

**MEASURING WHAT MATTERS**

**2023 KENT COUNTY CORRECTIONAL FACILITY  
ANNUAL STATISTICAL REPORT**

**MARCH 2024**

March 2024

Michelle LaJoye-Young  
SHERIFF

On behalf of Sheriff Michelle LaJoye-Young and Chief Deputy of Corrections Lyndsie Cole, we are pleased to present the Kent County Correctional Facility's Annual Statistical Report for the year 2023. Assembling these yearly reports of jail data began in 1998, and each new report adds to the long-term analytical value of the information collected. Our goal is to provide accurate, useful, interesting, and representative information to the Sheriff's Department staff, criminal justice planners, academics and community members who are interested in the operation of the county jail.

In April of 2023, the KCCF transitioned to new Jail Management System (JMS) software for the first time since 2004. This change created many challenges and opportunities in the compilation of these reports and delayed its publication. In the coming years, we feel this new system will allow us to mine data and track items of interest that we were previously unable to do.

Measuring What Matters is indebted to many others from around the County who help to provide the data presented within. Among them are Andy VerHeek from the Office of Community Corrections, Sabrina Jonio from the Jail Accounting Office, Stephanie Hernandez from Human Resources, Julie Smith from Jail Mental Health, and Carrie Groom from Vitalcore (Jail Health Services). I would also like to extend personal thanks to my partners Sgts. Stacy Wierengo, Jacob Vernocke and Guadalupe Ponce, who were an immeasurable help to me in the production of this report.

This report is organized to make the information accessible to the readers. You will notice that it has three general types of statistics. Inmate profile statistics depict an overall profile of the inmate population and correctional facility staff. Inmate population and arrest statistics address the topics of how many inmates are coming in, where they are coming from, why they are here, how long are they staying, care that is provided, and some of the costs associated with them. Incident statistics allow us to evaluate the behavior of the inmate population while they are in jail.

For convenience, this report, along with previous years, may also be accessed at <https://www.accesskent.com/Sheriff/reports.htm>. Due to the never-ending task of error detection and correction, when comparing previous editions this update should be considered the most accurate. I realize that this document will not answer every question. If you have further queries, please contact us and we will try to provide any additional information you may need about the inmate population or facility operation. We value your comments and suggestions for future reports.

*"One of the first things taught in introductory statistics textbooks is that correlation is not causation. It is also one of the first things forgotten." – Thomas Sowell*

A handwritten signature in black ink, appearing to read "Aaron Kleinheksel".

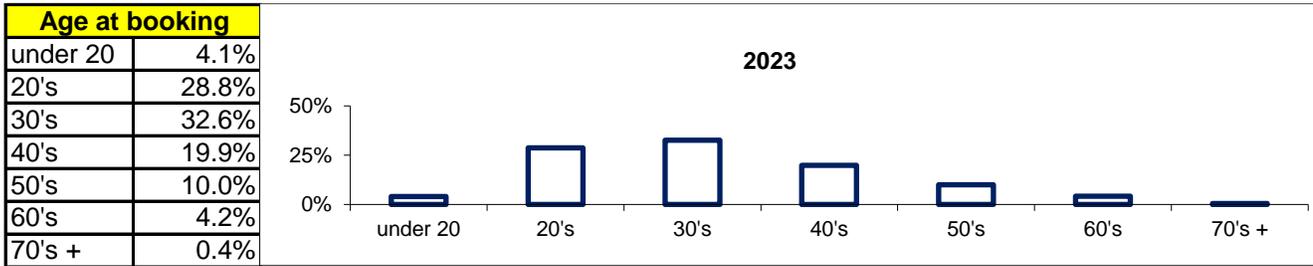

Sgt. Aaron Kleinheksel

# INDEX

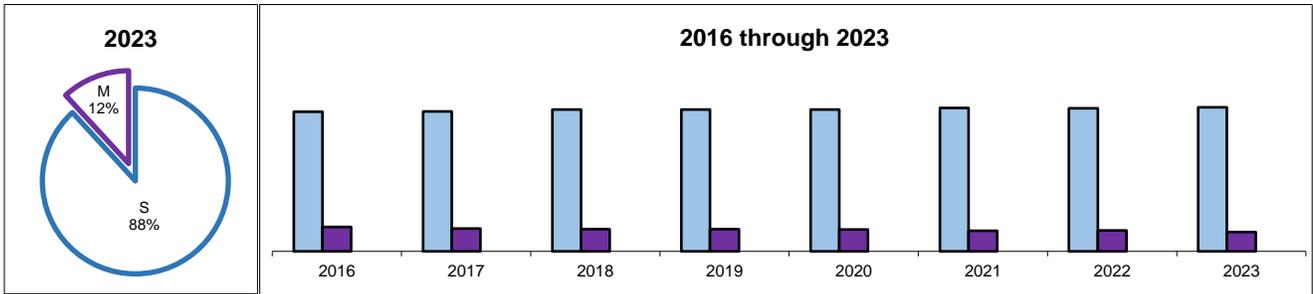

Average Daily Populations and Facility Totals	
Booking and Population Statistics .....	11
Average Daily Population of the Main Jail by Month .....	12
Monthly Bookings Averaged Over a Decade .....	13
Number of Inmates Brought to Jail by Year .....	14
Number of Bookings and MJ Average / Peak Population .....	15

**TrendSpotter!** We have provided this kind of inmate profile information for many years and the tables point out some interesting differences and similarities. Those in their 20's and 30's account for 60% of all admissions. Once they reach their 40's there is a significant drop.

# Inmate Population Aging Trends

## TrendSpotter!

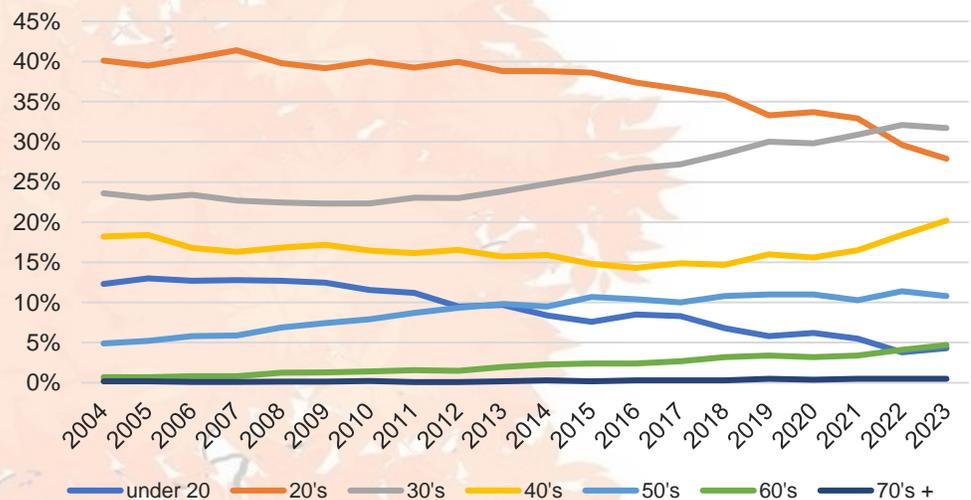

While collecting inmate profile data each year has its own utility, this chart demonstrates how some things can only be detected over much longer periods of time.

In the charts presented here, we can see that our inmate population has been aging over the last 20 years. Steady increases can be observed in the 30's, 40's and 60's age ranges, while at the same time witnessing significant decreases in the under 20 and 20's age ranges.

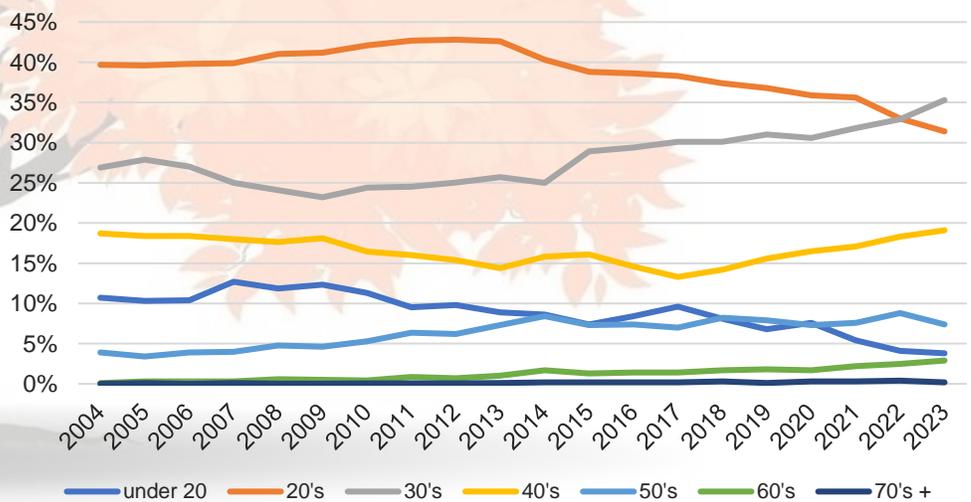

### Overall Population Aging Trends

### Male Inmate Population Aging Trends

### Female Inmate Population Aging Trends

## Interesting Facts About KCCF Inmates

Offender characteristics	male	female	together
? Average age	36.6	34.8	36.1
? Average number of kids	1.8	2.0	1.8
? Percentage who did not graduate high school (DG)	22.2%	19.6%	21.5%
? Percentage who are born in the USA	90.4%	95.6%	91.7%
? Besides USA, 2nd most common country of birth	Mexico (245)		
? Besides USA, 3rd next most common country of birth	Guatamala (167)		
? Besides USA, 4th next most common country of birth	Republic of Congo (85)		
? Most frequently claimed occupation	unemployed (6,058)		
? 2nd most frequently claimed occupation	general (3,361)		
? 3rd most frequently claimed occupation	none (670)		
? 4th most frequently claimed occupation	factory (631)		
? 5th most frequently claimed occupation	food service (550)		
? 6th most frequently claimed occupation	construction (538)		
? Least claimed occupation	bail, law enforcment, office - tied (1)		
? 2nd most frequently claimed religion after "none" (61.3%)	Protestant (3,826 - 25%)		
? 3rd most frequently claimed religion	Catholic (1,057 - 6.9%)		
? 4th most frequently claimed religion	Muslim (294 - 1.9%)		
? 5th most frequently claimed religion	Jehovah's Witness (49 - 0.3%)		
? Most frequently claimed service	Army (243)		
? 2nd most frequently claimed service	Navy (232)		
? 3rd most frequently claimed service	Marines (95)		
? 4th most frequently claimed service	National Guard (29)		
? 5th most frequently claimed service	Air Force (25)		
? Besides MI, 2nd most common state of birth	Illinois (512)		
? Besides MI, 3rd most common state of birth	California (215)		
? Besides MI, 4th most common state of birth	Texas (214)		
? Oldest person booked in	80		
? Most charges in a single booking	21		
Number of repeat offenders each year	1 or more times this year	10 or more times this year	Most times by single person
? Number of individual offenders who were admitted to jail in 2017 (out of 22,225 total admissions)	15,688	11	27
? Number of individual offenders who were admitted to jail in 2018 (out of 21,734 total admissions)	15,479	8	18
? Number of individual offenders who were admitted to jail in 2019 (out of 19,891 total admissions)	14,421	9	16
? Number of individual offenders who were admitted to jail in 2020 (out of 11,596 total admissions)	9,149	2	14
? Number of individual offenders who were admitted to jail in 2021 (out of 12,764 total admissions)	9,585	3	14
? Number of individual offenders who were admitted to jail in 2022 (out of 13,437 total admissions)	10,176	9	15
? Number of individual offenders who were admitted to jail in 2023 (out of 15,340 total admissions)	11,390	4	30

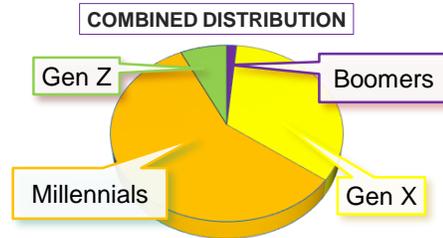

# Correctional Facility Employee Profile

Category	Total	% of total
Number of persons employed in the jail system as of January 1, 2024	318	
Number of male employees	239	75.16%
Number of female employees	79	24.84%

Number of deputies who retired in 2023	11	
Number of deputies who were terminated in 2023	2	
Turnover rate of deputies in 2023		12.02%
<b>Profile of Correctional Officers hired this year</b>		
Number of deputies hired in 2023	34	
Number of deputies hired in 2023 with Military experience	5	14.7%
Number of deputies hired in 2023 with some college	9	26.5%
Number of deputies hired in 2023 with a 2 year degree	8	23.5%
Number of deputies hired in 2023 with a 4 year degree or more	12	35.3%
<b>Correctional Officers hired between July 1998 and this year</b>		
Number hired in this time period (last 23 years)	341	
Number with a 4 year degree	191	56.0%
Number with a 2 year degree	83	24.3%
Number with Military experience	45	13.2%
Number with past Corrections/Law Enforcement experience	97	28.4%
Number who were employed in other KCCF positions when they applied	24	7%

## Generational Distribution of Correctional Staff

In recent years our facility has been undergoing a considerable transition in the age of staff. These numbers represent our generational distributions as of February 2024.

	Deputies	Admin
<b>Baby Boomers:</b> Born 1946-1964	1.5%	0.0%
<b>Generation X:</b> Born 1965-1980	27.3%	6.4%
<b>Millennials (Gen Y):</b> Born 1981-1996	51.3%	6.4%
<b>Gen Z (iGen / Zoomers):</b> Born 1997-2012	7.1%	0.0%
<b>Total:</b>	87.2%	12.8%

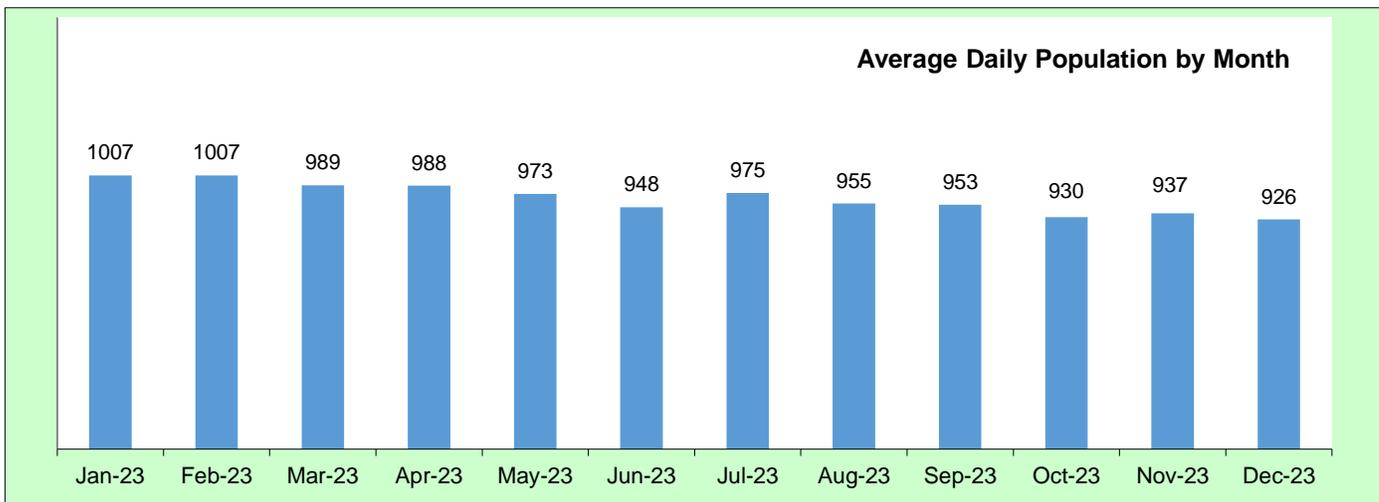

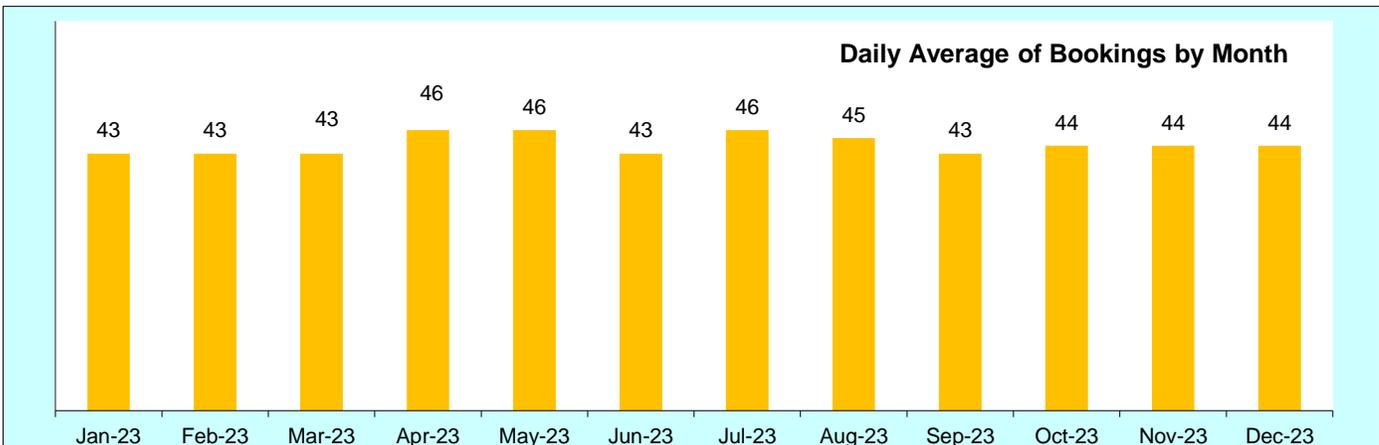

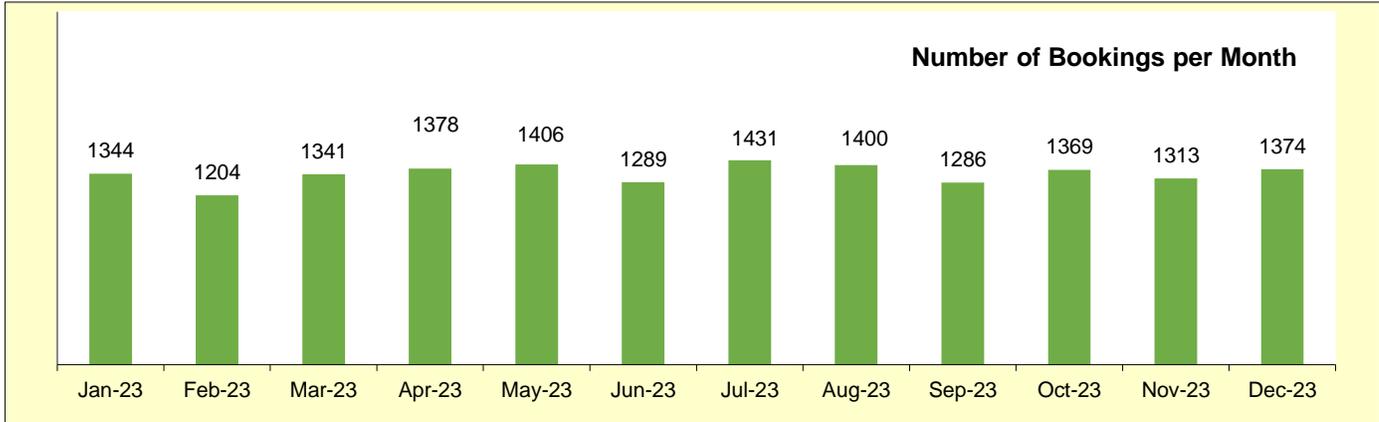

**Talking Point!** The information contained in the table above was correct as of January 1, 2024. It should be noted that our deputy turnover rate was the highest recorded in the history of this report, being typically very low for a jail. It should be noted that turnover rates in correctional facilities of 10% to 15% are very common everywhere, and rates of 25% and far higher are not unusual in recent years. In fact rates of 50% and even 100% have been documented! Just as in many other professions, chronic staff shortages are unfortunately a feature of modern corrections. Special thanks to Stephanie Hernandez from Kent County HR for her help with these numbers.

# Booking and Population Statistics

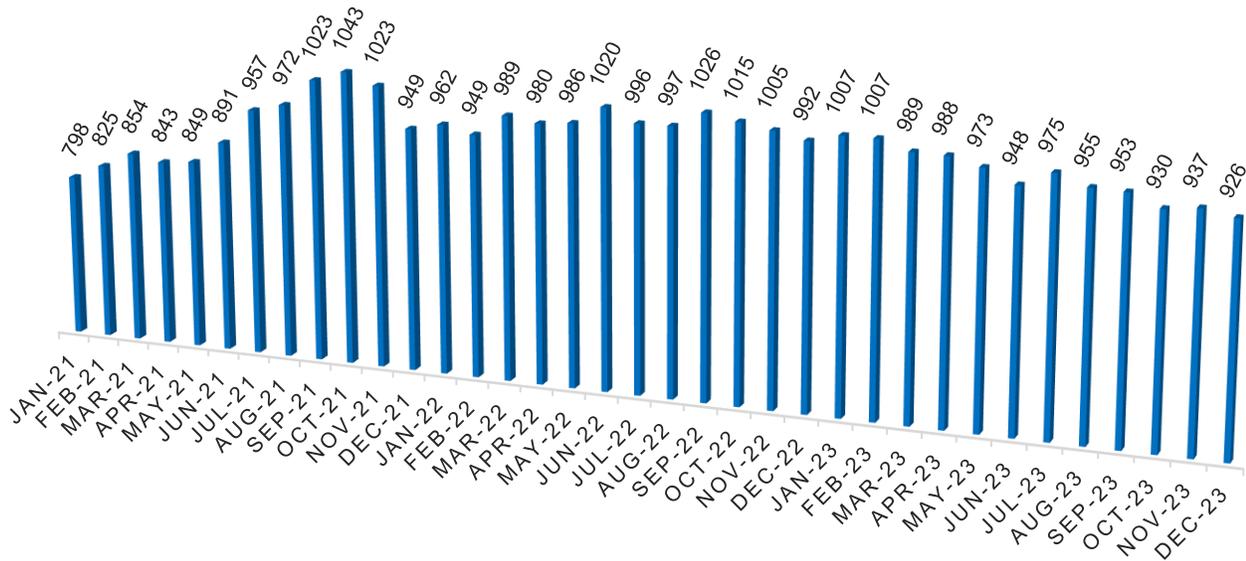

*Monthly Averages Vary Widely*

	bookings per day	bookings per month	total bookings for 2023	average daily population
Average	44	1,345		966
Minimum	9	1,204		926
Maximum	76	1,431		1,007
Range	67	227		81
			16,127	

# The Average Daily Population of the Main Jail

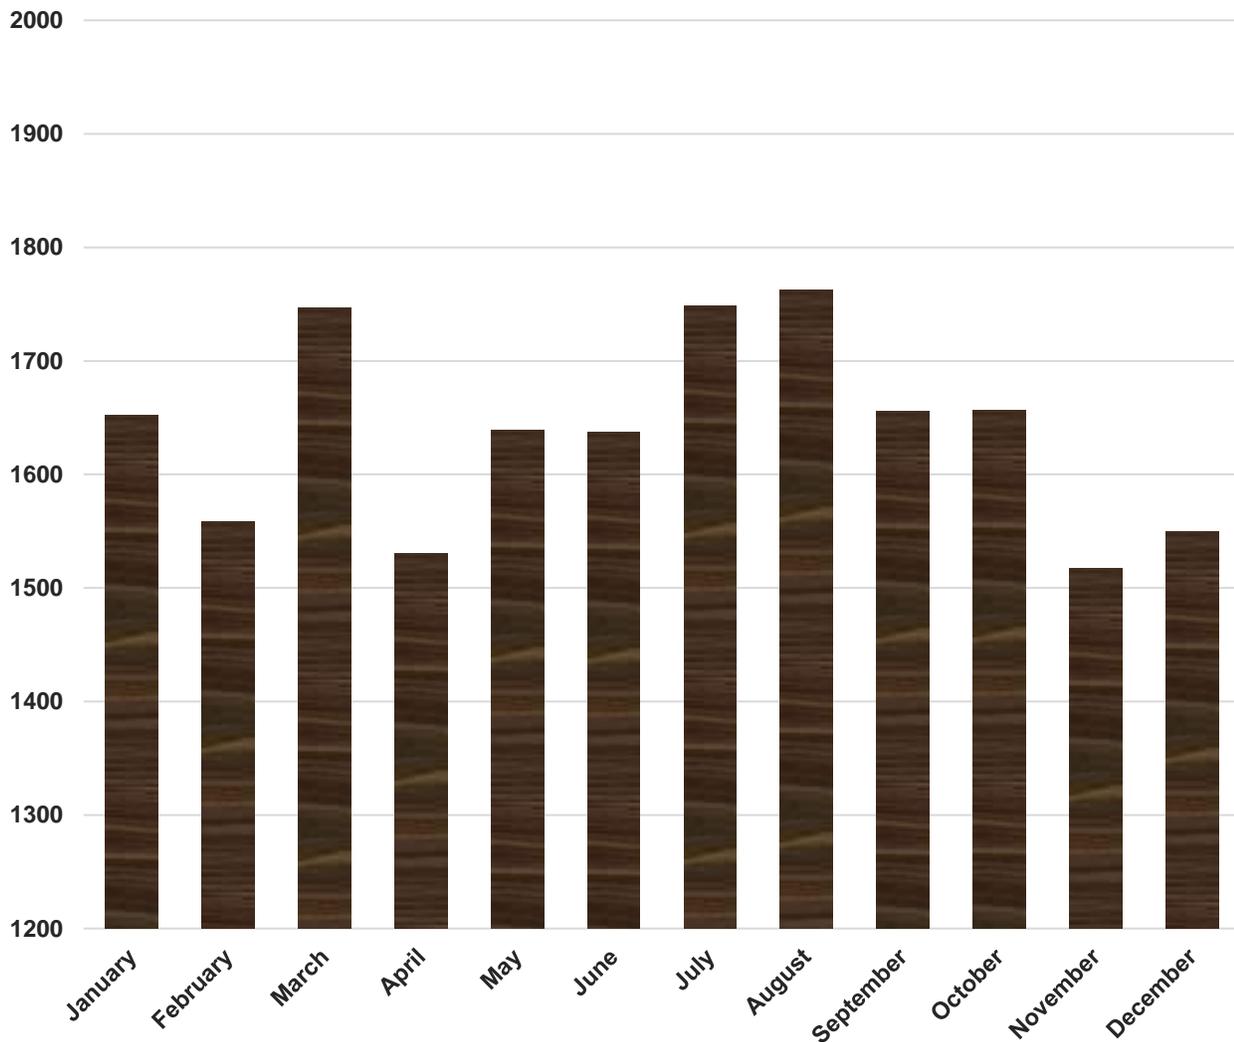

## MAIN JAIL AVERAGE DAILY POPULATION BY MONTH 2021-2023

**TrendSpotter!** The average monthly population of the jail was often over **1100** in 2018 and 2019, but fell drastically beginning in March of 2020 with the advent of the Covid-19 pandemic, reaching regular lows in the 600s. 2021 witnessed those numbers begin their slow climb back. For 2023 the jail population consistently hovered just under 1000.

# Monthly Bookings Averaged Over 10 Years

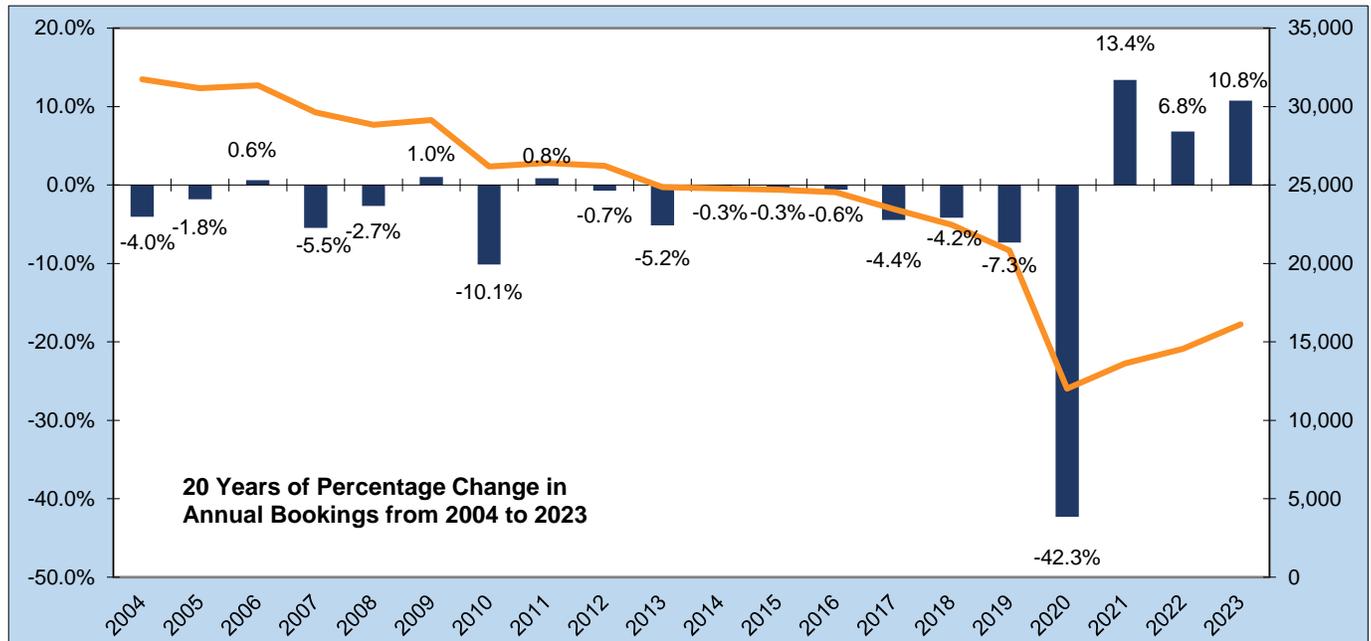

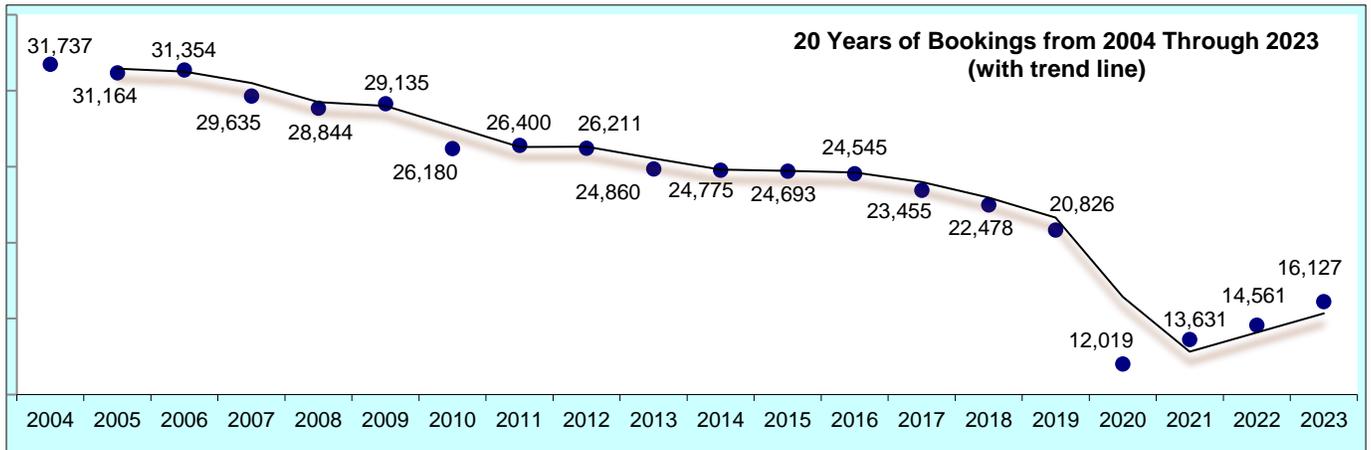

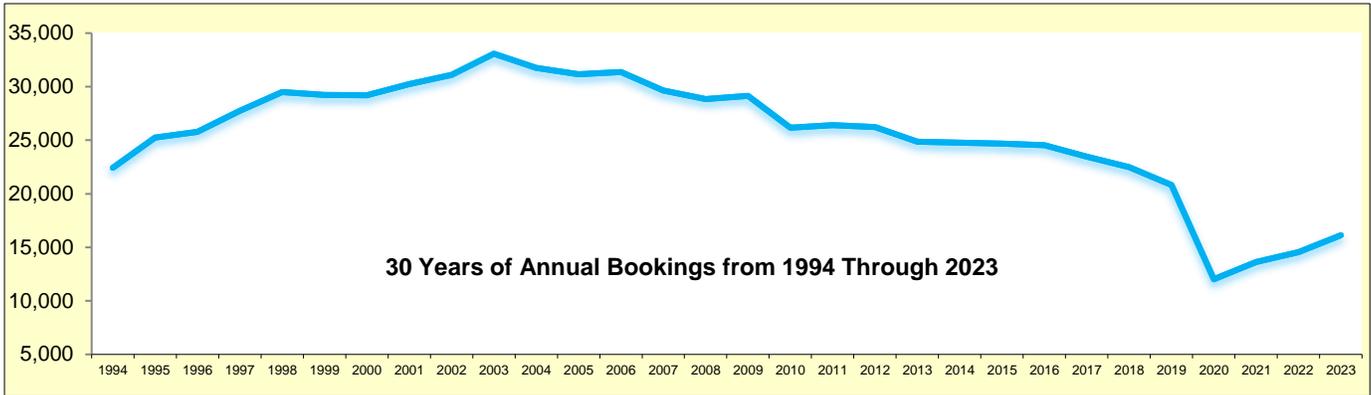

## *A Decade of Bookings*

**TrendSpotter!** This chart presents the 10 year average of new book-ins organized by month. The purpose of this is to further identify our yearly activity levels for administrative planning purposes. Using this data we can see that March and August are historically our busiest months, while April and November see the lowest number of bookings as the local criminal element takes a break leading in to the summer crime season, and then again for the Holidays.

# The Number of Inmates Brought to Jail per Year

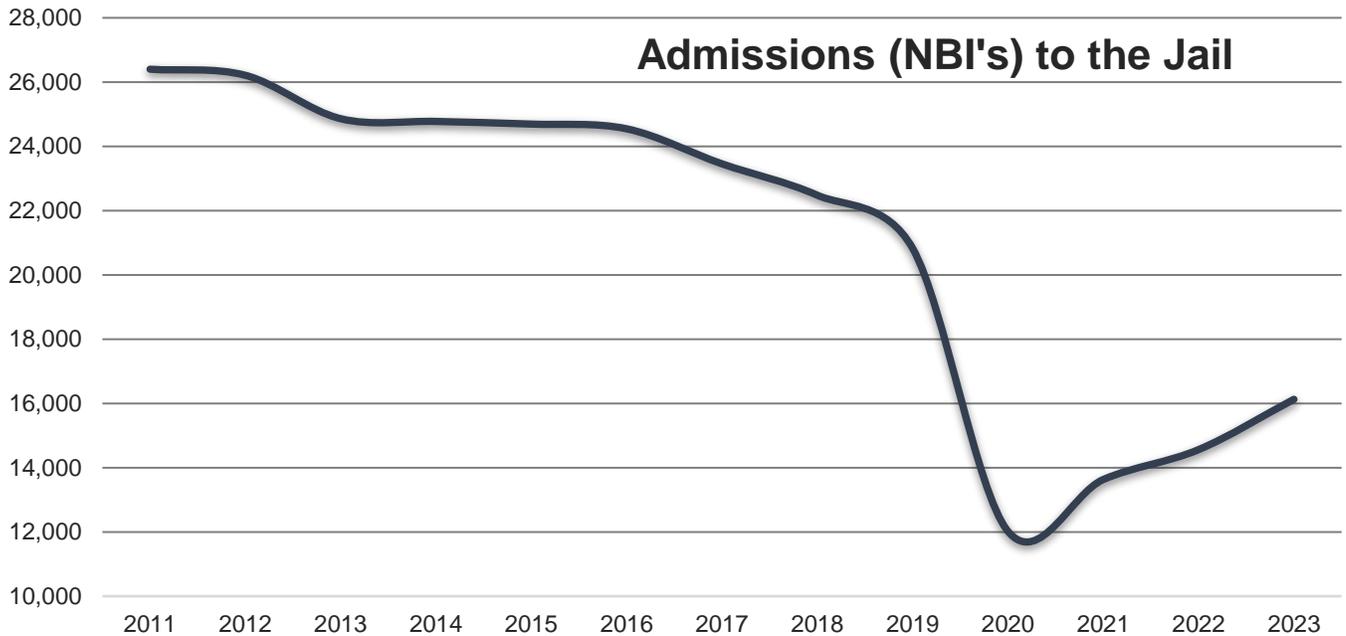

## Admissions slowly recover following Covid-19

 **TrendSpotter!** The above chart shows the number of bookings each year (orange line) with the % of increase or decrease from the previous year (blue bar). We experienced a 42.3% decrease in 2020! The 3 charts on this page starkly illustrate the effect Covid-19 had on our population.

# Number of Bookings and MJ Average / Peak Populations

year	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
<b>NBI</b>	26,400	26,211	24,860	24,775	24,693	24,545	23,455	22,478	20,826	12,019	13,631	14,561	<b>16,127</b>

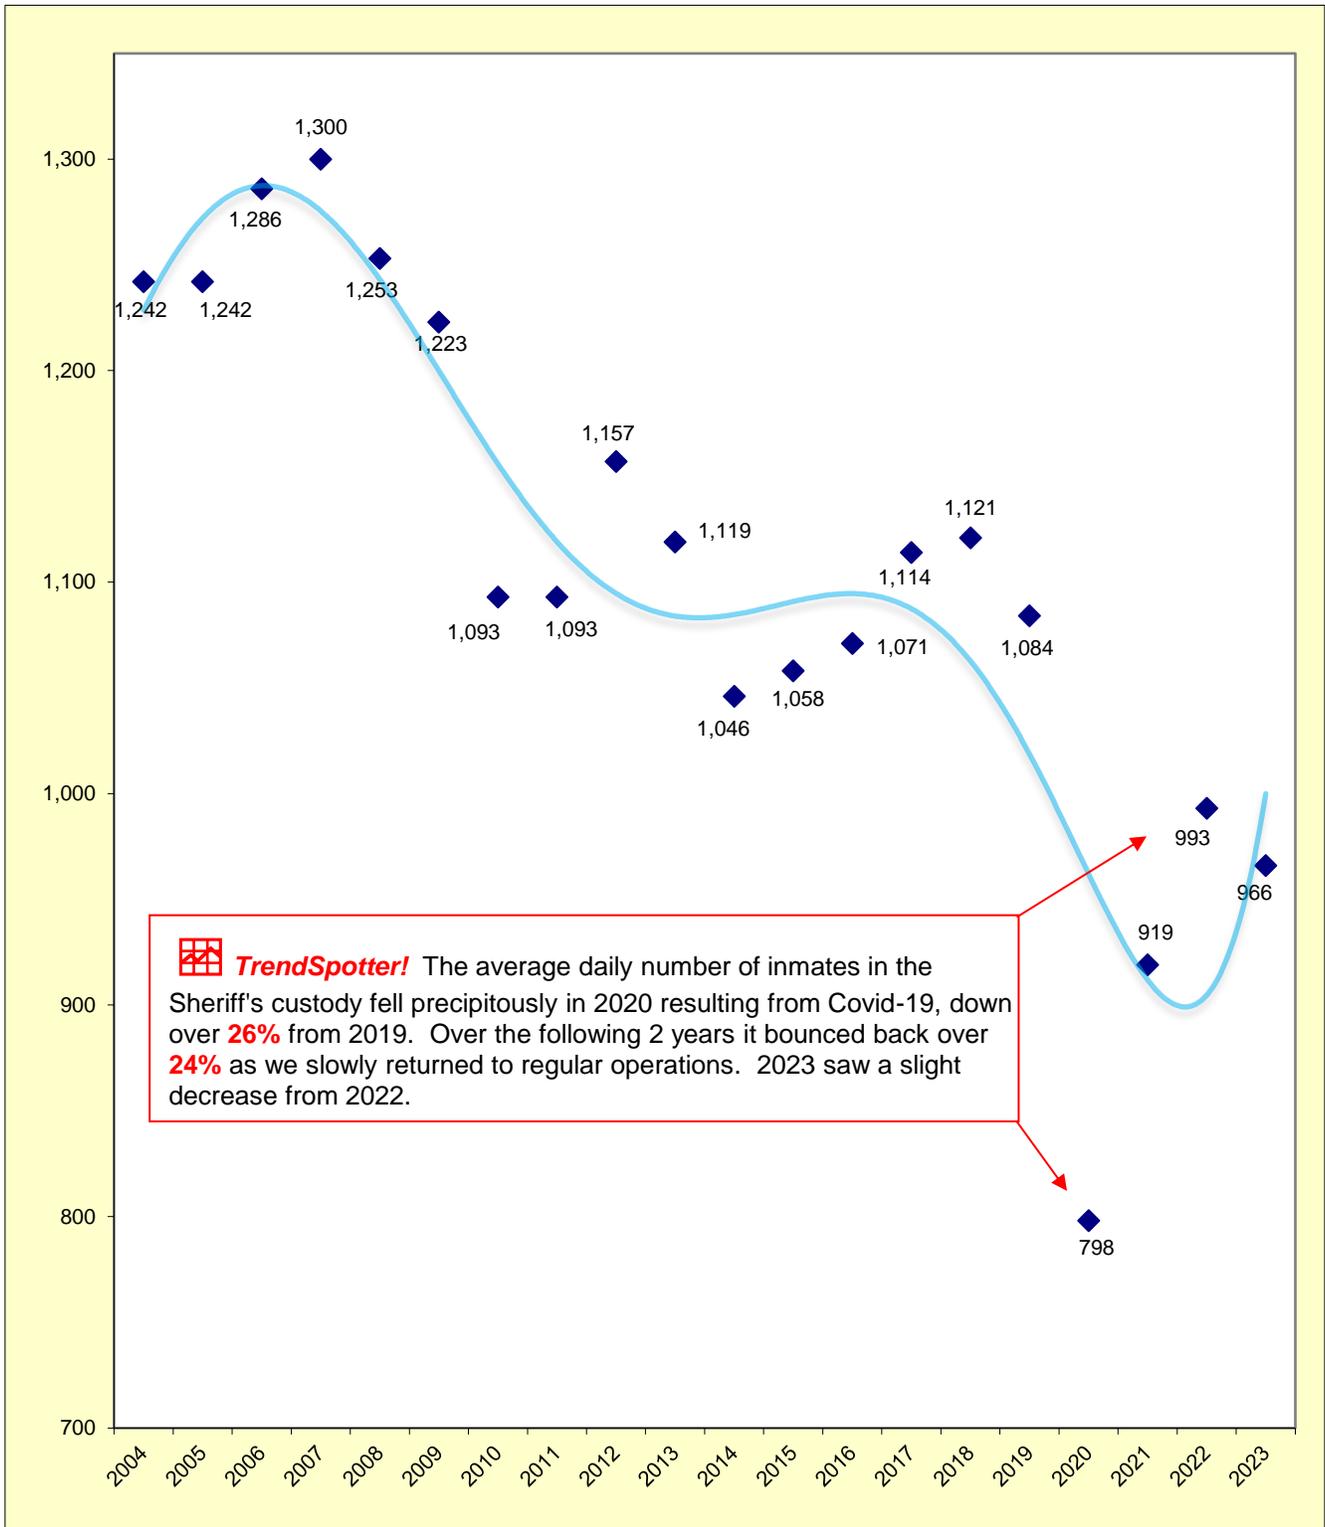

year	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023

<b>+ or -</b>	12.0%	13.7%	11.2%	8.9%	8.8%	8.5%	9.2%	7.5%	10.6%	41.4%	15.9%	6.1%	<b>12.4%</b>

**TalkingPoint!** The bottom chart shows the difference in the Main Jail between the **AVERAGE** daily population and the **PEAK** daily population. In 2023 we had more inmates than average **51%** of the time. The difference between the normal or "average" population and the peaking population is called the "peaking factor." The peaking factor for 2023 was 12.4%.

# Annual Average Daily Population for all Inmates in KCCF Custody

The figures on this graph represent the daily average of the total number of inmates in our custody, including the Main Jail, Work Release (Community Reentry Center - moved into the MJ in 2015), and the Honor Camp (closed in 2010). It **does not include** Kent County inmates lodged at other agencies.

# History of Jail Capacity in Kent County (1835 to 1984)

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1835	First Kent County Jail consisted of two cells in the corner of the Courthouse				
1845	First jail burns and for the next 10 years inmates are housed in rented quarters, primarily in a cellar of a building on Canal Street, with more important inmates being sent to jails in adjoining counties.				
1855	A new Sheriff's residence was built with a wooden structure called "Kent County Jail House" in the rear. It consisted of heavy planking with sheet iron sheathing on the inside.				
1872	Rising crime and frequency of escapes from the current jail cause the county to construct a new jail in the "Bastille" style. When it opened in March, it was called the "Prisoner's Paradise."	114			
1913	Chairman of the Finance Committee of the Board of Commissioners called the jail a "cheese box" that had "first prize for being the most hazardous building in Michigan today."				
1950	Peak Average Daily Population reaches 162 inmates.				
1954	After several failed attempts over 4 decades, voters finally approve a ballot measure for a new jail.				
1958	Original Ball Avenue Jail constructed with a capacity of 240 beds.	240			240
1968	Honor Camp opens with a capacity of 48, bringing us to a total capacity of 288.	240	48		288
1974	Jail expansion by 116 beds, bringing us to a capacity in the Main Jail of 356. Total capacity for all jail facilities was 404.	356	48		404
1977	Jail expansion by 95 beds, bringing us to a capacity in the Main Jail of 451. Total capacity for all jail facilities was 499. 61st District Court creates Community Service Program for sentenced misdemeanor cases.	451	48		499
1979	Lawsuit filed by six inmates in U.S. District Court.				
1980	Formation of "Alternatives to Incarceration" task force. We begin the practice of boarding out inmates to other counties due to overcrowding. This continued for 15 years.				
1981	Creation of Court Services Department to administer Pre-trial Release and Community Service programs. Post arraignment Pre-trial Screening begins at the jail.				
1982	Work Release facility created at the Salvation Army building with a capacity of 48 beds. Court Services Community Service program begins placing felony and misdemeanor cases to work in the community from all district courts and Circuit Court. In addition, a Federal Court order by Judge Enslen in the matter of Johnson v. Heffron limits occupancy at the Main Jail to 95 percent of capacity.	451	48	48	547
1983	Jail expansion by 122 beds, bringing the Main Jail to 573. Total capacity for all jail facilities was 669.	573	48	48	669
1984	Expansion of Pre-trial Release and Community Service programs. Pre-trial program now includes full-time supervision services. Jail Management System (JMS) approved for automating records at the Kent County Jail. Expansion of Work Release facility by 24 beds for a capacity of 72. Total capacity for all jail facilities is 693.	573	48	72	693

# History of Jail Capacity in Kent County (1985 to 1998)

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1985	Agreement to house up to 25 females at Project Rehab Community Treatment Center. Expansion of Work Release facility by 18 beds to a total capacity of 90. Total capacity for all jail facilities is 711.	573	48	90	711
1987	Jail Population Management Board formed to study causes of jail crowding. Electronic Monitoring and Work Crew programs started with Federal Grant				
1988	Additional judge added for 17th Circuit Court				
1989	Formation of the Community Corrections Advisory Board pursuant to P.A. 511 of 1988. Approval of Comprehensive Criminal Justice System Study by David M. Bennett. Temporary minimum security jail building adding 64 beds to the Main Jail, bringing its capacity to 637. Expansion at the Work Release adds 14 beds for a total of 104 beds. Total capacity for all jail facilities is now 789.	637	48	104	789
1990	This was the high year for the practice of boarding inmates in other counties. Daily average this year was 146. Tax increase of 0.84 mills approved by voters on August 7th to construct a new jail addition. Contract approved for jail architectural services. Creation of Criminal Justice Coordinator position.				
1991	Pre-trial and Community Service program expanded to provide staff for additional numbers of supervised release cases and community service placements.				
1992	New jail addition opened in December but parts of the old jail are closed for renovation. We become the central intake facility for the Grand Rapids Police Department. Pre-trial services expanded to include pre-arraignment screening and investigation and Fast Track processing 24 hours a day, 7 days a week at the jail.				
1993	New jail addition and renovation of the old jail completed, adding 363 additional beds (after closing the temporary facility), bringing us to a capacity in the Main Jail of 1,000, and a total capacity of 1,152. Temporary minimum security building relocated to Honor Camp. Capacity at Honor Camp remains at 48. Jail Bed Allocation Agreement begun, committee implemented, and weekly jail bed reports sent to all criminal court judges.	1,000	48	104	1,152
1994	The practice of boarding inmates in other counties because of overcrowding finally ends this year after 15 years.				
1996	Order from the Federal Sixth Circuit Court granting relief from Judge Enslin's 1982 count reduction measures.				
1997	Pre-trial Electronic Monitoring program re-started after being discontinued in 1989. Federal grant program enables Kent County communities to add large numbers of new police.				
1998	Jail Population Monitoring Clerk begins monitoring split-sentence cases to facilitate early release into community facilities. Research conducted into the issues surrounding adding double bunks to the Main Jail. 24 bunks added this year, bringing the capacity of the Main Jail to 1,024.	1,024	48	104	1,176

# History of Jail Capacity in Kent County (1999 to 2011)

Year	Description of the Event or Solution	Capacity Levels			
		MJ	HC	WR	System
1999	29 additional double bunks added for a total of 53, increasing the capacity of the Main Jail to 1,053. Relocation of the Work Release facility from the Salvation Army to the old Kent Oaks facility, increasing the capacity of our Work Release to 136. Total system capacity is now 1,237.	1,053	48	136	1,237
2000	9 additional double bunks added for a total of 62, bringing us to a capacity of 1,062 in the Main Jail, and a total capacity of 1,246.	1,062	48	136	1,246
2002	32 additional double bunks added for a total of 94, with a capacity of 1,094 in the Main Jail, and a total capacity of 1,278.	1,094	48	136	1,278
2003	Two additional judges added for 17th Circuit Court. Six additional bunks added to the Honor Camp, increasing its capacity to 54.	1,094	54	136	1,284
2004	Corrections and Detention Millage Committee formed. Ten additional bunks added to Work Release, increasing its capacity to 146.	1,094	54	146	1,294
2005	Corrections and Detention Millage Committee submits final report to County Administration in December. Expansion project begins at Work Release and extra programs added. Building renamed the Community Reentry Center. Two more bunks added to the Honor Camp, increasing capacity to 56	1,094	56	146	1,296
2006	Expansion at the Work Release completed. Four more bunks added to Honor Camp, capacity up to 60. 90 additional double bunks added bringing us to a capacity of 1,184 in the Main Jail, and a total capacity of 1,492. Renovation started on the new Mental Health Unit in the Main Jail with 53 bunks taken out of service, reducing total capacity to 1,439.	1,131	60	248	1,439
2007	Criminal Justice Planners Harrison / Landmark present a report to County Administration in December that evaluates the jail's facilities and recommends demolition and expansion. Kent, Kalamazoo and Allegan Counties hire a consulting firm to determine the feasibility of creating a regional jail. Mental Health Unit opened with 39 additional bunks, leaving us with a Main Jail capacity of 1,170 and a total capacity of 1,478.	1,170	60	248	1,478
2008	Voters approve an extension of Jail Millage.				
2009	County selects Tower Pinkster as the design firm for the expansion and demolition project, and Owens, Ames and Kimble are selected as the construction firm. A jail transition team is formed and design work begins in mid-summer.				
2010	Renovation started on Upper Rear and D1B. Additional double bunks are added to B2 and B3. The Main Jail has a new temporary capacity. Using Honor Camp for inmate housing suspended in November. One wing of the Work Release (CRC) closed the last week of December, leaving two wings in operation.	1,101	0	186	1,287
2011	The newly renovated Upper Rear reopens in January as H2 with a new capacity of 192. The newly renovated D1B reopens in February with a new capacity of 46. New A Building video visitation annex is opened, allowing in-person visitation areas to be closed down. Lower One Man, Middle One Man, and Upper Annex are demolished in March.	1,221	0	186	1,407

# History of Jail Capacity in Kent County (2012 to present)

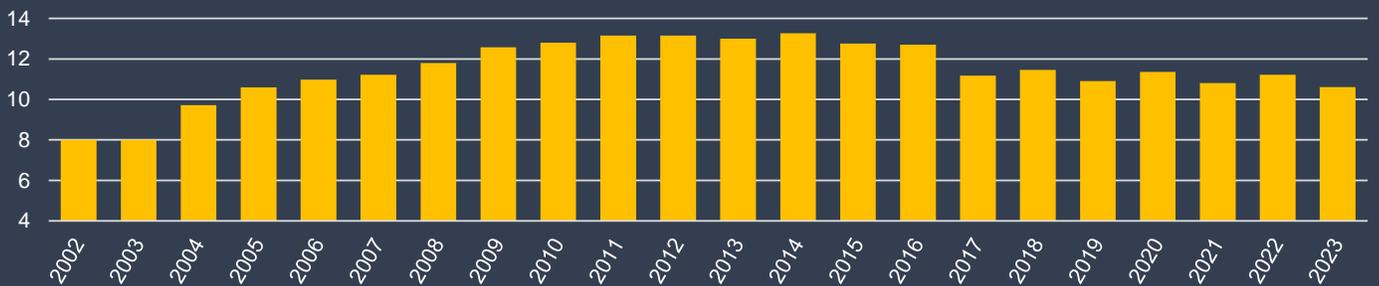

Year	Description of the Event or Solution	Capacity Levels		
		MJ	WR	System
2012	The new jail housing units open in December (L1, L2, L3, M1, M2, and M3). The "Old Side" (Lower, Middle and Upper) is closed.	1,285	186	1,471
2015	Work Release (CRC) is closed. 192 Double bunks are installed in B2, B3, D1, D2 & D3. Mail Jail capacity grows to 1,477.	1,477	0	1,477
2016	Construction of a new kitchen and a dedicated entrance for the Work Release (CRC) program to the Main Jail started. Completion is projected to be April, 2017.	1,477	0	1,477
2017	The new kitchen and Work Release Entrance additions to the jail are completed and open.	1,477	0	1,477
2018	Marijuana is legalized in Michigan in November.			
2020	In March, the Covid-19 pandemic results in a drastic reduction in population size, going from over 1100 to a low of 624 and prompts suspension of the Work Release (CRC) program. This year also sees the first full year of our new Indigent Court bond reform program and the introduction of electronic tether to the jail, both of which effect population.	1,477	0	1,477
2021	In October, the new "Raise the Age" law goes into effect, raising the age of anyone classified as an "adult" in the criminal justice system in the State of Michigan from 17 to 18 years of age.	1,477	0	1,477

**TalkingPoint!** Under the auspices of the Michigan Indigent Defense Commission Act, the Michigan Indigent Defense Court (MIDC) was implemented in order to facilitate better service for those inmates without the means to provide proper legal service for themselves following their arrest. The graph below tracks just part of what this work entails.

**MI Indigent Court 1st Appearance & Virtual Court Hearings 2023**  
(Jan-Mar totals are unavailable)

**Correctional Staff Average Yrs of Seniority**

# Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking at the people in jail or being admitted to jail and looking backwards to see how many of them have been admitted to the Kent County Correctional Facility in previous years. Another approach to examining recidivism is examined on this page. This forward looking approach surveys a group of admissions at a point in the past and follows them in subsequent years to see how many individuals were rebooked after their initial release from the Kent County Correctional Facility. The information on this page examines inmates booked into the Kent County County Correctional Facility during calendar year 2016 and then measured what proportion of them were rebooked into the Kent County Correctional Facility through the remainder of 2016 through the end of 2021. We provided the jail data from those years to **Andy Verheek** at the Kent County Office of Community Corrections and he analyzed it for recidivism rates. The results of the analysis are reported on this page. **\*NOTE\* - Readers will begin to see how the 2020 pandemic significantly impacted the correctional population at the Kent County Correctional Facility when comparing data from this report to last year's report.**

 **TalkingPoint!** There were a total of 51,595 unique individuals booked into KCCF at least one time over the six year period from 2016 through 2021. Out of these 51,595 individuals, 22,829 were rebooked (for any reason) into the KCCF one or more times during this same time period. This represents an overall recidivism rate of 44.2%, meaning that 44.2% of the individuals in this sample were booked into KCCF two or more times. Of the 22,829 offenders booked two or more times into the KCCF, females were admitted an average of 3.5 times and males an average of 3.9 times.

## "Class of 2016 to 2021" - 55,331 individuals booked & rebooked anytime during 2016 through 2021

	Total Individuals booked at least once anytime in 2016 through 2021	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	51,019	22,629	44.4%
Male	36,190	16,933	46.8%
Female	14,829	5,696	38.4%
Black	18,650	10,027	53.8%
Hispanic	5,654	2,047	36.2%
White	26,715	10,555	39.5%

 **TalkingPoint!** The table above includes people whose first arrest in the time period came in 2016 but also those whose first arrest was during the years 2017 through 2021, so some of them did not have much elapsed time to be re-arrested. In the table below we looked at the recidivism rate for ONLY those individuals that were booked into KCCF from January 1, 2016 through December 31, 2016 and released to the community after their first arrest in 2016. This means that those released to prison, another facility, or another agency were filtered out of the analysis. **Each of the offenders in the remaining population had a minimum of 5 full years to get in trouble with the law again.** There were 14,421 individuals booked into KCCF during 2016 and subsequently released back into the community. Out of these 14,421 offenders, 8,838 were rebooked into KCCF at least once from their initial booking in 2016 until December 31, 2021. This includes individuals first booked into KCCF in 2016 with their first subsequent booking occurring in the same year (2016). This equates to a recidivism rate of 61.3%.

## "Class of 2016" - Individuals booked in 2016 and their rearrests later in 2016 through 2021

	Total Individuals booked at least once in 2016	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	14,280	8,750	61.4%
Male	10,131	6,522	64.4%
Female	4,149	2,253	54.3%
Black	5,829	4,189	71.9%
Hispanic	1,482	807	54.5%
White	6,969	3,779	54.2%
First Time Offenders in 2016	4,068	1,673	41.1%
Less than High School Education	4,133	2,699	65.3%
High School Education or More	10,147	6,076	59.9%

# Recidivism Rate of KCCF Inmates

The previous page examines recidivism by looking at individuals booked into KCCF from 2016 through 2021 to see how many may have been rebooked during that same time frame. This page looks at a group of admissions for the more recent time span of 2021 through 2023. We looked at the overall recidivism rate for this three-year time span as well as recidivism when selecting out offenders who received a proxy score. Jail data from these years were analyzed by Andy Verheek at the Kent County Office of Community Corrections. **\*IMPORTANT TO NOTE\*** The COVID pandemic significantly impacted policies and operations throughout the Kent County criminal justice system. This includes the KCCF. Given the extent and on-going nature of the pandemic, one may speculate the data to be impacted during the time frame of this page. Please keep that in mind

 **TalkingPoint!** There were a total of 25,137 unique individuals booked into KCCF at least one time over the three year period from 2021 through 2023. Using a broad definition of recidivism that looks at rebooking into KCCF for any reason, including probation and parole violations, 9,371 out of the 25,137 individuals were rebooked at least once during this three year period. This represents an overall recidivism rate of 37.3%. Of these 9,371 individuals booked two or more times into KCCF, females were admitted an average of 3.0 times and males an average of 3.1 times. Keep in mind that the recidivism rate is dependant on the specific definition of recidivism utilized at the time of analysis. For example, if measuring recidivism for those with an initial booking event in 2021 and released to the community (meaning that those released to prison, another agency, or other facility were excluded from the analysis), the resulting recidivism rate increases to 53.7%.

"Class of 2021 to 2023"			
	Total Individuals booked at least once anytime in 2021 through 2023	Number with at least one subsequent rebooking	Resulting Recidivism Rate
All	24,523	9,253	37.7%
Male	17,853	7,125	39.9%
Female	6,669	2,127	31.9%
Black	10,269	4,446	43.3%
Hispanic	2,143	787	36.7%
White	12,111	4,020	33.2%

 **TalkingPoint!** The previous table above examined those individuals whose first arrest occurred at any time during 2021 through 2023 and includes a broad definition of recidivism. However, not all offenders booked into the Kent County Correctional Facility are predicted to recidivate at the same rate. Using a proxy risk assessment instrument that takes into consideration each individuals age at first offense, prior bookings into jail, and current age, KCCF personnel can obtain an initial prediction of those most likely to be rebooked into the facility in the future. This proxy risk score is instrumental to the establishment and provision of programming in the KCCF. The following table examines the recidivism rates for those individuals that were booked into KCCF for the first time in 2021 and proxy information available in EIS for the individuals most likely to be released back into the community. Offenders released to prison, another facility, or other agency were filtered out. There were 5,357 individuals booked into KCCF in 2021 where there was proxy score information available and who were released back into the community. Out of these 5,357 individuals, 3,894 were rebooked into KCCF at least once for any reason (including parole and probation violations) following their initial booking in 2021 until December 31, 2023 for an overall recidivism rate of 72.7%. The table below illustrates that the recidivism rates are indeed different for those offenders scored at a low, medium, or high risk of recidivism based on the proxy risk assessment instrument.

"Class of 2021" - 5,357 individuals booked in 2021 and their rebookings later in 2021 through 2023			
	Low Risk of Recidivism 474 total individuals	Medium Risk of Recidivism 2,129 total individuals	High Risk of Recidivism 2,754 total individuals
Recidivism	56.3%	68.5%	78.7%
Male	326 total individuals	1,610 total individuals	2,227 total individuals
Rate	56.1%	69.1%	79.6%
Female	148 total individuals	519 total individuals	527 total individuals
Rate	56.8%	66.9%	75.1%
Black	100 total individuals	942 total individuals	1,590 total individuals
Rate	52.0%	69.0%	80.4%
Hispanic	39 total individuals	176 total individuals	227 total individuals
Rate	53.8%	68.2%	75.3%
White	335 total individuals	1,011 total individuals	937 total individuals
Rate	57.9%	68.2%	76.6%

# Recidivism Info - Including Likelihood of Recidivating

 **TalkingPoint!** Additional information regarding regarding the recidivism of all individuals booked into KCCF between 2021 and 2023:

- ➔ An offender with an initial 2021 booking event experienced 39 separate bookings between 2021 and 2023.
- ➔ Overall, male offenders were rebooked an average of 1.8 times and female offenders were rebooked an average of 1.6 times.
- ➔ Black offenders were booked an average of 1.9 times, hispanic offenders were booked an average of 1.7 times, and white offenders were booked an average of 1.7 times.
- ➔ Average (median) length of time between an offender's first and second bookings was 166.7 days for male offenders and 176.0 days for female offenders.
- ➔ Average (median) length of time between an offender's first and second bookings was 177.4 days for black offenders, 210.3 days for Hispanic offenders, and 155.7 days for white offenders.

 **TalkingPoint!** Kent County uses a "Proxy" instrument to predict the likelihood that an inmate booked into KCCF will be rebooked into KCCF at some future date. This instrument divides the inmates into three levels, with R1's being the least likely to return to jail, R2's being in the middle, and R3's being the most likely to return to jail. The breakdown of Proxy scores for individuals booked between 2021 and 2023 include - R1: 9.0% // R2: 40.2% // R3: 50.8%. One of the reasons for this disparity is that the proxy tool is administered only to those individuals who have jail stays of 3 days or longer.

- ➔ Looking at the 267 offenders that received a low category proxy score (R1) from the *Recidivism Since 2021* page, both male and female offenders averaged 1.9 bookings. Looking at the offenders that received a high category proxy score (R3) from the same page, the average number of bookings for male offenders averaged 3.3 bookings while female offenders averaged 3.1 bookings.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the *Recidivism Since 2021* page, black offenders averaged 1.7 bookings, whites averaged 2.0 bookings, and Hispanics averaged 1.7 bookings. Switching to the offenders that received a high category proxy score (R3) from the same page, the average for black offenders increases to 3.3 bookings, the average for white offenders increases to 3.2 bookings, and the average for Hispanic offenders increases to 3.1 bookings.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the *Recidivism Since 2021* page, the average (median) length of time between an offender's first and second bookings was 217.8 days for male offenders and 229.4 days for female offenders. Switching to those offenders receiving a high category proxy score (R3), the average (median) length of time between an offender's first and second bookings decreases to 184.4 days for male offenders and decreases to 199.3 days for female offenders.
- ➔ Looking at those offenders that received a low category proxy score (R1) from the *Recidivism Since 2021* page, the average (median) length of time between an offender's first and second bookings was 270.8 days for black offenders, 186.7 days for Hispanic offenders, and 219.2 days for white offenders. Switching to those offenders receiving a high category proxy score (R3), the average (median) length of time between an offender's first and second bookings decreases to 191.2 days for black offenders, 171.6 days for white offenders, and 216.3 days for Hispanic offenders.

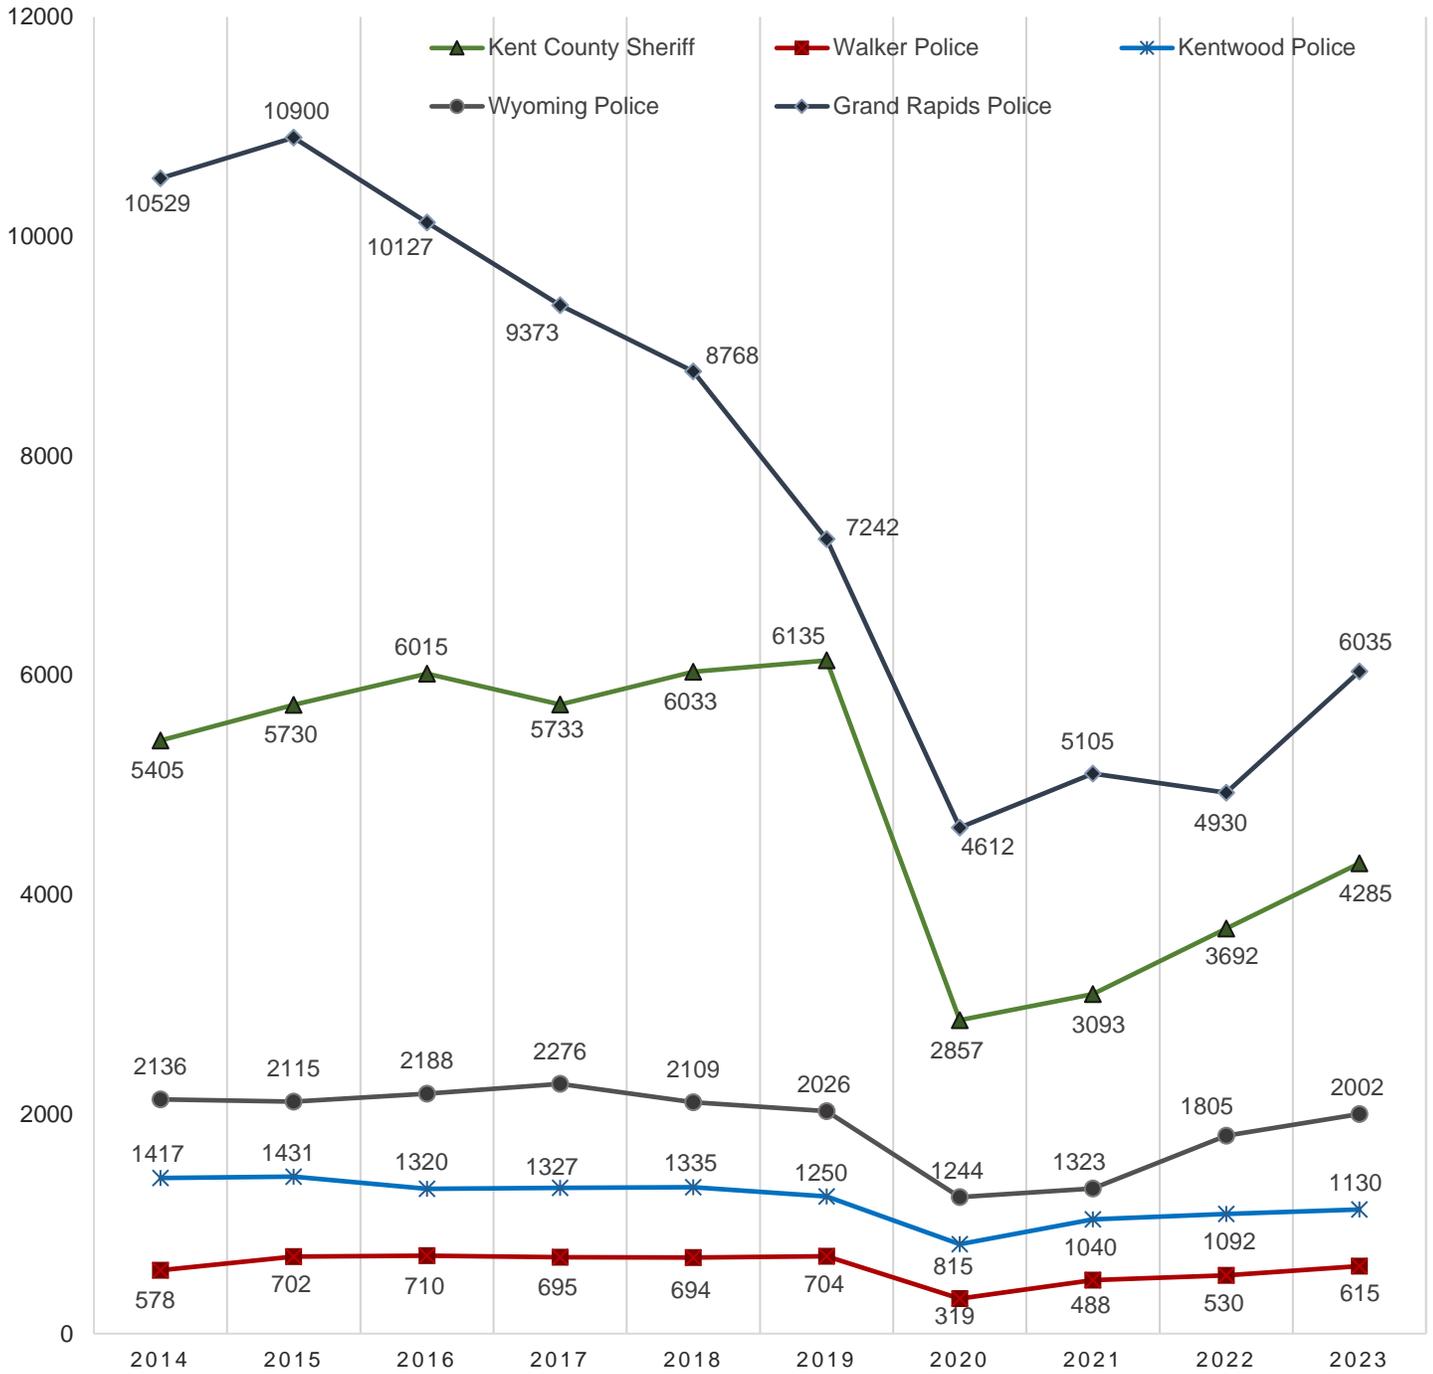

# Number of Inmates Brought to Jail by Arresting Agency

# Top Local Agency Arrest Trends Over the Last 10 Years

**TrendSpotter!** The peak for Grand Rapids, Kent County and Wyoming was in 2003 (not shown on this chart). Due to Covid-19, all agencies experienced significant decreases in arrests for 2020, which leveled off and then began to increase again in 2021.

# Marijuana-related Arrests by Year

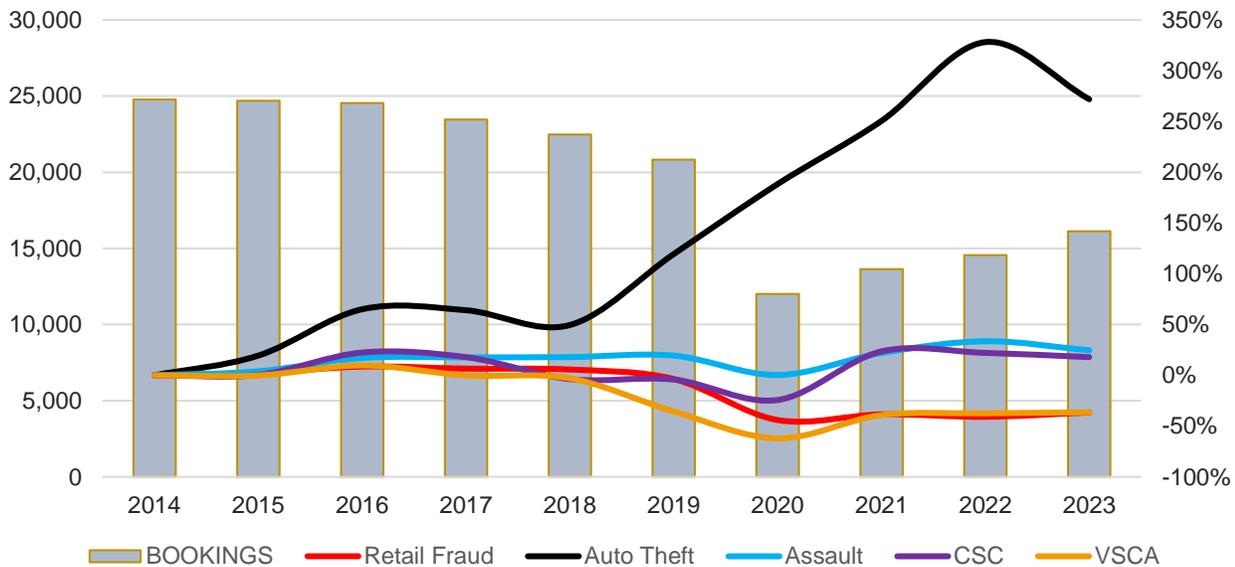

**TalkingPoint!** Marijuana was legalized in Michigan with the passage of Proposal 1 in November of 2018 and so 2019 was the 1st full year of arrests under the new law. Unfortunately for tracking, the 2020 and 2021 numbers were significantly effected by Covid-19 on arrests (particularly among lower level arrests). In addition, it should be noted that often a marijuana-related charge may be just one of several charges that an inmate is booked on, meaning that even were the MJ charge not present, the person may have been arrested anyway. This chart shows MJ-related arrests presented against the backdrop of our total bookings for the year in question to help place them in context. Observing the trendlines, it would seem that Proposal 1 has had a mitigating effect on our arrest and population numbers.

### Charge Trends vs. Total Arrests

**TrendSpotter!** This chart shows several serious charge categories' % change by year set against the total arrests for those years. The changes are based on using 2014 as the base "year zero," so we can see that for example auto theft was 270% higher in 2023 than in it was in 2014. The fact that many serious charges are relatively flat even with much smaller overall booking numbers may reflect the decrease in arrests for less serious charges.

The above chart shows the top home address zip codes of arrestees for 2023. The green arrows show zip codes that went down in number from 2022, while the red arrows show those zip codes that saw an increase from 2022. The || represent no change from the previous year.

# 2023 Arrest "Heat" Map by Home Zip Code

# Average Amount of Time Inmates Stay in Jail, Shown with Inmates Grouped by Release Type

## AVERAGE LENGTH OF STAY

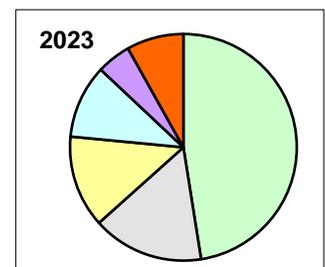

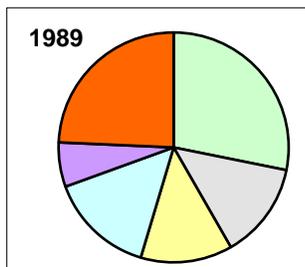

**TalkingPoint!** Based on statewide data, the average length of stay for an inmate in a Michigan jail in 2010 (Last recorded state data) was 20 days.

**TrendSpotter!** The average length of stay for inmates released time served (after serving a county sentence) was 46 days in 2001. For 2016 it was down to 26 days, but then rose every year (reaching 38.6 in 2022) until taking a dip again in 2023.

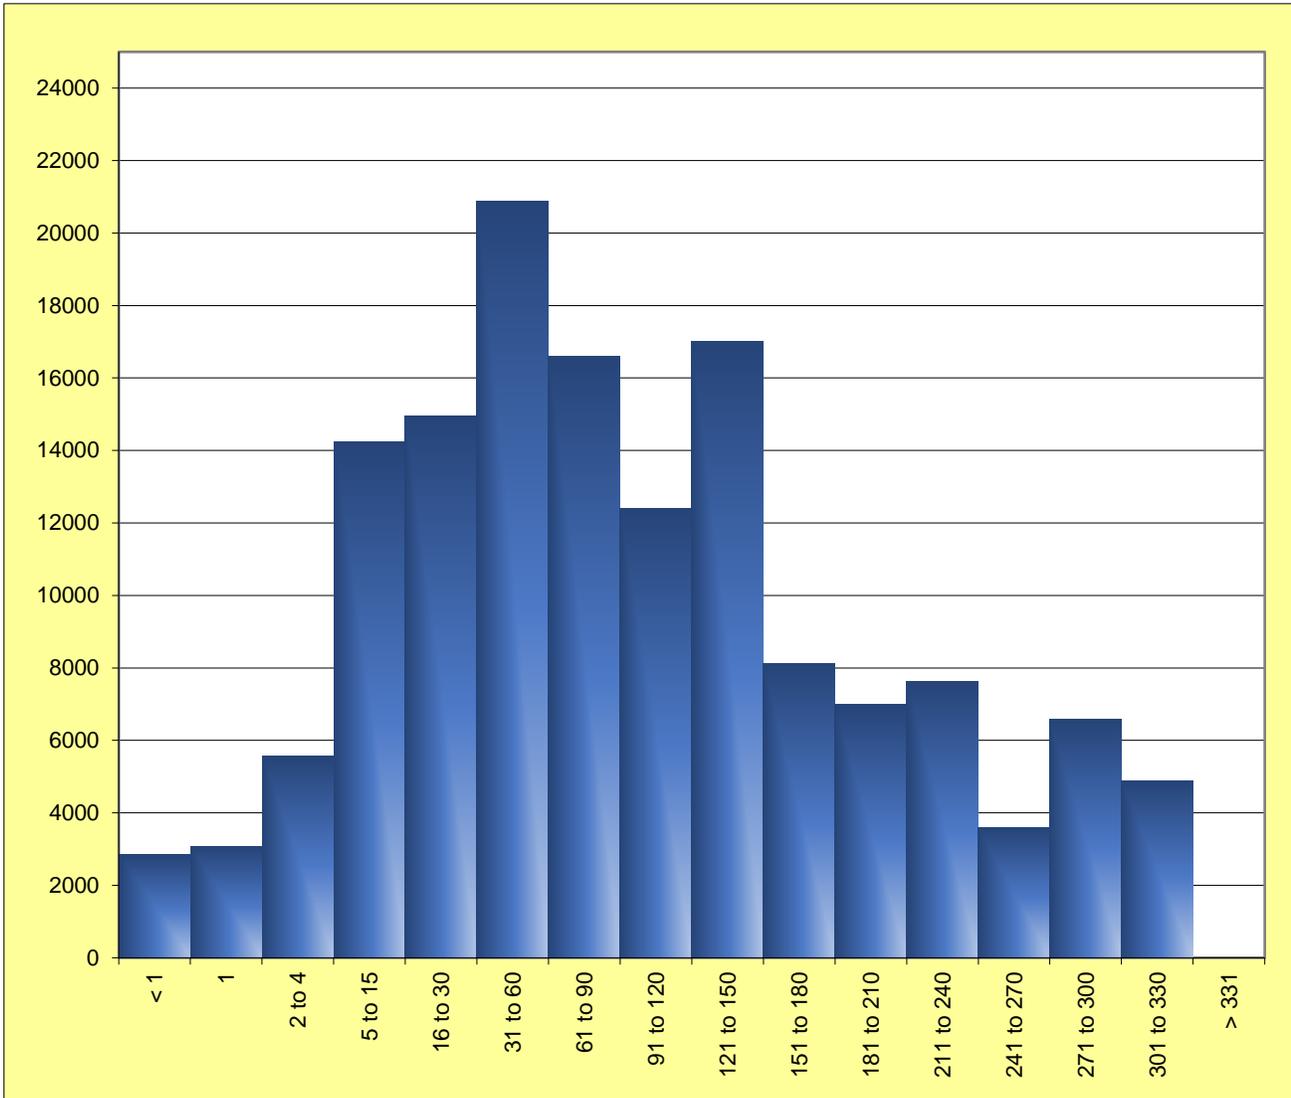

Except for the 1st item (which is drawn from the 15,489 who were released over the course of 2023), the data above is based on the 13,857 inmates who were **both** booked **and** released in 2023.

**TalkingPoint!** The pie charts below contain a comparison of the Average Length of Stay (ALOS) at the time of the Bennett jail expansion study and the ALOS in 2023, depicting the much shorter ALOS in 2023.

	1989	2023
< 1 day	28.17%	47.50%
1 day	13.55%	15.88%
2 to 4 days	12.90%	13.14%
5 to 15 days	14.84%	10.49%
16 to 30 days	6.24%	4.86%
31+ days	24.30%	8.13%

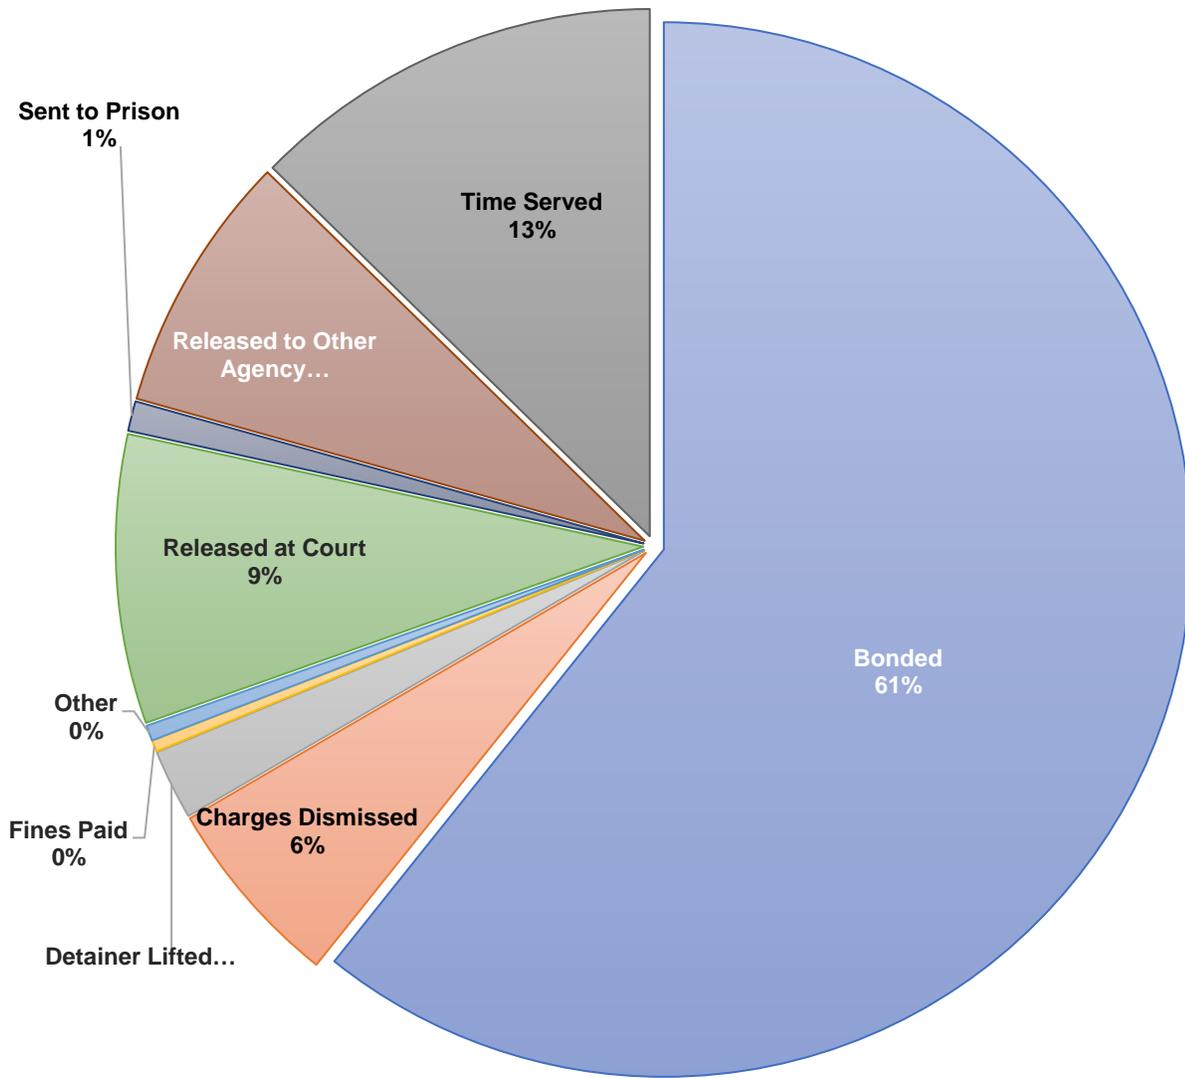

# Average Length of Stay Depicted as Jail Bed Days

**TalkingPoint!** This chart shows the concept of average length of stay depicted as Jail Bed Days for those inmates booked and subsequently released in 2023. Jail Bed Days are an accurate way of displaying the actual impact on jail beds, because it is counting the days that a jail bed is occupied. The chart above shows that although we had 6,582 people who stayed less than one day in jail, they used far fewer jail beds than the 488 inmates who stayed 31 to 60 days in jail and who used the most jail beds. The primary takeaway of these data is that the greatest impact on jail capacity would be achieved by concentrating our efforts on reducing the stay of the inmates who are in jail from one to five months. It is that group of inmates who are using most of the jail's beds. 2023 continued the return to a more normal distribution following the disruptions the jail underwent during the Covid-19 pandemic.

# of Days in Jail	# of Inmates

# Of Inmates Released, Most Common Reasons Why The Majority of Incoming Inmates Released Back to the Community

**TalkingPoint!** In 2023, approximately 91% of the inmates who came into our jail were released directly back into the community. This chart is based on a sample of close to 14,000 records in 2023. Only about 9% were sent to prison or to another agency. Hard data is not available on that 9%, but most of those inmates also return to our community at some point. It is important to remember that resources devoted to local jail inmates benefit our local communities.

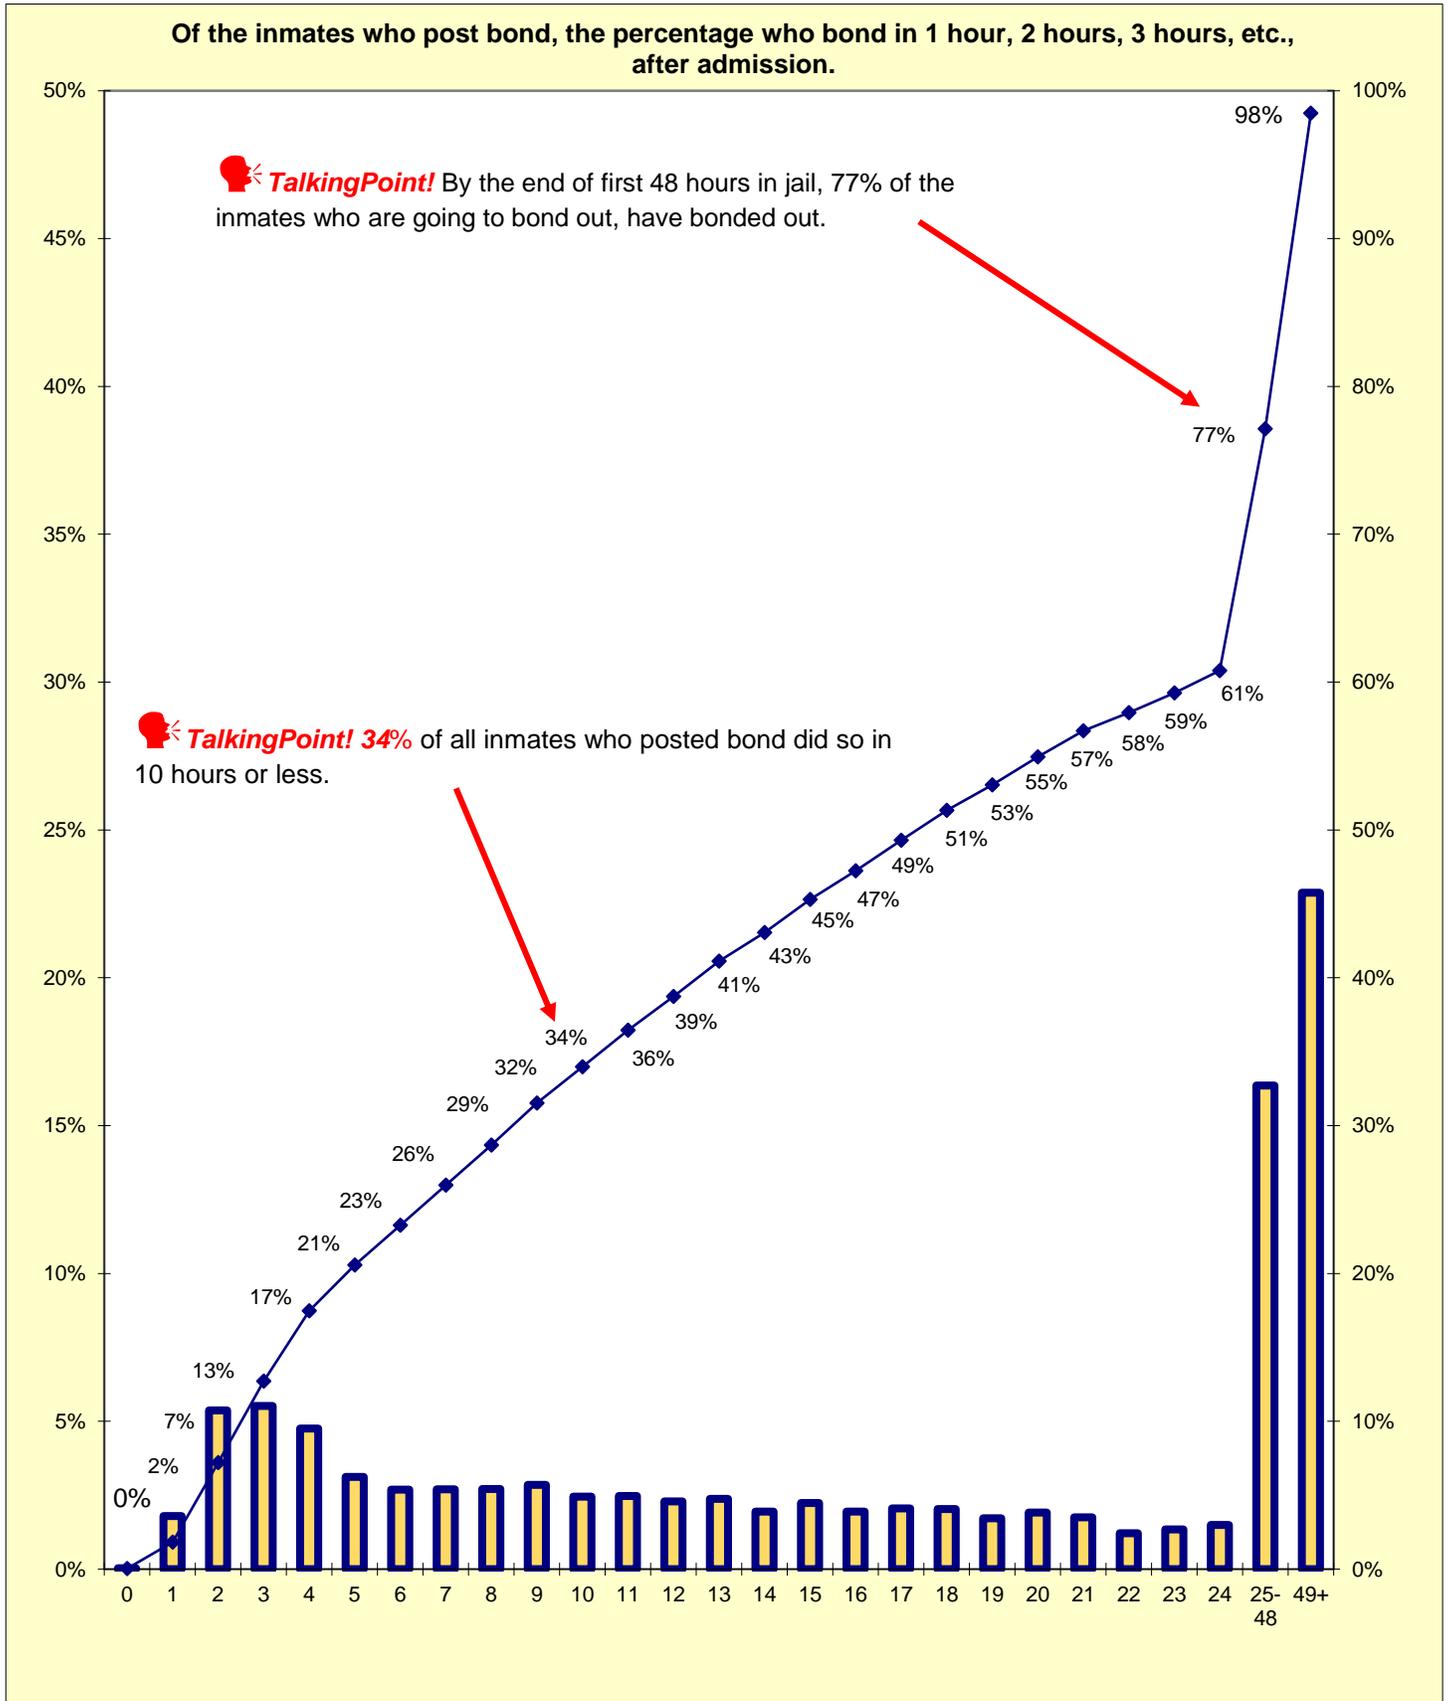

# Number of Days Inmates Spend in Jail Before Release

## 89% of All Inmates Are in Jail Less than 30 Days

# Number of Hours Inmates Spend in Jail Before Being Released on Bond

# County Jail Reimbursement Program

## *Fiscal Year 2023 Update by Andy VerHeek*

CJRP reimbursement and eligibility criteria continued in the same manner during FY 2023 that were implemented in previous fiscal years. The table below shows that Kent County experienced a significant increase in the amount of funds received through CJRP from \$1,357,795 in FY 2022 to \$1,481,027 during FY 2023.

Reimbursement and eligibility criteria for CJRP continue to include:

1. All counties in Michigan are required to follow the same eligibility and reimbursement criteria.
2. Three different reimbursement amounts are provided and depend upon each offender's sentencing guideline score and type of offense.
3. Save for a few select offenses, a majority of Crime Class F offenses have remained ineligible for reimbursement during FY 2023.

In addition to these changes, CJRP monies received by Kent County are impacted by the length of stay in the Kent County Correctional Facility for each offender as well as the jail disposition rate for CJRP-eligible offenders sentenced in Kent County. Both of these were significantly impacted by the COVID pandemic beginning in FY 2020.

FISCAL YEAR	CJRP PAYMENT	TOTAL RECEIVED
1997 - 1999	\$2,126,038.00	\$2,126,038.00
2000 - 2009	\$10,128,013.00	\$12,254,051.00
2010	\$607,234.50	\$12,861,285.50
2011	\$835,895.50	\$13,697,181.00
2012	\$928,264.50	\$14,625,445.50
2013	\$833,855.00	\$15,459,300.50
2014	\$963,095.00	\$16,422,395.50
2015	\$1,088,015.00	\$17,510,410.50
2016	\$1,095,052.00	\$18,605,462.50
2017	\$1,198,385.00	\$19,803,847.50
2018	\$1,101,220.00	\$20,905,067.50
2019	\$1,186,464.00	\$22,091,531.50
2020	\$1,194,180.00	\$23,285,711.50
2021	\$760,000.00	\$24,045,711.50
2022	\$1,357,795.00	\$25,403,506.50
2023	\$1,481,027.00	\$26,884,533.50

 **Thanks!** A big thank you to Andy Verheek for providing the information for this page as well as the information for the three pages in this report titled "Recidivism Since 2016", "Recidivism Since 2021", and "Likelihood to Recidivate."

# Number of Serious Rule Violations Indexed to Population

*A Way to Depict Change with an Evolving Inmate Population*

	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
<b>Jail Bed Days</b>	372,591	391,755	332,631	352,368	377,752	362,216	330,956	360,033	392,125	406,506	409,033	394,571	291,099	335,550	362,531	352,525
<b>Total rule violations</b>	853	818	710	819	795	750	708	757	726	857	806	876	638	889	1,113	1,201
<b>Per 1000 Jail Bed Days</b>	2.29	2.09	2.13	2.32	2.10	2.07	2.14	2.10	1.85	2.11	1.97	2.22	2.19	2.65	3.07	3.41

**TalkingPoint!** With fluctuations in the jail population, converting Incident-based data to the number of rule violations committed per 1000 Jail Bed Days gives a more accurate picture of inmate behavior. 2021 witnessed a significant increase in this behavioral metric that has continued into 2023. It is difficult to know all the reasons for this but changes in inmate population demographics, age and experience of correctional staff, restrictions on inmate routines, changes in society at large, and continual atypical changes in classification housing assignments all may contribute.

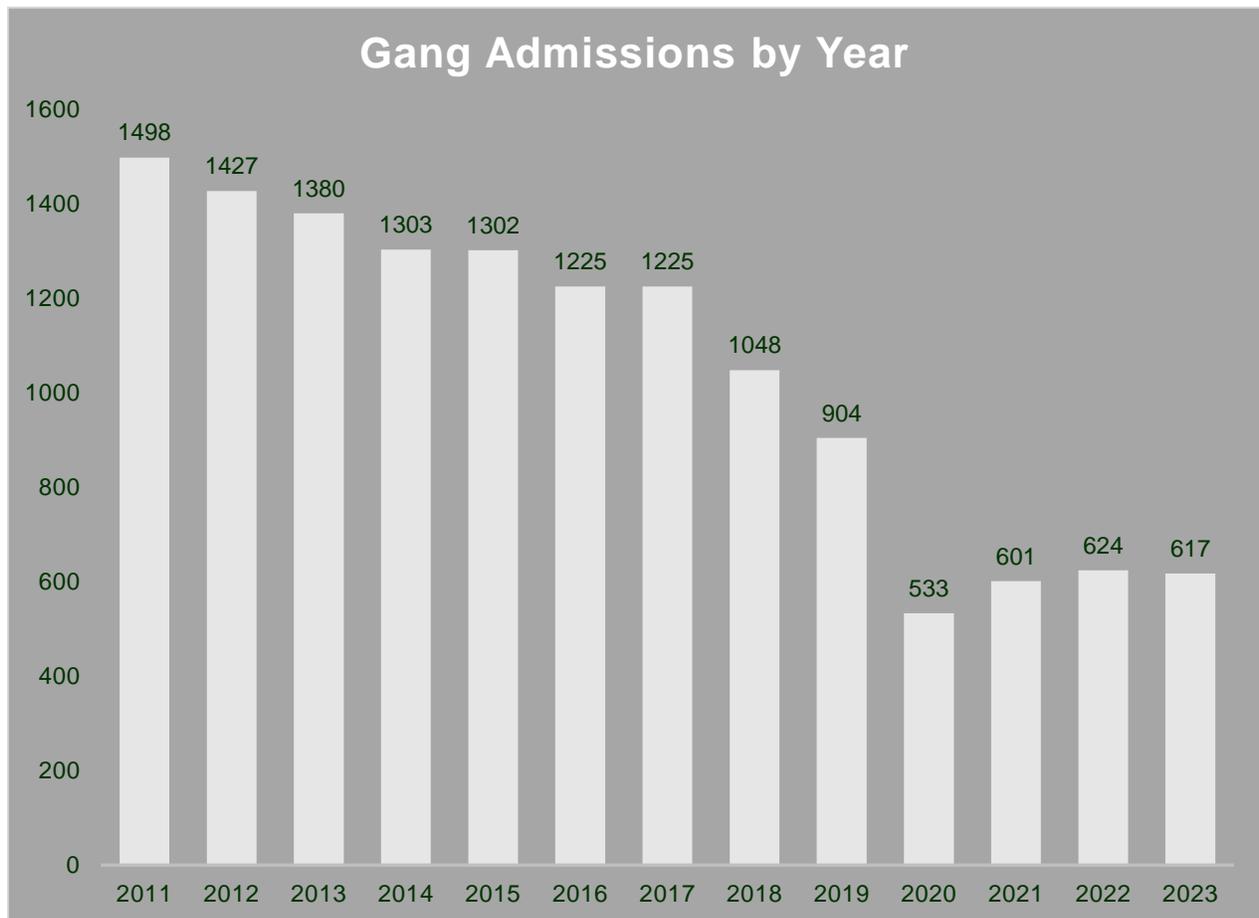

# Total Number of Category 2 and 3 Rule Violations Over the Last Eleven Years

This graph shows the number of Category 2 and 3 reports over the last decade. We have three levels of disciplinary rule violations in the jail. The most minor rule violations are Category 1 violations. Category 2 violations are more serious and Category 3 violations are the most serious. Our progressive disciplinary philosophy is designed to deal with an inmate's misbehavior while it is still minor, and so Category 1 violations are by far the most common, followed next by Category 2's and then Category 3's. Inmates committing Category 2 and 3 violations go to the jail's Disciplinary Restrictive Unit (DRU) to complete their disciplinary sanctions.

# Annual Gang Admissions

Month	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
January	117	111	130	118	102	92	104	104	74	73	47	48	57
February	94	121	97	87	98	82	84	69	80	55	44	28	35
March	138	122	131	73	112	113	115	108	59	41	52	57	43
April	134	121	120	123	110	110	98	94	85	23	46	47	48
May	120	131	125	138	105	108	90	94	88	21	43	51	60
June	153	127	114	111	120	101	123	81	73	26	51	68	53
July	112	126	127	119	123	107	113	94	84	39	61	52	57
August	133	130	125	111	121	109	125	89	88	57	52	55	44
September	136	123	89	104	94	112	102	84	60	54	58	49	60
October	110	95	107	109	115	93	97	93	63	43	49	49	53
November	111	130	106	90	88	108	92	75	69	53	55	56	57
December	140	90	109	120	114	90	82	63	81	48	43	64	50
<b>Total</b>	<b>1498</b>	<b>1427</b>	<b>1380</b>	<b>1303</b>	<b>1302</b>	<b>1225</b>	<b>1225</b>	<b>1048</b>	<b>904</b>	<b>533</b>	<b>601</b>	<b>624</b>	<b>617</b>

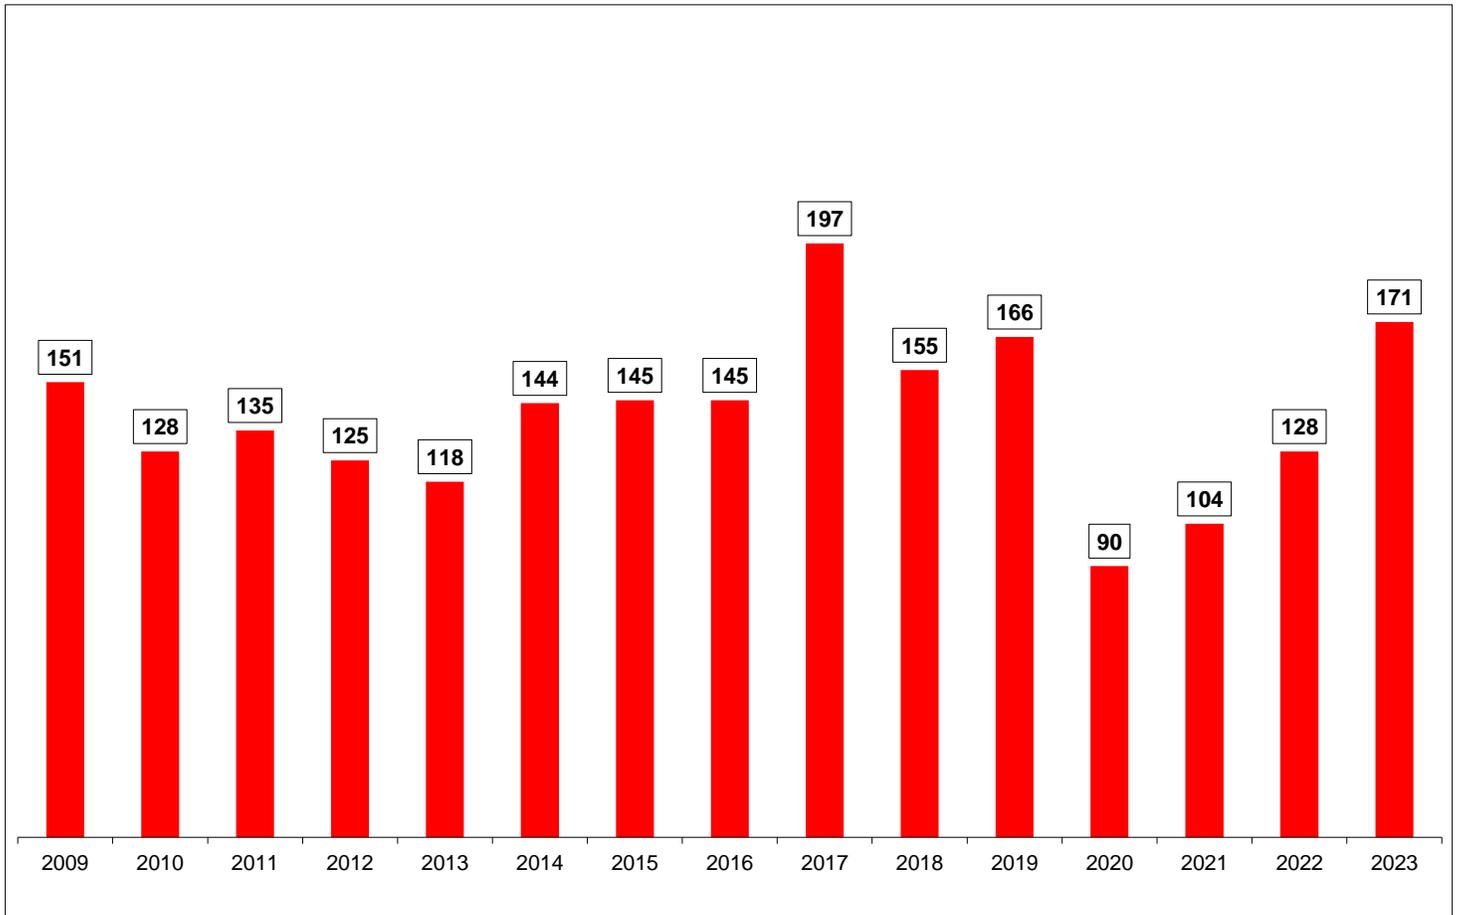

When reviewing the information on this page, it should be remembered that it is collected through a combination of self-identification at the book-in stage, jail intelligence sources, and inmate history. As a consequence, the actual number of gang admissions is certainly higher than indicated by these numbers.

# Index of Antisocial Inmate Behavior

## *Grouping of Rule Violations that Have to Do with Impolite or Socially Unacceptable Behavior*

"Antisocial" acts	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023

indecent exposure	3	5	3	6	4	7	7	7	4	6	2	3	3	2	11
possess tobacco	20	18	20	6	11	17	4	5	4	2	5	1	2	2	8
possess narcotics	4	8	15	2	4	6	3	5	2	7	19	5	5	8	8
making intoxicants	4	0	6	4	18	4	7	13	13	10	12	9	14	12	15
stealing	29	14	20	23	25	29	31	14	41	45	45	24	29	43	44
consenting sex	0	7	2	6	1	2	7	4	2	4	6	0	0	2	0
racketeering	0	0	0	1	0	0	0	0	2	1	0	0	0	0	0
urinating/defecating	4	2	1	2	0	0	0	6	5	2	2	3	2	7	9
spit / throw on inmate	21	12	8	13	1	5	6	7	11	6	11	6	8	10	16
spit / throw on staff	6	2	2	3	4	4	8	8	9	6	8	5	12	7	6
<b>total</b>	<b>151</b>	<b>128</b>	<b>135</b>	<b>125</b>	<b>118</b>	<b>144</b>	<b>145</b>	<b>145</b>	<b>197</b>	<b>155</b>	<b>166</b>	<b>90</b>	<b>104</b>	<b>128</b>	<b>171</b>

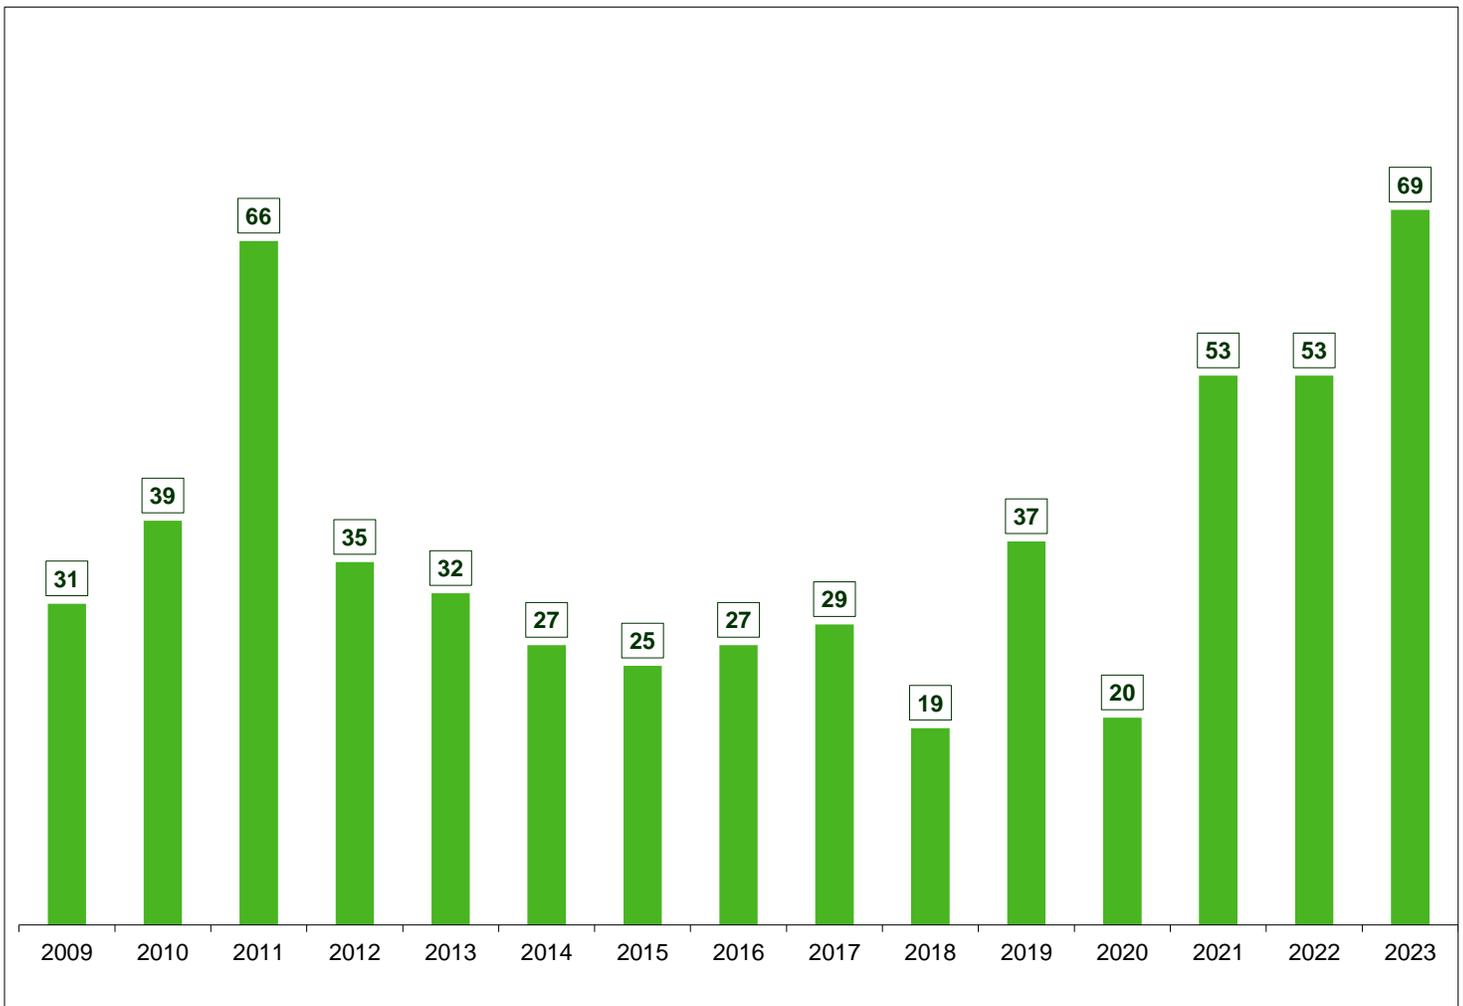

Each of the inmate rule violations is identified as targeting one of five types of unwanted behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **antisocial behavior**.

# Index of Destructive Inmate Behavior

## Grouping of Rule Violations that Have to Do with Damaging Property

"Destructive" acts	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **destructive behavior**.

Each of the inmate rule violations is identified as targeting one of five types of unwanted inmate behavior. Grouping the violations like this and considering the totals of each group provides us with an index used to determine what types of behavior can best be controlled by the kinds of sanctions we have available to us. This page shows the violations which are considered to be **violent behavior**.

**🗨️ Talking Point!** Inmates guilty of assault are **2x** more likely than the general population to be going through withdrawal, experiencing mental health problems, be case managed in the community, or have previous assaultive history in the jail.

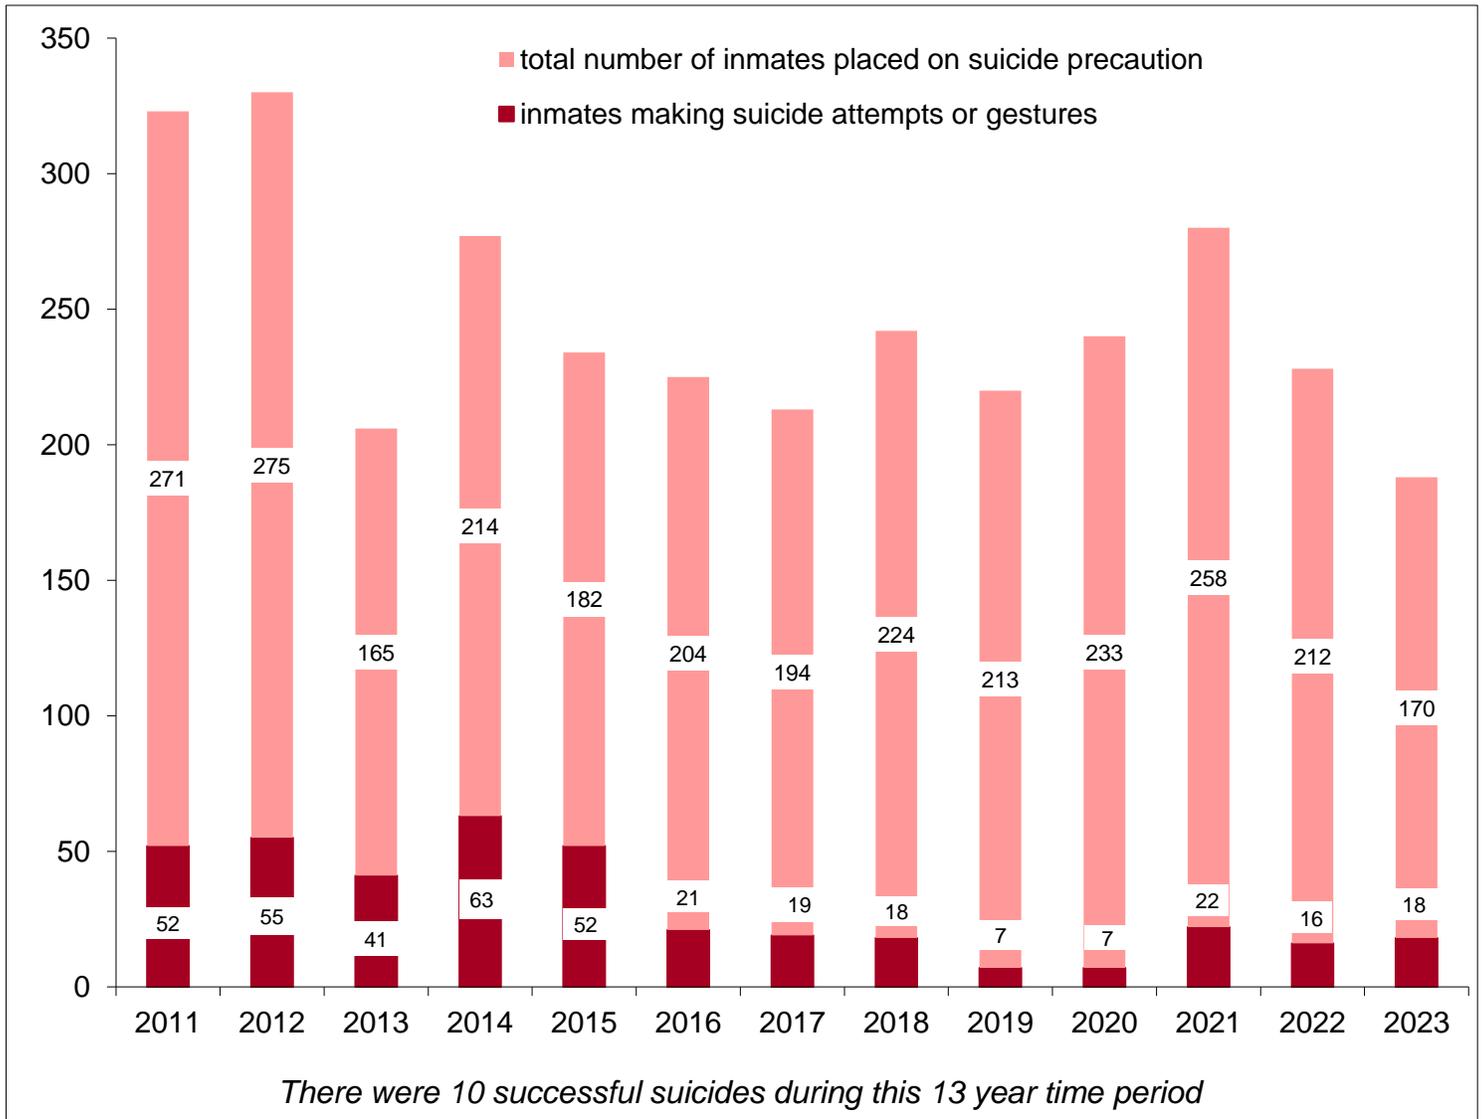

# Comparison - Index of Inmate Behavior

## Compilation of the Previous Five Charts

This chart presents the compiled data of all five of the inmate behavior indices from the previous five pages over the last 15 years. Each category showed significant variation over this period. Recent factors that may influence these trends include the high number of new and relatively inexperienced staff, changing inmate classification demographics and several factors stemming from the Covid pandemic.

# Suicide Attempts or Gestures Compared with the Total Number of Suicide Precautions 2011 through 2023

	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
<b>inmates making suicide attempts or gestures</b>	52	55	41	63	52	21	19	18	7	7	22	16	18
<b>total number of inmates placed on suicide precaution</b>	271	275	165	214	182	204	194	224	213	233	258	212	170

Our highest level of suicide precaution places inmates in a cell under constant video surveillance. We track how inmates get placed on that level of observation. Either they have made a suicide attempt or gesture, or they have made a suicidal threat to a staff person, or they have been judged to be suicidal following an interview by one of our mental health professionals. The chart above depicts the total number of "S-3's" (the highest level of precaution) and of that number, the number that were designated S-3 status because of an actual in-progress attempt to harm themselves, either by hanging, an overdose, cutting themselves, jumping from a height, drowning in a toilet, banging their head, or some other means. 2023 saw a decrease in precautions with a very slight uptick in attempts.

# Number of Fights by Housing Unit

*Most fights occur in higher custody level areas*

**Main Jail Fights by Year 2005-2023**

**TalkingPoint!** It is worthwhile to consider that our old linear indirect supervision jail was replaced and demolished in Dec. of 2012. Since 2017 the KCCF has undergone massive turnover as many of our most experienced staff became eligible for retirement. It should also be noted that over the last several years there were significant changes in inmate security classification demographics and associated operational housing unit distribution.

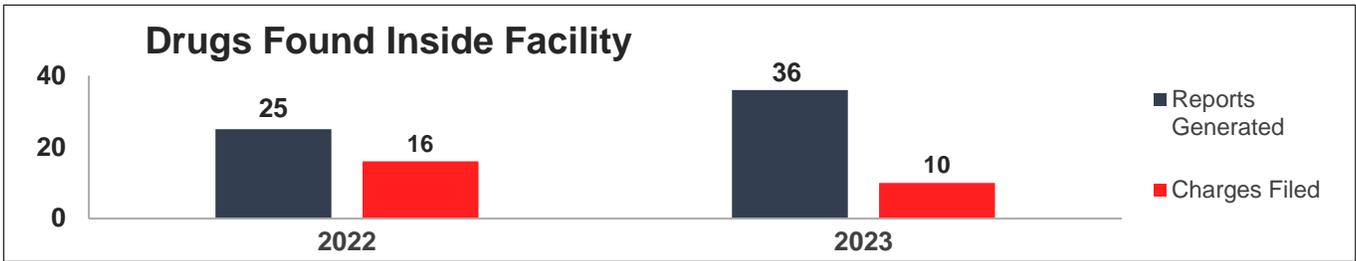

# Annual Classification Numbers for 2023

### Known Photo Identifications by Jail Staff Leading to Warrants or Charges

Year	Number
2012	3
2013	22
2014	9
2015	12
2016	24
2017	15
2018	35
2019	5
2020	9
2021	5
2022	12
2023	4

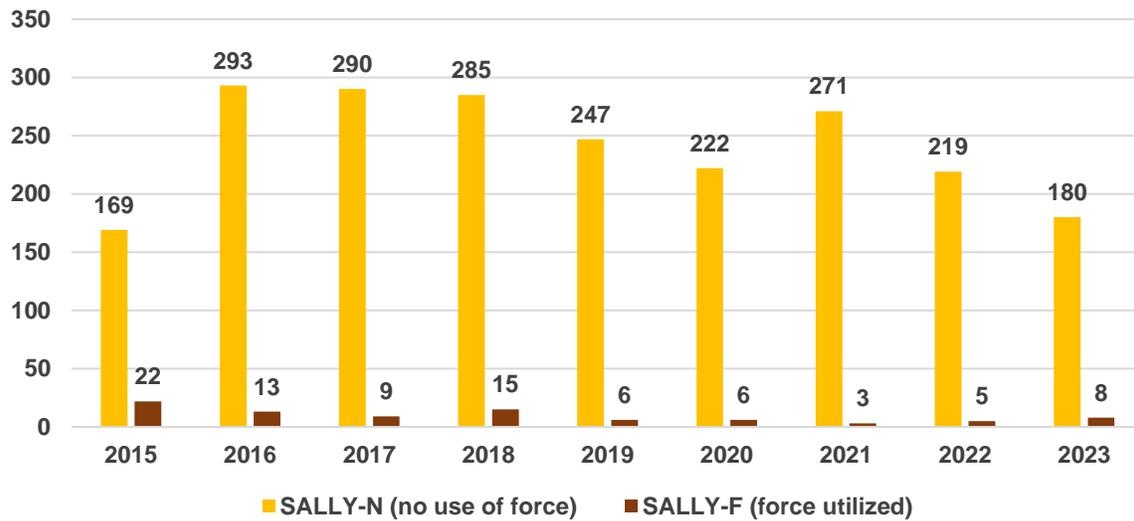

These tables present some of the information that is gathered by the jail staff on particular crimes committed in the community. Corrections Officers play a significant role in assisting law enforcement with criminal intelligence. This information helps local police agencies identify suspects, which in many cases has led to their arrest and conviction. The KCCF has 2 dedicated Jail Intelligence Unit (JIU) officers who are responsible for the follow-up on all generated intelligence reports, as well as acting as contact points for outside agencies. This has been very successful in streamlining and enhancing the effectiveness of intelligence-gathering efforts.

For many years, Jail staff were an underutilized resource for the photo identification of suspects. Due to the facts that most suspects are repeat offenders and that jail staff know them well, since 2013 there has been a renewed emphasis on using this resource with some success. Some of the disparity in numbers of identifications recorded from year to year can be explained by the level of follow-up on identification submissions.

# Sally Port Assistance Provided to Arresting Agencies

It has always been a custom of the KCCF to provide a courtesy service to arresting agencies who call ahead and request assistance with uncooperative arrestees. When notified, our intake staff will meet the arresting agency in the jail sally port and retrieve the suspect directly from the agency vehicle and escort them into our facility. The information on this page provides an important window into this particular activity. We began officially tracking these numbers in April of 2015, so the data for that year is partial. What we are interested in is how often these events result in a use of force versus how often our staff are able to de-escalate tense situations without resorting to the use of force. The numbers on this page are a credit to the skill and professionalism of our correctional intake staff in dealing with the most difficult individuals at one of their most stressful moments – arrival at the jail.

## Calls for Sally Port Assistance

# Kent County Corrections K-9 Team proves itself a valuable asset to both the jail and the community

K-9 Assignments	1st quarter	2nd quarter	3rd quarter	4th quarter	2023 total
Narcotics Searches	24	8	17	24	73

## K-9 Assignment Totals Breakdown 2017-2023

- Narcotics Requests    ■ School Searches    ■ Jail Cell Searches
- Inmate Area Searches    ■ Assist Other Agency    ■ Demos/PR

**TalkingPoint!** This chart presents a snapshot of the activities of our K-9 unit. When fully staffed, the Jail K-9 Unit consists of 4 dogs, 1 assigned to each shift. For 2023 there were 3 dogs assigned to the KCCF. Since 2017 the K-9 Unit has been a huge help in the continuing effort to keep our facility both safe and drug-free!

The jail changed medical providers in 2021, perhaps explaining the leap in transport numbers that year. It is also true that while our yearly bookings have decreased over time, the demand for health care has increased.

## Responses to Medical Survey Completed in Intake by Nurse

QUESTION	% YES	% NO
1. Do you have any current or past medical illness or health condition?	42.54%	57.46%
2. Do you have seizures or epilepsy?	5.21%	94.79%
3. Do you have asthma?	9.00%	91.00%
4. Do you have diabetes?	4.08%	95.92%
5. Are you vomiting?	0.12%	99.88%
6. Do you have HTN?	14.88%	85.12%
7. Do you have a heart condition?	2.34%	97.66%
8. Do you have an abnormal skin condition?	1.01%	98.99%
9. Do you have allergies?	19.40%	80.60%
10. Do you have any infected wounds?	0.57%	99.43%
11. Have you recently had a head injury?	0.61%	99.39%
12. Do you have any dental problems?	15.27%	84.73%
13. Are you currently pregnant?	0.91%	99.09%
14. Have you given birth within the last 6 weeks?	0.12%	99.88%
15. Do you suffer from gynecological problems?	0.25%	99.75%
16. Have you been hospitalized due to a medical condition within the past month?	2.41%	97.59%
17. Were you seen in the emergency room prior to coming to jail?	2.29%	97.71%
18. Are you currently receiving treatment for a medical condition?	14.60%	85.40%
19. Are you under a physician's care?	25.44%	74.56%
20. Are you taking any medications?	28.17%	71.83%
21. Did you bring any medications with you to jail?	2.31%	97.69%
22. Is there anything else we need to know about your medical history?	0.88%	99.12%
23. Do you have any current or past history of an infectious disease?	1.48%	98.52%
24. Do you have any current or past history of TB?	0.27%	99.73%
25. Current symptoms of TB - Chronic cough w/ blood? Are you coughing up blood?	0.00%	100.00%
26. Current symptoms of TB - Have you had recent weight loss?	0.00%	100.00%
27. Current symptoms of TB - Have you had a recent appetite loss?	0.00%	100.00%
28. Current symptoms of TB - Do you have a fever?	0.00%	100.00%
29. Current symptoms of TB - Do you have night sweats?	0.00%	100.00%
30. Current symptoms of TB - Do you have fatigue?	0.00%	100.00%
31. Do you have any current sexually transmitted infections?	0.76%	99.24%
32. Do you currently have crabs?	0.00%	100.00%
33. Do you currently have scabies?	0.02%	99.98%
34. Do you have hepatitis?	1.52%	98.48%
35. Is there anything else we need to know about your infectious disease history?	0.27%	99.73%
36. Is the inmate alert and oriented x 3 (A&Ox3)	99.04%	0.96%
37. Normal gait?	97.30%	2.70%
38. Normal breathing?	99.68%	0.32%
39. Normal skin appearance?	96.51%	3.49%
40. Tremors?	1.23%	98.77%
41. Sweating?	0.22%	99.78%
42. Anxious?	3.19%	96.81%

44. Lethargic?	0.71%	99.29%
45. Angry or aggressive behavior?	1.50%	98.50%
46. Dilated pupils?	0.20%	99.80%
47. Presents as cognitively challenged?	0.49%	99.51%
48. Presents as confused and/or disoriented?	0.12%	99.88%
49. Crying?	1.89%	98.11%
50. Dental Screening Performed?	32.72%	67.28%
51. Do you want a jail physical?	24.80%	75.20%
52. Do you want a TB skin test?	24.78%	75.22%
53. Do you want a test for STI?	24.94%	75.06%
54. Referral to Nursing?	10.38%	89.62%
55. Referral to Physician?	13.28%	86.72%
56. Referral to Dentist?	0.79%	99.21%
57. Referral to Mental Health?	16.02%	83.98%
58. Do you have health insurance?	54.40%	45.60%

# Answers to Mental Health Screening Completed in Intake

QUESTION	% YES	% NO
Are you currently taking medication that has not been prescribed to you?	1.40%	98.60%
Are you currently drunk or high?	4.31%	95.69%
Do you use illegal drugs?	21.10%	78.90%
Do you have drug withdrawal concerns?	6.94%	93.06%
Do you currently use alcohol?	29.51%	70.49%
Do you have alcohol withdrawal concerns?	6.45%	93.55%
Have you ever had alcohol or drug withdrawal?	9.88%	90.12%
Have you ever received treatment for substance abuse?	7.18%	92.82%
Is there anything else we need to know about your substance abuse history?	2.08%	97.92%
Are you taking medications for mental health issues?	15.49%	84.51%
Have you ever been treated for ADHD?	6.69%	93.31%
Have you ever been treated for developmental disorders?	0.29%	99.71%
Have you ever been treated for an eating disorder?	0.10%	99.90%
Have you ever been in special education?	0.49%	99.51%
Have you ever been diagnosed as bipolar?	8.63%	91.37%
Have you ever been diagnosed with schizophrenia?	3.82%	96.18%
Have you ever had a learning disability?	0.47%	99.53%
Does anyone in your family have or had a mental illness?	0.69%	99.31%
Have you ever been case managed for a mental illness?	3.38%	96.62%
Have you ever been treated in a psychiatric hospital?	9.00%	91.00%
Have you ever been self-abusive or engaged in self mutilation behavior?	1.84%	98.16%
Are you feeling homicidal now?	0.25%	99.75%
Have you ever been physically abused?	1.08%	98.92%
Have you ever had suicidal thoughts or made attempts?	6.89%	93.11%
Are you having suicidal thoughts now or thinking of harming yourself now?	1.20%	98.80%
Do you have any current or past losses that you are feeling grief and depression over?	1.23%	98.77%
Has anyone in your family ever taken their own life?	0.39%	99.61%
Have you experienced a life threatening or abusive event that still bothers you today?	0.47%	99.53%
Are you currently having feelings of hopelessness or helplessness?	1.20%	98.80%
Do you have a support system in the community that you can depend on?	48.14%	51.86%
Have you ever experienced auditory, visual, olfactory, or tactile hallucinations?	0.64%	99.36%
Has inmate ever had or experienced delusional thinking?	0.20%	99.80%

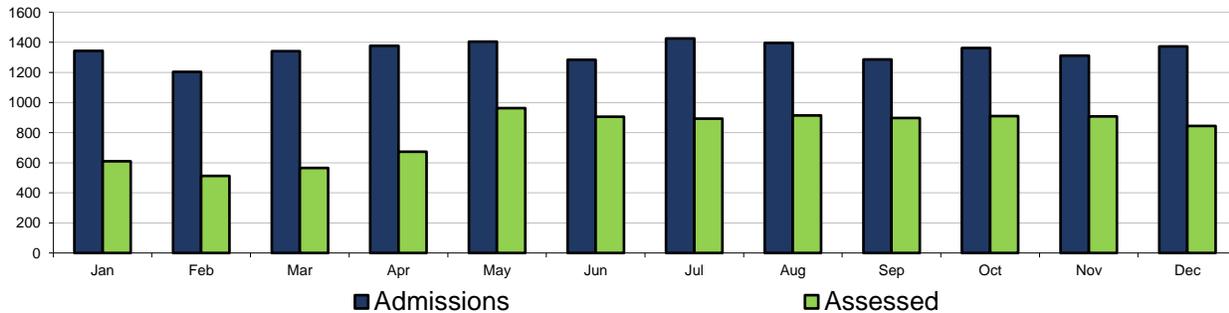

**TalkingPoint!** Every offender brought to jail is evaluated by both a medical and mental health professional while still in Intake. The answers to the mental health survey questions they are asked are summarized above. The data in this table is based on over 15,000 offenders who came to jail during 2023. Mental Health services are an ever-increasing part of inmate management in the jail, and must be taken into consideration at almost every significant event in an offender's stay; from intake, to classification, to discipline, to release. It should be noted that the data in these screenings do rely on self-reported information, so numbers such as those for bipolar diagnosis and psychiatric hospital treatment are interesting.

# Prison Rape Elimination Act

## Sexual Abuse Incident Review

### Closing

In 2012, the jail implemented the Sexual Abuse Incident Review system per PREA standard 115.86. Under this standard, the Division must conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, to include when the allegation has not been substantiated, unless the allegation has been determined to be unfounded. Such review will ordinarily occur within 30 days of the conclusion of the investigation. The review team will include upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners. The jail administration will implement any recommendations for improvement, or it will document its reasons for not doing so.

#### Review Criteria:

1. Consider whether the allegation or investigation indicates a need to change policy or practices to better prevent, detect, or respond to sexual abuse
2. Consider whether the alleged incident was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics in the facility.
3. Examine the area in the facility where the allegation occurred to assess whether physical barriers in the area may enable abuse.
4. Assess the adequacy of staffing levels in on all shifts in that area.
5. Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff.
6. Prepare a report of its findings, add any recommendations for improvement, and submit such report to the facility head and PREA Coordinator.

In all of the allegations that were reviewed, it was clear that staff have implemented training that has been occurring since PREA requirements. All investigations were done in a timely manner and all complaints were addressed immediately upon their receipt. Continued training for all staff has focused on PREA requirements, staff obligations for reporting and victim care, and preservation and protection of the scene until the appropriate steps can be taken to collect any evidence. Additionally, a new reporting system (jail management system) is being implemented to better track and report incidents.

A Special Thanks to the KCCF PREA Coordinator Lt. Eric Santiago, who provided the information on the previous page.
