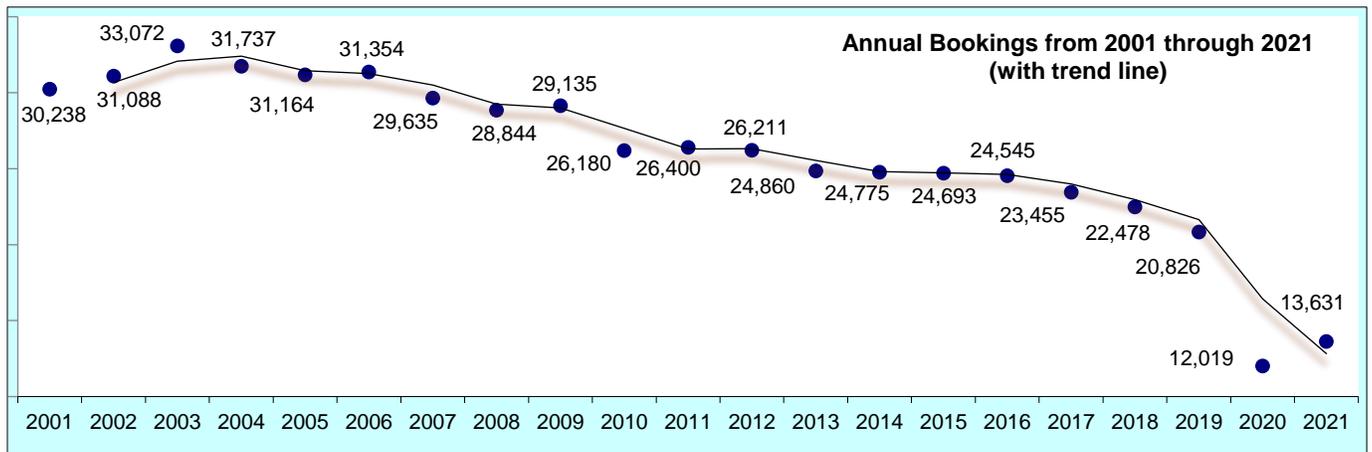

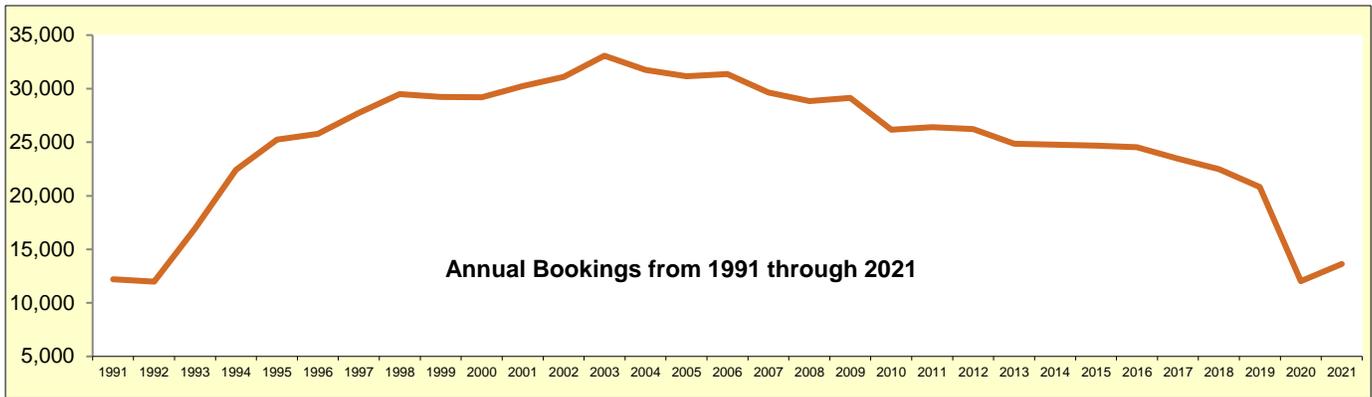

Monthly Bookings Averaged Over 10 Years

TrendSpotter! This chart presents the 10 year average of new book-ins organized by month. The purpose of this is to further identify our yearly activity levels for administrative planning purposes. Using this data we can see that March and August are historically our busiest months, while February and November see the lowest number of bookings.

The Number of Inmates Brought to Jail per Year

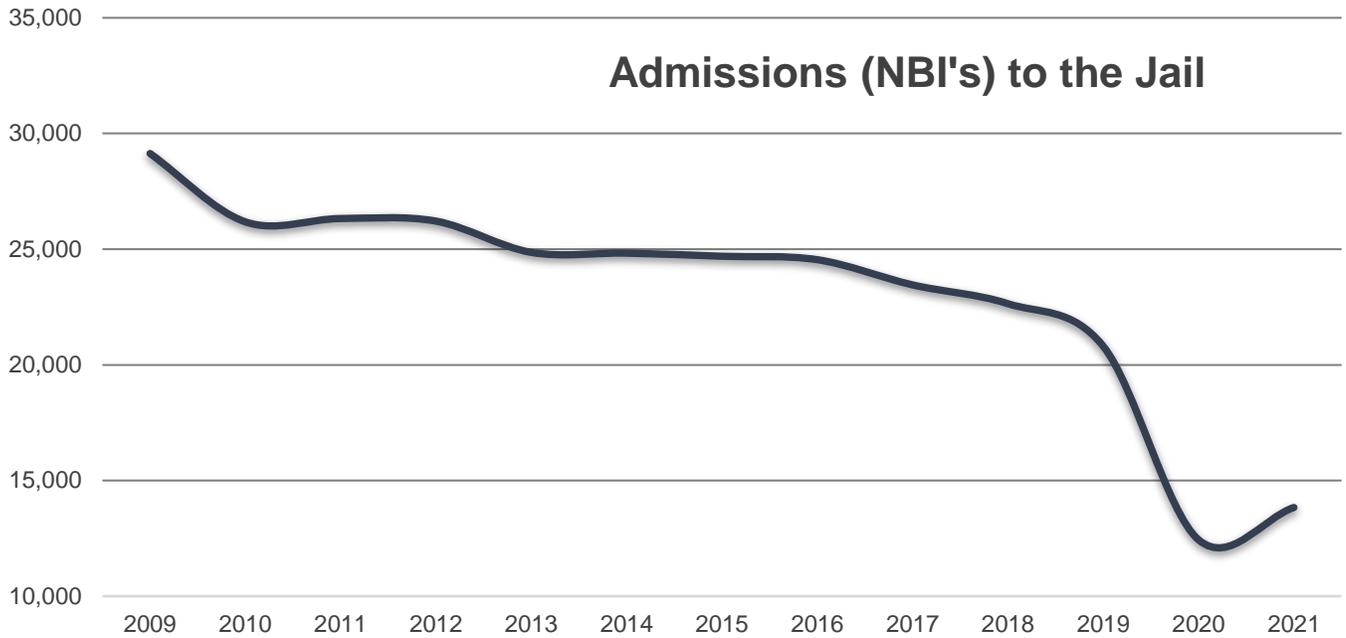

Significant drop in admissions due to Covid-19

 **TrendSpotter!** The above chart shows the number of bookings each year (orange line) with the % of increase or decrease from the previous year (blue bar). We experienced a 42.3% decrease in 2020. The 3 charts on this page starkly illustrate the effect of Covid-19 on our population for 2020.

Number of Bookings and MJ Average / Peak Populations

year	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
NBI	29,135	26,180	26,325	26,211	24,860	24,828	24,693	24,545	23,455	22,642	20,804	12,436	13,835

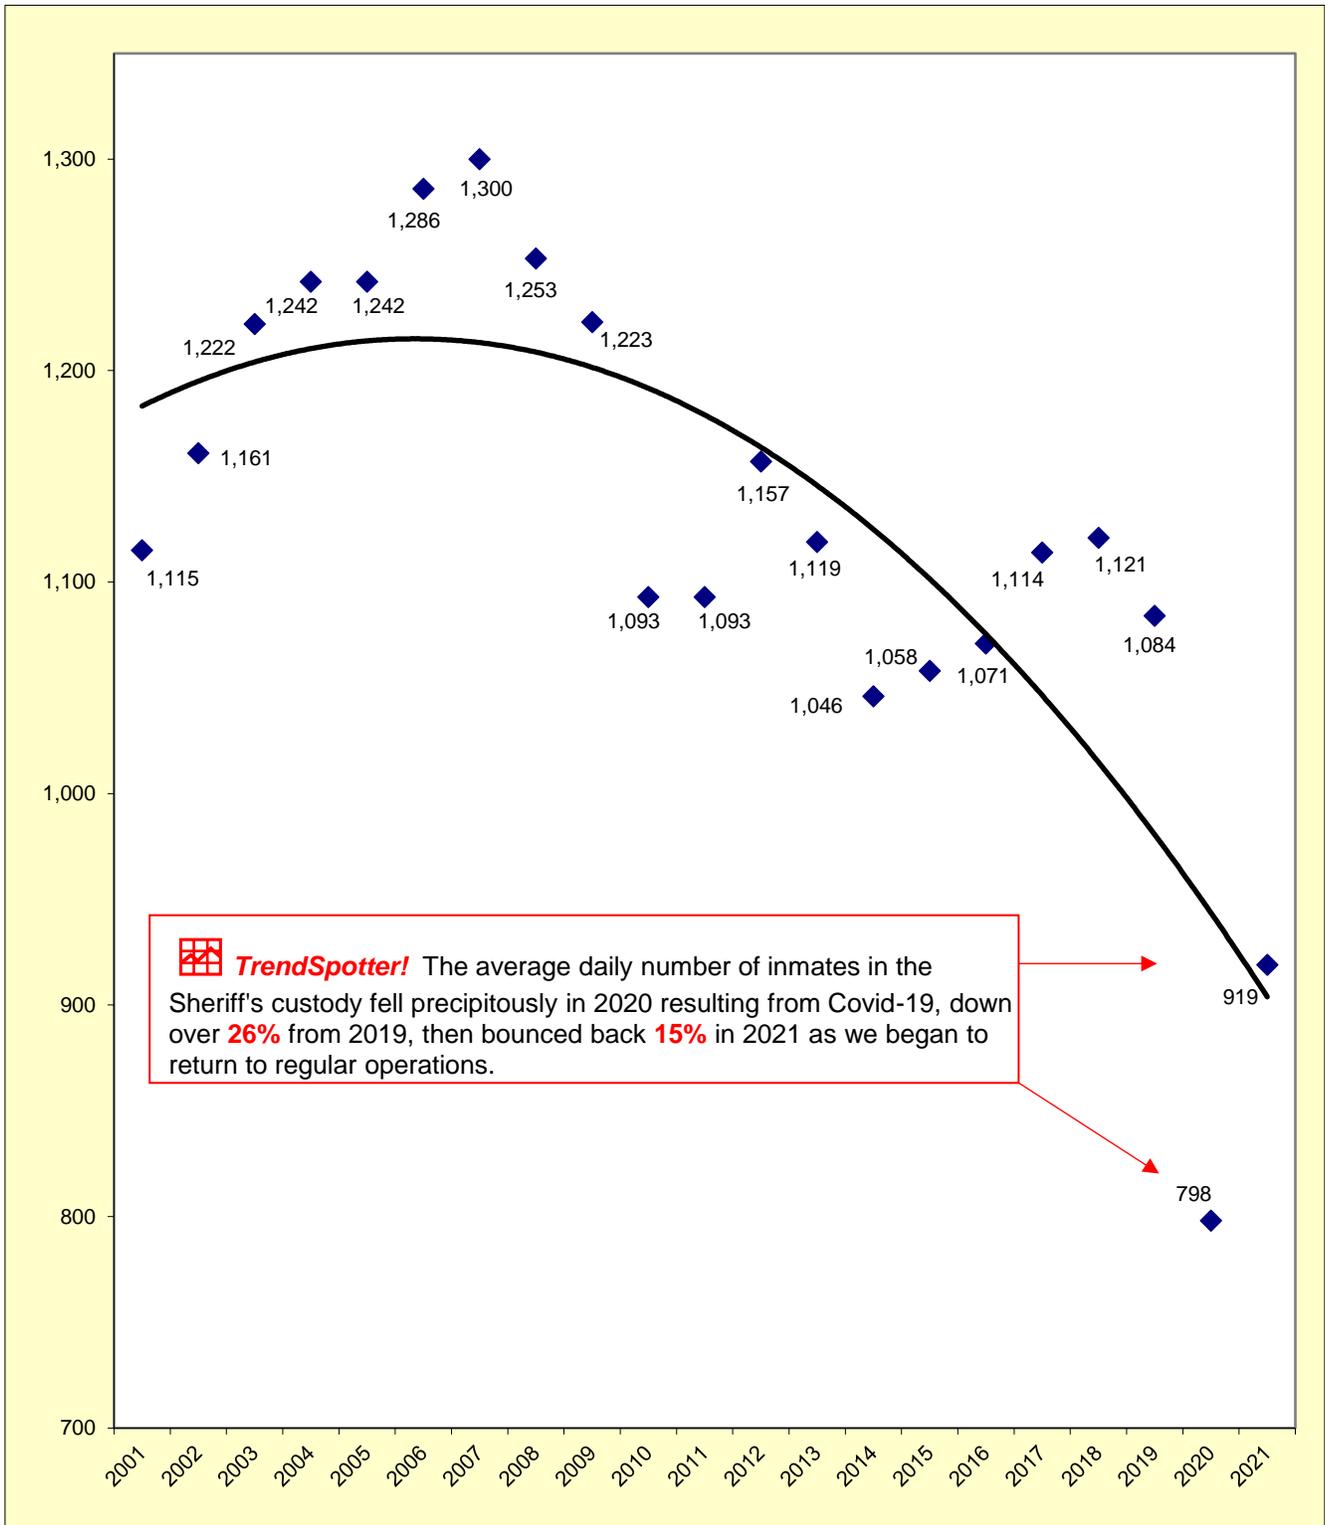

year	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021

Peak	1,164	1,004	1,079	1,173	1,103	1,004	1,139	1,162	1,216	1,205	1,199	1,128	1,065
+ or -	8.5%	10.1%	12.0%	13.7%	11.2%	8.9%	8.8%	8.5%	9.2%	7.5%	10.6%	41.4%	15.9%

TalkingPoint! The bottom chart shows the difference in the Main Jail between the **AVERAGE** daily population and the **PEAK** daily population. In 2021 we had more inmates than average **49%** of the time. The difference between the normal or "average" population and the peaking population is called the "peaking factor." The peaking factor for 2021 was 15.9%.

Annual Average Daily Population for all Inmates in KCCF Custody

The figures on this graph represent the daily average of the total number of inmates in our custody, including the Main Jail, Community Reentry Center, and Honor Camp (closed in 2010). It **does not include** Kent County inmates lodged at other agencies.

History of Jail Capacity in Kent County (1835 to 1984)

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1835	First Kent County Jail consisted of two cells in the corner of the Courthouse				
1845	First jail burns and for the next 10 years inmates are housed in rented quarters, primarily in a cellar of a building on Canal Street, with more important inmates being sent to jails in adjoining counties.				
1855	A new Sheriff's residence was built with a wooden structure called "Kent County Jail House" in the rear. It consisted of heavy planking with sheet iron sheathing on the inside.				
1872	Rising crime and frequency of escapes from the current jail cause the county to construct a new jail in the "Bastille" style. When it opened in March, it was called the "Prisoner's Paradise."	114			
1913	Chairman of the Finance Committee of the Board of Commissioners called the jail a "cheese box" that had "first prize for being the most hazardous building in Michigan today."				
1950	Peak Average Daily Population reaches 162 inmates.				
1954	After several failed attempts over 4 decades, voters finally approve a ballot measure for a new jail.				
1958	Original Ball Avenue Jail constructed with a capacity of 240 beds.	240			240
1968	Honor Camp opens with a capacity of 48, bringing us to a total capacity of 288.	240	48		288
1974	Jail expansion by 116 beds, bringing us to a capacity in the Main Jail of 356. Total capacity for all jail facilities was 404.	356	48		404
1977	Jail expansion by 95 beds, bringing us to a capacity in the Main Jail of 451. Total capacity for all jail facilities was 499.	451	48		499
1977	61st District Court creates Community Service Program for sentenced misdemeanor cases.				
1979	Lawsuit filed by six inmates in U.S. District Court.				
1980	Formation of "Alternatives to Incarceration" task force.				
1980	We begin the practice of boarding out inmates to other counties due to overcrowding. This continued for 15 years.				
1981	Creation of Court Services Department to administer Pre-trial Release and Community Service programs. Post arraignment Pre-trial Screening begins at the jail.				
1982	Work Release facility created at the Salvation Army building with a capacity of 48 beds.	451	48	48	547
1982	Court Services Community Service program begins placing felony and misdemeanor cases to work in the community from all district courts and Circuit Court.				
1982	Federal Court order by Judge Enslin in the matter of Johnson v. Heffron limiting occupancy at the Main Jail to 95 percent of capacity.				
1983	Jail expansion by 122 beds, bringing the Main Jail to 573. Total capacity for all jail facilities was 669.	573	48	48	669
1984	Expansion of Pre-trial Release and Community Service programs. Pre-trial program now includes full-time supervision services.				
1984	Expansion of Work Release facility by 24 beds for a capacity of 72. Total capacity for all jail facilities is 693.	573	48	72	693
1984	Jail Management System approved for automating records at the Kent County Jail.				

History of Jail Capacity in Kent County (1985 to 1998)

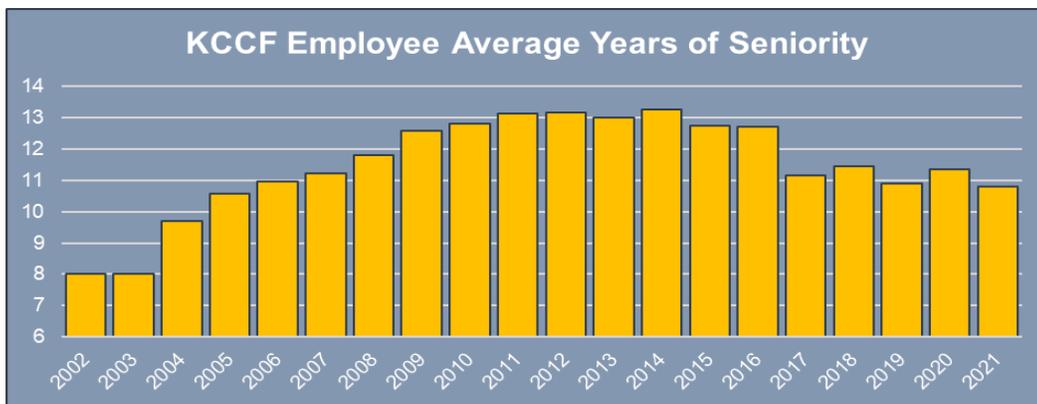

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1985	Agreement to house up to 25 females at Project Rehab Community Treatment Center.				
1985	Expansion of Work Release facility by 18 beds to a total capacity of 90. Total capacity for all jail facilities is 711.	573	48	90	711
1987	Jail Population Management Board formed to study causes of jail crowding.				
1987	Electronic Monitoring and Work Crew programs started with Federal Grant				
1988	Additional judge added for 17th Circuit Court				
1989	Formation of the Community Corrections Advisory Board pursuant to P.A. 511 of 1988.				
1989	Approval of Comprehensive Criminal Justice System Study by David M. Bennett.				
1989	Temporary minimum security jail building adding 64 beds to the Main Jail, bringing its capacity to 637. Total capacity for all jail facilities is 775.	637	48	90	775
1989	Expansion at the Work Release adds 14 beds for a total of 104 beds. Total capacity for all jail facilities is 789.	637	48	104	789
1990	This was the high year for the practice of boarding inmates in other counties. Daily average this year was 146.				
1990	Tax increase of 0.84 mills approved by voters on August 7th to construct a new jail addition.				
1990	Contract approved for jail architectural services.				
1990	Creation of Criminal Justice Coordinator position.				
1991	Pre-trial and Community Service program expanded to provide staff for additional numbers of supervised release cases and community service placements.				
1992	New jail addition opened in December but parts of the old jail are closed for renovation. We become the central intake facility for the Grand Rapids Police Department.				
1992	Pre-trial services expanded to include pre-arraignment screening and investigation and Fast Track processing 24 hours a day, 7 days a week coverage at the jail.				
1993	New jail addition and renovation of the old jail completed, adding 363 additional beds (after closing the temporary facility), bringing us to a capacity in the Main Jail of 1,000, and a total capacity of 1,152.	1,000	48	104	1,152
1993	Jail Bed Allocation Agreement begun, committee implemented, and weekly jail bed reports sent to all criminal court judges.				
1993	Temporary minimum security building relocated to Honor Camp. Capacity at Honor Camp remains at 48.				
1994	The practice of boarding inmates in other counties because of overcrowding finally ends this year after 15 years.				
1996	Order from the Federal Sixth Circuit Court granting relief from Judge Enslen's count reduction measures.				
1997	Pre-trial Electronic Monitoring program re-started after being discontinued in 1989.				
1997	Federal grant program enables Kent County communities to add large numbers of new police.				
1998	Research conducted into the issues surrounding adding double bunks to the Main Jail. 24 bunks added this year, beginning the capacity of the Main Jail to 1,024.	1,024	48	104	1,176

History of Jail Capacity in Kent County (1998 to 2011)

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1998	Jail Population Monitoring Clerk begins monitoring split-sentence cases to facilitate early release into community facilities.				
1999	29 additional double bunks added for a total of 53, with a capacity of 1,053 in the Main Jail, and a total capacity of 1,205.	1,053	48	104	1,205
1999	Relocation of the Work Release facility from the Salvation Army to the old Kent Oaks facility, increasing the capacity to 136. Total system capacity is now 1,237.	1,053	48	136	1,237
2000	9 additional double bunks added for a total of 62, bringing us to a capacity of 1,062 in the Main Jail, and a total capacity of 1,246.	1,062	48	136	1,246
2002	32 additional double bunks added for a total of 94, with a capacity of 1,094 in the Main Jail, and a total capacity of 1,278.	1,094	48	136	1,278
2003	Two additional judges added for 17th Circuit Court.				
2003	Six additional bunks added to the Honor Camp, increasing its capacity to 54.	1,094	54	136	1,284
2004	Ten additional bunks added to Work Release, increasing its capacity to 146.	1,094	54	146	1,294
2004	Corrections and Detention Millage Committee formed				
2005	Two more bunks to the Honor Camp, capacity up to 56	1,094	56	146	1,296
2005	Corrections and Detention Millage Committee submits final report to County Administration in December.				
2005	Expansion project begins at Work Release and extra programs added. Building renamed the Community Reentry Center.				
2006	Expansion at the Work Release completed.	1,094	56	248	1,398
2006	Four more bunks added to Honor Camp, capacity up to 60	1,094	60	248	1,402
2006	90 additional double bunks added bringing us to a capacity of 1,184 in the Main Jail, and a total capacity of 1,492.	1,184	60	248	1,492
2006	Renovation started on the new Mental Health Unit. 53 bunks taken out of service.	1,131	60	248	1,439
2007	Criminal Justice Planners Harrison / Landmark present a report to County Administration in December that evaluates the jail's facilities and recommends demolition and expansion.				
2007	Mental Health Unit opened with 39 additional bunks, leaving us with a Main Jail capacity of 1,170 and a total capacity of 1,478.	1,170	60	248	1,478
2007	Kent, Kalamazoo and Allegan Counties hire a consulting firm to determine the feasibility of creating a regional jail.				
2008	Voters approve an extension of Jail Millage.				
2009	County selects Tower Pinkster as the design firm for the expansion and demolition project, and Owens, Ames and Kimble were selected as the construction firm. A jail transition team is formed and design work begins in mid-summer.				
2010	Renovation started on Upper Rear and D1B. Additional double bunks are added to B2 and B3. The Main Jail has a new temporary capacity.	1,101	48	248	1,397
2010	Using Honor Camp for inmate housing suspended in November.	1,101	0	248	1,349
2010	One wing of the Work Release (CRC) was closed the last week of December, leaving two wings in operation.	1,101	0	186	1,287
2011	The newly renovated Upper Rear reopens in January as H2 with a new capacity of 192.	1,293	0	186	1,479
2011	The newly renovated D1B reopens in February with a new capacity of 46. New A Building video visitation annex is opened, allowing in-person visitation areas to be closed down.	1,331	0	186	1,517
2011	Lower One Man, Middle One Man, and Upper Annex are demolished in March.	1,221	0	186	1,407

History of Jail Capacity in Kent County (2012 to present)

Year	Description of the Event or Solution	Capacity Levels		
		MJ	WR	System
2012	The new jail housing units open in December (L1, L2, L3, M1, M2, and M3). The old side (Lower, Middle and Upper) is closed.	1,285	186	1,471
2015	Work Release (CRC) is closed. 192 Double bunks are installed in B2, B3, D1, D2 & D. This increased our Main Jail count to 1,477.	1,477	0	1,477
2016	Construction of a new kitchen and a dedicated entrance for the Work Release (CRC) program to the Main Jail was started. Completion is projected to be April, 2017.	1,477	0	1,477
2017	The new kitchen and Work Release Entrance additions to the jail are completed and open.	1,477	0	1,477
2020	In March, the Covid-19 pandemic resulted in a drastic reduction in population size, going from over 1100 to a low of 624 and including the suspension of our Work Release (CRC) program. This year also saw the first full year of our new Indigent Court bond reform program and the introduction of electronic tether to the jail, both of which effect population.	1,477	0	1,477

Generational Distribution of Correctional Staff

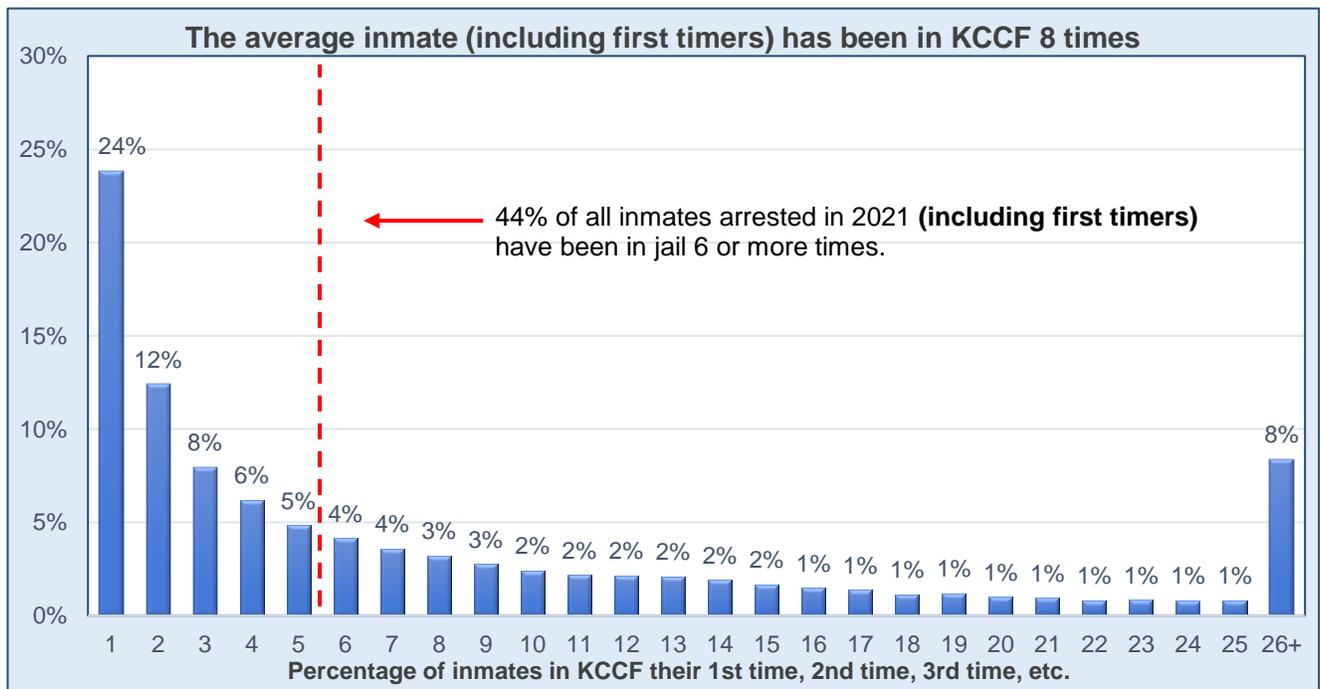

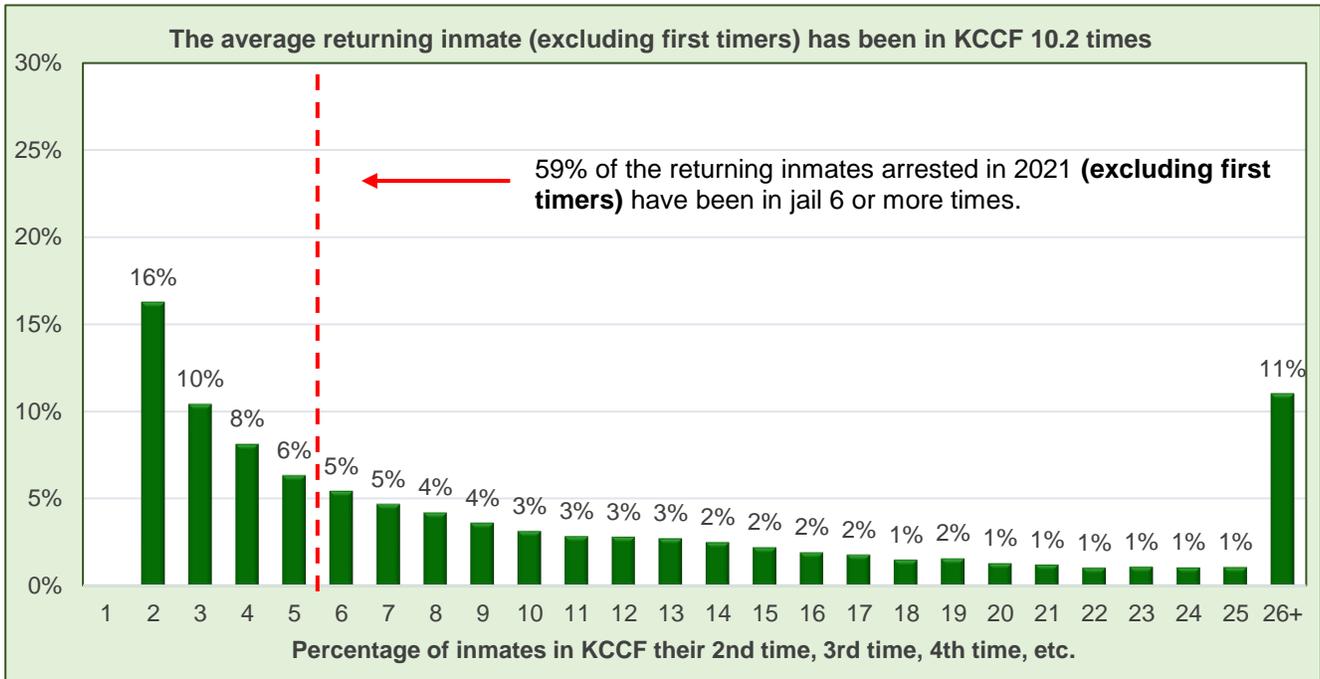

In recent years our facility has been undergoing a considerable transition in the age of staff. These numbers represent our generational distribution as of February 2022.

	Deputies	Admin	Total
Baby Boomers: Born 1946-1964	4.5%	0.3%	4.9%
Generation X: Born 1965-1980	28.0%	10.8%	38.8%
Millenials (Gen Y): Born 1981-1996	49.3%	3.1%	52.4%
Gen Z (iGen): Born 1997-2012	3.8%	0.0%	3.8%
Total	85.7%	14.3%	100.0%

Total Number of Times an Inmate has been in KCCF

Core Group of 2,224 Offenders Return to Jail 15 Times or More

These graphs were produced by looking at the **10,893 unique offenders arrested in 2021** and counting how many times they had been in the Kent County Correctional Facility since 1986. The point of producing these graphs side-by-side is to show the difference in the number of times in jail between the repeat offenders (the recidivists are in the top chart) and the whole population that includes the lightweights (bottom chart).

TalkingPoint! Of all the people brought to jail, 44% are there for their first, second or third visit. Among the offenders who came to jail in 2021, there was one inmate who had been in KCCF **147 times!** Remember, these numbers only represent the number of times these offenders were in the Kent County Jail and doesn't include any visits they may have made to other jails.

Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking at the people in jail or being admitted to jail and looking backwards to see how many of them have been admitted to the Kent County Correctional Facility in previous years. Another approach to examining recidivism is examined on this page. This forward looking approach surveys a group of admissions at a point in the past and follows them in subsequent years to see how many individuals were rebooked after their initial release from the Kent County Correctional Facility. The information on this page examines inmates booked into the Kent County County Correctional Facility during calendar year 2014 and then measured what proportion of them were rebooked into the Kent County Correctional Facility through the remainder of 2014 through the end of 2019. We provided the jail data from those years to Andy Verheek at the Kent County Office of Community Corrections and he analyzed it for recidivism rates. The results of the analysis are reported on this page.

 **TalkingPoint!** There were a total of 59,605 unique individuals booked into KCCF at least one time over the six year period from 2014 through 2019. Out of these 59,605 individuals, 26,999 were rebooked (for any reason) into KCCF one or more times during this same time period. This represents an overall recidivism rate of 45.3%, meaning that 45.3% of the individuals in this sample were booked into KCCF two or more times. Of the 26,999 offenders booked two or more times into KCCF, females were admitted an average of 3.7 times and males an average of 4.0 times.

"Class of 2014 to 2019" - 59,605 individuals booked & rearrested anytime in 2014 through 2019

	Total Individuals booked at least once anytime in 2014 through 2019	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	59,605	26,999	45.3%
Male	42,094	20,094	47.7%
Female	17,511	6,905	39.4%
Black	20,745	11,574	55.8%
Hispanic	6,710	2,498	37.2%
White	31,542	12,693	40.2%

 **TalkingPoint!** The table above includes people whose first arrest in the time period came in 2014 but also those whose first arrest was during the years 2015 through 2019, so some of them did not have much elapsed time to be re-arrested. In the table below we looked at the recidivism rate for ONLY those individuals that were booked into KCCF from January 1, 2014 through December 31, 2014 and released to the community after their first arrest in 2014. This means that those released to prison, another facility, or another agency were filtered out of the analysis. **Each of the offenders in the remaining population had a minimum of 5 full years to get in trouble with the law again.** There were 15,176 individuals booked into KCCF during 2014 and subsequently released back into the community. Out of these 15,176 offenders, 9,485 were rebooked into KCCF at least once from their initial booking in 2014 until December 31, 2019. This includes individuals first booked into KCCF in 2014 with their first subsequent booking occurring in the same year (2014). This equates to a recidivism rate of 62.5%.

"Class of 2014" - 15,176 individuals booked in 2014 and their rearrests later in 2014 through 2019

	Total Individuals booked at least once in 2014	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	15,176	9,485	62.5%
Male	10,855	7,142	65.8%
Female	4,321	2,343	54.2%
Black	6,099	4,549	74.6%
Hispanic	1,487	888	59.7%
White	7,455	3,980	53.4%
First Time Offenders in 2014	4,342	1,773	40.8%
Less than High School Education	4,520	3,106	68.7%
High School Education or More	10,656	6,379	59.9%

Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking at individuals booked into KCCF from 2014 through 2019 to see how many may have been rebooked during that same time frame. This page looks at a group of admissions for a more recent time span of 2019 through 2021. We looked at the overall recidivism rate for this three-year time span as well as recidivism when selecting out offenders who received a proxy score in 2019. Jail data from these years were analyzed by Andy Verheek at the Kent County Office of Community Corrections.

 **TalkingPoint!** There were a total of 26,679 unique individuals booked into KCCF at least one time over the three year period from 2019 through 2021. Using a broad definition of recidivism that looks at rebooking into KCCF for any reason, including probation and parole violations, 9,597 out of the 26,679 individuals were rebooked at least once during this three year period. This represents an overall recidivism rate of 36.0%. Of these 9,597 individuals booked two or more times into KCCF, females were admitted an average of 2.9 times and males an average of 3.1 times. It should be noted that the recidivism rate is dependant on the specific definition of recidivism utilized at the time of analysis. For example, measuring recidivism for those with an initial booking event in 2019 and released to the community (meaning that those released to prison, another agency, or other facility were excluded from the analysis), the resulting recidivism rate would increase to 45.6%.

"Class of 2019 to 2021"

	Total Individuals booked at least once anytime in 2019 through 2021	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	26,679	9,597	36.0%
Male	19,217	7,391	38.5%
Female	7,462	2,206	29.6%
Black	10,614	4,492	42.3%
Hispanic	2,702	780	28.9%
White	13,604	4,245	32.5%

 **TalkingPoint!** The previous table above examined those individuals whose first arrest occurred during the time period of 2019 through 2021 and includes a broad definition of recidivism. However, not all offenders booked into the Kent County Correctional Facility are predicted to recidivate at the same rate. Using a proxy risk assessment instrument that takes into consideration each individuals age at first offense, prior bookings into jail, and current age, Kent County Correctional Facility personnel can obtain an initial prediction of those most likely to be rebooked into the facility in the future. This proxy risk score is instrumental to the establishment and provision programming in the Kent County Correctional Facility. The following table examines the recidivism rates for those individuals that were booked into KCCF for the first time in 2019 and Jailview had proxy information for the individuals most likely to be released back into the community meaning that offenders released to prison, another facility, or other agency were filtered out. There were 5,259 individuals booked into KCCF in 2019 where there was proxy score information available and were released back into the community. Out of these 5,259 individuals, 3,897 were rebooked into KCCF at least once for any reason (including parole and probation violations) following their initial booking in 2019 until December 31, 2021 for an overall recidivism rate of 74.1%. The table below illustrates that the recidivism rates are indeed different for those offenders scored at a low, medium, or high risk of recidivism based on the proxy risk assessment instrument.

"Class of 2019" - 5,259 individuals booked in 2019 and their rearrests later in 2019 through 2021

	Low Risk of Recidivism 661 total individuals	Medium Risk of Recidivism 2,753 total individuals	High Risk of Recidivism 1,845 total individuals
Recidivism	60.8%	72.5%	81.3%
Male	449 total individuals	2,110 total individuals	1,495 total individuals
Rate	61.2%	73.1%	82.7%
Female	212 total individuals	643 total individuals	350 total individuals
Rate	59.1%	70.5%	75.4%
Black	130 total individuals	1,136 total individuals	1,101 total individuals
Rate	60.8%	73.9%	82.7%
Hispanic	57 total individuals	200 total individuals	160 total individuals
Rate	57.9%	71.5%	76.2%
White	468 total individuals	1,397 total individuals	569 total individuals
Rate	61.1%	71.6%	79.8%

Recidivism Info - Including Likelihood of Recidivating

 **TalkingPoint!** Additional information regarding regarding the recidivism of all individuals booked into KCCF between 2019 and 2021:

- ➔ An offender with an initial 2019 booking event experienced 38 separate bookings between 2019 and 2021.
- ➔ Overall, male offenders were rebooked an average of 1.5 times and female offenders were rebooked an average of 1.2 times.
- ➔ Black offenders were booked an average of 1.9 times, hispanic offenders were booked an average of 1.5 times, and white offenders were booked an average of 1.6 times.
- ➔ Average (median) length of time between an offender's first and second bookings was 147.7 days for male offenders and 159.6 days for female offenders.
- ➔ Average (median) length of time between an offender's first and second bookings was 158.0 days for black offenders, 156.3 days for Hispanic offenders, and 144.2 days for white offenders.

 **TalkingPoint!** Kent County has continued using an instrument to predict the likelihood that an inmate booked into KCCF will be rebooked into KCCF at some future date. This "Proxy" instrument divides the inmates into three levels, with R1's being the least likely to return to jail, R2's being in the middle, and R3's being the most likely to return to jail. The breakdown of Proxy scores for individuals booked between 2019 and 2021 include - R1: 13.6% // R2: 52.1% // R3: 34.3%. One of the reasons for this disparity is that the proxy is administered only

- ➔ Looking at the 661 offenders that received a low category proxy score (R1) from the Recidivism Since 2019 page, male offenders averaged 2.0 bookings while female offenders averaged 2.2 bookings. Looking at the 1,845 offenders that received a high category proxy score (R3) from the same page, the average number of bookings for male offenders averaged 3.3 bookings while female offenders averaged 3.1 bookings.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the Recidivism Since 2019 page, black offenders averaged 2.0 bookings, whites averaged 2.1 bookings, and Hispanics averaged 2.0 bookings. Switching to the offenders that received a high category proxy score (R3) from the same page, the average for black offenders increases to 3.4 bookings, the average for white offenders increases to 3.1 bookings, and the average for Hispanic offenders increases to 2.8 bookings.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the Recidivism Since 2019 page, the average (median) length of time between an offender's first and second bookings was 145.4 days for male offenders and 160.0 days for female offenders. Switching to those offenders receiving a high category proxy score (R3), the average (median) length of time between an offender's first and second bookings decreases to 126.4 days for male offenders as well as decreases to 129.4 days for female offenders.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the Recidivism Since 2019 page, the average (median) length of time between an offender's first and second bookings was 190.4 days for black offenders, 166.0 days for Hispanic offenders, and 142.9 days for white offenders. Switching to those offenders receiving a high category proxy score (R3), the average (median) length of time between an offender's first and second bookings decreases to 124.6 days for black offenders, 132.1 days for white offenders, and 128.5 days for Hispanic offenders.

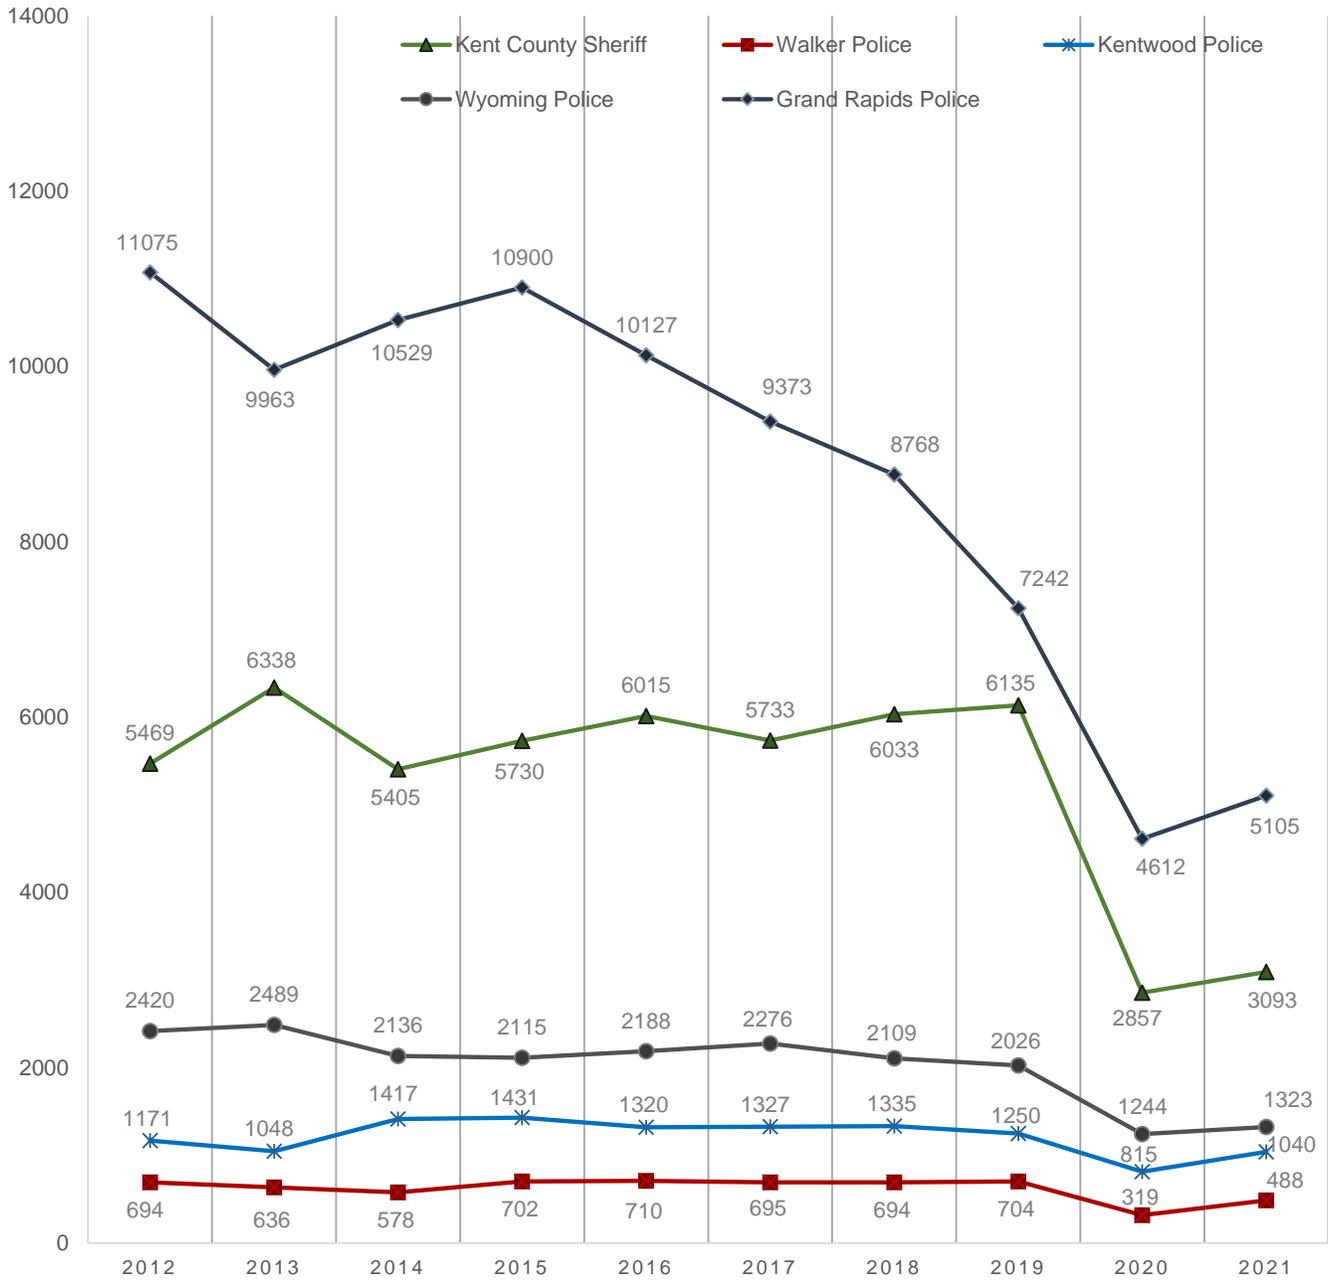

Number of Inmates Brought to Jail by Arresting Agency

Top 5 Agencies Account for 82% of Incoming Inmates

Top Local Agency Arrest Trends Over the Last 10 Years

TrendSpotter! The peak for Grand Rapids, Kent County and Wyoming was in 2003 (not shown on this chart). Due to Covid-19, all agencies experienced significant decreases in arrests for 2020, which leveled off and then began to increase again in 2021.

Marijuana-related Arrests by Year

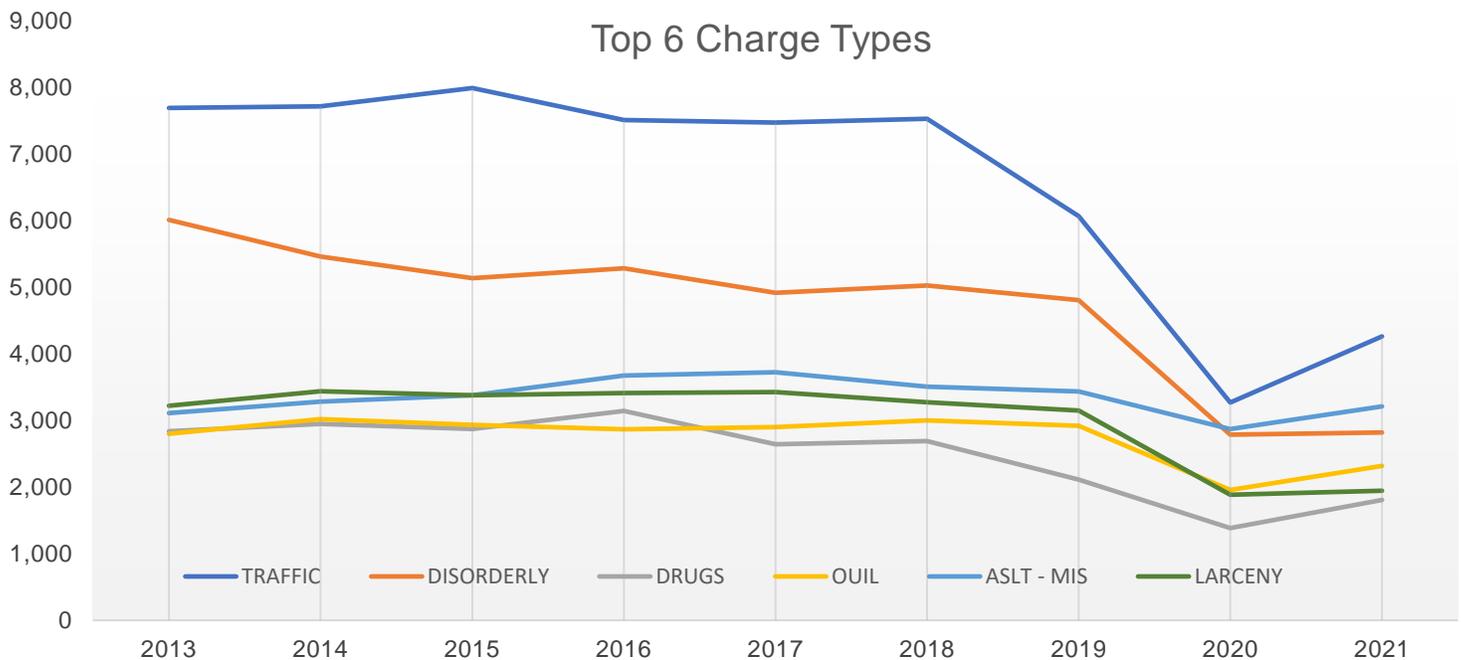

TalkingPoint! Marijuana was legalized in Michigan with the passage of Proposal 1 in November of 2018 and so 2019 was the 1st full year of arrests under the new law. Unfortunately for tracking, the 2020 and 2021 numbers were significantly effected by Covid-19 on arrests (particularly among the lower level arrests). In addition, it should be noted that often a marijuana-related charge may be just one of several charges that an inmate is booked on, meaning that even were the MJ charge not present, the person may have been arrested anyway. This chart shows MJ-related arrests presented against the backdrop of our total bookings for the year in question to help place them in context. It would seem that Proposal 1 has had at least some small effect on our arrest and population numbers, though to what extent it is still too early to tell.

The above chart shows the top home address zip codes of arrestees for 2021. The green arrows show zip codes that went down in number from 2020, while the red arrows show those zip codes that saw an increase from 2020. Due to Covid, every zip code witnessed a decrease in arrests during 2020, which led to the increase in most zip codes for 2021.

Average Amount of Time Inmates Stay in Jail, Shown with Inmates Grouped by Release Type

AVERAGE LENGTH OF STAY

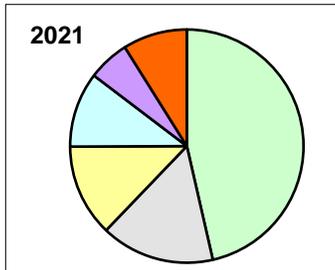

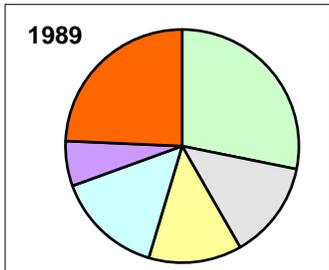

TalkingPoint! The significant increase in average stays for those inmates not released within 72 hours and those released to prison are primarily a result of DOC restricting new admissions for much of the year due to Covid-19.

TalkingPoint! Based on statewide data, the average length of stay for an inmate in a Michigan jail in 2010 (Last recorded state data) was 20 days compared to our 10 in 2020. This number has been stable for many years.

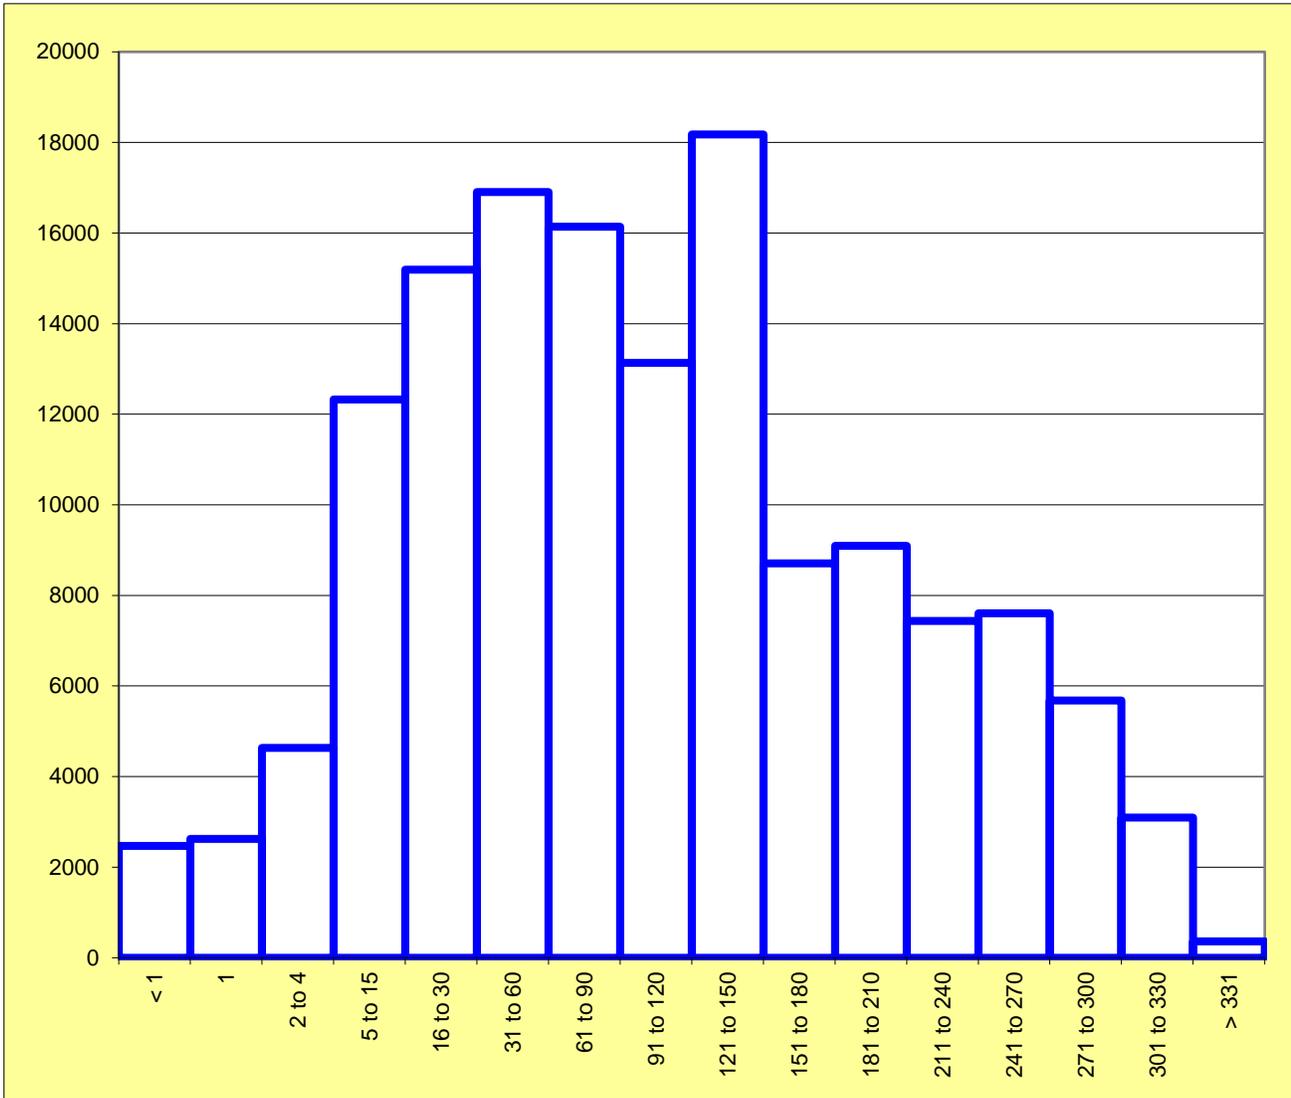

TrendSpotter! The average length of stay for inmates released time served (after serving a county sentence) was 46 days in 2001. For 2016 it was 26 days, while for 2017 it rose to 30 days. **2020 saw a 5th consecutive increase to over 33 days.**

The graph above was based on a sample of 11,895 inmates **released** in 2021.
TalkingPoint! The pie charts below contain a comparison of the Average Length of Stay (ALOS) at the time of the Bennett jail expansion study and the ALOS in 2021, depicting the much shorter ALOS in 2021.

	1989	2021
< 1 day	28.17%	46.42%
1 day	13.55%	15.74%
2 to 4 days	12.90%	12.77%
5 to 15 days	14.84%	10.42%
16 to 30 days	6.24%	5.74%
31+ days	24.30%	8.91%

Average Length of Stay Depicted as Jail Bed Days

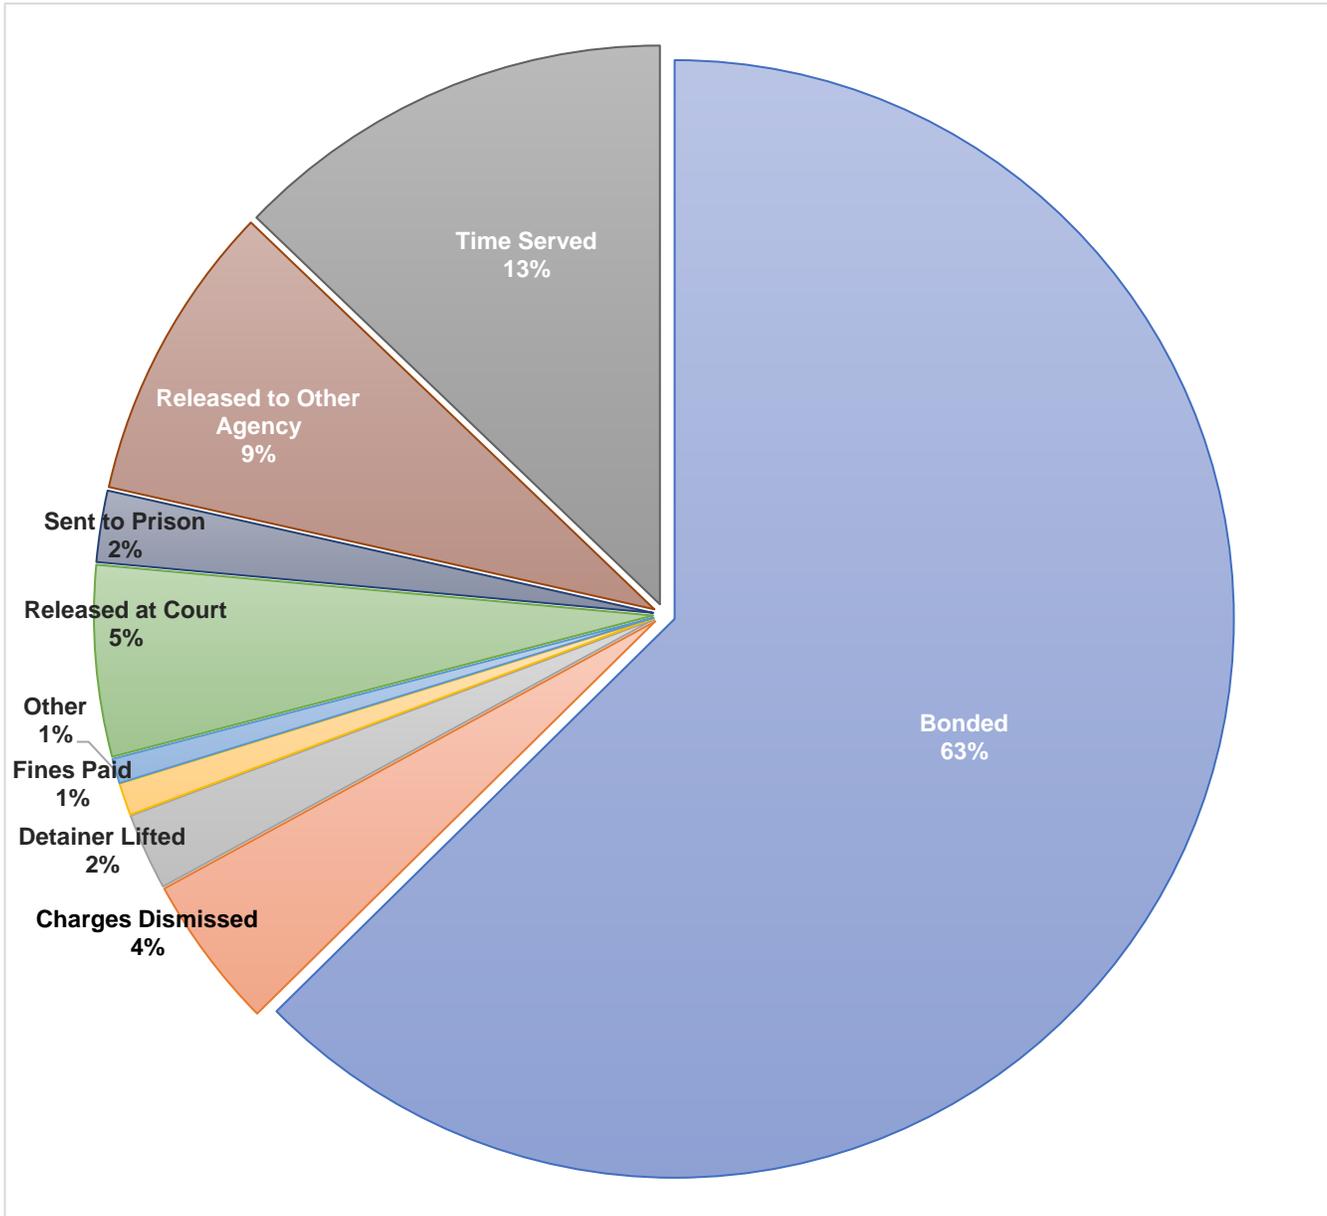

TalkingPoint!

This chart shows the concept of average length of stay depicted as Jail Bed Days. Jail Bed Days are an accurate way of displaying the actual impact on jail beds, because it is counting the days that a jail bed is occupied. The chart above shows that although we had 5,522 people who stayed less than one day in jail, they used far fewer jail beds than the 1,239 inmates who stayed 5 to 15 days in jail. In fact, the **131** inmates who stayed 121 to 150 days used the most jail beds. The primary takeaway of these data is that the greatest impact on jail capacity would be achieved by concentrating our efforts on reducing the stay of the inmates who are in jail from one to five months. It is that group of inmates who are using most of the jail's beds. Departures from normal numbers this year are due to both the reduced numbers of low-level offenders on one end, and the increased length of stay of those inmates awaiting court and those sentenced to and awaiting prison on the other end, both due to Covid-19.

Of Inmates Released, Most Common Reasons Why The Majority of Incoming Inmates Released Back to the Community

TalkingPoint! In 2021, approximately 89% of the inmates who came into our jail were released directly back into the community. This chart is based on a sample of almost 12,000 records in 2021. Only about 11% were sent to prison or to another agency. Hard data is not available on that 11%, but most of those inmates also return to our community at some point. It is important to remember that resources devoted to local jail inmates benefit our local communities.

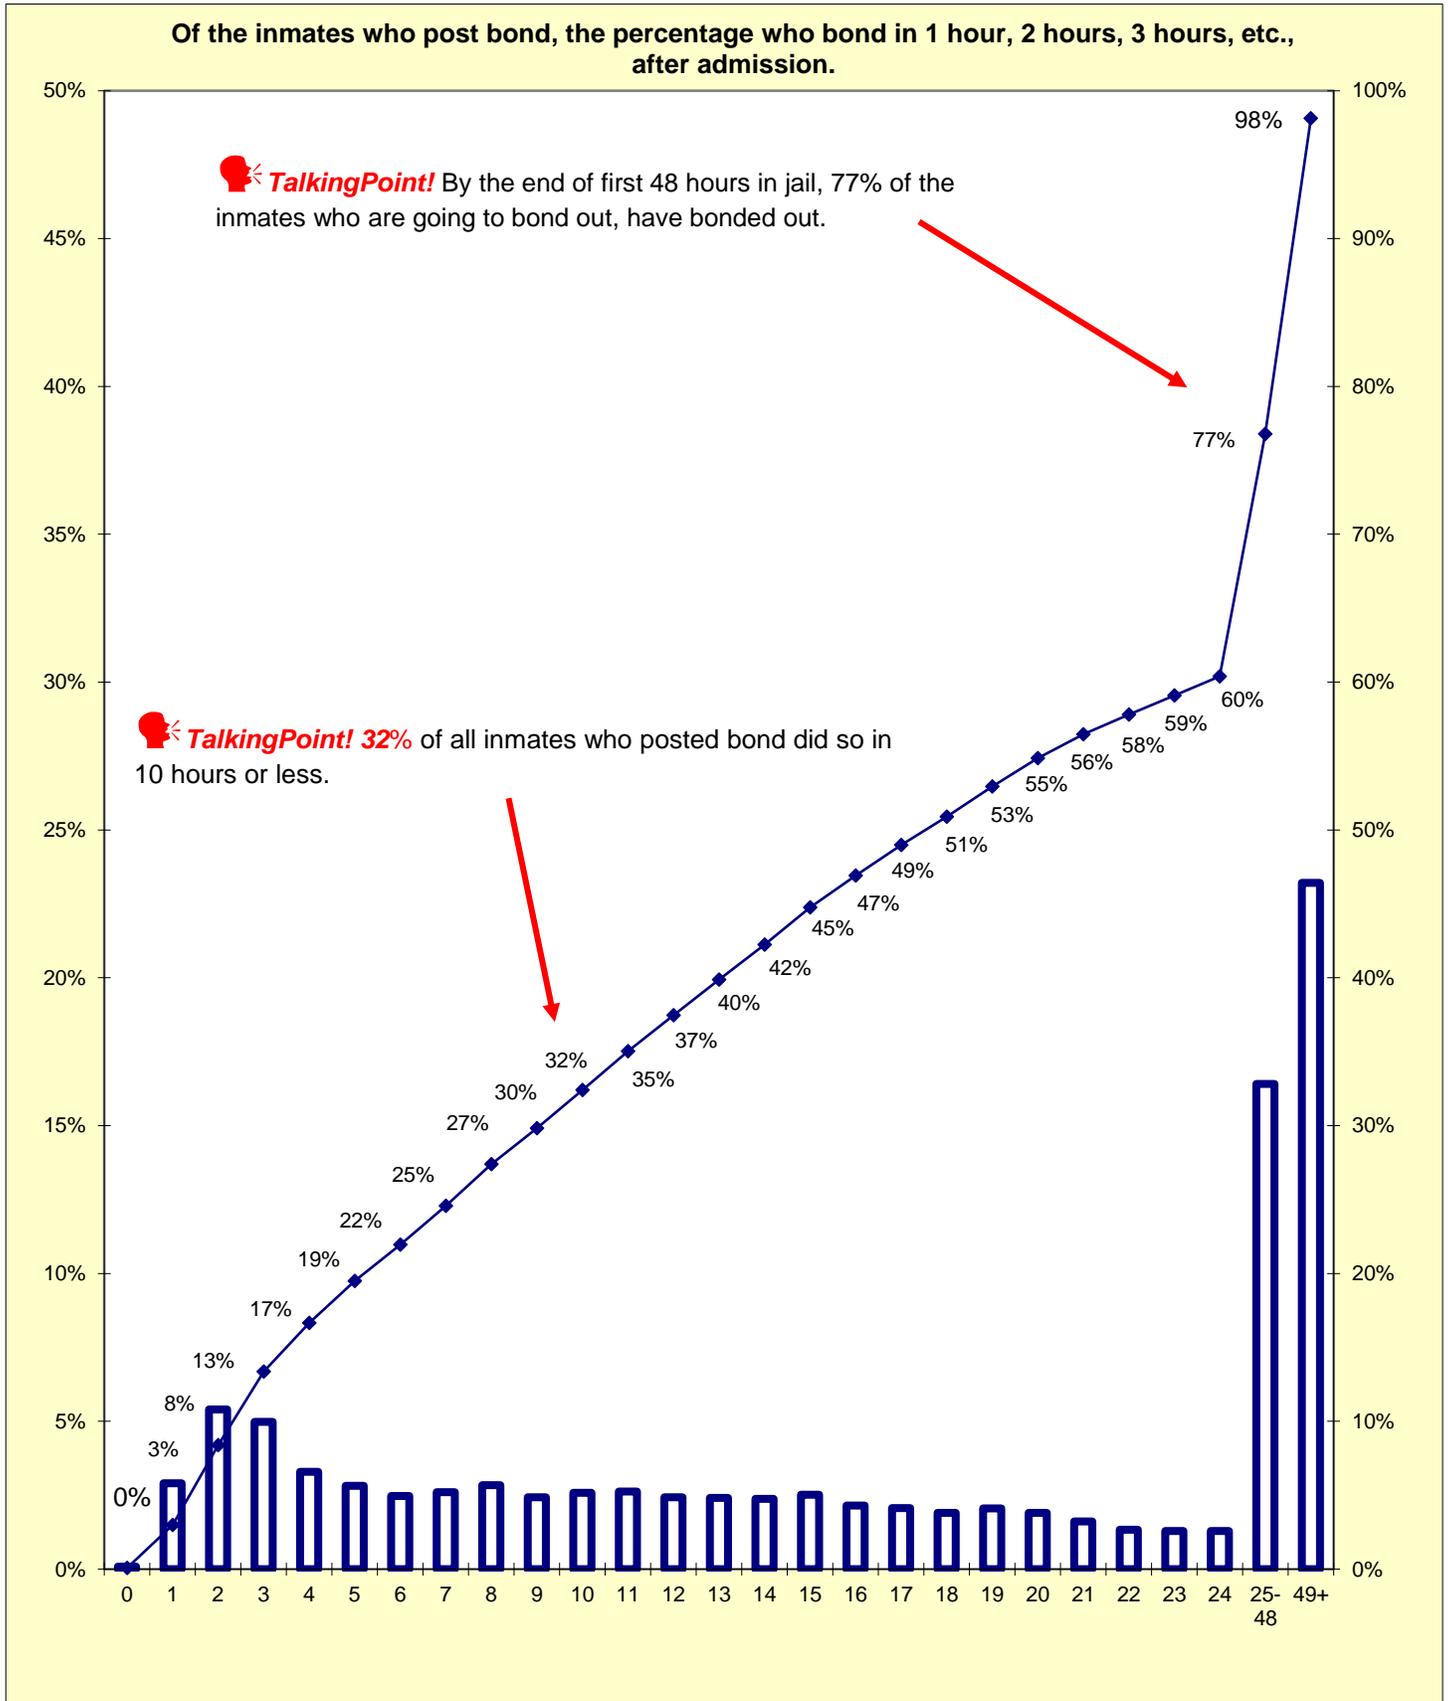

Number of Days Inmates Spend in Jail Before Release

91% of All Inmates Are in Jail Less than 30 Days

Number of Hours Inmates Spend in Jail Before Being Released on Bond

77% of All Inmates Who Posted Bond did so Within the First 48 hours

County Jail Reimbursement Program

Fiscal Year 2021 Update by Andy VerHeek

CJRP reimbursement and eligibility criteria continued in the same manner during FY 2021 that were implemented in previous fiscal years. The table below shows that Kent County experienced a significant decrease in the amount of funds received through CJRP from \$1,194,180 in FY 2020 to \$760,000 during FY 2021.

Reimbursement and eligibility criteria for CJRP continue to include:

1. All counties in Michigan are required to follow the same eligibility and reimbursement criteria.
2. Three different reimbursement amounts are provided and depend upon each offender's sentencing guideline score and type of offense.
3. Save for a few select offenses, a majority of Crime Class F offenses have remained ineligible for reimbursement during FY 2021.

In addition to these changes, CJRP monies received by Kent County are impacted by the length of stay in the Kent County Correctional Facility for each offender as well as the jail disposition rate for CJRP-eligible offenders sentenced in Kent County. Both of these were significantly impacted by the ongoing COVID pandemic in FY 2020 and FY 2021.

FISCAL YEAR	CJRP PAYMENT	TOTAL RECEIVED
1997	\$731,460.00	\$731,460.00
1998	\$695,225.00	\$1,426,685.00
1999	\$699,353.00	\$2,126,038.00

TalkingPoint!

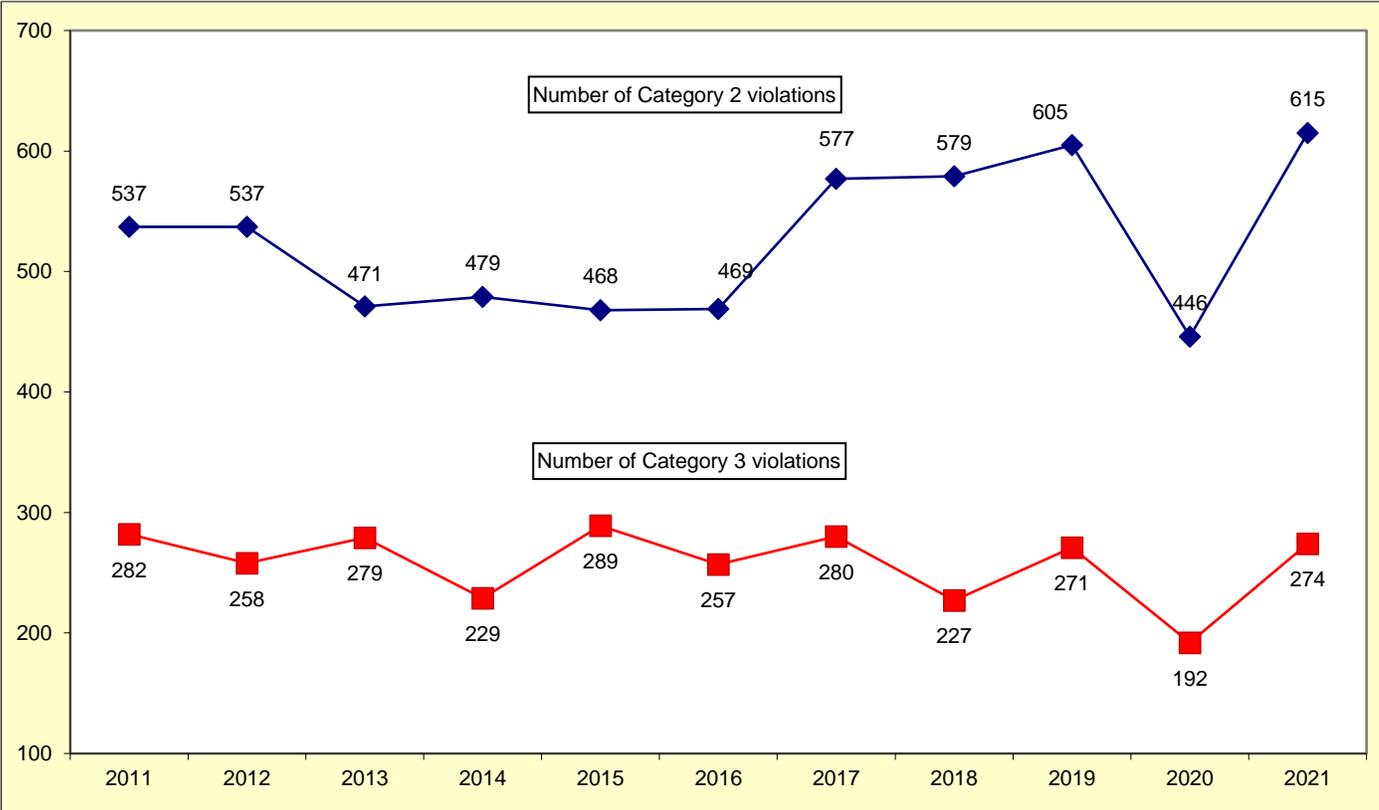

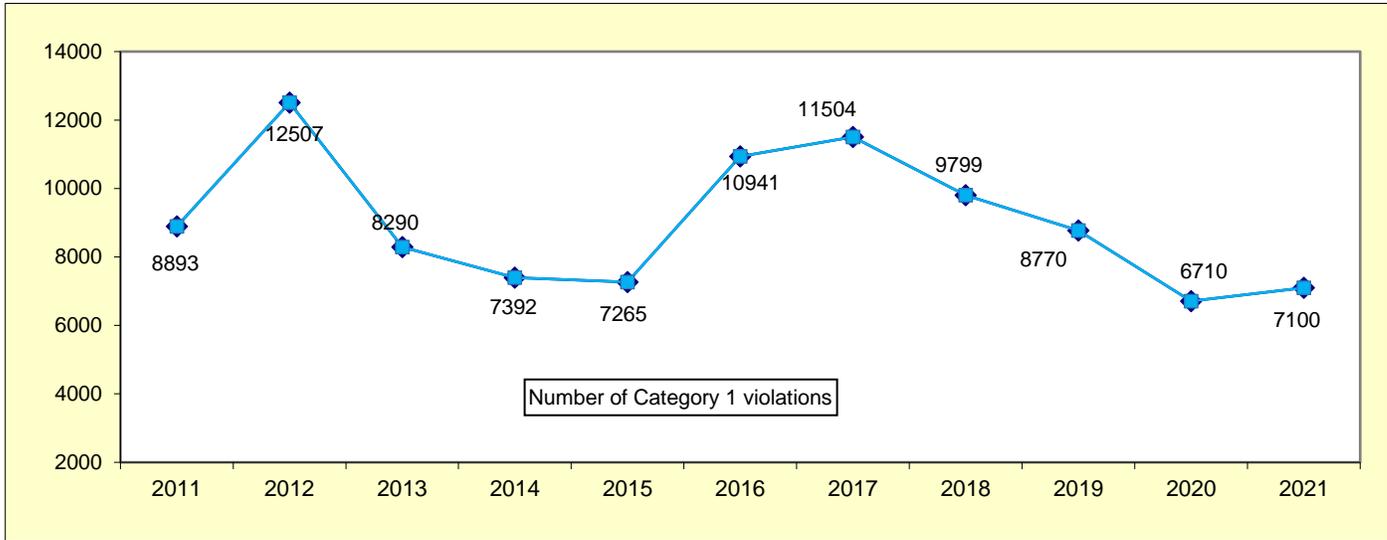

With fluctuations in the jail population, converting Incident Based data to the number of rule violations committed per 1000 Jail Bed Days gives a more accurate picture of inmate behavior. 2021 witnessed a significant increase in this behavioral metric. It is impossible to know the reasons for this, but ongoing widespread Covid effects on the population to include general anxiety, restrictions on inmate routines and continual atypical changes in classification housing assignments may contribute. We will watch this with interest as the impact of Covid hopefully wanes in 2022.

© Scott Adams, Inc./Dist. by UFS, Inc.

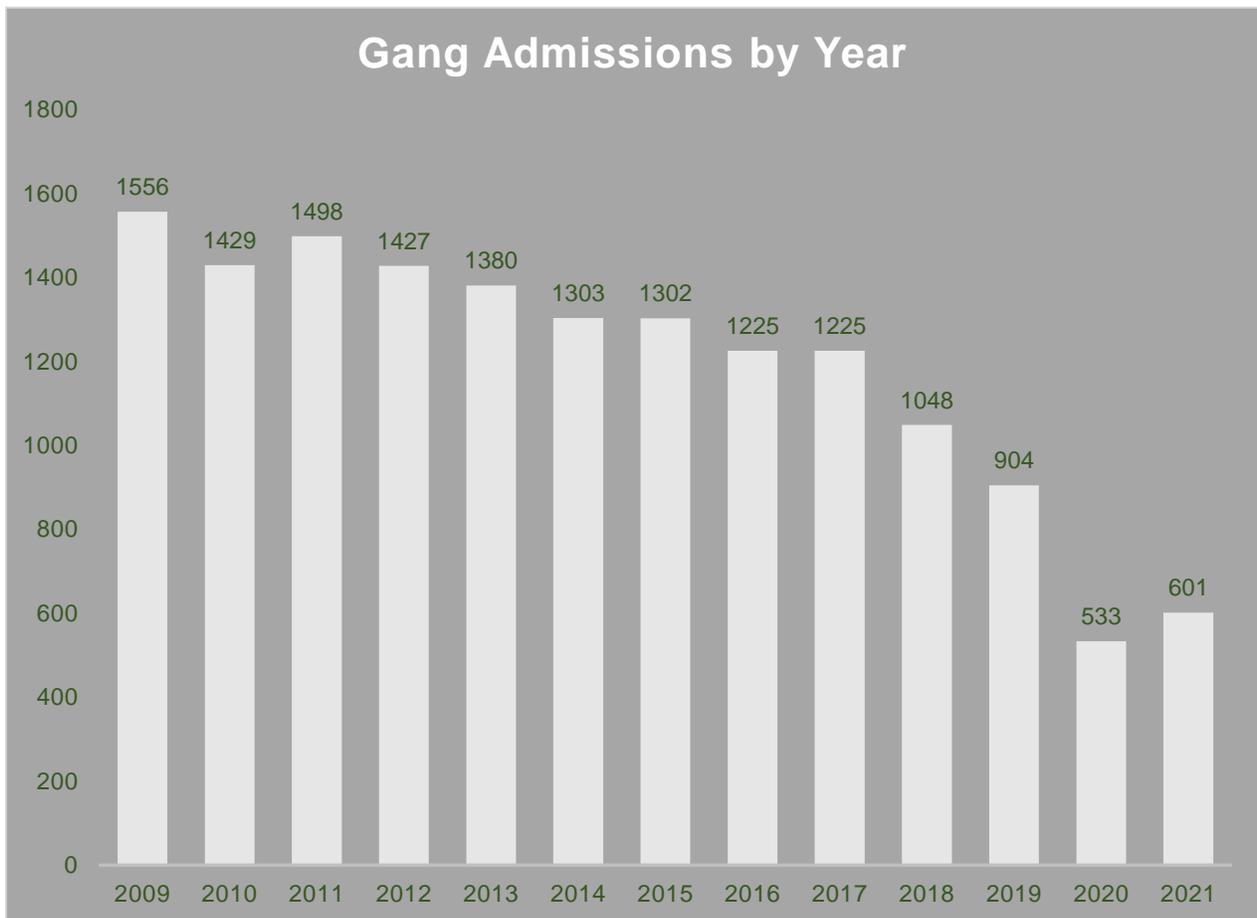

Total Number of Category 1, 2 and 3 Rule Violations in the Last Eleven Years

These graphs show the number of Category 1, 2, and 3 reports per year over the last decade. We have three levels of disciplinary rule violations in the jail. The most minor rule violations are Category 1 violations. Category 2 violations are more serious and Category 3 violations are the most serious. Our disciplinary philosophy is that we would rather deal with an inmate's misbehavior while it is still minor, which is why there are more Category 1 violations than 2's, and more 2's than 3's. Inmates committing Category 2 and 3 violations go to the jail's Disciplinary Restrictive Unit (DRU) to complete their disciplinary sanctions.

Annual Gang Admissions

Month	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021

September	140	107	136	123	89	104	94	112	102	84	60	54	58
October	138	132	110	95	107	109	115	93	97	93	63	43	49
November	118	107	111	130	106	90	88	108	92	75	69	53	55
December	120	103	140	90	109	120	114	90	82	63	81	48	43
Total	1556	1429	1498	1427	1380	1303	1302	1225	1225	1048	904	533	601

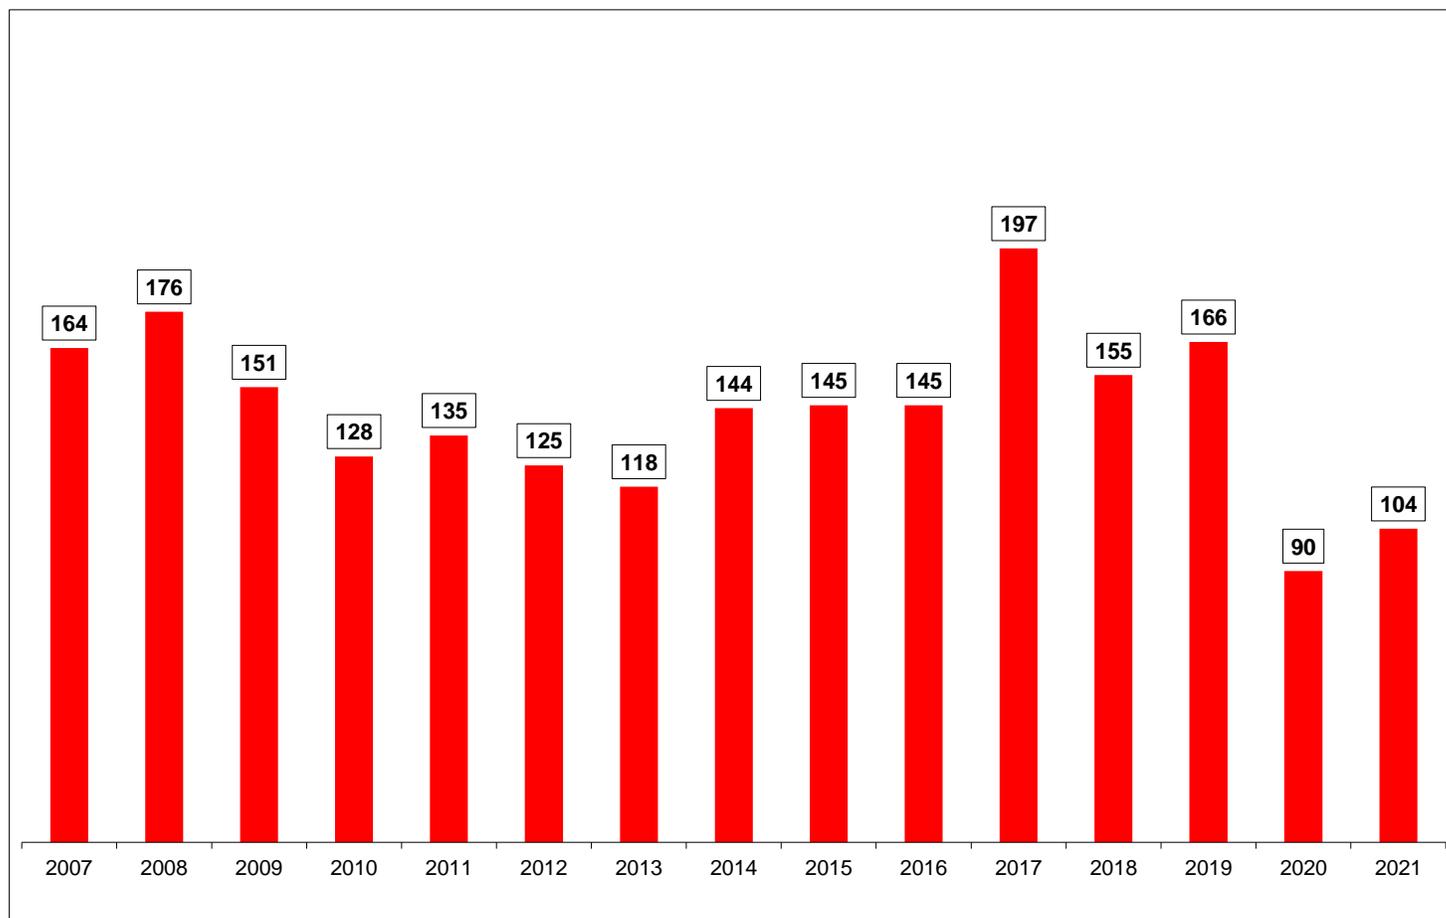

When reviewing the information on this page, it should be remembered that it is collected through a combination of self-identification at the book-in stage, jail intelligence sources, and inmate history. As a consequence, the actual number of gang admissions is certainly higher than indicated by these numbers.

Index of Antisocial Inmate Behavior

Grouping of Rule Violations that Have to Do with Impolite or Socially Unacceptable Behavior

total	293	332	269	266	253	319	272	248	238	246	293	292	307	228	364

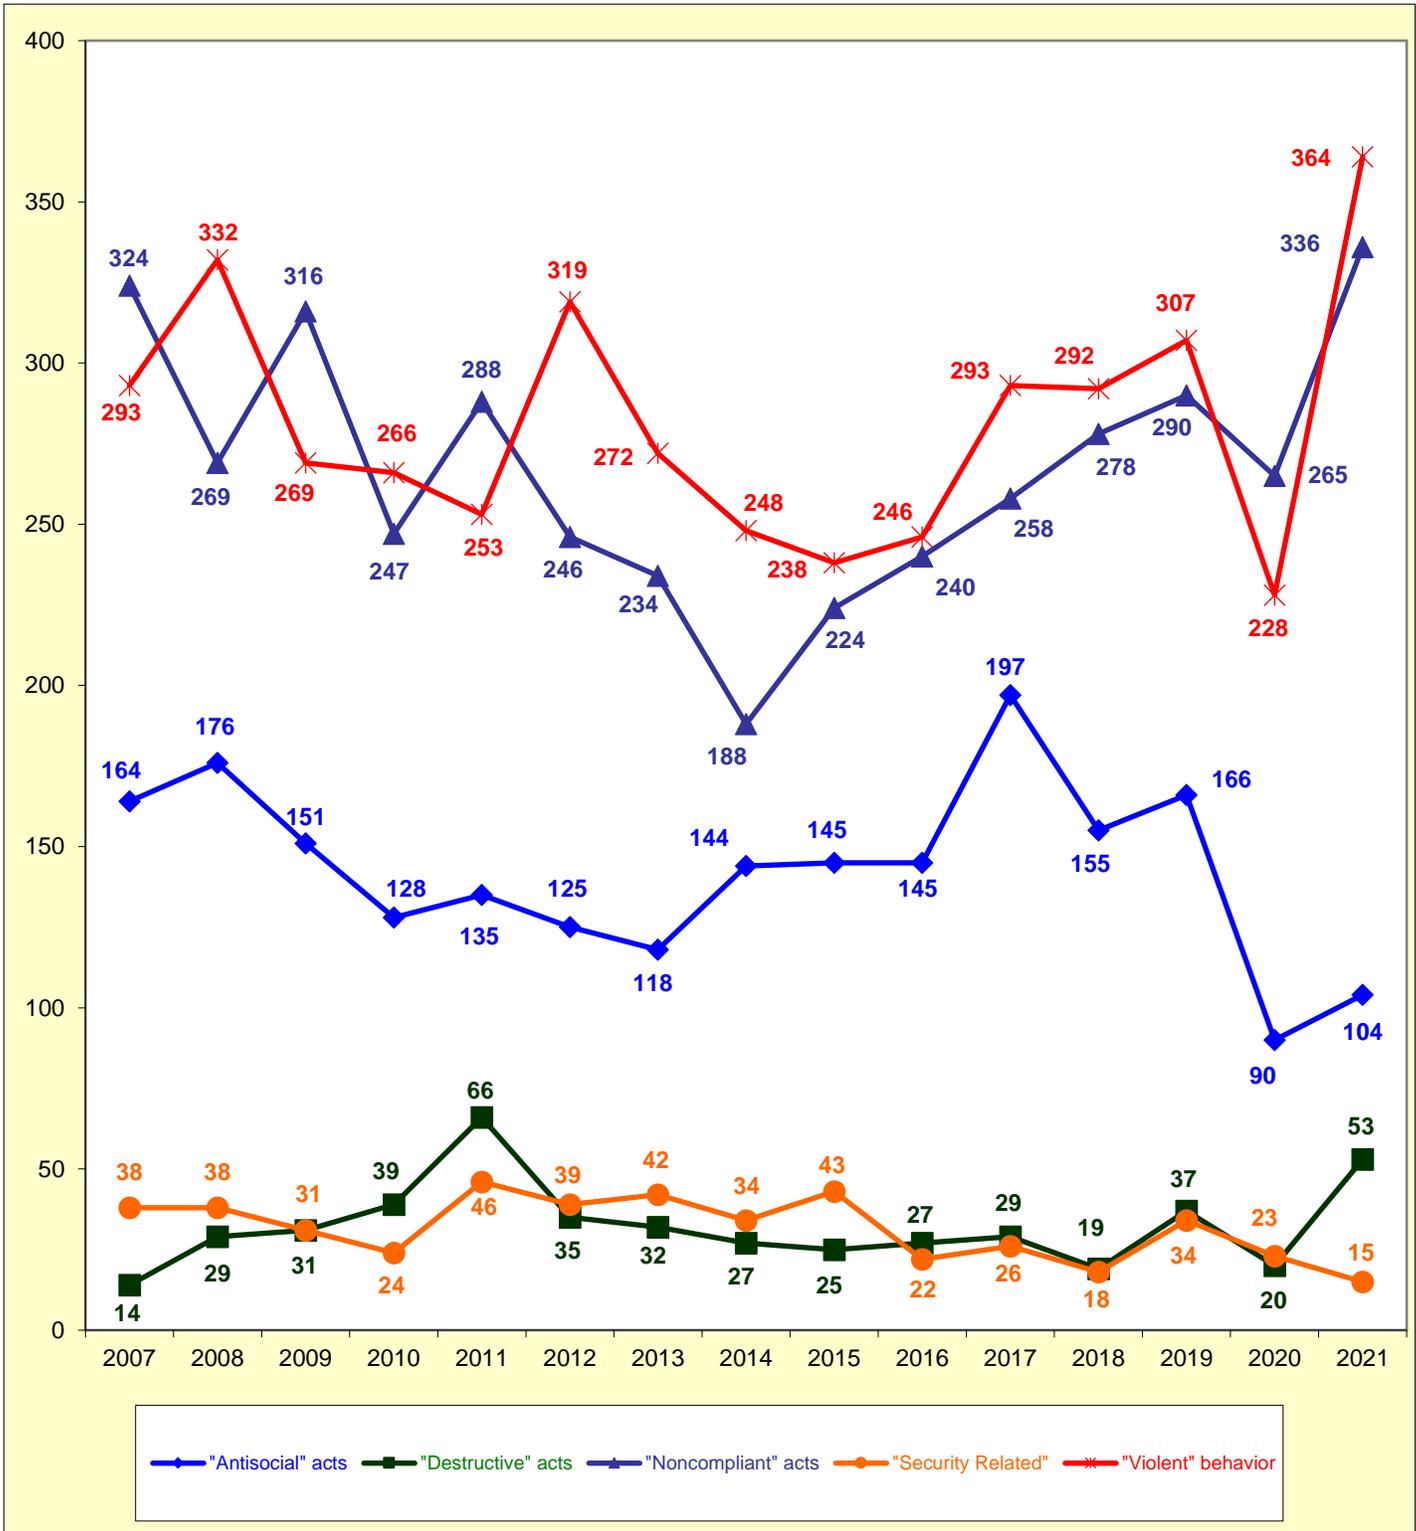

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **violent behavior**.

🗨️ Talking Point! Inmates guilty of assault are **2x** more likely than the general population to be going through withdrawal, experiencing mental health problems, be case managed in the community, or have previous assaultive history in the jail.

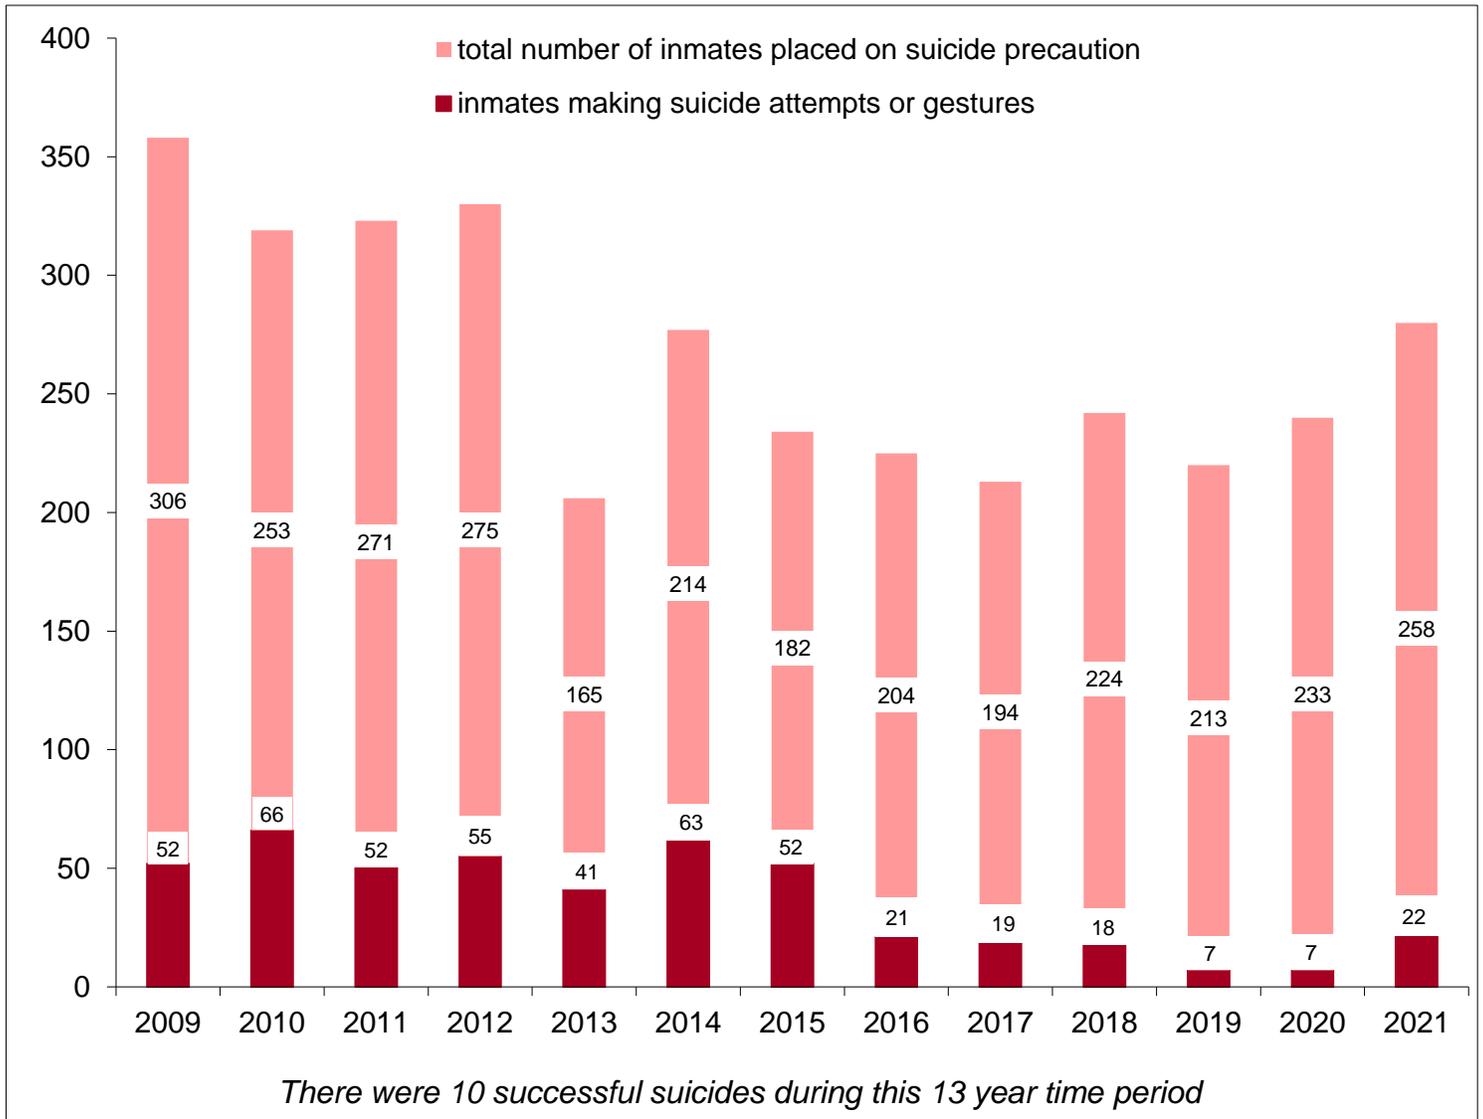

Comparison - Index of Inmate Behavior

Compilation of the Previous Five Charts

This chart shows all five of the inmate behavior index's and how they performed over the last 15 years. This is a compilation of the data used in the previous five charts. Each category showed significant variation over this period. Recent factors that may influence these trends include the high number of new and relatively inexperienced staff and several factors stemming from the Covid pandemic.

Suicide Attempts or Gestures Compared with the Total Number of Suicide Precautions 2009 through 2021

	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
inmates making suicide attempts or gestures	52	66	52	55	41	63	52	21	19	18	7	7	22
total number of inmates placed on suicide precaution	306	253	271	275	165	214	182	204	194	224	213	233	258

Our highest level of suicide precaution places inmates in a cell under constant video surveillance. We track how inmates get placed on that level of observation. Either they have made a suicide attempt or gesture, or they have made a suicidal threat to a staff person, or they have been judged to be suicidal following an interview by one of our mental health professionals. The chart above depicts the total number of "S-3's" (the highest level of precaution) and of that number, the number that were declared S-3's because of an actual in-progress attempt to harm themselves, either by hanging, an overdose, cutting themselves, jumping from a height, drowning in a toilet, banging their head, or some other means. Despite a rising but still lower than usual population, the number of inmates placed on S-3 status was significantly higher in 2021.

Main Jail Fights by Year 2005-2021

TalkingPoint! Our old linear jail was replaced and demolished in Dec. of 2012. 61% of our fights in 2020 occurred in non-full-direct supervision housing. It should be noted that due to Covid, there were significant changes in inmate classification demographics and operational housing unit distribution again in 2021, more even than in 2020.

Known Photo Identifications by Jail Staff Leading to Warrants or Charges

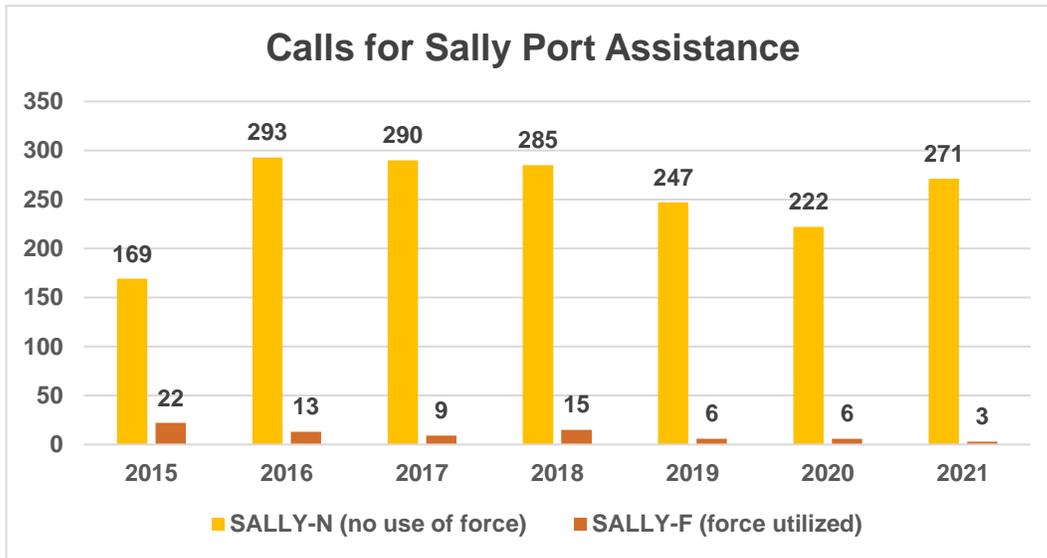

Year	Number
2012	3
2013	22
2014	9
2015	12
2016	24
2017	15
2018	35
2019	5
2020	9
2021	5

These tables present some of the information that is gathered by the jail staff on particular crimes committed in the community. Corrections Officers play a significant role in assisting law enforcement with criminal intelligence. This information helps local police agencies identify suspects, which in many cases has led to their arrest and conviction. The KCCF has 2 dedicated Jail Intelligence Unit (JIU) officers who are responsible for the follow-up on all generated intelligence reports, as well as acting as contact points for outside agencies. This has been very successful in streamlining and enhancing the effectiveness of intelligence-gathering efforts.

Until recent years, Jail staff were an underutilized resource for the photo identification of suspects. Due to the facts that most suspects are repeat offenders and that jail staff know them well, since 2013 there has been a renewed emphasis on using this resource, with predictably successful outcomes. Some of the disparity in numbers of identifications recorded from year to year can be explained by the level of follow-up on identification submissions.

Sally Port Assistance Provided to Arresting Agencies

It has always been a custom of the KCCF to provide a courtesy service to arresting agencies who call ahead and request assistance with uncooperative arrestees. When notified, our intake staff will meet the arresting agency in the jail sally port and retrieve the suspect directly from the agency vehicle and escort them into our facility. The information on this page provides an important window into this particular activity. We began officially tracking these numbers in April of 2015, so the data for that year is partial. What we are interested in is how often these events result in a use of force versus how often our staff are able to de-escalate tense situations without resorting to the use of force. The numbers on this page are a credit to the skill and professionalism of our correctional intake staff in dealing with the most difficult individuals at one of their most stressful moments – arrival at the jail.

Kent County Corrections K-9 Team proves itself a valuable asset to both the jail and the community

K-9 Assignments	1st quarter	2nd quarter	3rd quarter	4th quarter	2021 total
Narcotics Requests	5	4	9	12	30
School Searches	0	0	0	0	0
Jail Cell Searches	158	261	337	235	991

Assist Other Agency	3	4	2	1	10
Demos/PR	2	5	5	1	13
Finds	0	0	0	0	0

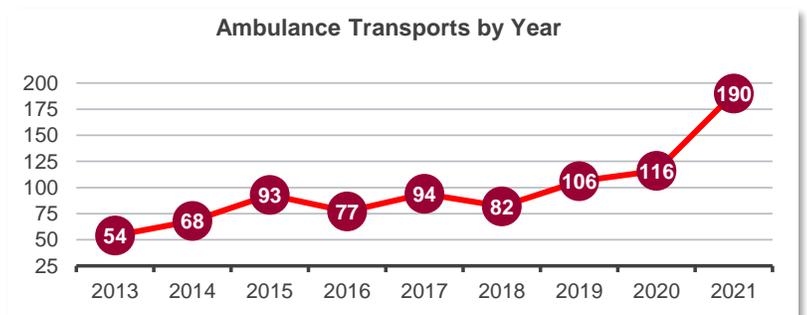

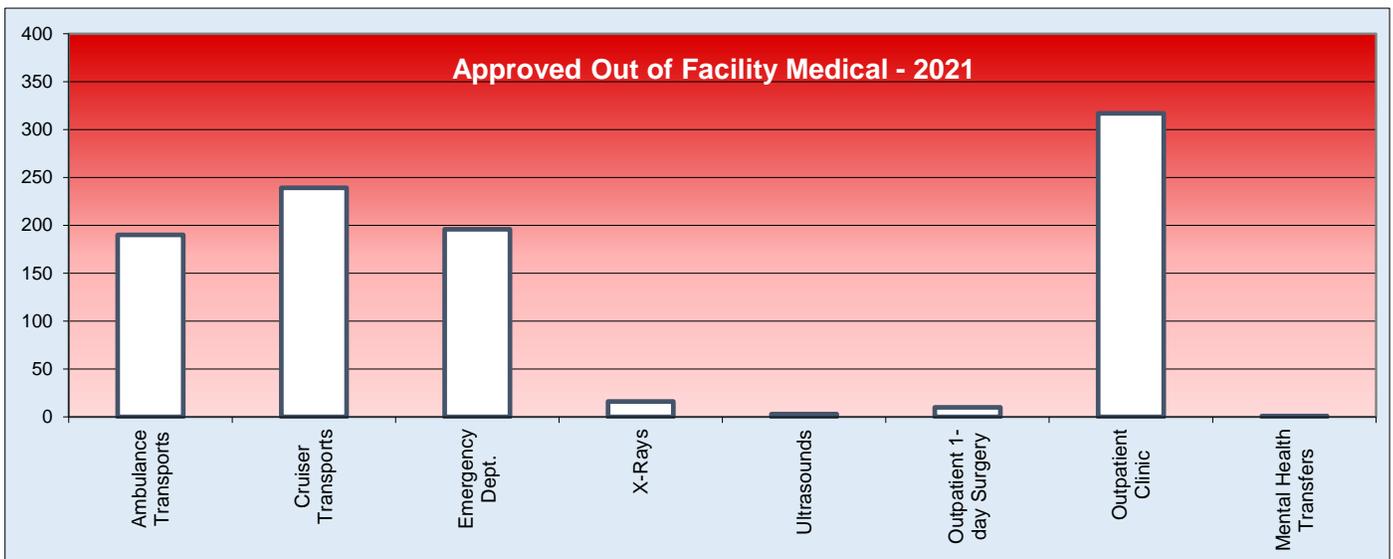

TalkingPoint! This chart presents a snapshot of the activities of our K-9 unit. Some K-9 operations were reduced again in 2021 due to the Covid pandemic. The K-9 Unit consisted of 3 dogs in 2021 until July, when Dep. Gonzalez and K-9 Shadow retired. They are a huge help in the continuing effort to keep our facility both safe and drug-free!

Answers to Mental Health Screening Completed in Intake

QUESTION	% YES	% NO
Are you currently taking medication that has not been prescribed to you?	1.2%	98.80%
Are you currently drunk or high?	4.0%	96.00%
Do you use illegal drugs?	15.4%	84.60%
Do you have drug withdrawal concerns?	6.5%	93.50%
Do you currently use alcohol?	27.1%	72.90%
Do you have alcohol withdrawal concerns?	5.6%	94.40%
Have you ever had alcohol or drug withdrawal?	8.4%	91.60%
Have you ever received treatment for substance abuse?	6.9%	93.10%
Is there anything else we need to know about your substance abuse history?	1.6%	98.40%
Are you taking medications for mental health issues?	15.7%	84.30%
Have you ever been treated for ADHD?	6.3%	93.70%
Have you ever been treated for developmental disorders?	0.3%	99.70%
Have you ever been treated for an eating disorder?	0.1%	99.90%
Have you ever been in special education?	0.8%	99.20%
Have you ever been diagnosed as bipolar?	10.1%	89.90%
Have you ever been diagnosed with schizophrenia?	4.5%	95.50%
Have you ever had a learning disability?	0.4%	99.60%
Does anyone in your family have or had a mental illness?	1.0%	99.00%
Have you ever been case managed for a mental illness?	3.4%	96.60%
Have you ever been treated in a psychiatric hospital?	8.0%	92.00%
Have you ever been self-abusive or engaged in self mutilation behavior?	3.2%	96.80%
Are you feeling homicidal now?	0.6%	99.40%
Have you ever been physically abused?	1.3%	98.70%
Have you ever had suicidal thoughts or made attempts?	7.5%	92.50%
Are you having suicidal thoughts now or thinking of harming yourself now?	1.4%	98.60%
Do you have any current or past losses that you are feeling grief and depression over?	1.7%	98.30%
Has anyone in your family ever taken their own life?	0.7%	99.30%
Have you experienced a life threatening or abusive event that still bothers you today?	0.5%	99.50%
Are you currently having feelings of hopelessness or helplessness?	1.4%	98.60%
Do you have a support system in the community that you can depend on?	72.4%	27.60%
Have you ever experienced auditory, visual, olfactory, or tactile hallucinations?	0.7%	99.30%
Has inmate ever had or experienced delusional thinking?	0.3%	99.70%

TalkingPoint! Every offender brought to jail is evaluated by both a medical and mental health professional while still in Intake. The answers to the mental health survey questions they are asked are summarized above. The data in this table is based on around 13,000 offenders who came to jail during 2021. Mental Health services are an ever-increasing part of inmate management in the jail, and must be taken into consideration at almost every significant event in an offender's stay; from intake, to classification, to discipline, to release. It should be noted that the data in these screenings do rely on self-reported information, so numbers such as those for bipolar diagnosis and psychiatric hospital treatment are interesting.

Inmate Needs Reported in Classification Interview

Offenders Come to Jail with a Number of Needs

QUESTION	% YES	% NO
1. HEALTH ISSUES: Does this inmate report having any unresolved medical issues which would require you to contact medical, or does this inmate have any health problems that would affect their housing?	31.1%	68.9%
2. MENTAL STABILITY: Does this inmate have mental health problems, including suicidal ideation, that would affect their housing?	29.8%	70.2%
3. ALCOHOL ABUSE: Does the inmate admit to having an alcohol problem, or does the inmate appear to have an alcohol problem in your judgement?	28.9%	71.1%
4. DRUG ABUSE: Does the inmate admit to a drug problem, or does the inmate appear to have a problem with drugs in your judgement?	36.1%	63.9%
5. PAST TREATMENT: Does the inmate indicate past treatment for their drug or alcohol problem? If so, record where, when, and if they are interested in continuing treatment.	28.8%	71.2%
6. EDUCATIONAL HISTORY: Does the inmate have a GED or a high school diploma? If not, is the inmate interested in continuing their education in the main jail or honor camp?	80.3%	19.7%
7. VOCATIONAL SKILLS: Does the inmate have a marketable skill or trade that is used to support himself and his family? (Answer "Yes" if this is true, and "No" if is the inmate has no skills, limited training, or little or no employment history.)	7.6%	92.4%
8. LITERACY: Can this inmate read and write the English language?	97.2%	2.8%

 **TalkingPoint!** These numbers represent the percentage of inmates in population who admit these needs to a classification officer. This information is based on the self report of the inmates during their classification interviews this year. It is not based on a clinical assessment and the report is not verified independently. This reflects an inmate's "admission" only. Not all inmates honestly report their needs at the classification interview. All inmates who stay in jail longer than 3 days are given a classification interview.

Prison Rape Elimination Act

Sexual Abuse Incident Review

Closing

In 2012, the jail implemented the Sexual Abuse Incident Review system per PREA standard 115.86. Under this standard, the Division must conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, to include when the allegation has not been substantiated, unless the allegation has been determined to be unfounded. Such review will ordinarily occur within 30 days of the conclusion of the investigation. The review team will include upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners. The jail administration will implement any recommendations for improvement, or it will document its reasons for not doing so.

Review Criteria:

1. Consider whether the allegation or investigation indicates a need to change policy or practices to better prevent, detect, or respond to sexual abuse
2. Consider whether the alleged incident was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics in the facility.
3. Examine the area in the facility where the allegation occurred to assess whether physical barriers in the area may enable abuse.
4. Assess the adequacy of staffing levels in on all shifts in that area.
5. Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff.
6. Prepare a report of its findings, add any recommendations for improvement, and submit such report to the facility head and PREA Coordinator.

In all of the allegations that were reviewed, it was clear that staff have implemented training that has been occurring since PREA requirements. All investigations were done in a timely manner and all complaints were addressed immediately upon their receipt. Continued training for all staff has focused on PREA requirements, staff obligations for reporting and victim care, and preservation and protection of the scene until the appropriate steps can be taken to collect any evidence. Additionally, a new reporting system (jail management system) is being implemented to better track and report incidents.

A Special Thanks to the KCCF PREA Coordinator Lt. Scott Nibbelink, who provided the information on the previous page.
